

WAR DECLARED BY ITALIAN GOVERNMENT AGAINST TURKEY

25,000 MEN WILL STRIKE TOMORROW

FIFTY THOUSAND WILL BE OUT MONDAY, SAY LEADERS

Expect to Paralyze Harriman System Completely in One Week by Walkout

Other Brotherhoods Secretly Agree to Refuse to Handle Any Cars Previously Touched By Companies' Strike Breakers

Chicago, Ill., Sept. 29.—That the entire western country will by the end of this week or early next week, be in the throes of a serious industrial struggle is today assured by the semi-official announcement, of officials of the System of Federation of Railroad Shop Employees, today that twenty-five thousand employes of the Harriman System of Railroad lines, will lay down their tools and walk out on a strike tomorrow morning at 10 o'clock.

The announcement further states that ten thousand Federation System members, employed on the Illinois Central railroad will strike Monday. The federation officials predicted today that twelve thousand unorganized employes will quit with the union employes at the first call issue by the federation officials. They further state that at least fifty thousand men will have joined the strike by Monday night.

It is generally thought that the strike will rapidly gain in proportions and spread to every railroad in the western country within a very few days.

A report has gained circulation to the effect that other railway brotherhoods, have secretly entered into an agreement, whereby they will refuse to handle any freight or other cars which have previously been handled by strikebreakers, which it is expected the railroad companies will import for the purpose of taking the positions vacated by the striking shopmen.

This is considered one of the most dangerous features of the strike, as it would immediately show effect on every railroad in the country and might easily bring about the same condition that prevailed in England a few weeks ago, during the industrial struggle in that country.

President Kline today announced

MOVING PICTURES OF "THE ROUND-UP" SHOWN IN PENDLETON FOR FIRST TIME

A hundred or more Pendleton people lived the Round-Up all over again this morning when, in response to invitation, they attended the first production of the moving pictures taken at the wild west show two weeks ago. The films were brought here yesterday by the Harbeck Film Co. of Seattle just as they were taken during the three days' carnival, and were exhibited at the Pastime theater. They are not, however, ready to be placed on the circuit as they must first be cut and the parts arranged in an orderly sequence.

As a whole the pictures were good and the directors of the association are pleased. The reels begin with the Westward Ho parade of Saturday, show that pageant from the heralding buglers to the Round-Up steamboat and furnishing a fine view of the crowded streets. At the grounds the mounted parade is first introduced and is followed by the races, bucking contests, steer bulldogging, fancy roping and riding feats, wild horse race and all of the features of the program in rapid succession.

Exciting Moments Caught. Mr. Harbeck was fortunate in catching some of the most exciting of the scenes enacted in the arena and on the track. He secured a wonderful picture of Briscoe bulldogging a steer and any number of thrilling

that he had been given permission to call a general strike, by the presidents of every international union with the exception of President O'Connell of the Machinists' union. President O'Connell is willing to permit the shopmen on the Harriman lines to walk out but hopes to have the Illinois Central employes to stay at their posts until Monday.

Find Dynamite Caps. Memphis, Sept. 29.—United States Marshal Johnson today found near a box containing 100 dynamite caps under the joints of the switch rails of the Illinois Central tracks, near South Memphis. Striking union clerks say that railroad detectives put the caps there with the view of securing evidence to aid the railroads.

GEN'L PRYCE NOT GUILTY OF MURDER

Los Angeles, Sept. 29.—Because he feels that he has followed the firing squad and hopes to soon be at liberty, under bail until his case, under a charge of violating the neutrality laws, can go on trial, General Pryce, freed of murder, arson and robbery charges, made by the Mexican government, in an effort to extradite him says he is today the happiest man in California.

MOVING PICTURES OF "THE ROUND-UP" SHOWN IN PENDLETON FOR FIRST TIME

bucking performances among the latter being Jack Sundown's ride of "Lightfoot" in the finals. In this every jump of the Round-Up's prize buckler is shown, his sunfishing tactics, his attempts to bite the legs of the rider, his collision with another horse and his final lurch which precipitated the Indian to the ground and left him lying there stunned, being faithfully reproduced.

George Fletcher Shown. Unfortunately only the first few jumps of "Long Tom" with Champion Spain on his back are shown, but the spectacular ride of George Fletcher, the colored boy who won second prize, is shown in every detail and the last reel ends with George posing before the machine and grinning at the audience.

The wild horse race is particularly good and will be much better when the different parts are run together. The cowboy's relay and pony express races are also faithfully reproduced. The audience was delighted with the pictures and as many familiar figures stood out prominently, many greetings were shouted to the screen. The pictures will be finished up rapidly and soon all will be given an opportunity of re-witnessing the scenes which held them in their seats for five hours at a stretch on three consecutive days.

SEN. CUMMINS GREETES TAFT

Puts Aside Antagonism For Few Hours

PRESIDENT TALKS TO 4,000 PEOPLE

Debates With Insurgent; Agrees to Amend Arbitration

Des Moines, Iowa, Sept. 29.—Forgetting for a time his antagonism to President Taft, as a standpatter, United States Senator Cummins, progressive, acted as chairman of the reception committee on the arrival of President Taft here today.

The president was immediately escorted to the Grant club, where he had breakfast with two hundred editors and businessmen.

At the Coliseum Mr. Taft talked on arbitration before 4,000 people. He left on the noon train.

As they left the coliseum Senator Cummins and Mr. Taft engaged in a private debate.

Cummins objected to some provisions in the arbitration treaty proposed by the president, as being too vague and suggested an amendment.

President Taft finally told him to make a change to reserve all power to the senate, in the treaty making and he would accept it. Senator Cummins said under those circumstances he would support the treaty.

Addresses Small Crowd. Pleasantville, Iowa, Sept. 29.—A small crowd greeted President Taft on his arrival here today. He spoke briefly.

WILL CALL MEETING OF COUNTY EDITORS

If the invitation that is to be extended is favorably received a meeting of the newspaper men of the county will shortly be held here for the purpose of forming a county press club and of discussing matters of interest to the press of the county and to citizens in general.

For many months past there has been a desire on the part of several country editors, particularly those of the west end, to have a county press meeting held and an organization perfected. At the luncheon of the board of managers of the Commercial club today the subject was presented by Secretary Jack Keefe and by E. B. Aldrich and upon motion the secretary was instructed to invite the editors of the county to assemble here for such a purpose. It is also the intention of the board to provide a banquet for those in attendance at the gathering. The date for the meeting has not yet been decided upon.

By action today it was decided to repay the sum paid out by Baker people for advertising the initiative argument in behalf of the establishment of the eastern Oregon branch hospital. It was represented at the board meeting here today that Ben Hill, former secretary of the club, had pledged such a payment in the event Pendleton secured the institution.

A request from the Baker club that Pendleton participate in the rate controversy now on before the state railroad commission was referred to the railroad committee.

FARREL TO HEAD O-W.R.R.

Reorganization Expected to Follow Change

HEADQUARTERS AT PORTLAND

Power Centralized Means Rapid Growth of Oregon

Portland, Ore., Sept. 29.—As a result of the selection of J. D. Farrel, now vice president of the Puget Sound extension, as president of the Oregon-Washington Railroad and Navigation company by the Harriman directors in New York, it is predicted here today that there will be several important reorganization changes in the local system. Portland will be Farrel's headquarters.

It is understood that O'Brien, now in charge of the Harriman Oregon lines, will be vice president and general manager, with full power over maintenance and operation. R. E. Miller will be traffic director.

They will report direct to Mr. Farrel instead of to the Chicago and New York offices.

It is expected that this centralization of power in the west will mean more rapid development of Oregon, Washington and Idaho.

SENATOR CUMMINS SNUBS PRESIDENT TAFT

Fort Dodge, Ia., Sept. 29.—Politicians today are talking volubly today regarding the action of Senator Cummins who yesterday flatly snubbed President Taft by refusing to ride on the presidential train through Iowa. Governor Carroll personally invited Cummins aboard the train, but Cummins declined, saying: "I would not ride on the president's train through the state, although I would act on a reception committee when the president reaches Des Moines." Taft's welcome in Iowa has not been particularly marked for warmth.

FUGITIVE PROMOTER CAPTURED IN OREGON

Portland, Sept. 29.—Dr. Grant Lyman, the promoter who is charged with fraudulent use of the mails, who escaped in an auto from an Oakland, Calif., hospital, was arrested at Lakeview, Ore., last night and will be brought to Portland for examination and then returned to California for trial. United States Deputy Marshal Peattie left for Lakeview today to get him.

MINNEAPOLIS GETS PENNANT

LAND CONGRESS ENCOURAGES STATE

Denver, Sept. 29.—Former United States Senator Henry Teller, of Colorado, today was chosen chairman of the committee on resolutions of the Public Land congress in session here. This action, together with Ballinger's speech, is expected to encourage "state righters," in defiance of the progressive plans, to commit congress to a policy of federal control of lands and minerals.

Pedagogue Studies Law. James H. E. Scott, who taught school in Adams from 1905 to 1907 and in Athena during the term of 1907-08 writes that he is now a senior in the Illinois College of Law and will be back in Oregon for the 1912 bar examinations. He still retains his legal residence at Athena.

ARMY OF 30,000 ITALIANS ARE LANDED IN TRIPOLI

Blockades Coast and Fleets are Dispatched to Bombard Turkish Port Cities

HOLY WAR AND CHRISTIAN MASSACRE FEARED

Turkey Unable to Cope With Italian Navy May Attack Greece in Effort to Find Way to Force Entrance-- Powers Greatly Alarmed.

Rome, Italy, Sept. 29.—At 3:30 o'clock this afternoon the Italian government issued a formal declaration of war on Turkey, for the possession of Tripoli, a Turkish colony on the northern coast of Africa, which Turkey has ruled and refused to allow any trade concessions, whatsoever, to Italy. The declaration was issued within an hour after Italy had received Turkey's reply to the Italian ultimatum, in which Turkey refused to allow Italy to occupy the disputed territory.

Within a few moments after the declaration, Admiral Aubrey, commanding ten Italian battleships before the city of Tripoli, began landing the Italian army of more than thirty thousand men, from transports which had been anchored a few miles off the coast since yesterday.

As soon as the landing was completed, a portion of the Italian fleet got under way and steamed eastward and another westward, to blockade all ports and the entire coast, to prevent any filibustering expeditions from landing supplies, arms or men.

Another large naval force this afternoon steamed out of the harbor of Spezia, under sealed orders, and it is generally believed that this fleet is on its way to blockade and possibly

24 BABES KILLED BY IMPURE MILK

Portland, Sept. 29.—Charging that the death of twenty-four infants between September 1 and 29 were caused directly by impure milk City Milk Chemist Galloway today reported to the health board and recommended that a more stringent inspection be enforced on the dairies.

LOUIS LA RONE, PENDLETON AND OREGON PIONEER, SUCCUMBS TO PARALYTIC STROKE

In the death of Louis La Rone at his home in this city at 7 o'clock this morning, Pendleton and Umatilla county loses another of her earliest pioneers. Death was the result of a general breakdown incident to old age and to an attack of paralysis which struck him a little more than a month ago and deadened one side of his body.

Deceased passed his 81st birthday on the 20th of this month and had been a resident of Pendleton since 1862. He was well known to every pioneer of the county and leaves many friends to mourn his departure from this life.

His Life. Louis La Rone was born in Nashville, Tenn., September 29, 1830, being one of a family of six brothers and six sisters. A year later he moved with his parents to St. Louis, where he lived until 1852, when he crossed the plains to California. Ten years later he moved to Idaho but did not remain there long, and during the latter part of the year 1862 he came to Pendleton and here voted for Abraham Lincoln for a second term as president.

Was First Photographer. Here he set up the first photograph gallery in the city in a tent on the site of the present postoffice and old residents still have intypes which he made of them. He was also one of the first members of the Eureka lodge of Odd Fellows in this city and

bombard ports along the Turkish coast in Asia Minor.

It is unknown here just what move Turkey is contemplating. It is thought that the Turks may start a holy war, which would mean the wholesale massacre of Christians.

In a statement which the Italian government issued to the European powers, simultaneously with her war declaration, the government stated that the rights of all foreigners would be protected fully.

Massacre Feared. London, Eng., Sept. 29.—The occupation of Tripoli, by the Italian forces today is reported to be progressing without any opposition being shown by the Turkish forces, which are greatly outnumbered by the invaders.

The situation in Turkey is considered extremely serious, as the Turkish government is face to face with a holy war which it is probable will result in a massacre of Christians, of all nations in that country. This would mean the reopening of the whole Turkish question, with the possibility of a conflict in which every nation in Europe would become involved.

Martial law has been declared in Constantinople, capital of Turkey, by the government in an effort to prevent the threatened home disturbance from taking place.

Dispatches received here from that city say that the Turkish reserves
