VOL. 24.

PENDLETON, OREGON, SATURDAY, OCTOBER 7, 1911.

NO. 7237

BREAKERS ARE SENT AWAY

Illinois Central Quits Attempt to Break Strike

COULD NOT DO WORK

Texas Division Badly Crippled on Harriman Lines, While Situation is Unchanged on Pacific Coast—First Strike Benefits Are Paid Today.

New Orleans, La., Oct. 7.—The shopmen's strike on the Harriman lines, is being keenly felt along the Texas division of the Southern Pacific railroad. There is a big shortage of cars, capable of being used, and the shops are practically deserted, making it almost impossible for the company to have its equipment repaired.

The Illinois Central officials at this place have sent all their strike-breakers from the city, owing to a number of clashes which have occurred here and in which several men have been seriously hurt.

Rioting Ceases. Chicago, Ill., Oct. 7.—Reports received here from points along the Illinois Central railroad are to the effect that rioting has ceased. Officials of the company have admitted that most of their shops are closed, as the strike-breakers were unable to work, being harassed incessantly by strikers and sympathizers.

Harriman Situation Unchanged. San Francisco, Calif., Oct. 7.—There is little change today in the strike situation on the Harriman lines of the Pacific coast country. Both sides are peaceful and no serious trouble has been reported. At Sacramento the first strike benefits were today paid the striking shopmen.

General Fight at Frisco. San Francisco, Calif., Oct. 7.—In a general fight at noon today near the Southern Pacific shops at this place, half a dozen strikers and strike-breakers pummeled each other with fists and bricks. The state police restored order before any serious damage had been done.

GAMBLER MURDERS OPPONENT IN GAME

Oxnard, Calif., Oct. 7.—Just before their all night poker game broke up this morning Cecil Bright was probably fatally wounded by Sam Moulton, another player, in a quarrel over a \$50 jackpot. Moulton took the money and escaped.

Balloon Lost. Mingo, Iowa, Oct. 7.—One balloon, the Hertha II, remains unaccounted for today from the six that started in the race for the Bennett cup. Condon landed here last night, telling a tale of much coldness while traveling over Lake Michigan. This caused the officials to wire for the whereabouts of the Berlin.

Trust Gives Bond. Cleveland, Oct. 7.—The wall paper companies which were indicted as a trust, pleaded not guilty to a charge of combining to restrain trade and furnished \$50,000 bonds today.

ROUND-UP OFFICERS PLEASD WITH FAIR

Declaring that the annual Spokane Interstate Fair is the best and largest institution of its kind that they have ever witnessed and that the wild west show held in connection with it will in no way detract from the interest in the Round-Up, Roy Raley, J. H. Gwinn and Roy Riltner, president, secretary and treasurer, respectively, of the local frontier association, returned home this morning from a visit at that fair. They are very enthusiastic in their praise of the big fair, asserting that all of the claims made by press agents were fully substantiated by the actual exhibits and racing events.

The wild west show under the title of Pioneer Days in the Palouse, is not an infringement upon the Pendleton show, they declare, but will only serve to whet the appetites of the spectators for more of the same dish. The program is not one of contests but is rather a drama of frontier days, depicting the scenes in a frontier village with the attending labors, hardships and dangers, and during its course special feature performers such as Vernon and Stanley are introduced. They declare they were received by the management of the fair with a manifest cordial spirit and were extended every courtesy during their stay in the metropolis of the inland empire.

Turkish Warship Destroyed. Constantinople, Oct. 7.—The sinking of a Turkish warship and the crippling of all the forts at St. Jean de Medua, in a hot fight with Italian cruisers, has been reported here. All Italian establishments in Turkey were today ordered closed, by the Turkish government.

FLOODS WORSE THAN REPORTED

Many Persons Believed to Have Died

Other Towns Send Relief Train With Supplies for the Starving Population.

Black River Falls, Wis., Oct. 7.—The heavy floods of the week are more serious than at first reported. Several persons are unaccounted for and the property damaged in five counties is estimated at between three and five million dollars.

The Black river is filled with wreckage as far south as La Crosse, Wis., where a big dam burst, is submerged and about half the town is washed away. The town's population is 3,000.

Other towns down the stream also suffered heavy losses. North Bend is reported wiped out. Over two thousand refugees are here and more are coming.

Only five business houses are left standing here and more than forty residences were destroyed by the rush of waters. The reports of loss of life are being discredited.

The only means of communication with the outside world, is by a telegraph instrument which is on top of a telegraph pole.

Relief Dispatched

La Crosse, Wis., Oct. 7.—Replying to appeals for food and clothing of the starving people at Black River Falls, today a relief train has been sent out.

NEW MINISTER FOR CHRISTIAN CHURCH

Rev. J. B. Holmes, veteran minister of the Christian church and who has been in Pendleton before, has been called to be pastor and financial agent for the local organization. He is to arrive here October 15 and is to begin a series of revival meetings on the first Sunday in November.

MANY THOUSANDS SPENT FOR POSTAGE

Milwaukee, Oct. 7.—Thousands of dollars spent on postage and advertising were taken up by the Stephenson committee today. Rodney Hackett, of Senator Stephenson's publicity bureau, testified that \$9827 was spent for postage and 42 girls were busy mailing letters, 60,000 of which were sent out in one day. Hackett couldn't produce a single specimen of the letters mailed, and didn't know who prepared Senator Stephenson's advertising.

Spain Case to Jury Monday

The case against John Spain, Hank McGrath and Zilbe Morse, all notable performers at the recent Round-Up, in which these men are standing trial in Union county on a charge of horse-stealing, will go to the jury Monday, according to a telegram from La Grande this afternoon. The message further states that Roy Lund, the convict who is the state's principal witness, has been impeached a dozen times today and leaves the inference that the case against the cowboys is considerably weakened.

Farm Residents Marry. A marriage license was granted today to Roy E. Case and Kate E. Hanna and the couple were married by Justice of the Peace Joe H. Parkes this morning. The bride is the daughter of a prominent farmer of the county while the groom is engaged in the ranching business himself.

PORTUGUESE ARE FIGHTING

Republican Government Officially Recognizes Revolt

INVADERS VICTORIOUS

American Mother-in-Law of Pretender is Financing Rebellion and Manner May Not Resound to Throne He Lost Years Ago.

Vigo, Spain, Oct. 7.—Heavy fighting between the Portuguese royalists and the republicans is reported today. Several defeats of small republican detachments have been reported and a decisive battle is believed to be pending at Oporto.

The republican government officially recognized the revolt today when Francisco Glorious issued a statement that 2500 royalists had crossed the northern frontier. He declares they were allowed to penetrate the country so there would be no doubt of their loyalty before the republicans annihilated them.

Manuel Indifferent

London, Eng., Oct. 7.—King Manuel who is at Richmond, England, today stated that he was not hearing any revolution, despite the reports to the contrary. He is seemingly taking no interest in Portuguese turbulent affairs and shows no enthusiasm over the efforts that are being made to enthrone him.

Although King Manuel is not excited, the Duke of Vizou, son of Don Miguel, the pretender to the throne, is working hard and intends to push his claims to the throne hard. The duke is penniless and Mrs. Smith, widow of the late American millionaire "Silent" Smith, and mother of the duke's wife, will assist in financing the uprising to help him.

Principal Frank D. Carruth of the Stanfield schools came up last night to spend the week-end here. He reports progress being made on the new school building at Stanfield declaring it will be ready for occupancy in six weeks.

N.W. WELCOMES PRES. TAFT

Five Thousand Greet Him at Walla Walla Today

TRIP HALF COMPLETED

Urges Intensive Cultivation of Soil and Defends Veto of Late Tariff Measure—Expresses Desire to Again Be Chosen Chief Executive.

Walla Walla, Wash., Oct. 7.—With exactly half of his big swing around the circle behind him, President Taft today began his invasion of the Pacific coast territory.

Fifteen states have seen the president. He has traveled 6454 miles. He said today that he was glad to be in the west and to get in touch with "western problems". Today he spent his time at Walla Walla, Lewiston, Moscow and Spokane.

Governor Hay, who joined Mr. Taft here today, in introducing the president to five thousand people at the city park, tendered him the republican nomination for the presidency in 1912, saying:

"Taft had been prescribed for me when I was in 1908 and we need a second dose in 1912."

When President Taft arose, he said: "If you think you need a second dose I will do the best I can to cure any disease you have," and the crowd joined in his laugh. Necessity for intensive agriculture and his tariff vetoes rounded out his address.

Floods Snow Tomorrow

Tacoma, Wash., Oct. 7.—President Taft will go from warm sunshine to snow tomorrow, as the snow line is creeping down Mount Rainier until it has reached Paradise valley, which is as far up the mountain as Mr. Taft will climb.

Taft Reputed

Seattle, Oct. 7.—Senator La Follette was endorsed for president by the Progressive League of King county last night and resolution adopted calling on the governor to call a special session.

(Continued on page eight.)

Wind Destroys Building

Chicago, Ill., Oct. 7.—High winds today overthrew a four story building which was being constructed on the north side, killing two small children who were near the structure, fatally injuring four workmen and seriously injuring two others. The children are not known.

PAVING CONTRACT IS SIGNED TODAY

Work Will Begin Within Few Days

Cottonwood and Alta Streets Will Be Completed in Short Time, Says Contractor.

The contract for the paving of Cottonwood and Alta streets was signed at 3 o'clock this afternoon and, according to T. E. Mahoney, representative of Warren Bros., actual work will be commenced within a few days. The contract calls for the beginning of operations within twenty days, but Mr. Mahoney states that he had a telephone communication with his company at noon to the effect that two big rock crushers at La Grande had been dismantled and were ready for shipment here and that the pitblitz plant at Baker would be brought here at once.

When the work is once begun it will be rushed rapidly, declares the Warren representative and he hopes that before the work is completed the citizens will decide upon paving other streets. Mr. Mahoney declares the small towns in the inland empire are doing much more paving than are the large cities of the northwest in proportion to their size, his company at this time having six or eight different plants operating in the smaller cities of Oregon, Washington and Montana.

Woman's Assault Caught

Centralia, Wash., Oct. 7.—Frank Calvin, who seriously shot Mrs. Vivian Irving, at Eatonville, and then escaped was captured by Sheriff Uguhart near Toledo where he was housed by friends. He was taken to Tacoma this morning. He was shot twice in the arm when he first escaped but the wounds are healing rapidly.

PROSECUTION FOR OWNERS OF DAM

Austin, Oct. 7.—Charges of involuntary manslaughter are to be lodged against the persons who are responsible for the breaking of the big Bayless dam here last Saturday, according to a statement made today by Deputy Attorney General Harst. The authorities are endeavoring to learn in whom may be laid the charge of negligence in the construction and maintenance of the dam and it is assumed that the manslaughter charge is to be made. Fifty-five corpses have been recovered to date.

LYMAN TAKEN TO PORTLAND FOR TRIAL

Klamath Falls, Ore., Oct. 7.—Dr. Lyman, who is accused of swindling in Panama land sales, started to Portland today in custody of United States Marshal Scott. He faces trial in Portland on a charge of aiding federal prisoners to escape at Klamath Falls. He is also wanted in California on a charge of using the United States mail to defraud. Lyman has cleaned up several big fortunes in alleged fake schemes.

Broker Suicides

Seattle, Oct. 7.—Frederick E. Swanstrom, a prominent real estate and financial broker, was found dead in a room in a hotel here late yesterday. He apparently had committed suicide by shooting himself. Swanstrom was a graduate of Annapolis with the class of 1887 and served under Admiral Dewey in the Spanish-American war.

Benefits Paid

Sacramento, Calif., Oct. 7.—The first benefit of the shopmen's strike were paid this morning to the strikers at this place. Married men were paid \$5 each and single men \$4 each, among the machinists, while the other tradesmen were paid \$7 each. No violence has occurred here so far.

Caponi Helpless

New York, Oct. 7.—Sam Langford of Boston used Tony Caponi, a Chicago heavyweight, as a model for installing purposes in a scheduled Round bout here last night. Referee Charley White had to stop the fight in the middle of the third round as Caponi was helpless from the beating the negro fighter had given him.

BORDWELL TO TRY M'NAMARA

Denies Petition for Another Judge to Preside

DENIES HE IS BIAS

Believed Action Will Prove Reversible Error and Result in Liberation of Prisoners if They Are Convicted of Times Explosion.

Los Angeles, Oct. 7.—Disregarding the strong affidavits, alleging prejudice, Judge Bordwell in an informal hearing today denied the McNamara brothers another Judge to try their case. The Judge said he was not biased.

Monday Attorney Barrow probably will make the motion formally, for a change of judges and also a change of venue, to keep the record clear. These Judge Bordwell is expected to deny, as he seems determined to try the case.

While no attorneys, for professional reasons, would discuss today's developments, it was plain from their attitude that they believe a reversible error has already been entered into the case and that if either of the McNamaras are convicted their conviction won't be permitted to stand.

In affidavits, which were signed by the brothers, they stated that Judge Bordwell had shown prejudice from the start and their rights, under the law, would not be safeguarded by him.

MADERO WILL CALL MEXICANS TO ARMS

Mexico City, Oct. 7.—A threat to again ask the Mexican people to rise and crush the enemies of President-elect Madero was made in a exclusive statement by his brother Gustavo, who said that Francisco Madero had asked the officials to stamp out if they did not, Francisco would call the people to arms again and that he already had two generals in the field.

BETTING IS EVEN ON WORLD SERIES

New York, Oct. 7.—The betting on the world's series is at even money. The New York Baseball club's offices are flooded with checks for seat reservations and a new record attendance is expected.

Baby Famine Ended

Pasadena, Cal., Oct. 7.—The much advertised baby famine of Pasadena is at an end. No longer is the finger of scorn to be pointed at this abiding place of multimillionaires and common millionaires. During the last forty-eight hours there were recorded 16 births at the Pasadena hospital, besides a dozen in private homes. Fifteen of the sixteen hospital arrivals are girls. Local doctors who have been working overtime, say there is some danger of an overproduction.

Snowslide Kills Two

Skagway, Alaska, Oct. 7.—Stanley McLaughlin and his wife were killed yesterday by a snowslide that demolished their home at the Partridge mine on the west arm of Lake Adin, Yukon territory. V. S. Catton, who was standing near the house, was caught by the avalanche and carried a thousand feet down the mountain. He sustained several broken ribs but will recover.

DUCKS THINK GREEN PAINT WATER; DIE

Deceived by the new green paint coating on the roofs of two new buildings in Pilot Rock, eight wild ducks dashed headfirst into the solid wood and broke their necks the other day. At least this is the story that emanates from the sheep town and a number of natives of that burg are ready to swear on their bended knees that it is authentic.

According to the story, the ducks were winging their way through the high altitudes when they suddenly espied patches of green in the midst of barren hills and fields. Like parched and weary Arabs on the great Sahara suddenly sighting the cooling oasis, the whole flock of untamed water fowl dashed for the color spots. Whether they mistook the roofs for pools of deep water or for spots of verdant vegetation, the witnesses will not declare, but they assert in all solemnity that an awful head-on collision took place and that eight of the deluded birds' rolled from the roof to the ground, where they lay in little feathered heaps until persons whose plates have a affinity for wild duck meat gathered them up and transferred them to the frying pan.

PRESIDENT TAFT.

President William Howard Taft was a sojourner in Pendleton this morning though his stay was brief and he was apparently asleep at the time. The presidential special arrived in the city at 4 o'clock after an uneventful run from Boise. On the run from Huntington to Pendleton the train was under the care of Conductor F. H. Myttinger and Engineer Tyson, the oldest engineer on the road, was at the throttle. The start from Huntington was made at 9:30 last evening and at that hour the president retired. Consequently the members of the train crew did not see the head of the nation. According to Conductor Myttinger the run from Huntington to the city was made without unusual incident. The train had ample time and so the run was made with care. The usual stops were made for coal and water but at no place did the president appear. Arriving in the city the presidential train was switched to the tracks of the Washington division and with a Washington division crew in charge the run to Walla Walla was taken up. The train was scheduled to reach Walla Walla at 7 o'clock and the leaving hour was such as to make the run an easy one. A report from Baker is to the effect that the presidential special was delayed a half hour because the hose coupling on the fast mail, which was on the track ahead of the special, had been cut.
