FOUND AFTER THIRTY YEARS.

Teacher Who Disappeared from Ohio Town 15 in California.
Bellefontaine, O.—The mystery of the disappearance of Rufus Heister from West Mansfield thirty years ago, has been cleared and he has been discovered alive and well and prosperous in Corning, Cal., where he is operating a ranch.
Thirty years ago he taught a country school near West Mansfield and boarded with his widowed mother. One Friday evening, after the close of his school, he went and secured his gun and told his mother he was going hunting. His failure to return that day caused no alarm, but when he did not show up at the schoolhouse Monday to resume teaching the countryside was scoured by searching parties who believed that he would be found in the woods, the victim of his gun. A theory of murder was later advanced.
A Bellefontaine man, who had known Heister intimately, learned that a man of that name was living in Corning, Cal. He sent him a registered letter and received a reply. Heister gives no reason for having left so suddenly except that he was nervous and realized that a professional life was not the kind for him. Shortly after his sudden departure, his mother, who never ceased to mourn for him, died.

WIDOW WINS WOMAN HATER.

Fallen Man, Hard Hit, Wins in Cleveland Homestead.
West Caldwell, N. J.—After having been a woman hater for more than thirty years, Colonel Nicholas Williams, a wealthy resident here, fell in love with a widow at first sight, married her in four days and has gone away with his bride for a honeymoon far, far away, where his astonished friends can't plague him.
The marriage took place last Friday night in the old Cleveland homestead in the room where Grover Cleveland was born. The news was made public by the Rev. Dr. Chester of the First Presbyterian church. He tied the knot.
Colonel Williams is 78 years old. His bride, who was Mrs. Matilda Driggs, has been a grandmother for ten years, but her friends say she doesn't look it.

Weak Heart

Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, their heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken which has no bad after-effect. Such is Dr. Pierce's Golden Medical Discovery, which contains no dangerous narcotics nor alcohol.

The ingredients, as attested under oath, are Stone root (*Collinsonia Canadensis*), Bloodroot (*Sanguinaria Canadensis*), Golden Seal root (*Hydrastis Canadensis*), Queen's root (*Stillingia Sylvania*), Black Cherry bark (*Prunus Virginiana*), Mandrake root (*Podophyllum Peltatum*), with triple refined glycerine, prepared in a scientific laboratory in a way that no druggist could imitate.

This tonic contains no alcohol to shrink up the red blood corpuscles; but, on the other hand, it increases their number and they become round and healthy. It helps the human system in the constant manufacture of rich, red blood. It helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn and many uncomfortable symptoms, stops excessive tissue waste in convalescence from fever; for the run-down, anemic, thin-blooded people, the "Discovery" is refreshing and vitalizing. Stick to this safe and sane remedy, and refuse all "just as good" medicines offered by the druggist who is looking for a larger profit. Nothing but Dr. Pierce's Golden Medical Discovery will do you half as much good.

exemplary were paroled and will be immediately liberated. Eighteen convicts who were paroled or who had been sent to road camps from the jute mill here were given final discharges.

CATTLEMEN PLEASED OVER DEFEAT OF RECIPROcity
Houston, Texas.—Representatives of the cattle raising and farming interests of Texas express satisfaction over the defeat of Canadian reciprocity, which the leaders declare, had it carried, would have been of material injury to Texas.
G. J. Gibbs, secretary of the Texas Grain Dealers' association, is of the opinion that the action of the Canadian electorate has saved the farmers of Texas at least six cents a bushel on their wheat, which with the anticipated crop of 20,000,000 bushels, would mean the saving of at least \$1,000,000 to the farmers of Texas annually.
Perhaps the hardest fight of any interest in the United States waged against the proposed Canadian agreement was made by the Cattle Raisers' association of Texas. They maintained that the Canadian pact and the proposed Mexican entente would have meant the death of the cattle business in Texas. Cattle and hides

then would have to be placed on the free list and the industry, which has made Texas famous, would have passed.

CONFIDENT OF VICTORY IN REFERENDUM CASE

University of Oregon, Eugene, Oregon.—President Campbell, who returned to Eugene from Salem, yesterday, states that the case of the University of Oregon against the referendums of her appropriation bills has been unimpaird by the testimony offered by the defendants thus far. That several thousand of the names signed to these referendum petitions are forgeries, has even been admitted privately by attorneys of the opposition. The evidence of fraud in the petitions offered by ex-Justice of the Supreme Court Slater and Judge Pipes who are the attorneys retained by the University, has consisted of the testimony of D. W. Ross, assistant cashier of the First National Bank of Portland, H. W. Massom of the Burns Detective Agency, and of four or five confessed forgers of the petitions. Ross as a hand writing expert testified that hundreds after hundreds of the names on the petitions were obviously written by the same group of people. Detective Hassom testified that he had spent weeks looking up addresses of people whose names appeared on the petitions and had found only empty lots or different people living at the addresses than those named in the petition. The circulators who had previously confessed to the signing of other people's names to the petitions for the sake of the three cents per name, gain, with one exception stood by their confessions.
The feeling exists at the university that unless the manifest fraud

throughout the petitions results in their annulment by the courts, that the referendum will be in great danger of continued misuse by unscrupulous men, as a contrary decision would mean that one or two people could referend any important bill or appropriation by copying ten or twenty thousand names from a directory onto a petition.

SWIMMER IN NOOKSACK DROWNS SELF AND FRIEND

Bellingham, Wash.—John Rainey, formerly a Seattle Broadway high school athlete, sank to his death in the Nooksack river, dragging down with him his friend, Fred Standheart, who leaped from the bank to his rescue when Rainey cried out for help.
Rainey was making an attempt to fulfill a wager by swimming three times across the Nooksack. He was just completing the sixth passage of the icy stream, when he began to struggle, threw up his arms and went down.
Standheart leaped in and caught him and was making his way to shore with his burden when Rainey seized his legs and both disappeared from view.
Both boys were about 19 years old. Rainey was on a visit to Standheart who lived at Ferndale.
It's curious that nobody strikes oil sushers in Oregon. Somebody will some day.
