(Special Correspondence.) Stanfield, Ore., Oct. 23.—The high school students had a very enjoyable party in the school room in the Webster building last evening. Various games were indulged in during the evening and delicious refreshments were served.

WOMAN DIES OF FRIGHT

Mrs. A. H. Lanfer of Redwood City Succumbs to Shock of Scare.

Redwood City, Calif.—Mrs. Arthur H. Lanfer, wife of a prominent business man of this city, is dead as the result of fright.

She had just retired for the night when she imagined that burglars were entering the house. She called to her husband, who was in an adjoining room, and told him that thugs were attempting to break down the rear door.

He made an investigation and ascertained that his wife's fears were unfounded, but upon returning to her room found her dead. Fright and a weak heart caused the tragedy.

Mrs. Lanfer was 44 years of age, and a native of Ireland.

OLD-TIME REMEDY DARKENS THE HAIR

From time immemorial, sage and sulphur have been used for the hair and scalp. Almost everyone knows of the value of such a combination for darkening the hair, for curing dandruff and falling hair and for making the hair grow.

In olden times the only way to get a hair tonic of this sort was to brew it in the home fireplace, a method which was troublesome and not always satisfactory. Nowadays almost every up-to-date druggist can supply his patrons with a ready-to-use product, skillfully compounded in perfectly equipped laboratories. The Wyeth Chemical company of New York put up an ideal remedy of this sort, called Wyeth's Sage and Sulphur Hair Remedy, and authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

If you have dandruff, or if your hair is turning gray or coming out, don't delay, but get a bottle of this remedy to-day, and see what a few days' treatment will do for you.

This preparation is offered to the public at fifty cents a bottle and is recommended and sold by special agent, Pendleton Drug Co.

WANTS MORE PAY FOR GOVT'S MEN

PAYMASTER PAYS TRIBUTE TO FEDERAL EMPLOYEES

Increase in Salaries Made Necessary by Advances in Cost of Living and to Maintain Standard of Efficiency, Says Official.

Washington, Oct. 23.—Tribute to the government employe is written in the annual report of Paymaster-General Charles H. Whipple of the army, in a plea for an increase in salary and a system of retirement when the employe reaches the age of incapacity.

Referring to the statistical increase of 50 per cent in the cost of living during the last 15 years, without a corresponding rise in pay, General Whipple says the increase is asked, not as a reward for past services, "but as an actual necessity."

To attain and maintain an efficiency impossible under the present law, General Whipple recommends that at least 50 persons in the paymaster's department be made permanent details. This could be obtained, he says, by making the majors and higher grades permanent. He also recommends that the period of detail to the grades of major, lieutenant-colonel and colonel be extended from four to six years, as under the present order it is not until an officer's four years' detail is drawing to an end that he has attained the higher point of usefulness. This is because of the thorough knowledge he must have of the peculiar laws, discussions and regulations governing the disbursement and accounting of government funds.

The mobilization of the army last summer along the Mexican border, says General Whipple, demonstrated the ability to pay promptly considerable bodies of troops under conditions simulating war.

PLAN HARLAN TEMPLE

Presbyterians Propose \$1,000,000 Structure to be Erected in Washington.

Washington.—Harlan Temple, to be erected by Presbyterians from all over the United States and to cost \$1,000,000, is proposed as a memorial to the late justice of the supreme court of the United States, who was buried this week. The plan for a meeting place at Washington for the governing body of that church had been long a pet project of Justice Harlan. It now comes forward with renewed support, coupled with the suggestion that it be named for him and his memorial.

Beyond the suggestion of names for the vacant place, no step has been taken toward filling it. No word has come from President Taft nor is one expected until the opening of congress.

The courts in Washington paid tribute to Justice Harlan's memory. The supreme court, the court of commerce, the court of claims and the various branches of the supreme court of the District of Columbia adjourned immediately and the court of customs appeals also was not in session during his funeral.

HAREM SKIRT IS FATAL TO A BLASE CAB HORSE

Utters Groan at Sight and Falls Dead in Street in Washington—Police Reserves Called Out to Rescue Woman from Crowd.

Washington.—A woman wearing a harem skirt precipitated a near riot in the downtown section, brought the police reserves on the run and caused the death of a cab horse that was seized with equine hysterics.

The woman alighted from an Alexandria car near the postoffice, where a crowd of men and boys, shouting "tear it off her," started an attack. Lieutenant Sprinkle of the first precinct station hurried the woman into a cab and the driver whipped up his horse. The jeering crowd started in pursuit.

After traveling a few blocks the horse balked. The frightened woman jumped from the cab and sought to inspire some energy into the animal. Taking one look at the cause of all the trouble, the horse let out a groan of protest and dropped dead.

At this point the reserves arrived and drove away the crowd. The woman was taken to the police station, where she gave the name of Mary Porter.

"I had this skirt made in Chicago," she told the police. Later she was released.

G. O. P. MUST FACE CORRUPTION CHARGE

BIGGER BUGABEAR THAN THE TARIFF

After Shouting in Derision at Democrats Who Started Investigations, Republicans Now Realize Exceptional Difficulties.

(By Clyde H. Travenner)

Washington, D. C., Oct. 23.—Tariff isn't the only thing the republicans are afraid of in the coming campaign. There is another item that is giving them worry. They are wondering how they can answer the charges of corruption, incompetency and maladministration that have been brought out and proven by the various democratic investigating committees.

Republican leaders realize that this problem is going to present exceptional difficulties by reason of the fact that when the Democrats started to investigate those same republicans shouted in derision, declaring there was nothing to investigate; that under republican rule the affairs of the government had been conducted in the only perfect manner, and that the whole purpose of the democrats was to make political thunder.

That there was really need of some investigating in and around Washington was amply proven before the inquiries in to the results of republican rule had fairly started, and despite all the revelations of extravagance and maladministration that have come to light, many of the investigating committees are just getting ready to go to work. So far they have only scratched the surface.

The Moses committee brought to light the shameful manner in which the plotters in the pure food bureau had stripped Dr. Wiley of all power, and made a farce of the law designed to protect the public from the greed of unscrupulous food dopers.

The Stanley committee learned that the steel trust for years paid tremendous profits on a capitalization represented largely by water and thin air, and that the trust gobbled up the Tennessee Coal and Iron company, its chief rival, with the aid and connivance of a republican administration, ostensibly to prevent a panic, but actually to stifle its main competition.

It was further brought out that steel was acting as a counsel for the trust while revealing money from the government as "trust bastards."

The probe of the state department revealed that money was expended for one thing and charged to another, while the committee on expenditures in the navy department discovered that more than three million dollars worth of supplies were taken from the Washington navy yard without an accounting, and that the bookkeeping system in use there is absolutely ridiculous.

These are but a few of the many illustrations that could be given to show the value of honest investigations.

Wickesham Again.

"I am surprised," says Attorney General Wickesham, "that the business men of this country have not taken more advantage of that section of the law which permits the collection of three fold damages when they have been injured by a trust. That section is a powerful lever, and would make those who are illegally organized have more respect for the law."

Likewise, the people are surprised that Mr. Wickesham, as attorney does not take advantage of the law which makes it possible to send guilty trust magnates to jail. They believe it would be an even more "powerful lever."

A Starving Industry.

The woolen trust is the most insistent of all the trusts for a high tariff. This trust still calls it off an "infant industry," and its agents told the ways and means committee that the trust would starve to death if the tariff were taken from wool.

At Boston, on October 16, William Wood, president of the woolen trust, was a witness in a suit filed against him by a man whom he had knocked down and run over. The judge asked Wood how many automobiles he owned.

"I don't know," Wood replied.

"How many chauffeurs do you employ," asked the court.

"I never tried to keep track of them," the wool magnate replied.

Imagine a man so rich that he can't keep track of the number of automobiles he owns! They reflect on how many of the workmen who are forced to purchase Mr. Wood's protected products are unable to keep track of the number of woolen suits they or their children own.

Protection Helps Foreigners. The Stanley steel investigating committee has made public the export prices of steel products. This is a very important piece of news inasmuch as it shows great differences in prices in favor of foreigners, and therefore, probably will result in a great reduction, if not the removal, of the tariff on steel.

The figures show that the trust charges American consumers \$32.97 per gross ton for steel plates, while supplying the identical article to foreigners for \$29.04. The unprotected foreigner thus receives an advantage of \$3.95 over the protected American consumer. The advantage given the foreigner in steel rails is \$3.84 per ton; in tin plate, \$12.54, and in structural steel, \$4.50.

Query: If the steel trust sells its products cheaper to foreign than to home consumers, who is the actual beneficiary of the American protective system? The foreigner or the home consumer?

Morgan Crowd Wanted Hughes.

In a recent speech in New York, G. W. Perkins, former partner of J. P. Morgan, said that Governor Hughes was put forward in 1908 by Wall street to represent the republican party's position on the trust question, and that Governor Hughes in a speech at Youngtown, O., con-

strued the republican promise to amend the anti-trust law as follows: "In our progress we must avoid false steps. Ours must be the rule of reason," etc.

Congress refused to legalize "reasonable" or any other kind of trusts, so Governor Hughes was put on the supreme bench and helped twist the law to make it conform to the trust idea of what the republican promise meant.

Add to Mr. Perkins' significant remark, the further fact that Hughes bitterly opposed an income tax, and his qualifications as a Taft choice for the supreme bench become readily apparent.

Soft for Beef Trust.

Ed C. Lusater, president of the Texas Cattle Raisers' association, says that 300 per cent profits disappear somewhere between the producers and consumers of beef; that prices paid producers are decreasing, while prices extorted from consumers are going up. He proposes to find out who gets these fat profits.

No confidence is violated in the statement that suspects the beef trust.

Chorus Man Sues Wealthy Girl For Breaking Engagement to Him.

New York.—Festivity that Miss Helen Woodruff Smith kissed his eyes as a token of affection and that "I. K." in her letters was a code signal for "kiss eyes," Russell G. Griswold spent a reminiscent hour on the witness stand in the Supreme Court, where his suit for \$50,000 heart balm is being heard by a jury.

Miss Smith, who is wealthy, and whose father, James E. Smith, was president of the stock exchange, was divorced from Homer Cummings, twice mayor of Stamford, Conn., "Ruzzielamb" Griswold was a bank clerk, and is now a chorus man in a musical comedy. He says she promised to marry him and then refused to do so.

"When she first met me she used to love to kiss my eyes," explained the plaintiff, who is blond and 28 years old. "Afterward we decided to use 'I. K.' in letters as a code word, meaning 'kiss eyes.' She meant she was kissing my eyes again.

"Thine, fondly and foolishly, yours in the great eternal heaven, Helen," is the ending of one letter read in court.

WOMAN BLAMES ROOSEVELT.

Phoebe Cousins Says He Had Allowance Stopped to Spite Her.

Washington.—Miss Phoebe Cousins, lecturer, suffragette and lawyer, whose poverty recently has excited attention, places the responsibility for her "wrongs" upon the "vindictive disposition" of Theodore Roosevelt. She says that she aroused his animosity in the latter days of his second administration by a letter to Mrs. Roosevelt anent the intentions of the president's wife to join with Mrs. James Bryce, wife of the British ambassador, in making an American flag to drape about the but of Lord Nelson the great British admiral at the Annapolis naval academy in 1907.

Miss Cousins says that she prevented Mrs. Roosevelt and Mrs. Bryce from actually unveiling the statue, and that by so doing she excited Mr. Roosevelt's wrath.

In June, 1908, Miss Cousins says, her allowance was cut off by the United States Brewers' association, of which Adolphus Busch of St. Louis, a friend of her father is head and front, and adds that Roosevelt was behind the attitude of the brewers, who deny they ever paid her any sum of money.

A veteran of the civil war, having received from the government a new cork leg in place of the one lost in battle, perpetrated this witticism in his letter of thanks:

"'T is sweet to be remembered for what I have done."—October Lippincott's.
