A NEW BOY AT KING HOME, WESTON

EPWORTH LEAGUE GIVES A SOCIAL

Piano Recital Given in Mountain Town Proves Decided Success for Walla Walla Musicians — Hard Times Dance Enjoyed.

(Special Correspondence.) Weston, Ore., Oct. 24.—A fine baby boy was born to Mr. and Mrs. Frank King Wednesday, October 17.

Mrs. M. J. Cockerline, a former resident of Weston, is in Weston from Springwater, Oregon, visiting her many friends of this community.

Mrs. Minnie Walker was in Pendleton this week on business.

Mr. Anson Wood of Walla Walla, was a Weston visitor Thursday.

A. R. Rice, the insurance agent of Milton, was in Weston Thursday on business.

Mr. Joe Wurzer was in Walla Walla Saturday visiting his son, who is at the hospital.

Mr. Ray Simpson of Pendleton was a Weston visitor Saturday and Sunday.

Mr. James Fuson was in Athena during the week.

George Phillips of Weston made a business visit to Athena during the week.

The Epworth league of the Methodist church of Weston held a social Friday evening at the home of Mr. and Mrs. Rexroad.

Mr. Ralph Stages of Walla Walla, is in Weston visiting friends and relatives.

Mr. Sam Banister and daughter Ceil are in Weston from Enterprise visiting Mrs. Mary Banister.

Mrs. James Navin spent several days this week in Milton on business.

Miss Viva Warren of Pendleton, was in Weston the last of the week visiting friends.

Mrs. Lester Carlisle of Pendleton, is in Weston visiting Mrs. Oscar Key this week.

A piano recital was given Saturday evening at the United Brethren church by Flora McConaughy, Mrs. Edgar Fischer and Miss Helen Burnett of the Fischer School of Music of Walla Walla. A large crowd was in attendance and all were well pleased with the selections rendered.

Miss Anna May Thompson who has been spending the week with friends in Weston, returned to her home Saturday.

A hard times dance was given Friday, October 20, which was a grand success.

Mrs. Anna O'Hara of Weston spent the first of the week in Pendleton.

Miss Lola Rodgers spent Sunday with Miss Wilma Dupuis in Weston.

HORNETS STOP BALL GAME.

Stingers Get Busy With Players When Sphere Strikes Their Nest.

Philadelphia, Pa.—A long drive for a home run hit, which landed in a big hornet's nest, broke up an exciting ten-inning baseball tie in Prince's woods, Roxborough. The ball has not yet been recovered and nearly all of the players had to be led home.

According to the account the police got of the affair, the two teams

that were playing were the Lafayette and the Roxboroughs. In the tenth inning, shortly before dusk, the score stood 4 to 4, when one of the Roxborough players landed on the ball. He was scampering across home plate when a shout from the woods attracted his attention and when the two nines hurried over they found their left fielder writhing on the ground in agony.

The ball tossers attempted to rescue their teammate and were immediately set upon by hundreds of angry hornets.

HORSE LOOKED IN MIRROR.

Then There Was Some Lively Action on Streets of City.

Camden, N. J.—About the same time a man carrying a mirror was walking across Federal street, near Camden, a horse attached to a small farm wagon jogged along. A moment later the horse spied itself in the looking glass, and after that there was plenty of action.

Laying back his ears, the horse made a leap for the mirror, missing it by a narrow margin. The man had just enough time to throw the glass to the driver and then grasp the shafts. To these he hung with a death grip, while the horse sped along Federal street, dodging trolley cars, automobiles and pedestrians.

Hundreds of persons were attracted by the novel and thrilling runaway. It was after the horse had gone several blocks that it stopped.

The looking glass was unmarred and the man who had it escaped injury.

EXAMINATIONS FOR APPOINTMENT TO ANNAPOLIS ACADEMY

University of Oregon.—The University of Oregon will hold a competitive examination for two appointments to the naval academy at Annapolis on Thursday, Friday and Saturday, January 25, 26 and 27, 1912. The appointments are the patronage of Senator Chamberlain, who has agreed to appoint as cadets to the naval academy in May of 1912 the two candidates in the examinations who pass the best mental and physical tests.

The examinations will be wholly competitive and are open to any young man in the state who is a citizen of the United States.

In addition to an age qualification, and a strict physical test, applicants will be examined in the following subjects: Algebra, Plane Geometry, English Grammar, English Literature, English Composition, Geography and History, the latter including History of the United States, Ancient History, and History of Medieval Europe.

Candidates for the examination should send in their names to the President's Secretary, University of Oregon, Eugene, for registration.

Fire Loss Paid.

It affords me pleasure to announce that my fire loss on hay and feed in the Oregon Feed Barn insured in the Horticultural Fire Relief of Salem, Oregon, represented by Coutts & Hays has been settled and paid in full.

The Horticultural were the first on the ground and the first company to adjust and pay losses in this fire.

LUTHER RICH.

Lost—Ladies' diamond ring. Owner will pay liberal reward of returned to this office.

LEAVE OF ABSENCE FOR HOMESTEADERS

COMMISSIONER RECEIVES COPY OF NEW LAW

Homesteaders Need Not File Application for Absence Leave During Period Ending Next April—Other Project News Notes.

(Special Correspondence.)

Hermiston, Ore., Oct. 24.—U. S. Commissioner Uptegrove, of Hermiston has received a circular from the Commissioner of the General Land Office at Washington, D. C., relative to leave of absence for homesteaders. This includes those on homesteads in the La Grande Land district.

The notice is an extract from an act of congress which states in part "That all persons who have heretofore made homestead entries (in these districts) are hereby relieved from the necessity of residence and cultivation upon their lands from the date of the approval of this Act until April 15th, 1912, provided that the time of actual absence during the period named shall not be deducted from the full time of residence required by law."

Homestead entrymen coming under the above act who are absent from their claims for any period between August 19th and April 15th, 1912, are not required to file application for leave of absence.

In the examination of final proof, and in case of contests alleging abandonment during the above period register will give notice and consideration to the foregoing provisions.

This ruling will give leave of absence from homesteads until April 15th, 1912, but this time will not apply on the 5 year actual residence on the land.

Lawrence M. Canfield, formerly of Hermiston, made his final proof yesterday before Commissioner Uptegrove. Mr. Canfield is now a manager of one of the largest fruit growing companies in the Northwest. He owns 80 acres of land under the project, same being a desert claim.

Robert R. Lewis last week sold his home of 20 acres and also 15 acres of deeded land to Mr. Arch M. Mathews, formerly of Spokane, Wash. The Lewis tract of land lies east of this city and is considered one of the best homesteads on the project.

Mr. Lewis goes in business at Echo. He has not sold all of his holdings on the Umatilla project. Mr. Mathews has a family and will move on the homestead at once. He was formerly a conductor out of Spokane.

W. W. Steiwer, Jr., has leased the Pioneer Livery and Feed Stables for a period of six months to B. Hiatt and C. Hanning, both of whom are Hermiston men.

Mr. H. T. Irvin is erecting a large green house on the back of his lot. Among other residents of Hermiston who are erecting green houses are William Glasgow and J. Peimulder. The latter expects to raise lettuce, radishes and other vegetables for the winter markets.

Mr. and Mrs. George E. Utter of Jackson, Michigan, have arrived lately to make this their future home. They have rented the Richardson house. Mr. Utter has purchased a tract of land of the Maxwell Land & Irrigation company.

Mrs. Bert Wilson Smith will soon open a new restaurant at Hermiston.

Harry W. Palmer, who has been at Hermiston for the last four years, has sold his coal business to the Inland Lumber company, and will leave Hermiston to go to Everett, Wash. Mr. Palmer's father is at that place and has lately had the misfortune to break one of his limbs and his son will go to help him in his business.

Mr. Phillip A. Stover, an attorney formerly of Hermiston, spent two days here the latter part of last week. For the last year he has been in Alaska in the interest of the government survey. He has signed a contract for four years and will soon go to the Philippines for the government.

Mr. Clifford L. Morgan, representative of the Maxwell Land & Irrigation company, arrived on the project last week. He had with him Mr. and Mrs. Otto Heini and child, Mr. and Mrs. Schwebel and daughter, of Terre Haute, Indiana, and E. L. Murphy of Vincennes, Indiana. These people have purchased land of the Maxwell Land & Irrigation company through Mr. Morgan. Mr. Morgan left Sunday to spend a few days in Pendleton with his wife.

Mrs. Slibaugh, of the W. C. T. U. will give a lecture at the M. E. church tonight.

Mr. R. W. Hawley, water supervisor of the project, and wife will leave soon to make their home in Nevada, where he has been transferred.

Mert Dixon returned from Spokane this morning, where he has been for the past few weeks on business.

Edward Loudenslager, is expected home from Spokane, Wash., this week where he has been for the past few weeks selling real estate.

Charles Downer and wife arrived in Hermiston Saturday from Spokane. They will return today. Mr. Downer has land holdings on this project.

INFLUENCE OF COLLEGE ATMOSPHERE ON STUDENTS

Dr. Crayne, Dean of Women at O. A. C., Speaks on Heredity and Environment.

Oregon Agricultural College, Corvallis, Ore.—"In my fourteen years of experience in university, normal and college work, I have had come under my observation some extreme cases of men and women that have entirely overcome hereditary tendencies," said Dean Anna Zou Crayne, in charge of the women students at the Oregon Agricultural college, in her address on the question, "To What Extent Does the Environment Created by an Educational Institution Overcome or Strengthen the Tendencies of Heredity?" As Dean Crayne is not only a woman of long experience with

young women in higher educational institutions, but also a doctor of medicine with a deep insight into the physical and mental processes of those whom she makes her constant study, she is something of an authority on the subject.

"The question in my mind now, upon which I have not been able to satisfy myself, is to what extent the college environment overcomes or strengthens these tendencies," she continued. "Extreme cases that I call to mind is that of a young man who finished the engineering course in the University of Utah, a young man whose father was a polygamist, and whose mother was too fond of the flowing bowl. He was reared from infancy by a New England woman possessing sterling qualities and believing in good, wholesome food and proper environment. She had him educated in a Presbyterian institution of learning. After finishing his course in college he decided to study civil engineering. When he had completed such a course in a university he secured a position with a Philadelphia firm. Today James Henry DeWolf is drawing a salary of ten thousand dollars a year in South America. He is not only drawing this salary; he is teaching young men to live clean, Christian lives."

WOMAN SECRETARY OF WATER BOARD

Miss Mary Wann Appointed to Important Position as Irrigation Engineer.

Salem, Ore.—Miss Mary Wann, for six years stenographer in the attorney general's office, has been appointed secretary of the state board of control. Miss Wann was chosen over many applicants because of her legal knowledge and experience in the office of the attorney general. Her first work will be the issuing of 500 water right certificates which are the first definite water titles ever issued by the state. These certificates have just been adopted and are based on the principle of simplicity so they may be understood by every water user. The first 500 all go to eastern Oregon counties.

"Titles to public waters of Oregon," said State Engineer John H. Lewis today, "are established like titles to public lands and water right certificates are to water rights as patents are to lands. The board of control was created to determine and record all old rights so confusion and quarrels might be eliminated and no longer retard capital from coming into the state."

"These certificates limit the right to use water in accordance with the beneficial use made, and vest the right in use rather than in the user or in the ditch. Upon no other theory could a successful administrative system for public waters be found. If these fundamental principles were clearly kept in mind much confusion as to water rights would vanish."

TITLE MEN WILL MEET THIS WEEK

Spokane, Wash.—Washington Association of Title Men will meet in Spokane on October 29 to discuss matters of interest to persons identified with abstract and title companies. It is announced there also will be representatives of companies in Oregon, Idaho and Montana. Reports of the business of the American association of Title Men, of which the Washington association is a member, will be read. The national association recently closed its convention at Little Rock, Ark. James C. Cunningham, president of the Spokane Title company, and W. A. Winfree, president of the Title Guarantee company of Spokane, will entertain the visitors.

STEAMER SINKS TUGBOAT.

Vancouver, B. C.—The steamer Iroquois, running from Seattle to Vancouver, ran down and cut in two the tug Nomama, owned by G. I. Wilson, of this city. The tug sank in eight minutes after the crash. The crew of the tugboat were rescued uninjured. The loss was \$50,000, covered by insurance.

NINE AFFINITIES TOO MANY.

Woman Gets Divorce After Watching From Beneath Davenport.

Kansas City, Mo.—A man is never too old for affinities. Mrs. Jennie M. Adams of 1003 Locust avenue told Judge Thomas in the circuit court when he gave her a divorce from Charles W. Adams of Joplin, Mo. Adams, she said, was 57 years old, but she told the court of nine of his affinities. Her first proof, she said, that Ad-

AMAS WAS AN "OLD COVE"

was obtained at the cost of a most uncomfortable and suffocating half hour beneath a davenport in a Joplin boarding house. She told Judge Thomas that she hid under the furniture while Adams made love to the wife of a traveling man.

She did not tell her husband of her eavesdropping at that time, but kept silent until the list ran up to nine.

Don't trifle with a cold is good advice for prudent men and women. It may be vital in case of a child. There is nothing better than Chamberlain's Cough Remedy for coughs and colds in children. It is safe and sure. For sale by all dealers.

CLOSING DATE FOR APPLE SHOW ENTRIES ANNOUNCED

Spokane, Wash.—Entries for the carload competitions at the fourth National Apple show will close at 12 o'clock noon on November 13 and no apples will be passed through the gates at the exhibition grounds here after 12 o'clock noon on November 21, was the order issued today by the management. The show will open on November 23 and to have every display in place it has been decided to fix the foregoing limit. Two million apples will be on exhibition. The bulk of the entries are from the four northwestern states. There also are exhibits from eastern and southern states.
