BROTHER SUCCEEDS BROTHER IN COUNCIL

JOHN E. MONTGOMERY APPOINTED BY MAYOR

City Engineer Makes Final Report on Cost of Paving Alta, Cottonwood and Webb Streets—Will Grade Other City Thoroughfares.

John E. Montgomery succeeded to the aldermanic toga which his elder brother has just doffed when Mayor Murphy appointed him to fill the vacancy in the council from the second ward caused by the resignation of T. G. Montgomery, who recently left for Portland to make his home. The appointment was confirmed and the appointee qualified for the position.

Final Assessment Made. At last night's meeting, City Engineer Kimbrell submitted his final report on the cost of the paving of Alta, Cottonwood and Webb streets and the report was accepted. In it is embodied the amount of the assessments against each lot, part of lot and parcel of land in the two districts and these figures are now on file in the office of the city recorder.

Other Business. The council last night passed a resolution for the grading of portions of Washington and Blaine streets and for the building of sidewalks on the same streets.

York & York Chinese Doctors CAN POSITIVELY CURE YOU

Those who are suffering from diseases which many other doctors have pronounced incurable, now have relief in sight. York & York, the famous Chinese doctors, are now located in Walla Walla. These men, after years of study and research in China, were granted diplomas by the Emperor, to pursue their practice of medicine.

For centuries the Chinese have been acknowledged leaders in the practice of medicine, and many wealthy people annually go to that country in search of relief for ailments which doctors of this country have pronounced incapable of permanent cure.

York & York use nothing but powerful roots and herbs of demonstrated medical value. These roots and herbs act gently on the system in direct contrast to medicines usually given. They can be consulted without cost. Those residing out of the city can send for symptom blanks and a free diagnosis will be given.

DRAINAGE BIDS ON CANAL RECEIVED

FIVE FIRMS COMPETE FOR STANFIELD CONTRACT

Directors Defer Granting of Contract Until They Can Go Into Submitted Bids More Fully—Will Try to Complete Construction Next Spring.

(Special Correspondence.) Stanfield, Ore., Oct. 25.—Yesterday afternoon at 2 o'clock was the hour set for the opening of the bids for the construction of the drainage ditch for the Umatilla drainage district at this point, there being five bidders represented. The proposed ditch is to be a little more than two miles in length, the outlet being at a point on the Umatilla river just below the town. The plans and specifications call for a 30-inch concrete pipe line about 5000 feet in length at the lower end of the ditch, this pipe line to be covered. Several of the bidders were unprepared to submit figures on the cost of the pipe and for this reason they were allowed to bid on the job exclusive of the furnishing of the pipe. The bids submitted were as follows: John Contracting Co., of Portland, \$31,290.66, exclusive of the pipe; Eschbach-Bruce Co., North Yakima \$16,585.92, exclusive of the pipe; Bidwell, Hayden Co., Portland, \$16,689 exclusive of pipe; Palmberg & Wentjar, Astoria, \$20,754.50 exclusive of pipe; Foley & Gleason Co., Aitkin, Minn., submitted a bid of 24 cents per cubic yard for the earth excavation, of which there will be about 72,000 cubic yards. As some of the bids were submitted in a manner not in exact conformity with the bidding blanks prepared by the directors of the drainage board, it will require a few days for the directors to go into the various points included therein so as to enable them to award the contract. It is their desire to close a contract on the work just as soon as possible as it is of great importance to those interested in the drainage to have the work completed as early during the coming spring as is possible. The time limit for the completion of the work is April 1, 1912. There are about 1500 acres in the district that will be greatly benefited by this drainage.
