Beware of Side Needle Spine

Physicians today recognize the sewing machine as being the basic cause of more nervous disorders peculiar to woman than any other modern convenience.

of all human inventions, the ordinary sewing machine does more to wreck a wom-an's health, by producing spinal weakness, causing nervous troubles, and lingering, tor-turing internal displacements than any other

The reason is plain—look at the construc-tion of your sewing machine: on account of the needle being 4½ inches away from the centre, where it should be, you have to sit in a position with your body twisted out of plumb to operate it.

Think what this twisting of your spine and other delicate internal organs means, and you can't operate your machine with your feet on the treadle without this twist in your body. Now compare this with a STANDARD CENTRAL NEEDLE MACHINE built to operate with the needle central, right in front of you and directly over the centre of the treadle.

This construction enables you to sit straight and do your sewing without the least strain on your spine or any part of STANDARD CENTRAL NEEDLE MA-

this STANDARD CENTRAL NEEDLE MA-CHINE all day, without feeling tired or get-ting a pain in your back. You can sit in a natural position without undue strain on your stomach and nerves.

This new type of machine means freedom from suffering and ushers in a tremendons advance for health and happiness and freedom from disease. And this machine is easily within your reach—easy to buy and easy to operate, will save its cost in doctor's bills, to say nothing of health. If you value your health and the health of your growing daughters,

Call and get the free book, "A Stitch in the Side," and learn what every woman should know. I will be pleased to demonstrate

this machine at your convenience. JESSE FAILING

Housework is drudgery for the weak woman. She brushes, dusts and scrubs, or is on her feet all day attending to the many details of the household, her back aching, her temples throbbing, nerves quivering under the stress of pain, possibly dizzy feelings. Sometimes rest in bed is not refreshing, because the poor tired nerves do not permit of refreshing sleep. The real need of weak, nervous women is satisfied by Dr. Pierce's Favorite Prescription.

It Makes Weak Women Strong and Sick Women Well.

This "Prescription" removes the cause of women's weaknesses, heals inflammation and ulceration, and cures those weaknesses so peculiar to women. It tranquilizes the nerves, encourages the appetite and induces restful sleep.

Dr. Pierce is perfectly willing to let every one know what his "Favorite Frescription" contains, a complete list of ingredients on the bottle-wrapper. Do not let any unscrupulous druggist persuade you that his substitute of unknown composition is "fust as good" in order that he may make a bigger profit. Just smile and shake your head!
