

WEATHER REPORT. Fair and cooler to-night; Sunday fair.

Calling cards, wedding stationery, commercial stationery and job printing to order at the East Oregonian.

COUNTY OFFICIAL PAPER.

CITY OFFICIAL PAPER.

VOL. 24.

PENDLETON, OREGON, SATURDAY, NOVEMBER 4, 1911.

NO. 7261

TIMES ASST. PUB. ON PANEL

Judge Bordwell Declares Connections Alone Will Not Disqualify Him.

IS PROSECUTION WITNESS

Believed Last Seat in McNamara Jury Box Will be Occupied During Monday's Session and Peremptory Challenges Will Begin.

Hall of Records, Los Angeles, Cal., Nov. 4.—Harry Chandler, son-in-law of General Otis, owner and publisher of the Los Angeles Times—of which the McNamara brothers are charged with having destroyed—and himself assistant publisher of the Times, will in all probability be compelled to submit to interrogation regarding his qualifications as a witness in the McNamara case.

When he appeared late yesterday afternoon among the veniremen, Judge Bordwell refused to dismiss him because of the fact that he is under subpoena of the prosecution. Judge Bordwell contended that only a person's qualifications are to be considered in selecting the jury.

The court did however excuse Chandler until next Wednesday, when it is likely that he will have a valid excuse for dismissal.

Twenty veniremen of the panel of forty last summoned have qualified for candidacy as jurors when the trial resumes Monday.

It is believed that the twelfth venireman will have found a place in the jury box Monday, when it is expected that Clarence Darrow, attorney for the defense, will ask permission of the court to further question Venireman McKee on evidence that has been secured since their first challenge was overruled by Judge Bordwell.

Judging from their credentials, the court will not grant the request and then the peremptory challenges will begin, to eliminate objectionable men from the jury box.

Unions Win Temporarily. Indianapolis, Nov. 4.—The federal authorities today temporarily lost their battle, to obtain the documents of the Ironworkers' Union in connection with the McNamara case. Judge Brewer, in passing on the union's petitions, said the surrender of the documents should be decided by a higher court.

Lee Rappaport, the union's attorney, immediately filed an appeal to the state supreme court and pending its decision the documents won't go to the federal authorities.

TO INVOKE RECALL ON DISTRICT JUDGE

Roseburg, Ore., Nov. 4.—A movement for the recall of Judge Coke of the second judicial district for alleged partiality to the defense in the McClellan murder trial, will be started soon, according to Attorney Cannon today, who said that ten thousand pamphlets pertaining to the case will be mailed out soon and a petition will be circulated immediately afterward.

The first movement three months ago, failed for lack of support and the revival has surprised the people here.

This is the first attempt ever made to recall a judge in Oregon.

Odorous Session of Court. Judge Fitz Gerald held an odorous session of court this morning and as a result the police force has had to fumigate and deodorize the tribunal chamber. Three drunks, Gus Tramer, Charles Klein and Charles Dewey, were responsible for the offensive fumes and each was given three days in jail with an order to cleanse themselves.

SAYS EXTENSION NOW UP TO PRESIDENT TAFT

Returning from a visit in Washington, J. N. Teal, well known Portland attorney, declares that President Taft alone can save the day for the West Umatilla extension and he urges that members of the congressional delegation and others use their efforts towards getting him to do so. "Every authority who has looked into the West Umatilla irrigation project views it favorably," said Mr. Teal. "Mr. Fisher, the secretary of the Interior, looks on it favorably and I really believe Mr. Fisher will do everything he can to further the project. With the secretary of the Interior favorable, and the reclamation service and the board of engineers also favorable, there should certainly be some way out of the money on hand to get the work done. The

THREE RELIGIOUS MANIACS FOUND DEAD

Chicago, Ill., Nov. 4.—The emaciated bodies of Henry Letsch, his wife, and twelve year old son, Roy, were this morning found by a squad of police who forced an entrance into their home. Jumbled and almost illegible letters were found which indicated that the trio were victims of a religious mania. The appearance of the room leads the police to believe that the couple had slain the boy and then died by their own hands. They had starved themselves also.

LORIMER GAVE CASH TO JACKPOT DEFENSE

Helped Fight Prosecution of Graft in Legislature

Chicago, Nov. 4.—Continuing his testimony before the Lorimer investigating committee, State Representative Lee O'Neill Brown admitted today that United States Senator Lorimer had contributed largely to his defense for his two bribery trials.

Brown displayed his usual tactfulness, which characterized his testimony yesterday.

He declared that Senator Lorimer had contributed several times to his (Brown's) defense against the jackpot charges.

He said several friends likewise had contributed, but denied that the packers, brewers and other corporations had helped him.

Brown said he didn't know of anyone receiving money in the legislature. Admittance was then taken until Monday.

COL. HOFFER SAYS BIG FARMS ARE MENACE

Col. E. Hoffer, well known Oregon journalist and one of the candidates for the republican nomination for governor in 1911, was in the city today on his way to Pilot Rock where he delivers a lecture tonight on the "Higher Civilization of the Community." Colonel Hoffer advocates industrial education and dividing up the larger tracts of land as the only permanent remedies for imperfect social conditions. He says the present system of public education that leaves our youth untrained in any kind of manual labor unrelated to industry, and with no serious purpose in life but to live without work is dangerous to society and ruinous to the individual. He does not say how he would tackle land monopoly, but says a way must be found to break up the large holdings that were secured by legislative grants at from one to three dollars an acre and are now held at twenty to forty dollars an acre by combinations and corporations. He believes a weapon for the redistribution of the lands can be found in the initiative and referendum amendment to the constitution. The larger holdings of two to five hundred thousand and even millions of acres block the development of the state. Settlers cannot pay the prices asked and if they buy on time the interest and taxes on speculative capitalization doom them to perpetual poverty. Col. Hoffer talks to the Young Men's club at Pilot Rock tonight.

Two Die in Flames. Butte, Mont., Nov. 4.—Phil Fay, a former policeman, and Thomas Carroll, a miner, were burned to death in a tiny cabin on the outskirts of the town. The cause of the fire is unknown.

PIONEER SPEED MANIAC HERE

Capt. H. M. St. Cyr, Hero of Wild Ride of Kamela Returns After 19 Years.

KINGDAREDEVILENGINEER

Contributes Chapter to Railroad History by Guiding Train Down Mountain Side at Rate of Mile and Half Per Minute to Avoid Wreck.

Capt. H. M. St. Cyr, the most reckless, daredevil engineer that ever opened a throttle and who is known in Pendleton by all old timers, is back in the city after an absence of nineteen years during which time his career has been less spectacular than in the days when he started the world in eastern Oregon by his speed mania. His appearance is but little changed since those pioneer days, his hair is just as long and black, his mustachios and goatee just as fierce, his eyes just as keen and it doesn't take much of a student of character to read in him a man of iron nerves and indomitable courage.

Since leaving Pendleton in 1892, Capt. St. Cyr has been in all parts of the world adding chapters to his adventurous history. He has made and lost two fortunes in the mining business and declares he will make another before he takes his "farewell journey to the promised land."

His Wild Ride Remembered. St. Cyr is best remembered here for the wild ride he made in an engine down the mountain from Kamela to prevent a terrible collision.

It was in 1892 that he helped pull a manifest train from this city to Kamela. A special with Conductor Balyntine and Engineer Moore in charge, had orders to meet another train at Hillard, twelve miles away. The other train was then on its way west with orders to meet the special at Kamela. That constituted what railroad men call a lap order and dread as much as anything in the world. In other words, both trains had passed the last station where they could be stopped and were rushing headlong into each other.

Six Miles in Four Minutes. As soon as he discovered his terrible error, the dispatcher at Kamela rushed out and tried to persuade two

(Continued on page eight.)

EAST OREGONIAN HAD CORRECT NEWS

In a telephone communication to the East Oregonian today W. J. Furnish said that the news story in this paper yesterday, under the Stanfield date line, special correspondence, set forth correctly the facts regarding the listing of the Furnish project lands with E. L. Sherwood of Spokane. According to Mr. Furnish another story published here purporting to set forth such news was highly exaggerated and out of proportion.

The following is the story as it appeared in this paper yesterday:

Stanfield, Ore., Nov. 3.—F. L. Sherwood, the well known land man and colonizer, whose headquarters are at Spokane, has been at Stanfield this week looking over the Furnish project preparatory to opening up a sales campaign to dispose of the unsold lands in the project belonging to the Inland Irrigation Co. A photographer, in company with Mr. Sherwood, has also been on the project taking views of the lands which will demonstrate the improvements that have been made therein.

CAST STRAW VOTE FOR MAYOR

Show Your Choice For Head of Pendleton's Municipal Government—There Are Nine Prospective Candidates

The men listed below are mentioned as possible candidates for mayor of the city of Pendleton at the election to be held December 4. Who is your choice? Write X between the name and number. 1. W. E. BROCK. 2. W. F. MATLOCK. 3. F. J. QUINLAN. 4. J. B. RALEY. 5. J. L. SHARON. 6. DAN P. SMYTHE. 7. C. P. STRAIN. 8. V. STROBLE. 9. J. V. TALLMAN. 10. This ballot is open to legal voters of Pendleton only. Mark your ballot, cut it out and return it by mail or in person to The East Oregonian Mayorality Editor, at once. The voting will continue for one week, the result being announced on Saturday, November 11.

WESTMINSTER ROBBER SUSPECT ARRESTED

Vancouver, B. C., Nov. 4.—John Bozek, a native of Southern Europe, was today arrested by the local police and charged with being a member of the gang which robbed the Bank of Montreal at Westminster, of nearly \$300,000 a few weeks ago. The man was found in a gambling joint, displaying a large amount of money. On his person was found \$700 and in his room at the City Hotel, \$4,000 in marked currency, which had been taken from the bank, was found.

MURDER PROBE CARRIED TO GRAVE

Exhume Body of Supposed Victim of Suspected Woman

Chicago, Ill., Nov. 4.—Convinced that the body of Richard Smith, a former railroad conductor who died mysteriously at Mrs. Louisa Vermilya's home, March 11, either will confirm or disprove the police theory that the nine persons who died there were argentic victims, Coroner Hoffman and Dr. Laconte, a post-mortem expert, went to North Henderson, Ill., today to exhume his body.

Smith's death symptoms were similar to those of previous deaths of a policeman, Mrs. Vermilya's two daughters, one son, one step-son and two friends.

No direct evidence connects the woman with the series of deaths. She reiterates her innocence and declares that if the policeman died of poison he must have taken it himself.

The woman who is suspected of the murder of Policeman Bissonetti, another lodger, has not yet been served with a warrant, because she is ill with pneumonia, but the police are guarding her.

FORMER UMATILLA FARMER SUICIDES

From a wealthy farmer of this county to a penniless suicide was the descent made by Chris Simpson, who was found dead in Island City near La Grande Thursday. He had drank from a bottle of horse liniment and so plain were the evidence of suicidal intent that an inquest was considered unnecessary.

Ten years or more ago, the deceased operated a big farm in this county and was generally considered well to do. Later he left the farm for the turf and it is said that he lost heavily in the race horse business. He has been a resident of Island City for several years and of late had been employed as a teamster. Poverty and despondency coupled with excessive use of alcoholics is the combination which led to his self-destruction.

He leaves a wife and several children, the eldest of whom is a son who is engaged in the farming business in Alberta.

Parents Murder Babe. Santa Barbara, Nov. 4.—John Reeh, the Italian rancher and his wife who were arrested today charged with the murder of their new-born babe, are now in the county jail. Ignorance of the law, and the high cost of living are the only excuses offered by Reeh in extenuation of his crime.

CIVILIZED ITALY, BARBARIC CHINA, EACH BUTCHER WOMEN

1500 SLAUGHTERIN MANCHUS KILLED

Rebels Wipe Out Hankow Short Reverse

Truce Agreed Upon and Another Effort Is on to End Revolution.

Shanghai, China, Nov. 4.—Order in general prevails here, following the capture of the native city by the Chinese rebels. Only the foreign concession is not controlled by the revolutionaries who are organizing a new municipal government.

Reports of the battle of Hankow of October 31, received here today, show that 1500 imperialists fell and that the battle was one of the bloodiest of the revolt.

The imperialist defeat came after they had massacred men, women and children in the Chinese section of the city after the first rebel reverse.

It is feared that Wesleyan Mission near Har river, which sheltered fifteen blind boys and twenty five wounded persons has been destroyed in Hankow.

The capture of Shanghai was accomplished with only ten killed after the rebels won the fight. Admiral Murdock landed with his American marines and marched them through the foreign settlements.

Two Chiefs Again Meet.

Peking, China, Nov. 4.—Government advices received here today, from Yuan Shi Kai tell of a conference with General Li revolutionary leader, which may end the Chinese rebellion. Premier Yuan wired that General Li has consented to a truce and the two will meet at Hankow today in an attempt to reach some agreement.

General Li's agreement to a truce it is believed resulted from the adoption of nineteen articles by the national assembly on which it is hoped to found a new Chinese constitution but it is unknown whether the rebels will agree to one article, which says the Manchus shall reign forever.

No More Money Needed.

San Francisco, Cal., Nov. 4.—Chinese revolutionists won't receive contributions after November 30, it was announced today. The Young China society now has half a million dollars on hand to forward to China.

PRINCETON BEATS HARVARD ELEVEN

Princeton, Nov. 4.—Thirty thousand rosters this afternoon watched Princeton beat the Harvard football team by a score of 8 to 6, on Osborne field. It was their first clash in fifteen years. The weather was perfect. White of Princeton, made the first touchdown, after an eighty yard run in the first half. In the second half Princeton got two points on safety, when a Harvard player was accidentally pushed over after Dewitt had made a magnificent punt to the crimson goal.

In the last few minutes of play Wendell was pushed over the line scoring for Harvard. Morrison kicked a goal.

McKeary Insane.

North Yakima, Wash., Nov. 4.—Barney McKeary, charged with the murder of Wm. O'Neill, in the city jail here, August 3, last was today adjudged insane and incapable of either conducting his defense or consulting with his attorney. McKeary will be sent to the insane asylum until he is mentally fit to stand trial.

COMMERCIAL BODIES TO HARMONIZE VOCALLY

If a plan being fostered by J. E. Keefe, secretary of the local Commercial association, and other members of the association, the harmony of music may soon become a means of inducing harmony in the ranks of all of the county commercial organizations. A quartet of vocalists has been organized from the local membership, a varied program of entertainment is being prepared and soon all will be ready for the commencement of the unique plan. It is the intention to have the troupe of commercial entertainers travel from town to town and put on their programs under the auspices of the local commercial organization. All proceeds will be turned over to those organizations and during the meeting speeches of a booster character will be interspersed with the musical numbers. The plan is meeting with approval among the local business men and every effort will be made to make it a success. Members of the local club who have any talent, developed or latent, are asked to lend their assistance. The installation of the piano in the Commercial club rooms is responsible for this new move, members suggesting it last night when Secretary Keefe was initiating the instrument before an audience of business men.

ITALIANS AVENGE DEFEAT ON BABIES

Leave Hundreds Slaughtered in Lost Forts

European Powers Preparing to Send Bitter Protest Against Brutality.

London, Nov. 4.—Telegrams received here from Lieutenant Montague, an English army attache in Tripoli, states that the Italians are committing the most horrible and atrocious outrages on helpless women and children.

In one house, which had been captured from the Italians, it was found that they had, before retreating, murdered, mutilated and horribly torn 129 women and children.

In another building was found, filled with the bodies of hundreds of women and children, who had been similarly treated by the bloodthirsty Italians.

Lieutenant Montague, says that these are cases which came under his personal observation, and that numerous other like outrages are continually reported from other sections.

He states that the Italians are evidently using this method of revenge for their recent heavy losses, inflicted by the Turks and Arabs in fair battle. He appeals to England to do something to stop this wanton slaughter.

Powers Protest to Italy.

London, Nov. 4.—Indications are that the alleged Italian atrocities in Tripoli may cause a concerted demand by the powers that Italy observe the rules of civilized warfare, according to reports received here today. Some of the powers have sent notes to their various foreign officials regarding the matter and declaring that the Italians have violated the Geneva treaty, which insured non-combatants immunity from death and prisoners of war freedom from torture.

British correspondents, returning from the seat of war, report many Italian massacres of women and children and despite the denial of Premier Giolitti, that none have occurred.

TOT OF 4 MAKES R. R. TRIP ALONE

(Special Correspondence.) Echo, Ore., Nov. 4.—Making the trip alone and unattended, save for the attentions showered on her by older fellow passengers and obedient train crews, little four year old Address Meador, traveled from Walla Walla, Wash., to Echo to spend the winter with her grand parents, Mr. and Mrs. Marion Schivener of this place. The diminutive traveled hugely enjoyed the trip and took care of herself in much the summer manner as would one of many years her senior, making the change of cars at Pendleton without any trouble.

NO SPECIAL SESSION OF WASHINGTON LEGISLATURE

Olympia, Wash., Nov. 4.—Governor Hay is opposed to calling a special session of the legislature to pass a presidential primaries law. He said he did not find a widespread sentiment favoring an extra session to enact the statute.

Suicides With Liniment.

La Grande, Ore., Nov. 4.—Because he drank too much horse liniment yesterday, Chris Simpson, a teamster of this city, is dead. He admitted to his wife that he intended suicide.
