### NEW BURBANK TRIUMPH.

**After Ten Years, He Evolves a Thornless Blackberry Bush.**  
Santa Rosa.—The thornless blackberry has arrived.

Luther Burbank, after ten years of experimenting, has been able to produce a blackberry bush that is robust of its thorns. This afternoon, while Burbank was showing the party of Australian boys about his gardens, he said:

"Now I will show you something about which nothing has been said as yet. It is the thornless blackberry. It has not been distributed yet, and possibly will not be for some time. You see, I have to be careful about stating anything until it is a reality. Burbank broke off some of the branches from the bush and they were carefully examined by the visitors. There were no thorns visible, the surface of the branches being as smooth as silk. The fruit is said to be of exquisite taste and quality.

Burbank told the boys he had worked ten years on the blackberry bush in the endeavor to remove its thorns.

Monsieur Cambon seems to have been a good bargainer.

## Society

Pendleton Chapter of the American Woman's League held its regular monthly meeting in the City Hall Tuesday, Nov. 7, adjourned from Monday on account of an error in the published notice. Many matters of importance were brought up for consideration, the members feeling that the League having been placed upon a more distinctly business basis, made dependent on its own resources as a subscription agency, and divorced from all other business entanglements, and entirely disconnected with its founder, Mr. E. G. Lewis, more active participation is demanded of them to insure its success. It was decided to open an office in some accessible place, presided over by one of the prominent members, where subscriptions to magazines may be left, paid for by one-half cash and one-half League subscription certificates. As these subscriptions may be sent directly to the publishers, prompt service is insured. Mrs. S. A. Lowell, president of the chapter, has also joined the Regents' Corporation, and will act as agent for the sale of their specially manufactured articles thereby insuring an income for the chapter, as she hopes for enthusiastic patronage. A very unusually interesting lecture by Mrs. Ida B. Cole of the head office, on "The Madonna in Art," illustrated by pictures of the most famous Madonnas, was read by the president and listened to with wrapped attention by those present.

The Thursday Afternoon club was entertained this week by Mrs. John Vert. The program which consisted of a "Postcard Trip Through Germany," proved most interesting to the club members and guests. The trip was made through the medium of a fine postcard projector, owned and elaborated with Mrs. Vert in giving a delightful lecture on the views shown. During the trip many historical cities of old and new Germany were visited and the portraits of the German emperor and the royal family were shown along with those of some of Germany's greatest geniuses, such as Goethe, Schiller and Wagner, etc. After the program, refreshments were served with Mrs. J. R. Dickson and Mrs. Charles Carter presiding at the coffee urns. Miss Mildred Berkeley and Miss Beth Smith assisted the hostess in receiving. The club guests and members united in voting it one of the most interesting and delightful meetings the club has ever enjoyed, and many thanks were given Mr. Vert for his part in the entertainment.

## NO BETTER WAY TO BREAK A BAD COLD

### ENDS MOST SEVERE GRIPPE MISERY IN A FEW HOURS

The most effective and harmless way to cure the grippe or break a severe cold, either in the head, chest, back, stomach or limbs, is a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

You will distinctly feel the cold breaking and all grippe symptoms going after the very first dose. It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, soreness, stiffness and rheumatic aching. Take this harmless Compound as directed, with the knowledge that there is no other medicine made anywhere else in the world which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25 cent package of Pape's Cold Compound, which any druggist in the world can supply.

After three years' research we have conclusively demonstrated that quinine is not effective in the treatment of colds or grippe.
