UMATILLA PROJECT ALFALFA FOR O. A. C.

SELECTED AS BEST FOR FEEDING DAIRY COWS

Several New Homes Under Course of Construction in Hermiston and Surrounding Country—Pendleton Man Improves His Property.

(Special Correspondence.) Hermiston, Ore., Nov. 13.—The Maxwell Land and Irrigation company has shipped several carloads of alfalfa, two carloads going to the Oregon experimental station at Corvallis. R. W. Allen, superintendent of the Umatilla experiment station, was given instruction to purchase two carloads of the best alfalfa. After a careful selection the alfalfa grown on the Umatilla project as being the best that he had seen. The hay will be used in conducting tests as a food for dairy cows. H. T. Irvin will soon commence extensive work on the ranch owned by Mrs. Irvin near Cold Springs station. Mrs. Irvin has 160 acres in this tract, about 60 acres is already irrigated by a spring, which has a very heavy flow of water the entire year. Work has been started on the house and barn. E. A. Neberry of Pendleton, is having his land improved. The Newport

company has taken a contract to do the work. It will be levelled and put into orchard at once. He has twenty acres under the project. James Means is erecting a five room home on Gladys avenue. His family will occupy the home. The Hermiston Bank and Trust company is having a heating plant installed in its new building. The firm of Litter & Fraser has the contract. Mr. Thomas H. Haddock has made his final proof on his 20-acre homestead before Commissioner Upham. He has nearly all of his place in garden truck, four acres in orchard and about five acres in alfalfa. He has received a good revenue from his land the last two years.

Aches and Pains of rheumatism are not permanent, but only temporarily, relieved by external remedies. Why not use an internal remedy—Hood's Sarsaparilla, which corrects the acidity of the blood on which rheumatism depends and cures the disease?

PANIC AT THE TREASURY. Burglar Alarm Goes Off, but There Are no Burglars. Washington—The burglar alarm of the United States Treasury played a prank, and the armed guards of Uncle Sam's millions were convulsed with fear that the government's vaults were about to be sacked. When the quiet of the staid old Treasury building was broken by the signal which is intended to announce that robbers are at work, officials,

clerks and watchmen by thousands poured into the corridors and scurried pellmell in search of the supposed miscreants. Guards grabbed their rifles and pistols to shoot to kill, but no robbers were visible. When the excitement reached its climax it was discovered that the delicate electric mechanism which is attached to every opening to a vault had become disarranged, possibly through a short circuit of the wires, and set off the danger gong.

WOULD GO BAREFOOTED. Pretty Models Say Unshod Tootles Are the Proper Thing. Chicago.—"Bare feet on the street and at home are just as sensible as bare hands—if not more so. Champed feet account for the modern 'grouch.' If people of today would go barefooted for five years it would work a miracle in our dispositions. Shoes have caused more wrinkles than age."

So says Beulah Lantz Eddington who is one of the prettiest models posing for commercial art work in Chicago. In New Orleans, where Miss Eddington has taken part in the Mardi Gras for five years, there is a club of young men and women who wear sandals summer and winter. Miss Eddington was among the organizers of that colony, and she has brought the fad to Chicago, where there is now a club of twenty-five South Side girls who have been wearing sandals at home for several months. They declare that next summer they will wear them on the street.

PREHISTORIC IMAGE FOUND. Relic, Apparently Had Lain Undisturbed Through Many Ages. Preston, Kans.—What is believed to be the image of the god of a prehistoric race was unearthed here by Frank Kelly, a contractor. The image was found seventeen feet below the surface in soil that apparently has lain there for ages. It was in a formation of very hard yellow clay. It shows the head and bust of a man. The figure is made of materials resembling plaster of paris, though it is much harder. There were numerous fragments of the same material lying near, and efforts are being made to place these together to determine what kind of people made the image.

Boy Kills Self. Everett, Wash.—Leo Bolger, aged 15 years, residing with his parents, Mr. and Mrs. Joseph O. Bolger, Rucker avenue, shot and instantly killed himself while trying to show Arthur Humphries, 3301 Norton avenue, his chum, aged 13 years, that he was brave enough to spring the trigger of his revolver with the set safety on. It happened that the set was not placed and the bullet entered the boy's eye and proceeded into his brain. He fell to the ground.

Kills Companion. Castlerock, Wash.—Arthur Wyant, son of James Wyant, a wealthy farmer of Tootle, Wash., this county, was accidentally shot by Ed Large, a hunting companion and died two hours later. The accident happened ten miles from Tootle in the hills. After doing what he could for his companion Large left him with other members of the party and hastened for help. Dr. Wolf of Castlerock was called, but death had taken place before he could reach the scene.

Freewater Primary November 18. Freewater, Ore.—The council at its last meeting set the date for city primaries November 18. At that time a mayor, recorder, treasurer and three councilmen will be named.

UKIAH EXPERIENCES VARIETY OF WEATHER

(Special Correspondence.) Ukiah, Ore., Nov. 13.—High winds, rain and snow has prevailed over this section for several days.

Dr. Sharp, who practiced here several years ago, has returned and bought the drugstore and intends to remain here permanently.

The Ukiah Mercantile company intends to move into its new store room. The building is 20x100 feet and is the largest and best equipped store in this end of the county.

Mr. and Mrs. Wm. Footer gave a farewell dinner Saturday for Geo. Neuman, who leaves for Germany soon.

Roy Case and bride passed through here on their way to Galena.

Sherman Hale a farmer of this section, has finished seeding.

Mr. and Mrs. Earl Turner arrived Thursday from Pendleton and will again make their home in Ukiah.

Mrs. Geo. Stewart, proprietress of the Ukiah Hotel, returned home Saturday from Kennewick.

Carl Power of Pendleton, is now the guest of Mr. and Mrs. Clarence Adams.

Clair Sturdivant, after spending several months in Portland and the coast cities, has returned home.

Mary McKenzie left for Pendleton Sunday, where she will be the guest of Mr. and Mrs. Dick Lazinka.

EXPERIMENT FATTENING LAMBS

Carload of 100 "Marry's Pets" from Portland for Agricultural College. Oregon Agricultural College, Corvallis, Ore., Nov. 13.—A carload of 100 lambs has just been received by the Oregon agricultural college department of animal husbandry to be used in fattening experiments. In the series of tests to be conducted at the college the lambs will be fed on hay and grain, half of them being kept well housed in the barn, while half will be allowed to run in the open. The object is to test the value of shelter for sheep in western Oregon, since there seems to be a difference of opinion, some sheep raisers believing that just as good results can be obtained where no shelter is given the sheep. The lambs will be fed 100 days and then sold on the open market for fat lambs. They are of no particular breed, the object being to gain results that will be typical of what can be done in ordinary sheep raising.

FALSE TEETH FOR A FINE TROTTER MARE

Spokane, Wash.—Blanche, a pacing mare, which won more than \$10,000 in purses and stakes for its owner, M. Childs of Spokane, during the season of 1911, soon will go under the care of a local dentist, who is constructing a bridge with three teeth for the animal's lower jaw. Blanche spilled her rider at the races in connection with the state fair at North Yakima last August, and when a well-meaning mounted policeman tried to stop the runaway the mare leaped over the low fence and toppled over an embankment, knocking out three of its lower teeth. The accident deprived the mare of grazing in the long grass, so Childs engaged a dentist to span the gap with a bridge. Blanche is now campaigning in the south.

A MOUTHFUL OF BLACKSMITH

Country Mule Resorted to Back-Biting as a Method of Revenge. Linton, Ind.—E. B. Martindale's estate, incorporated, is made defendant in a suit for damages brought by James B. Dillon, on a charge that is not of the ordinary.

Clayton Baker, who is employed on the Martindale farm of 1200 acres,

ONE DOSE MAKES INDIGESTION GO

DYSPEPSIA, GAS AND OTHER STOMACH MISERY ENDS

Five Minutes After Taking a Little Diapepsin Your Stomach Will Feel Fine Again—Eat Your Favorite Foods Without Fear of Distress.

If your meals don't fit comfortably, or you feel bloated after eating, and you believe it is the food which fills you; if what little you eat lies like a lump of lead on your stomach; if there is difficulty in breathing after eating, eructations of sour, undigested food and acid, heartburn, burp or a belching of gas, you can make up your mind that you need something to stop food fermentation and cure indigestion.

To make every bite of food you eat aid in the nourishment and strength of your body, you must rid your stomach of poisons, excessive acid and stomach gas, which sour your entire meal—interferes with digestion and causes so many sufferers of dyspepsia, sick headache, biliousness, constipation, griping, etc. Your case is no different—you are a stomach sufferer, though you may call it by some other name: your real and only trouble is that which you eat does not digest, but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diapepsin will cost fifty cents at any pharmacy here and will convince any stomach sufferer five minutes after taking a single dose that fermentation and sour stomach is causing the misery of indigestion.

No matter if you call your trouble catarrh of the stomach, nervousness or gastritis, or by any other name—always remember that a certain cure is waiting at any drug store the moment you decide to begin its use. Pape's Diapepsin will regulate any out of order stomach within five minutes and digest promptly, without any fuss or discomfort, all of any kind of food you eat.

said to be the best farm in Greene county, located southeast of Linton, took a mule to Dillon, who is a blacksmith, to be shod. Baker knew the animal was vicious, according to the allegations of the complaint, but said nothing to Dillon about it. Dillon proceeded with his work, and while stooping over shoeing a fore foot the animal seized him by the pants with its teeth and threw him twenty feet. He alighted on an iron floor with such violence that the tendons of one leg were torn loose and his left knee was fractured so that he is still compelled to walk on crutches, though the injuries were sustained last May. He alleges he will be a cripple for life and asks damages in the sum of \$6000. The defendant is the estate of the late Elijah B. Martindale of Indianapolis.

DR. LEONHARDT'S DISCOVERY.

Hem-Roid Will Interest Every Person Who Has Piles. The public is indebted to Dr. J. S. Leonhardt of Lincoln, Neb., for years of study of the treatment of piles, and for his discovery of a successful remedy, taken inwardly, which livens up the stagnant blood circulation and reduces the swollen vessels. Dr. Leonhardt's prescription is HEM-ROID sold by Pendleton Drug Co. and all druggists at \$1 for 24 days' treatment. Guaranteed to give satisfaction. Dr. Leonhardt Co., Station B, Buffalo, N. Y. Write for booklet.

WIVES OBSCURED GENIUSES.

One Who Succeeded Says Others Stand at Cook Pot and Wash tub. Cincinnati, Ohio.—The material for successful real estate dealers, merchants, lawyers, doctors, even aeronauts and financiers, is hidden away in many a wife at present engaged in washing her husband's clothes and cooking his meals. This is the opinion of Mrs. Elizabeth Held, a prosperous real estate broker, at present seeking divorce from her husband, Paul L. Held, engineer at the Fairview incline.

"I could have gone on," she said, "like many other married women, washing clothes and dishes and living in a way that prevented my children from having healthful and pleasant surroundings. But I found out that I could earn money enough in business to hire some one to do these things for me and to provide for my children with a nice home and advantages. The day will come when married women will go right on with the work that they are fitted for. Most people think women are born cooks and dish washers, but the truth is that if a woman can do these things well, she is quite likely, if she possesses intelligence, to be able to do other things still better."

Mrs. Held has made considerable money in the real estate business, and her husband alleges that her success drove away contentment. Occasionally a Los Angeles tale-man is not a real estate dealer.

"She is Waiting"

and so are those she is waiting on. And mind you, a good high-ball is well worth waiting for. Good, pure, wholesome Rye Whiskey, like the brands we are now selling, will make one wait patiently, but enjoy the wait when the liquid arrives—cool, comforting, and refreshing. If you are a high-ball lover, better try a bottle of this splendid Whiskey of ours. You will always want that brand afterwards. And the price will satisfy you, too.

COWS DRUNK ON HARD CIDER.

Seventeen Bovines on Soree After Eating Rotten Apples. Greenwich, Conn.—Seventeen cows belonging to Soren Jensen of Bankville are just getting over a two day soze. Apples that had fallen on the ground and were left to ferment were responsible for the cows getting drunk. The animals finally became fighting mad and Jensen couldn't milk them.

If Your Neighbor Has Electric Light

and you have not, just step into his house some evening after dark and compare its light with your own. Study each point of convenience, cleanliness, clearness, beauty carefully, and then figure out for yourself if it would not pay you well to have your house wired for electric light at once.

Electric Light Today is Cheaper and Better Than Ever Before

since the General Electric Company placed its MAZDA lamp on the market. We have arranged to supply our customers with the G. E. MAZDA lamps on very favorable terms. These lamps give two to three times as much light as other lamps using the same current.

If your house is located on any of our distributing lines we shall be glad to advise you about having it wired and will give you more facts about the efficient electric lighting of your home.
