

WEATHER REPORT.

Rain tonight and tomorrow.

COUNTY OFFICIAL PAPER.

VOL. 24.

PENDLETON, OREGON, TUESDAY, NOVEMBER 14, 1911.

NO. 7269

Calling cards, wedding stationery, commercial stationery and job printing to order at the East Oregonian.

WASHINGTON IS RESCUED

Brave Tug Crew Dramatically Performs Saving of Stranded Ship.

NO LIVES ARE SACRIFICED

Passengers Snatched from Clutches of Death, and Hoopling Praise on Ship Captain and Crew, Are Loudly Cheered by Citizens.

Astoria, Ore., Nov. 14.—Dramatically snatched from what seemed sure death for thirty hours, the forty-eight members of the passenger list and crew of the steam schooner Washington, which was caught on Peacock Spit Sunday afternoon, are today in this city, alive and safe.

To the bravery and daring chance, divided between life and death of Captain Buck Bailey and the crew of the government tug Tatoosh, is due all the credit for the rescue of the ill-fated ship and her human cargo, also most of her cargo of lumber.

Watching for the first lull in the high wind, the Tatoosh late yesterday afternoon nosed over the terrific breakers to a point where she was able to get a line to the stranded steamer, after a number of ineffectual attempts had been made.

The ship had been given up as lost with all on board, by the large crowds gathered about the shore, helplessly watching for the end to come. The vessel was towed into this port last night and the crew and passengers loudly cheered and cordially welcomed by large masses of people. The hold of the vessel was filled to a depth of seven feet with water which washed in through the hatches and put out the fires of the engines, making her helpless.

The vessel was not leaking when she arrived here, and the report that two members of her crew had been washed overboard was found to be untrue. Except for the deck load the cargo was intact, while the greater part of the damage to the vessel was confined to the cabin.

A part of the bridge and the wheel house were swept away and the doors and windows smashed.

The rescued passengers speak in the highest terms of Captain Winkle and the entire crew of the Washington giving them credit for doing everything in their power under the circumstances.

U. S. ADMIRAL HAS 2 ILLEGITIMATE SONS

Redwood City, Cal., Nov. 14.—Sensational allegations, linking the name of Rear Admiral Phelps and a millionaire lumber king with Mrs. Lillian Moore, who is suing her missionary husband, J. J. Moore, for divorce, leaked out today in a cross complaint, filed by the husband. Trial began today.

Moore alleges that his wife's two children born before her marriage to him are the sons of Admiral Phelps and he alleges that Frederick Fenwick is the father of the third child. Mrs. Moore charges infidelity. She also wants alimony.

RODGERS WENT TO SLEEP ON THE JOB, HE SAYS

Pasadena, Nov. 14.—"I must have been asleep on the job," said Aviator Rodgers today, while discussing his fall from his aeroplane Sunday.

He said he would complete his flight when he recovered. He is now allowed to sit up in bed.

He said he didn't remember any engine trouble or very much about the affair.

MUCH INTEREST CENTERED ABOUT ELECTION OF NEW OFFICIALS OF ROUNDUP, TONIGHT

Interest in the municipal political pot is temporarily suspended today and street discussion is centering about the election of a Round-Up board of directors tonight by the stockholders in the Northwest Front Exhibition association. It is the regular annual meeting and, besides the election, the reports of the old officers and directors will be given and an amendment to the by-laws introduced, discussed and voted on.

ITALY WANTS U. S. TO ACT AS PEACEMAKER.

Rome, Italy, Nov. 14.—(Bulletin.)—A statement from authoritative government sources, has been given out here to the effect that the Italian government has sounded the United States government regarding the willingness of the latter country, to act as mediator between Italy and Turkey, with the view of ending the war in Tripoli. It is further stated here that advices from the state department at Washington has signified its willingness to assume the role of peacemaker.

HARVESTER TRUST IS FINED \$50,000

Missouri Also Orders Combine to Get Out of State

Jefferson City, Mo., Nov. 14.—The supreme court of Missouri today issued a writ of ouster, enjoining the International Harvester company from doing business in the state and fining the trust fifty thousand dollars. This state was the first also, that ousted the Standard Oil trust from the state, as a combination in restraint of trade.

The decision is the result of a report by Special Commissioner Theodore Brace, filed September 6, on an ouster suit begun when Governor Hadley was attorney general. The report alleged the company had violated the state laws.

The trust is characterized as a "gigantic and nefarious scheme," by the court and it rules that the ouster may be suspended by payment of the \$50,000 fine within sixty days, and if at the end of that time the company withdraws its connection with the New Jersey company, it will be allowed to continue business in Missouri.

SETTLERS MAY RELINQUISH PARTS OF THEIR HOMESTEADS

Washington, Nov. 14.—Settlers on government irrigation projects who find they have taken more land than they are able to meet the various charges on may relinquish part of it and have the payments already made credited to the charges against the remaining part, according to a decision today by Secretary Fisher. The settler may relinquish a second tract if he still finds himself overburdened, but the minimum area he may hold is 10 acres.

Experience had shown, it was pointed out here today that the 40 and 80 acre units were in many cases too large for cultivation by a man of moderate means. The main purpose is to cultivate land for which the government has furnished a water supply.

Rebels to Use Warships. Shanghai, Nov. 14.—It was learned today that the rebels will send thirteen warships which were surrendered yesterday to them by Admiral Sab, to Nanking. Then a simultaneous attack on land and sea will be made on the imperialists.

Martial law has been declared in Canton. Robber chiefs practically control the city and pirates and brigands have been made policemen.

Gore Boosts Wilson.

Portland, Nov. 14.—Senator Gore of Oklahoma, before leaving for Salem where he speaks tonight, said a large majority of democrats in the twenty-seven states he has visited, favor Governor Woodrow Wilson for the presidential nomination.

He said President Taft's renomination is almost certain. Senator Gore is a strong advocate for Governor Wilson.

Three New Directors.

Eight members of the old board of directors have signified their willingness to serve again, they being Secretary J. H. Gwinn, Treasurer Roy Ritter, Mark Moorhouse, director of exhibitions, Fred Earle, director of non-competitive events, Roy Bishop, director of Indians, T. D. Taylor, director of livestock, Lawrence G. Frazier, director of grounds, and George Hartman, director of finances. If the new amendment is adopted and these eight old directors are re-elected, which is probable, it will be necessary to elect but three new men, and the three most prominently mentioned for the positions are Dr. W. H. Lytle, James Sturgis and Henry Collins. The meeting will be held in the assembly room of the city hall on the second floor and will be called to order promptly at eight o'clock.

RATE CASE IS SHOT TO BITS

Court Upholds Short and Long Haul Clause But Paralyzes Order.

COMMISSION IS SHORN

Commerce Court Serves Purpose of Its Creation in Granting Exceptions and Favors Railroads by Giving Right to Overcharge Inland Towns

Washington, D. C., Nov. 14.—The constitutionality of the long and short haul clause of the act to regulate commerce, was established today by a written decision of the Court of Commerce in the Spokane rate case.

The court's statement said: "Insofar as the interstate commerce commission attempts to determine the relation of long and short haul rates, irrespective of absolute rates, it exceeds its authority, for it is not within the power of the commission to say that 100 per cent, 107 per cent, or any given per cent, or an unknown or less than reasonable rate to the coast is necessarily a maximum reasonable and non-discriminatory rate, from the same point of origin to an interior point.

"Though this decision enjoins the reducing of rates, in inter-mountain cities, as the interstate commerce commission ordered, the commission found satisfaction in upholding the long and short haul clause of the law."

The commerce court emphasized its authority, under the law, to grant exceptions to the application of the long and short haul clause, declaring its belief that cities having water traffic are entitled to lower rates than cities where there is no water competition.

This is a serious blow to Spokane.

FIFTEEN JAYHAWK COWARDS ON TRIAL

Lincoln, Kas., Nov. 14.—The trial of fifteen well known citizens for tar and feathering Mrs. Mary Chamberlain, a young and pretty school teacher here began today. A number of strangers are in the city, lured by anticipation that the testimony will be sensational.

Miss Chamberlain was dragged from a buggy in which she was riding with a barber, one night in August on the outskirts of town by a band of masked men, who carried her to a bonfire, stripped her of her clothes and applied a coat of tar and feathers. Then they disappeared and the barber, reappearing from hiding and assisted her to gather her clothes and drove her home.

The barber was later convicted of complicity in the affair and sentenced to one year in the penitentiary. He will testify against the others now under arrest. The prosecution declares they will demand the full penalty—\$1000 fine and one year in jail.

COLUMBIA QUARTET NUMBER POSTPONED

The Columbian Quartet Concert company, first number of the high school entertainment course, will be here tomorrow night instead of tonight, as announced yesterday and will present its musical program in the Methodist church. This was the definite announcement made this morning by Superintendent J. S. Landers of the public schools and window cards heralding the attraction have been distributed today.

The Columbian Quartet is a quartet of finely blended voices, all the members being artists in their line and depend entirely upon their ability to render good music in an artistic manner.

Hard work has crowned their efforts with success and thus the quartet is greeted everywhere with a glad hand which denotes popularity.

Their programs have the special merit of variety seldom heard by any quartet, consisting of vocal quartets, trios, duets and solos. Instrumental trios, using violin, flute and piano, violin flute duets, violin solos, piano and flute solos, piano duets.

They are now featuring J. C. Deagan's large size double deck Organ Chimes, Marimbaphone and other novelty instruments that always please.

TAFT RESORTS TO STRATEGY

Attempting to Convey Impression That He Has Busted the Trusts.

SEES TARIFF VETO ERROR

Designates Standpat Mouthpiece to Herald Program of Tariff Legislation for Entire Winter Session of Congress—Other Matters Will Wait.

Washington, Nov. 14.—Republican national leaders are now planning to win President Taft's renomination by strategy. They are shifting the battleground of the campaign to the question of enforcement of the Sherman anti-trust law by making President Taft's alleged anti-trust record an issue, upon which to base their fight.

President Taft is devoting much time and space to the subject in his message to congress. He will dismiss tariff questions with a mere recommendation to the tariff board and endeavor to force an active discussion as to the government's attitude toward trust prosecution.

Realizes Error of Vetoes.

Washington, Nov. 14.—The statement of U. S. Senator Reed Smoot of Utah, that no anti-trust, Alaskan or currency legislation may be expected at the coming session of congress, is being carefully digested by politicians here today because Smoot is generally regarded as voicing the attitude of the "regulars" in the senate.

Smoot issued his statement after he had held a conference with President Taft.

"The disposition of the tariff legislation will occupy nearly all of the time during the coming session," he said. "If any time is left free after the routine the appropriation measures must be put out of the way. We will hardly be able to reach currency legislation. That and the Alaska legislation will go into the next session."

ENTERTAINMENT FOR SCHOOL STUDENTS

Students in the different school districts over the county will be treated to an entertainment that will be highly instructive as well as interesting by reason of a purchase of a stereopticon recently made by County School Superintendent Welles out of the teachers' institute funds.

By the new certification laws, all of the institute funds left from last year were required to be turned into the general school fund but at the suggestion of State Superintendent Alderman, a stereopticon was purchased with the remainder of the money paid in by the teachers for the entertainment and edification of the school children.

Superintendent Welles has ordered a large collection of slides of scenes in different parts of the world and in addition is having many made from pictures of scenes in Umatilla county so that home conditions and industries can be compared with those of foreign countries.

STRANGLER BY SNEEZE OF ANOTHER MAN

Washington, D. C.—Frederick Egner, because he nearly strangled to death as the result of another man's unrestrained sneeze, wants a law passed prohibiting sneezing in public places.

"About six months ago while riding in a street car a man sneezed over me," said Egner, "and a few nights later I was taken with a severe fit of strangling. I came very near strangling to death.

"At intervals thereafter I was affected in a similar manner. The coughing spells have only ceased within the last few weeks.

"There is a law against spitting in street cars and public places and I believe there should be a law against unrestrained sneezing, making it a misdemeanor for any sneezer to go without a handkerchief."

BEATTIE NOW SAYS HE TOLD LIES

Washington, D. C., Nov. 14.—(Bulletin.)—Attorney Walter Balderson, today admitted that Paul Beattie, cousin of the doomed alleged wife murderer, Henry Beattie, of Richmond, Va., had recently made an affidavit, repudiating the main features of his own testimony in the trial, which was the cause of Henry's conviction. The affidavit was presented today to Governor Mann who has postponed his decision on the appeal of the doomed man, for a commutation of his sentence.

NEIGHBOR SUPPORTS MRS. WARNER'S STORY

Says Strange Man Asked Location of Warner Home

Gives Description Tallying With That Given by Woman Alleged to Have Been Severely Beaten.

Supporting the story told by Mabel Young Warner of an attack made upon her last Tuesday night by an unknown man, Mrs. J. M. Aandolph, who lives just back of the house on Bluff and Lilith street, occupied by the Warners, has made a statement that a strange man, tall and wearing a black coat and black hat, called at her home late Tuesday evening and inquired where Mrs. Warner lived. Her description tallies with that given by Mrs. Warner of her assailant.

Mrs. Warner is much improved today and is able to be out of bed. She is very indignant, however, over the published insinuations that she is "Juanita," the anonymous correspondent who has been writing on local questions in the Pilot Rock Record each week. She denies absolutely that she is responsible for the series of vituperative articles, declaring that she knows nothing of the water situation here and cares less and that her time is too much employed with her own affairs to admit of any literary efforts.

Laborers' Law Upheld

Madison, Wis., Nov. 14.—The supreme court of Wisconsin today upheld the constitutionality of the Workmen's compensation act.

Cattle Thief Causes Trouble.

Riverside, Wash.—Alleged cattle thieves have been arrested in this vicinity during the last week by Deputy Sheriff H. D. Tomlinson, and taken to the county jail at Condon. Joe Figlinski and a younger brother and Adam Neidick, all living in the Tunk creek country, have been selling meat to butchers along the river. John Fuhrman of Tunk creek recently lost 19 head, Charles Haley, Tonasket butcher, is also lodged in the county jail.

Raley's Petition Filed.

The petition of J. Roy Raley, nominating him for mayor of the city at the coming election, has been filed with Recorder Fitz Gerald, there being 170 signatures to it. The petition of R. E. Kirkpatrick for reelection from the first ward to succeed himself has also been filed. The petition of John Shebert nominates him for councilman from the third ward to succeed V. Stroble, so that up to date there is no competition for any office except that of mayor. However it is rumored that another candidate will be brought out in the fourth ward to oppose Charles Cole in the race for C. P. Stran's toga.

Deputy Sheriff is Back.

Deputy Sheriff A. C. Pank returned last night after an absence of three weeks during which time he went as far south as Los Angeles. Despite the persistent rumors to the effect that he had taken a wife during his vacation, he returned as single as when he left.

JUDGE BEAN REMANDS STANFIELD SEEPAGE CASE BACK TO CIRCUIT COURT FOR TRIAL

By action of Federal Judge R. S. Bean, the suit of the city of Stanfield against the Umatilla River Water Users' association and officers of the reclamation service at Hermiston has been remanded to the state courts for trial. As a result the case will be fought out before Circuit Judge G. W. Phelps before who motion was originally brought.

The case is one wherein the people of Stanfield seek redress for injuries they suffer through seepage water from the government feed canal. It is alleged that the water from the canal has inflicted great damage upon land in and adjoining Stanfield and to stop the damage the plaintiffs desire that the government cement its canal so as to stop it from leaking. Messrs. Raley and Fee are attorneys

COUNSEL AND COURT CLASH

McNamara Attorney Says Judge Discriminates and is Reprimanded.

MANY BITTER EXCHANGES

Nine Men Now in Jury Box, Three Permanent, Probably Six—Sixteen Men of Sixth Panel Qualify With Opening of Court.

Los Angeles, Nov. 14.—Because he asserted that his associate counsel, Lecompe Davis, had been discriminated against in a ruling by the court and assailing District Attorney Fredricks for, as he alleged, "refusing the defense a privilege he himself had demanded only yesterday," Joseph Scott, associate counsel for the McNamara defense was this morning reprimanded by Judge Bordwell.

The entire morning session was charged with electricity, and friction between the court and counsel for both sides was many times manifested.

As a result of the morning session William Andrew, a carpenter, was qualified as a tentative juror, although the defense tried hard to disqualify him.

Sixteen of the forty men of the sixth panel, qualified today in the trial.

Court opened with three permanent and six temporary jurors in the box. It is expected that three at least of the temporary jurors will become permanent.

5,000 CHILDREN BID CARDINALS ADIEU

New York, Nov. 14.—One of the greatest outpourings in the history of Catholicity in New York occurred today when farewell mass was celebrated at St. Peter's Cathedral, in honor of Cardinal Designate Farley, who sailed for Rome this morning, to take up his new duties, in the college of cardinals. He was accompanied by Cardinal Designate Falcone, former apostolic delegate to the United States. Both were recently appointed to the college of cardinals by Pope Plus.

At eight o'clock 5,000 children gathered at the cathedral. Half an hour later the cardinal designate, left the Arch-episcopal residence and passed along the streets, lined with representatives of every Catholic church, to the cathedral.

No adults were admitted—only children. Sixty priests and other dignitaries of the New York archdiocese assisted the archbishops in conducting mass.

NEW YORK TEAMSTERS WILL OPPOSE STRIKE

New York, Nov. 14.—William Austin's threat to call out 20,000 teamsters in the union of which he is the head, in an effort to bring New York city to terms and win the garbage collectors' strike is being opposed by members of the Teamsters' unions, who assert they don't feel called upon to take an active part in the trouble.

Strikebreakers are still being used by Mayor Gaynor and some progress has been made in ridding the city of filth.

Killed by Cars.

Spokane, Wash., Nov. 14.—His feet slipping on the snow that covered the track of the Great Northern railroad just opposite the station, Robert C. Cool, aged 74 years, a retired Illinois farmer, was run down by a string of railway mail cars, being backed out of the yards by a switch engine and was instantly killed last evening. The old man's head was severed from his body.
