General Reyes and Other Rebels in America Under Arrest for Fomenting Rebellion

DYNAMITE BOMBS, ARMS AND AMMUNITION FOUND

Several Hundred Armed Mexicans, Hiding Near Laredo, Texas, Awaiting Chance to Make an Attack on Town Directly Across Rio Grande.

La Redo, Tex., Nov. 20.—Major Hodagorn, with four companies of United States troops, raided a house here today and captured Captain Juan Merigo and two rebels. He found fifty dynamite bombs, twenty thousand rounds of ammunition and forty rifles. Twelve revolutionists escaped.

More Troops to Border.

San Antonio, Tex., Nov. 20.—Ordered to arrest all revolutionists and enemies of the Mexican government who are airing their opinions on American soil, Troop I, Third United States Cavalry, arrived here today en route to Laredo. The remaining fourth of the third and possibly the fourth regiment are expected to follow.

General Wood Not Alarmed.

Washington, Nov. 20.—General Wood said today that United States troops in Texas have found abundant preparations for the Mexican revolution, but he said the situation did not warrant the mobilization of additional troops on the border.

To Attack Nueva Laredo.

Austin, Tex., Nov. 20.—Adjutant General Hutchins of the Texas National guard, wired Governor Colquhoun from Laredo today that several hundred armed Mexican rebels are ambushed on the American side of the border, near here, awaiting a favorable opportunity to cross the Rio Grande. PROGRESSIVES ARE SHOWING MERCY

Sacramento, Nov. 20.—Declaring that the progressives could send a full La Follette delegation to the republican national convention, as they control the state, if they desired, Governor Johnson in an exclusive statement, declared the progressives will forego this advantage and that he will include in his call for an extra session of the legislature, a demand for a presidential primary.

The progressives got control of the republican party machinery in the last election through a joker which was inserted in the election law, by the republican machine, which expected to win.

The governor said that the progressives must be just, so no advantage would be taken.

Governor Johnson said "the progressives of the republican party are in control of the party's machinery and they can, by simply obeying the law enacted by their opponents, send a solid delegation to the national convention for Senator La Follette."

NAVAL OFFICER BEGINS 7-YEAR TERM IN PRISON

Paymaster Pippin Transferred to San Quentin Under Heavy Guard. Vallejo, Calif., Nov. 20.—Arthur M. Pippin, former naval paymaster, was taken from the receiving ship Independence to San Quentin prison to begin a seven year term for embezzlement and negligence in the discharge of his duties.

If the habeas corpus proceedings instituted for the release from San Quentin of former Pay Clerk James V. Fuller, sentenced to two years in connection with the Pippin case, prove successful, Fuller's attorneys will ask permission to appear before the department in Washington to argue the case.

TRIBES WILL ORGANIZE

Plans for Protection of Lo's Rights and Collection of Money Due From the Government Will Be Prepared By Proposed Brotherhood.

Members of the Umatilla, Cayuse and Walla Walla tribes on the local reservation have, during the past few days, been circulating a subscription paper for the purpose of raising funds to defray the expenses of a delegate from each tribe to the conference to be held in Washington, D. C. on December 4, for the purpose of organizing all of the tribes in the United States into the Brotherhood of North American Indians.

The movement for the formation of the confederation is widespread and is proving very popular among the native Americans. It was started and is being promoted by Richard C. Adams, a Delaware Indian and a partner in the law business with Attorney Harvey H. Phillips of Spokane, and through the latter Major Lee Moorhouse of this city has been asked to assist the local Indians in selecting delegates to the meeting.

The purpose of the brotherhood as explained in a letter which Major Moorhouse has from Adams, is to secure protection of the rights of the rights of the redmen and a recognition of the claims which they have.

There is at the present time due to the various tribes of Indians, he writes "upwards of three million dollars; there are in the national banks to the credit of individual Indians more than is at the present time over three hundred thousand undelivered rents and many thousand unsettled claims of individual Indians. All of these things should readily be adjusted by the organization of the brotherhood."

Clear National Conscience.

"If we succeed," he concludes his letter, "we will be instrumental in clearing up the conscience of a nation which has posed as one of the highest in civilization and the lover of liberty and justice; but on whose hands there is a stain of the most iniquitous sin; a nation in the undertaking of building the Panama canal at the cost of many hundred million dollars, and in many other things of great expense to the people, but which has not paid its honest and just obligations to the Indians; not even the small amounts it promised to pay them and which has, in many cases, forced treaties or agreements on the Indians for an inadequate and insignificant consideration. These things could be readily adjusted and the people will be shown things in a different light if only we do our part."
