

THE DANGER OF RHEUMATISM

The danger of Rheumatism is in temporizing in the treatment, or in failing to realize the powerful nature of the trouble. If the blood is allowed to remain infected with uric acid, Rheumatism soon becomes chronic, and then if not checked it sometimes makes complete physical wrecks of its victims by permanently stiffening the joints and seriously interfering with the bodily nerve force. External applications will often temporarily relieve Rheumatic pains, but do not reach the blood, where the cause is located, and to depend entirely upon such treatment is a very dangerous thing to do. S. S. S. cures Rheumatism by removing every particle of the cause and purifying the blood. It filters out of the circulation every trace of the sour, inflammatory matter, cools the acid-heated nerves, causes a natural and healthy nourishment through the blood to all muscles, joints and bones, and perfectly cures Rheumatism in all its forms. S. S. S. does this great work because it is the greatest of all blood purifiers, acting directly on the source of the disease. Our special book on Rheumatism and any medical advice will be sent free to all. S. S. S. is sold at drug stores.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

Beautiful home on North Side. Must see it to appreciate the place. We are always ready to show you. Teutsch & Bickers.

SPORTS

New Park at Portland.
Portland, Nov. 29.—The plans for the new baseball park are finished and when these are carried out it will give Portland the finest playing field in the west.

With the plans as they now stand, drains will be placed about one foot underneath the playing field along the foul lines and homecoming the diamond. Sand will be placed around the field and with about six inches of soil covering them.

Welch to Referee Fight.
Los Angeles, Cal., Nov. 29.—The deadlock over the question of who should referee the scheduled twenty-round fight between Al Wolgast and Freddie Welsh for the lightweight championship of the world at Vernon this evening, has been broken by Welsh consenting to have Jack Welch of San Francisco act as referee. Wolgast, Welsh, Tom Jones, Wolgast's manager, and Tom McCarthy, promoter, held a meeting at which Jones requested Welch to act as referee. Welsh responded that an "undesirable man was being forced upon him," but rather than lose the chance to fight for the championship he would consent to Welch refereeing the contest.

Pillars Win a Game.
Havana, Nov. 29.—The Philadelphia National team defeated the Almondars 8 to 1 yesterday.

ACT QUICKLY.
Delay Has Been Dangerous in Pendleton.

Do the right thing at the right time. Act quickly in time of danger. Backache is kidney danger. Doan's Kidney Pills act quickly. Plenty of evidence to prove this.

Charles E. Berg, 815 N. Sixth St., Walla Walla, Wash., says: "I cannot give Doan's Kidney Pills enough praise for what they did for me after I had spent hundreds of dollars in an unsuccessful effort to get relief. I attribute my trouble to getting my feet wet and working in damp places. One day when stooping a sharp pain like the stab of a knife, caught me in my back. In a few days I got so bad that I had to take to my bed and I was attended by a nurse. My secretions were frequent in passage and contained sediment. I lost weight, had a poor appetite and was bothered by dizzy spells that blurred everything before me. One day I read about Doan's Kidney Pills and discarding all the other medicines, I began taking this remedy. Before I had finished half the contents of a box, I felt better and my appetite began to pick up. As I continued using this preparation I regained my strength and my kidneys did their work as they should. I was soon able to leave my bed and I feel that Doan's Kidney Pills saved my life. My cure has been permanent and I am so grateful that I will gladly answer any letters, providing a stamp is enclosed."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.

PASTOR'S SONS MAKE GOOD.

Investigator Says They Climb Often Into "Who's Who" Class.
New York.—Minister's sons were given credit for greater success in life than those of any other class in a sermon by Rev. Christian F. Reiser, at the Grace Methodist Episcopal church, West 104th street, who said: "According to 'Who's Who in America' ministers' sons succeed in life 221 times more frequently than those of any other class of people. In England, an investigator has discovered that of the men prominent in English history, 1270 have been ministers' sons, 510 children of lawyers and 230 offspring of doctors. An investigator selected one volume of the sixty-six of the 'Dictionary of National Biography' and found that one in every nine was a minister's son."

"De Candolle, a French scientist, says: 'The sons of clerical families have actually surpassed during 200 years in their contributions to the roll of eminent scientists the similar contributions of any other class of families.'"

SENDS DAUGHTER TO JAIL.

Man Accuses Her of Participating in Theft of His Horses.
Kansas City, Mo.—W. J. Hoss, 70 years old, of Blue Springs, near this city, identified a woman at police headquarters who was accused of stealing his horses, as his only daughter, Ella, 32 years old.

A trader notified the officers that a man and woman were trying to dispose of horses which answered the description of the stolen animals.

The couple were arrested and Hoss was sent for. He found the woman was his daughter, and told the police to lock her up. Hoss will pay the reward offered for the recovery of his property.

HAS BURYING GROUND FOR HER ANIMAL PETS.

Woman Who Has Many Dogs, Cats and Horses, Has Cemetery on Her Farm.
New York.—It is rather rare that family pets are provided with a special cemetery where their last resting places are marked by flowers and their names are inscribed on stones.

Such a cemetery is maintained on a farm owned by Mrs. John Henry Pell of this city, who resides in the winter at No. 6 East Thirty-sixth street and in the summer at 182 Riverside Drive. The latter home is a large brown stone mansion with a spacious stable in the rear of the same character of construction.

WON'T TRAIL PINK RABBIT.

Dogs Have Aversion to Bunny That Attracts Hunters.
York, Pa.—A pink rabbit or one of light brown shade closely approaching pink, was included in the bag of Lee Darone, an aged Wrightsville gunner, who returned here from a two-day hunt in the neighborhood of the Picketts, this county.

Darone says it jumped up with another bunny of orthodox color, but that the dogs paid no attention to it, the gunner being compelled to knock it over without their assistance.

It is said that other gunners have seen the pink rabbit, but have been unable to bag it because of its peculiar immunity from trailing by the hounds.

Unimpeachable—if you were to see the unequalled volume of unimpeachable testimony in favor of Hood's Sarsaparilla, you would upbraid yourself for so long delaying to take this effective medicine for that blood, disease from which you are suffering.

NEW DREADNOUGHTS TO LEAD THE WORLD.

New York and Texas to Have Armament Superior to Anything in England's Navy—Oklahoma and Nevada More Dangerous Still.
Washington, D. C.—Three 14 inch guns will appear in each of two turrets on the giant battleships Oklahoma and Nevada bids for the construction of which are to be received by the navy department next month.

That this innovation is included in the design of the new vessels has just become known and is exciting considerable interest in naval circles. No ship now afloat has more than two big guns in a turret, and while Italy and Russia are building several vessels with this feature, they will use 12 inch rifles.

It is explained that the primary purpose of concentrating guns in fewer turrets is to reduce tonnage. On the Oklahoma and Nevada the weight of one great turret will be eliminated as with the new arrangement only four turrets of ten 12 inch rifles.

The New York and Texas, now under construction, and which when commissioned will be the only craft in the world with 14 inch main batteries, are designed along the old lines, with their big guns placed two in each of five turrets.

With the completion of the New York and Texas the United States will wrest from Great Britain the distinction of having the world's heaviest armed warships. At present England's 13.5 gun ships hold this place. The American commissioned dreadnoughts carrying only 12 inch rifles.

Falls Into Boiling Lake.
La Grande, Ore.—J. N. Sullivan, a laborer, is suffering as the result of having been immersed in the boiling hot water at Hot Lake. Sullivan had been working on a dam near the outpouring of the earth's waters. The foundation gave way suddenly and he was dropped into the boiling lake. Almost instantly skin and flesh were cooked, for as he was rushed out by other workmen and rushed to a ward in the hospital cooked flesh fell from his body. The burns are waist high.

Centrally Wash.—A warrant was issued by the superior court for the arrest of L. E. Young, the Adna blacksmith, who was detained a month ago on the suspicion of having murdered Mrs. O. E. Sant Huff at Adna and starting a fire to cover up the evidence of his crime. The warrant charges Young with murder in the first degree.

SHEEPMEN ACTIVE NEAR STANFIELD.

(Special Correspondence)
Stanfield, Ore., Nov. 29.—Quite a large number of sheep have been received and shipped from this point recently, the shipments from here being mostly to the Portland markets. Saturday twenty carloads were received from La Grande and Baker consigned to R. N. Stanfield, who is feeding extensively in this vicinity.

The Stanfield Ladies' Study club met Thursday afternoon for its regular semi-monthly session at the residence of Mrs. C. W. Spencer. Besides matters of business an interesting program was rendered consisting of a paper on the subject of "The Prominent Women of America" which was read by Mrs. James E. Pauett, also a paper by Mrs. Norton who had the subject, "The Relations of Europe with the Early Indian and Other Early Wars of America."

Thursday afternoon Mrs. Alex Reid entertained the Ladies' Reading club of Echo, several ladies coming over from Echo in the morning to spend the day, returning on the local in the afternoon.

L. E. Marchand of Lewiston, who is interested in the Buchholz Hardware Co. of this city is here on a business trip.

Mr. Lundberg, Jr. of Minneapolis, who has been visiting at Everett, Wash., is sojourning at Stanfield for a few weeks.

R. H. Irwin secretary of the Inland Irrigation company, is transacting business at Pendleton today.

Dr. Henry W. Coe and Frank Sloan were passengers on the local this morning to Hermiston.

Mrs. Charlotte Bell went to Seattle this morning where she will spend a couple of weeks visiting relatives and friends.

P. C. Holland, Col. H. G. Newport and E. P. Dodd were Stanfield visitors Thursday, having come over from Hermiston via automobile.

J. F. Robinson and Leon Cohen of Pendleton were in Stanfield Thursday. They "motored" down from the county seat.

MAKES WOMAN SLIM BY SLICING OFF SURPLUS FLESH.

Philadelphia.—Dr. W. Wayne Babcock at the Samaritan Hospital demonstrated the most up to date method of making a stout person slim and sylphlike, and allowing all women to glory in the straightest of "straight fronts" should they decree that such shall be the style. The technical name of the operation performed by Dr. Babcock for the edification of the surgeons attending the clinic is "resection of abdominal wall for obesity."

The patient was a woman. Twelve pounds of fat had been removed. The operation itself seemed to be simple. Dr. Babcock said that with a skilled surgeon, such an operation was not dangerous to the patient. Great care had to be exercised so that no muscles were severed.

WON'T WAIT FOR OPENING.

Vessels to Pass Through Panama Canal a Year Before Date Set.
New Orleans.—Vessels will be allowed to pass through the Panama canal before the official date of the opening, which has been set for January 1, 1915.

Major F. C. Boggs of the United States Engineers Corps at Washington, in a letter says:

"I am directed by the secretary of war to inform you that while the official date of the opening of the canal has been set for January 1, 1915, it is the intention to allow vessels to utilize the canal just as soon as practicable. Indications seem to bear out the opinion previously expressed by the chairman and chief engineer of the Isthmian Canal Commission that this can be accomplished during the latter half of 1913."

Jap Girl Comes to Wash.

Tacoma.—One of the Japanese proxy brides arriving on the steamer Canada Maru of the Osaka Shosen Kaisha is in a predicament, having forgotten the address of the bridegroom. The groom probably waits some place in blissful ignorance, expecting the message that will summon him to Tacoma, while ever present is the law that will deport the little bride if the husband is not found after a reasonable time. The immigration authorities have a record of all arrivals and as the little bride is able to tell some of the facts concerning his arrival in this country it is possible that the intended husband may be located in this manner.

Oregon Hens Are Prolific.

Corvallis, Ore.—Two hens in the department of poultry and husbandry of the Oregon Agricultural college have, it is believed, broken all records in egg production in the United States, with 259 eggs each for the last 12 months. The nearest that any other experiment station has come to breeding and feeding such prolific hens was done at the Maine agricultural college, where a hen produced 251 eggs in 12 months, several years ago.

No Candidates at Sumpter.

Sumpter, Ore.—Sumpter has been unable to secure a candidate for any of its municipal offices.

State of Ohio, City of Toledo, Lucas County—

Frank J. Cheney makes oath that he is a resident of the City of Toledo, Ohio, and State of Ohio, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY,
Notary Public.
Sworn to before me and subscribed in my presence, this 29th day of December, A. D. 1911.

(Seal)
A. W. GLEASON,
Notary Public.
Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.
