Football Player Killed.
Eugene, Ore., Nov. 24.—Virgil Noland, a freshman in college and left guard on the football team, died at the Sigma Nu Fraternity House and his body and the bed upon which he was found lying, were badly burned, the fire being the result of a strong electric current passed through the body from an electric bathrobe, connected by a wire with the electric lighting system of the Fraternity House.

May Postpone Game.
University of Oregon, Eugene, Ore., Nov. 24.—On account of the tragic death of Virgil Noland, right guard on the Oregon varsity football team, it is almost certain that the Oregon-Multnomah game, which is scheduled for Thanksgiving day, will be called off. Noland was pledged to the Sigma Nu fraternity, which had sent other men on the first squad. These are Chandler, Hall, Michael, Kellogg, Walker, Main and Kaiser.
At a meeting of the associated students this morning resolutions were passed making it imperative that the management cancel the Thanksgiving day game.

Wolgaust to Meet Wells.
Los Angeles, Cal., Nov. 24.—Tom Jones manager for Ad Wolgaust, the lightweight champion, said today he had accepted a proposition from Gil Boaz, manager of the Madison Athletic club of New York, for a fight between Wolgaust and Matt Wells, the English fighter, for December 16 or 23.

Mail Carrier Hurt.
Seaside, Or.—Jay Gillette was seriously injured while attempting to drive into the barn of the Lumbers ranch, six miles up the Necanicum river. The wagon was piled high with lumber and Gillette bent his head to avoid striking the floor above. The space was too narrow. He was caught on the back of the neck by a joist and his body twisted and doubled up. The vertebra separated in one place about two inches and other injuries were sustained. The spinal cord appears to be uninjured as the man can use his legs. He was brought to Seaside in an auto and was taken to the hospital in Astoria yesterday. The young man has carried the mail from this place on the Nehalem route for a long time.

Would Recall Eugene Mayor.
Eugene, Or.—Recall petitions are being circulated in Eugene against Mayor F. J. Berger and Councilmen W. A. Bell and F. R. Wetherbee. The matter is being kept quiet, but it is known to be in the hands of the same persons who recently circulated the petition against Councilman S. P. Ness and for the same motives. It is a result of the discharge of Chief of Police Farrington and Night Officers Stout and Blanton last August.

AID FOR UMATILLA ASKED BY BOARD

Salem, Nov. 24.—The desert land board, on behalf of the state of Oregon has written to President Taft urging the importance of approving as soon as possible the west extension of the Umatilla project and the necessary appropriation of funds for beginning construction.

"We understand that you are the only official who has the power at this time to reapportion the reclamation funds," says the letter, "and we most earnestly request that you authorize such a reapportionment. We feel that the state of Oregon has contributed more money to the reclamation fund and received less in return than any other state entitled to benefit under the reclamation act."

"We are informed that every authority, including the reclamation service, which has reported upon this project has considered it entirely feasible. Its low elevation, its proximity to market, and other commendable features make it without doubt one of the most attractive projects that has been considered by the reclamation service. We understand that the board of army engineers included in their recommendations appropriations of money for other projects which are by no means as feasi-

ble and desirable as the west extension of the Umatilla project."

Prisco Not to Get Overall.
Los Angeles, Nov. 24.—That there is little likelihood of Orval Overall, formerly of the Chicago Cubs, appearing next season in a San Francisco uniform, is indicated in a statement by Manager Frank Chance.

"All this talk," said Chance, "about Overall going to San Francisco is absurd, for the simple reason that he belongs to Chicago. As far as I know there have been no arrangements for his sale to the Seals, and if I can have my way, there will be none made."

Chance also intimated that he would again be seen in action on first base for the Cubs next season.

EX-KING PLAIN JOHN BOYES.

Former Ruler of 500,000 African Savages on Visit to London.

London.—The ex-king of 500,000 African savages is in London. He is not as might be supposed, a great painted, gayly bedecked, dusky warrior with an unpronounceable name, but a short, quiet, unobtrusive Yorkshireman, named John Boyes.

He won his kingdom by bluff and the aid of a clock and a musical box attachment, and retained it with the assistance of a gramophone and a knowledge of sleight of hand wedded to indomitable pluck and Yorkshire tenacity.

For three years, from 1898 to 1901, this dour, determined little white man, who received practically no schooling, and started life as a cabin boy and cook on a North Sea fishing smack, held sway over most of the fierce, treacherous Wa-Kikuyu natives of British East Africa.

LIMIT NUMBER OF CHILDREN AS WELL AS WIVES

Dr. W. T. Beldfield Says Law Should Grade Size of Families.

Chicago, Ill.—For a man with a limited earning capacity of \$3 a day to have more than three children is a crime against society, according to Dr. William T. Beldfield, who advocated the enactment of a state law limiting the number of children, as well as wives, in an address before the National Council of Women at the Auditorium hotel.

Attorney Carl A. Waldron another speaker, set forth the desire for, stage life, vanity and economic conditions as the principal causes for girls drifting into immorality.

In explanation of his statements, Attorney Waldron said that in addition to the girls who are willingly bad and those who allow themselves to be cajoled into evil by vicious men, there are girls innumerable who have an irrepressible desire to go on the stage, believing that there all paths are strewn with roses.

Then, too, according to the speaker, wages of working girls are so low that they are forced to either practice immorality or starve. This con-

dition can be remedied only by the business men themselves and until this is done much of the blame for white slaving should be laid at their door.

"Foreign girls and immigrants are unsafe on Chicago streets," said Mr. Waldron. "But I might add that many fallen girls get their start in a life of evil in the smaller country towns."

Dr. William T. Beldfield recommended state legislation whereby the number of children that a man might be allowed to have on a certain income be regulated.

"The state says that a man may have only one wife," said Dr. Beldfield, "and I see no reason why the state should not have the right and the power to say that he shall have only a certain number of children."

Another speaker was Dr. W. R. Minnick. He said that, in his opinion the Chicago postoffice was the greatest breeder of disease germs in the city. Bishop James Fallows also spoke, commending President Taft for his policy of increased naval protection.

ONLY ONE SLAYER IN 86 IS CAPITALLY PUNISHED

Administration of Criminal Law in the United States a Disgrace, Judge Says.

Omaha.—Quoting President Taft as saying "the administration of criminal law in this country is a disgrace to civilization," Judge C. A. De

Courcy of Lawrence, Mass., justice of the superior court of Massachusetts, before the American Prison association, pointed out that the United States was conspicuous for the great number of unpunished murderers.

The defense of insanity, the limitation of the power of judges and the character of the testimony allowed to be introduced in behalf of the defendant were some of the evils which, he said ought to be rectified.

"The number of homicides in this country for 1910 was 8975, an increase of nearly 900 over the number in 1909, yet but one in eighty-six was capitally punished in 1910, as against one in seventy-four during the year preceding," said Judge De Courcy.

It is said that in 1896 for each million of the population there were 118 homicides in the United States; in Italy less than 15; in Canada less than 13; in Great Britain less than 9; in Germany less than 5.

In the last year in London, with a population of 7,000,000, there were but 19 cases of murder. Of the 19 murders 5 committed suicide. All the others except 4 were arrested and either convicted and executed or committed to the insane asylum.
