Thanksgiving Signals Freezing Weather

POSSIBLY you've been able to get along very comfortably up to the present time without an overcoat. If so, you're fortunate, but remember that from Thanksgiving time forward King Winter rules with a frosty hand. Why wouldn't it be wise to prepare for Thanksgiving not only by securing a fine, fat turkey, but by purchasing an authentically styled Benjamin overcoat? We display these coats in a score of remarkably handsome patterns. Each model has that captivating "air" and every stitch is perfect. In all the world there are no other coats that can be compared with a Benjamin. Twenty dollars and upward. Make your Thanksgiving doubly happy by wearing clothes of unquestionable quality.

SPORTS

Oakland, Cal., Nov. 28.—Orval Overall, the greatest baseball pitcher ever turned out by California, predicts the end of his diamond career as a result of an injury to his twirling arm while pitching for Stockton against Oakland here Sunday. Overall threw his arm out and was obliged to leave the mound in the sixth inning. The arm is badly swollen, and the former Chicago Cub star announced that he probably would make a trip to Youngstown, Ohio, to have it treated by Bonesetter Reese, who doctored him for a similar accident two years ago. He fears that his arm will never be the same again.

Weston Girls Winners.
Weston, Ore., Nov. 28.—Athletic girls representing Weston high school and the Columbia college of Milton battled at basket ball in the local court Saturday evening. The visitors had numerous chances, but could toss but one goal, and were beaten by a score of 10 to 2. The attendance was large and the crowd remained for a basket social which netted a handsome sum for the basket ball treasury. Miss Sayde NorDean led in scoring for Weston.

Too Much Football Rooting.
Annapolis, Md., Nov. 28.—Antone Barilla, a member of the naval academy band, is dead today as a result of over-enthusiasm at the Army-Navy football game. Barilla was seized with heart failure while shouting in frenzy at Captain Dalton's kicking of goal which won the game for the middles.

Football Player Buried.
Klamath Falls, Ore., Nov. 28.—Virgil Noland, the University of Oregon football player, whose tragic death caused grief among the students and faculty of the entire university, was buried in this city Sunday. Students and classmates of Noland acted as pallbearers.

INTERIOR OFFICIALS DISPLAY IGNORANCE

THREATEN, WITHOUT CAUSE,
TO CANCEL WATER RIGHTS

Settlers on the Umatilla Project Receive Notice of Intention to Be Put on Blacklist and Water Users' Association Comes to Their Rescue.

(Special Correspondence.)
Hermiston, Ore., Nov. 28.—Several of the land owners under the Umatilla government project recently received from the general land office at Washington notices that their water rights have been held for cancellation on account of the nonpayment of dues. These notices were signed by the assistant U. S. commissioner. They allowed the applicant 30 days to make payment, threatening to cancel without further notice.

The commissioner held that when a building and maintenance charge are both due that it makes the two charges delinquent at the same time and for that reason the water right is held for cancellation.

The secretary of the Water Users' association sent a telegram to the commissioner of the general land office, stating that this is a mistake, and has received a letter in which the land office at Washington has confirmed the telegram of the secretary of the Water Users' association, and state in their letter that the cancellations have been recalled and that the water rights would remain intact. There are several holders who have received this letter from the government, and all have paid their 1908 and 1909 charges but the building charge and maintenance for 1910 is not paid, and they are allowed until March 1, 1912, to make this payment.

If the payment on the water right is not made, it is up to the Water Users' association to foreclose on the land and not for the government to cancel any water rights.

It seems to the people that the government needs some one at Washington who will understand the workings of the office, and not those who are trying to make it hard for the settler.

Some of these people who have received these notices understand that simply a mistake has been made, but others who do not know, and who are new to the government work are very much worked up over the letters received.

Mr. C. F. Morrow, who has for the past few years been connected with the Western Land and Irrigation company, as salesman for that company, has accepted a position with the Hermiston Bank and Trust company. He will take the position recently vacated by Mr. Otto G. Sapper.

Bronchitis Cured

MISS MAE RODGERS.

Duffy's Pure Malt Whiskey is invaluable for all throat and lung troubles. It gets at the cause and cures—gives permanent, not temporary, relief. The experience of Miss Rodgers is an example of its marvellous remedial qualities.

"For some time I was a sufferer from bronchitis and spent a great deal of money doctoring, until I heard through a friend of the wonderful merits of Duffy's Pure Malt Whiskey.

"Early in the fall I began taking it and since then have been entirely free from the bronchial attack. I consider it my duty to thank you but I have not enough words to say in praise of this wonderful Pure Malt Whiskey as a medicine that is good for every one."—Miss Mae Rodgers, 202 S. MAN OF 80 DRIVES 40 YEAR OLD HORSE

Weston, Ore., Nov. 28.—Amasa Phillips, 80 years old, is driving a horse just one-half his age, and both appear to be good for several years yet of work. Mr. Phillips is the owner of valuable Weston land and town property, and labor with him is not a necessity, yet he is never contented unless industrious from morning until night. He is now hauling gravel for a concrete building which he is erecting on his Main street lots for use as an automobile garage and implement warehouse. One of the horses he is driving was brought to West-

on from Utah by Joseph Blomgren, and its age of two score years is well authenticated. It has lost some teeth and its forage must be ground, but it is in good condition otherwise and tugs strongly in the harness.
