TO USE DYNAMITE TO LOOSEN SUBSOIL.

Houston, Texas.—December 27 will witness one of the most interesting experiments ever carried on in the Rio Grande valley when, under the direction of an expert from a powder factory, five acres of land at Raymondville will be blasted to loosen the subsoil.

According to William B. Newhall, on whose farm the experiment is to be tried, holes forty feet apart over this tract will be bored to a depth of five feet, and a charge of dynamite exploded in each.

It is expected that in this way the hard subsoil will be broken up to the depth. By this means the water storing capacity of the soil will be increased, and at the same time the loosening of the soil will allow of perfect subdrainage.

Mr. Newhall says that while the use of dynamite for this purpose is not new, it has never been tried in this soil.

DAN CUPID CHECKED BY NEW ELOPEMENT STATUTE.

Houston, Texas.—Dan Cupid has been delivered a solar plexus blow by the Texas state legislature, which decrees couples under the ages of 21 and 18 respectively shall not elope. The law reads that a swain of under 21 years with a prospective bride of less than 18 years must be refused a marriage license by county clerks unless such application is accompanied

by written consents from both parents of each. When applicants have no parents the county judge must be applied to for consent.

This law does away with the old time affidavit system which was easily evaded. Then should the prospective bride and groom be under age the swain would write "21" on a slip of paper and "18" on another. Then placing the "21" in his own shoe and the "18" in the shoe of his girl, they would both cheerfully swear they were "over 21 and over 18."

Catarth is an excessive secretion, accompanied with chronic inflammation, from the mucous membrane. Hood's Sarsaparilla acts on the mucous membrane through the blood, reduces inflammation, establishes healthy action, and radically cures all cases of catarth.

HETTY GREEN'S SON PREFERS TEXAS TO "GREAT WHITE WAY"

Houston, Texas.—Col. E. H. R. Green, owner of the Texas Midland railway and son of Hetty Green, prefers bossing his 111 miles of Texas to the "great white way," according to A. H. Dashiell, general attorney of the Midland.

"But his mother wants him to come back," declared Mr. Dashiell, "although I venture to say that Colonel Green will be back in the Lone Star state before the expiration of many days."

Mr. Dashiell said Mr. Green has not

been entirely happy since he deserted his Texas home for New York and much prefers to be running the Texas Midland than handling the Green millions in Wall street.

Colonel Green is a bonafide colonel being a member of the staff of Governor Colquitt of Texas.

ADMITS WRITING BLACK HAND LETTER TO BANKER

Seattle, Dec. 1.—Theodore F. Brezer, the bookkeeper who was arrested when he picked up a package supposed to contain money demanded under pain of death of E. W. Andrews, president of the Seattle National bank admitted today to the police that he wrote the two threatening letters received by Mr. Andrews.

Brezer's confession, according to the police, was made after he had compared his own handwriting with the letters. Brezer carefully examined the handwriting and then said: "Yes, that is enough to convict me. I did write the letters to Mr. Andrews."

EDUCATIONAL SYSTEM SHARPLY CRITICIZED

BANKER PICKS METHOD OF TEACHING TO PIECES

Says Scholars Are Merely Educated and Left to Prepare Themselves for Battle With Life—Not Fitted for any Line of Work.

Spokane, Wash., Dec. 2.—"The most alarming thing in our educational system is that while our boys and girls are obtaining an education they are not preparing for anything for which they are fitted; they are not fitted for any special line of work nor even for the ordinary vocations of life."

G. P. Wiley, a banker, of Waterville, Wash., who was the principal speaker at an executive session of the agricultural and educational committee of the Washington State Bankers' association in Spokane, thus emphasized the need of redirection in the public schools of the country. Continuing, Mr. Wiley said among other things

"In some way the boys are imbued with the idea that they must not do manual labor, but must have a 'white collar' job. Those who take part or all of a college course are imbued with the same idea. And it looked for a time as if our farms would have to be abandoned because our boys would not undertake to farm them. The result is there are not enough competent men to fill the demands of skilled labor, even at the highest wage."

"A great awakening has come and now the entire country is studying the why and wherefore. It has been found that our schools are turning out every year an army of consumers and very few producers and that while the progressive countries of the world by intelligent, practical scientific agricultural methods, have, during the last 15 years, increased the production of their farms from 36 to 53 per cent, American farms as a whole have actually decreased in their acre production during the same period."

"The situation calls for business organization and executive detail of high order, as many serious and far-reaching questions are involved. The banker and merchant can best appreciate the situation because they continually feel the pulse of trade and supply the credit which is so directly affected by these conditions."

Mr. Wiley also said that 100 years ago 90 per cent of the world's population lived on farms and that today only 33 per cent is engaged in agriculture, although the world's population has practically doubled. He suggested as a remedy the consolidation of rural schools, insuring better primary and secondary education; the adoption of a course in all public schools training the hand as well as the brain and the teaching of manual training, domestic science and agriculture and elective industrial courses.

BOTTLED NOTE TELLS OF INDIAN MASSACRE

Message Dated 70 Years Ago Reported Found in Ground Under Salem Home.

Salem, Ore.—What is believed to be evidence of an Indian massacre which took place in the earliest pioneer days was uncovered here by the little daughter of L. C. Denison, residing at Nineteenth and Ferry street. While playing in the basement of the home the young girl picked up a bottle which had been imbedded in clay for years, containing the following message, written on a soiled piece of paper:

"1810-1840—We are captured by Indians—expect to die any minute. You will find Park's body under the tree north, and—"

What more the writer intended to say will never be known, as the message stopped short after describing the burial place of the man Park. The bottle is a four-ounce affair, and

MAKES STOMACH TROUBLE VANISH

INDIGESTION, GAS OR DYSPEPSIA GO IN FIVE MINUTES

Heartburn and Sourness from Stomach and Other Distress Is Ended forever—A Little Diapiesin Now Will Certainly Make You Feel Fine Before You Know It.

Why not get some now—this moment, and forever rid yourself of stomach trouble and indigestion? A dieted stomach gets the blues and grumbles. Give it a good cat. Then take Pape's Diapiesin to start the digestive juices working. There will be no dyspepsia or belching of gas or eructations of undigested food; no feeling like a lump of lead in the stomach or heartburn, sick headache and dizziness, and your food will not ferment and poison your breath with nauseous odors.

Pape's Diapiesin costs only 50 cents for a large case at any drug store here, and will relieve the most obstinate case of indigestion and upset stomach in five minutes.

There is nothing else better to take gas from stomach and cleanse the stomach and intestines, and besides one single dose will digest and prepare for assimilation into the blood all your food the same as a sound, healthy stomach would do it.

When Diapiesin works, your stomach rests—gets itself in order, cleans up—then you feel like eating when you come to the table, and what you eat will do you good.

Absolute relief from all stomach misery is waiting for you as soon as you decide to take a little Diapiesin. Tell your druggist that you want Pape's Diapiesin, because you want to become thoroughly cured this time.

Remember, if your stomach feels out of order and uncomfortable now, you can surely get relief in five minutes.

shows evidence of having been buried or washed under the ground many years. When it was opened yesterday by the Denison family, it emitted a sickening odor. The paper within bore the message of pending death and injury at the hands of the Indians in lead pencil writing. Mr. Denison states he will take the message and bottle to Portland and present it to the historical society, and will make an effort to locate the grave of the man referred to in the epistle.

ADDITIONAL SPORTS.

Wolverton Recalled.

Oakland, Cal., Dec. 1.—That Harry Wolverton, manager of the Oakland Pacific Coast league club, has been recalled from Chicago to New York is the information given out here today by President E. N. Walter of the Oaks. Walter has been wired to the effect that Wolverton was recalled to New York by a mysterious telegram, the purport of which has been revealed to no one, but which is believed to deal with his proposed management of the New York Americans.

Clabby Defeats Land.

Sydney, N. S. W., Dec. 1.—Jimmy Clabby, the American middleweight, who is champion of Australia, has added another victory to his string today by beating Tim Land in every round of a 10-round bout.

Oregon Defeats Whitman.

Walla Walla, Wash., Dec. 1.—O. A. C., 5—Whitman, 2. That tells the story of yesterday's game. It was anybody's game and the pendulum of luck, which swung back and forth during the entire contest, came to the O. A. C. side at the crucial moment, and the Oregon Aggies won. They were not the better team, but theirs were not the worse. The teams could

Weak Stomachs MADE STRONG BY USING

Duffy's Pure Malt Whiskey

A tablespoonful in milk or water before meals and retiring will correct disturbances of the stomach and bowels. It aids digestion, builds new tissues, quickens the circulation. It tones the system and keeps the organs healthy and active. It enables the old to enjoy the sports of youth and keeps the young strong and vigorous.

Sold by druggists, grocers and dealers in sealed bottles, price \$1.00. If you can't procure it, let us know and we will tell you how to obtain it. Write for free doctor's advice and book of recipes for table and sick room.

The Duffy Malt Whiskey Co., Rochester, N. Y.

hardly have been more evenly matched. It was anybody's game.

The O. A. C. score came after Niles had executed a pretty drop kick from a difficult angle, after Whitman had twice held in the shadow of her own goal, after Niles had punted out of danger, just timed when Whitman was not watching for such a move.

Seattle, Dec. 1.—The Washington State college football players were beaten yesterday, 20 to 6, by the University of Washington, the champions of the northwest, but made an excellent showing, gaining a touchdown and kicking goal.
