

HOW ONE WOMAN WON

Her Health and Strength Back Again by The Use of Cardui.

Tampa, Fla.—In a letter from this city, Mrs. E. C. Corum writes: "I was all weakened and worn out with womanly troubles. My husband brought me some Cardui as a tonic, and, from the first day, it seemed to help. I had almost lost my reason, but, thanks to Cardui, I did not. Soon, I felt and looked like a new woman. I think the remedy is wonderful. I recommend it to my friends, for I have received great benefit from it."

Cardui acts specifically on the weakened womanly organs, strengthening the muscles and nerves, and building them up to health.

It helps to refresh the worn-out nervous system and relieves the effects of overwork, both mental and physical.

Fifty years' successful use fully prove the merit of this purely vegetable, tonic remedy for women.

In every community, there live some who have been benefited by Cardui.

The beneficial effects of this time tested woman's remedy, soon show themselves in many different ways.

Try it.

City Marshal.

"She is Waiting"

and so are those she is waiting on. And mind you, a good high-ball is well worth waiting for. Good, pure, wholesome Rye Whiskey, like the brands we are now selling, will make one wait patiently, but enjoy the wait when the liquid arrives—cool, comforting, and refreshing. If you are a high-ball lover, better try a bottle of this splendid Whiskey of ours. You will always want that brand afterwards. And the price will satisfy you, too.

EMPIRE CLUBS BACK RIVER IMPROVEMENT

Spokane, Wash., Dec. 6.—When United States Senator Miles Poindexter of Spokane, and Captain Fred McDermott of Kettle Falls, Wash., appear before the board of United States river and harbor engineers in Washington, D. C., on December 11, to urge the rejection of an adverse report regarding the improvement of the Columbia river between the Snake river and Wanatchee, they will be fortified with telegrams from officers of the Inland Empire Federation of Commercial clubs, representing a membership of 15,000 in eastern Washington and Oregon and northern Idaho, giving adequate reasons for the opening of the river from the boundary to the sea.

Robert J. Maclean, secretary of the Spokane chamber of commerce and the Inland Empire organization, who is a member of the National Rivers and Harbors Congress said in an interview today:

"If the river is open to navigation the entire Columbia watershed will furnish freight for the Panama canal. This will mean an immense and ever-increasing business between the interior and the ports of the world, also that the development of the Inland Empire will go forward with a rush. It means immediate increased activity in agriculture, lumber and mining."

"Telegrams from every commercial club, board of trade and chamber of commerce in the Inland Empire to Senator Poindexter and other western members of congress will show the board of engineers that the entire country is interested and that we desire immediate and favorable action, notwithstanding the report of the federal engineer in charge of the Columbia river above the mouth of the Snake river. We should have the cooperation of every commercial organization in Washington, Oregon, Idaho and Montana in this project, which involves the expenditure by the government of \$7,000,000."

HARRIMAN MEN ARE SURVEYING NEW LINE

Ontario, Or., Dec. 5.—Railroad construction in the Malheur canyon, possibly by the first of the year, and not later than early spring is the report said to originate from Harriman railroad officials. This report is given stimulus by an inspection trip of W. H. Wadsworth, general manager of the Utah Construction company, over the survey of the Oregon & Eastern through the Malheur canyon. This company, it is said, has the contract for the construction of the road west through the canyon to Burns. Work is now going on in the canyon, three crews of surveyors working nearly 100 men are busy with permanent location and cross section work.

The difficulty with the government over the power site in the Payette river canyon has been settled. There are 50 grading camps with over 1000 men scattered through that canyon for a distance of 100 miles. The Idaho Northern will be built from Emmett to the Payette lakes through High valley and Round valley into Long valley, and trains running by next summer, it is said. By straightening the Payette Valley road and running that line due west from Fruitland, a distance of only two miles it will connect with the Malheur Valley road at Ontario. The Payette valley railroad bridge at Payette is only a temporary structure, and has been taken out nearly every spring by high water. If it was to remain permanent it is reasonable that a more permanent bridge would be built at that place.

TRAP SET FOR THIEVES.

Hoosier Farmers Also Guard Crops With Guns.

Columbus, Ind.—Many of the farmers of Bartholomew county have set traps in their corn cribs and chicken coops in the hope of catching sneak thieves. They say that thieves are stealing their corn from the fields from the cribs, and chickens, turkeys and other fowls from the coops. So numerous and active have the thieves become that some of the farmers say they are guarding their property with shotguns.

Beware of Ointments for Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made by Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price, 75c per bottle. Take Hall's Family Pills for constipation.

Fine Pianos Take A Fearful Fall

An Astounding Proposition--Why it Occurred. Lowest Prices Ever Seen in Print.

ARRANGEMENTS were completed last week, in compliance with instructions received from the piano manufacturers to the effect that our entire stock be turned into money or interest bearing paper at once. A long drawn out rehearsal of the several unforeseen circumstances that have compelled us to make this move would not be of general interest, and only occupy valuable space, so suffice it to say that our entire stock of pianos and organs must be disposed of before Monday, December 11th. There remains for us no other alternative. We have to close out every instrument in stock offering every piano and organ at such low figures as will dispose of them quicker than we could have them boxed, carted and shipped and in pursuance of this undertaking, we desire to frankly state that while we regret to quote such low prices as to disarrange the immediate future music trade here, we feel obliged to make such figures and favorable terms as will insure the sale of every instrument within the next twelve days at which time this store will be for rent and it shall be vacant.

In this stock are included some of the finest, most costly instruments to be had in America. New and beautiful Baby Grands and some 39 uprights and a most complete assortment of the latest 1911 and 1912 styles and designs, including the nation's greatest, the Chickering, and the world's renowned and justly celebrated Kimball, besides numerous other New York and Chicago makes the sale and distribution of which was controlled by this store.

THE PRICES

In order to protect the interests of the dealers who handle these makes of pianos, no prices at which these instruments are now for sale can be quoted here, but every new piano and organ will be sold at less than its actual factory cost. Discounts of from 10 to 15 per cent on the actual cash cost of instruments will be made on slightly shopworn or those that have been rented or become second hand.

You will find here now several square pianos for sale at \$47, \$60, strictly modern instrument with carved legs and round corners, worth \$100 and \$125, respectively at the lowest estimate. Several second hand uprights and used organs for a mere song. We must have them out of the way. One \$38 and one \$47 and one for \$56.

\$275 upright will go for \$174, these are well known New York makes and have never been sold East or West for less than \$275 heretofore. There are others that will go for still less money, though all are good reliable pianos.

The Chickering, the Sohmer, the Steck, the Kaakauer, the Story & Clark, the Kimball and other well known makes are the nation's highest grade and most renowned makes.

We offer tomorrow a strictly high class seven and one-third octave piano, beautiful polished plain panels, full swinging duet music desk, revolving lock board, continuous nickel hinges and three pedals (the third a soft or practicing pedal), for \$288 which is less than half price. A fancy mottled figured walnut or a most beautiful dappled San Domingo mahogany case costs \$36 more.

Some plainer, yet very beautiful instruments can be had for \$227 and for \$185. Almost \$200 below the lowest retail price of this grade of instrument in any other city.

Largest cabinet grand size, thoroughly warranted upright pianos, in Mahogany or Oak standing four feet nine inches high, with latest duet music desk, rolling fall board, three pedals and all up to date improvements, instruments that we guarantee can not be bought at the New York factory for less than \$350 each, go during this sale for \$227 and plainer styles for \$195. The dark and smaller cases are still less.

Another well known make, recognized everywhere in the trade as most honestly constructed, most perfectly finished and most durable piano made, in beautiful plain mahogany or quarter sawed oak cases, retail price \$450, now \$312, on easy terms.

ON EASY TERMS

WITH the exception of the four highest priced, very elaborately hand carved styles, the cost of which is over \$350 and on which terms of payment will not be made less than \$50 down and \$15 a month, all pianos are for sale on payment of \$15, \$20 or \$25 down and at the rate of \$8 or even \$6 per month, according to makes, styles and designs. Since all prices are based upon actual cash cost, those taking advantage of the above named easy terms, will pay interest on deferred payments at 8 per cent per annum.

Every piano or organ sold will be accompanied by the respective manufacturers' five years' warranty, duly countersigned, thus fully protecting a customer in every way.

This sale as above will be at 813 Main Street, and commences at 8 o'clock tomorrow morning and if everyone could realize the exact situation as it is, nothing would be left for sale after tomorrow. Store and office fixtures, typewriters, desks, etc., for sale for delivery in ten days and no decent offer will be rejected. Store open day and night till sale closes.
