### AT THE PICTURE SHOWS

**Orpheum.**  
Big Edison feature film for Sunday and Monday.

1. "The Black Arrow." This is one of the most ambitious subjects ever put out by the Edison company. A cast of 300 people, an outlay of \$1,500 for costumes alone, the special erection of three large buildings, weeks of rehearsal were necessary to produce this subject. This is the first of the works of Robert Louis Stevenson, the noted novelist to be put in motion pictures.

2. "The Rose of Kentucky." Biography. A little girl, having lost her mother by death, was adopted by a planter. As he watches her progress he realizes a growing interest in her. Too old to be her husband, he encourages her interest in his young partner. However, she loves her benefactor, as the young man shows a yellow streak when night riders attack the planter.

3. "Western Hearts." Selig. A dramatic epic of the Colorado hills. A good picture. In this picture the most thrilling ride ever photographed

is shown.  
4. "A Gay Time in New York City." Lubin. Arthur gave his boss the slip so he could go with a friend to New York. Boss met Arthur's mother who was supposed to be sick. She was a widow—and 40. Now Arthur calls his boss "Pop."

#### The Pastime Theater.

Sunday and Monday, December 17 and 18.

We have secured exclusive rights to show "Dante's Inferno," the motion picture that has taken America by storm. Don't miss your opportunity to see the crowning achievement of the film world. Five reels. Five thousand feet of the world's greatest sensational production.

"Dante's Inferno." The pictured story of a trip through Hydes. The poet, Dante, under the guidance of the Poet Virgil, is taken through the Infernal Regions. One would wonder how it is possible to convey in pictures all the subtle meaning of the printed words, to follow the dangers by which Dante was bested in the dark and gloomy forest, to show the "light panther" which barred the way and would not move, the lion of which the "air itself was afraid;" the

greater after its maw was gorged with food; how was the meeting between Dante and Virgil to be made probable and intelligible in pictures. Two days only, December 17 and 18.

#### THOUGHT HE COULD GET DRINK IN POLICE STATION

Mistake of a Brooklyn Man "After Hour" Lands Him in a Cell.

New York.—Mistaking the Bedford avenue police station, Williamsburg, for a saloon early one morning, James Mulhearn entered the building and stepping softly up to the lieutenant's desk and leaning over the brass railing, he said to Lieutenant Fleming: "Excuse me, boss, but I know it's after hours. Hand me over the booze and let me have two hockers, with a little soda as a chaser."

As Fleming looked up from his dimly lighted desk and asked his visitor if he realized where he was, Mulhearn dropped two olives on the blotter and told Fleming to be quick, as he was in a hurry.

Just then a patrolman entered the police station, and Lieutenant Fleming directed him to show Mulhearn the front door. Mulhearn began to

### JUST TRY A TEN CENT BOX OF CASCARETS

Insures You for Months Against a Sick Headache, Biliousness, Constipation or Bad Stomach.

Put aside—just once—the Salts, Cathartic Pills, Castor Oils or purgative waters which merely force a passage through the bowels, but do not thoroughly cleanse, freshen and purify these drainage or alimentary organs, and have no effect whatever upon the liver and stomach.

Keep your inside organs pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the decomposed waste matter and poisons in the intestines and bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have headache, biliousness, coated tongue, indigestion, sour stomach or constipated bowels. Cascarets belong in every household. Children just love to take them.

show fight and declared he could clean out the place in a few minutes. Before he could do so three policemen seized him and after considerable trouble Mulhearn was landed in a cell on a charge of intoxication. When he was arraigned later before Magistrate Dood, in the Manhattan avenue police court, he was in a penitent mood, and said:

"Your honor, I really thought that gloomy looking station was a gin mill. You can believe me or not, I'll never make another mistake like it."

#### MISSOURI PRAISE COSTS LEG.

Man Alleges North Dakotan Disputed Claims With Punishment.

Springfield, Mo.—Alleging that a North Dakota man took exceptions to his assertion that Missouri was a better place in which to live than the northern state, and so abused him that he was compelled to lose a leg, J. W. Hoppe of Willow Springs is suing Edward Janke in the circuit court here for \$5000. Hoppe claims that when he asserted Missouri was superior to North Dakota Janke knocked him down, beat him and broke his leg so severely that the limb had to be amputated.

### ROBBERY IS INVITED BY DRESS OF WOMEN

Police Chief Says Prevailing Styles Make the Work of Thieves Easy.

Baltimore.—"The tight skirts worn by fashionably dressed women are an invitation to pickpockets and thieves," said Chief of Police Farnam. The Baltimore chief has been making a study of the effect of styles of dress upon the pickpocket's art. "Women will carry handbags containing money and valuable papers," he said. "Time was when women had pockets in their dresses where they could put a wallet or purse, but nowadays their gowns are built so tight that they couldn't slip a folded \$1 bill into them without making them bulge."

"There was another time when women could stick valuables, money or small wallets and purses into the bosoms of their gowns, but they can't do that now for most of their gowns button up the back, and somebody would have to put on the purse in and go along to unbutton it out. Women carry handbags along dark streets; a purse snatcher rushes out on them. There is a short, sharp struggle, if the woman is the least bit plucky, but the purse snatcher generally wins."

### FOUR CKT. WEDS 278 POUNDS

Heavyweight Newby's Forced to Ride on Honeymoon in Hayrack.

Dover, N. H.—Samuel Chesley Drew, who weighs 456 pounds, pride of the New England Fat Men's association, is back at his home after a honeymoon trip with his bride, formerly Miss Rose Lavigne of Rochester, who tips the scales at 278 pounds. As there was no carriage in Dover capable of carrying them, they were hauled from the train to their home on a hay truck.

The marriage of Mr. and Mrs. Drew was the result of a romance which had its beginning in the State hospital and poor farm here. Drew is the head chef and Mrs. Drew chief nurse in the insane ward.

### PASTOR ORDERS DANCE MUSIC FOR HIS CHURCH

Undismayed by Comment on "Every Little Movement," He'll Have It Repeated.

Chico.—The Rev. Madison Slaughter, pastor of the Chico Baptist church, promises something lively and sensational at the regular services and possibly a repetition of "Every Little Movement Has a Meaning All Its Own," the rendition of which caused considerable comment.

In an interview he defended catchy music as a feature of church services saying: "The idea is prevalent that a church is confined to certain lines of music and that any attempt to appropriate a strain of music from some author whose production has been largely used for dancing is not to be tolerated by the sporting and pleasure loving world."

"Let it be known that the musical

## MOST CERTAIN WAY TO END A BAD COLD

RELIEVES SEVERE GRIPPE MISERY IN A FEW HOURS

It is a positive fact that a dose of Pape's Cold Compound taken every two hours until three consecutive doses are taken will cure grippé or break up the most severe cold, either in the head, chest, back, stomach or limbs.

You distinctly feel the cold breaking and all the disagreeable grippé symptoms leaving after the very first dose. It promptly ends the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges. Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippé.

Take this harmless compound as directed, with the knowledge that there is no other medicine made anywhere else in the world which will cure your cold or end grippé misery as promptly and without any other assistance or bad after-effects as a 25c package of Pape's Cold Compound which any druggist in the world can supply.

art is not copyrighted and the use of a pearl in some dusty attic does not really injure the pearl. Betting on some fine horse does not make the innocent horse impure.

"If music is good why should not the church use it and redeem from the world of dancing and even the saloons such music as has been used to entice people into the places."

"There was a time when the use of a fiddle in church would have been fine news for the newspapers, but sensible people have found that the 'devil in the fiddle' idea belongs to the dark ages."

"I have asked our orchestra to repeat the music for us next Sunday evening and if the dancers have found anything else which is really music minus ragtime, we will use it, too."

### FRONT SEATS AT BIG VOLCANO.

Hawaiian Fire Spouter Mutinies, Then Fills Air With Sounds and Smoke.

Everett.—Captain Martin Christopherson, master of the barkentine Mary A. Winkelman, taking on lumber at the wharf of the Clark-Nickerson Lumber company, gives an interesting description of a volcano in eruption, Mount Kilauea, on the island of Hawaii.

"I have seen many sights on the ocean," says the captain, "but nothing so awe-inspiring as this eruption. The mouth of the volcano is three miles wide and 1500 feet deep. We were able to get a good view of it. Sometimes the molten lava would be carried to the rim of the crater and then go rushing down the mountain, a torrent of fire."

"The roar of the volcano made it impossible for one person to hear another. We stopped at Hotel Volcano, twelve miles from the crater, and even there the smoke came out of fissures of the earth. The ocean has its dangers, but I prefer them to living within range of a volcano."

### SINKING RICHES IN AUTOS.

Greensburgh, Pa.—Heir to a fortune of \$40,000 bequeathed to him by a spinster aunt, Russell Sherock, aged 22 years and married, is a prisoner in the Westmoreland county jail, awaiting the outcome of a serious charge preferred against him by John Mathey of Carbon, father of 14-year-old Mary Mathey, a principal in the escapades of the young fellow.

Suddenly finding himself the possessor of a fortune, young Sherock, who prior to that time had been a steady worker, took to the pleasure of automobile, and "joy riding" became one of his great pastimes.

Sherock is from Jeannette and in company with his brother, Wallace Sherock, and Red Loughrey of the same town, he met the Mathey girl and two others on Pennsylvania avenue, this city. The men proposed an automobile trip to Ligonier, and the girls consented and the trouble all grew out of that trip.

Since Sherock received his fortune, about two weeks ago, he has ruined two automobiles.
