

KID GLOVE CORPS ON TRAIL OF BOMBMEN

DEPARTMENT OF JUSTICE SLEUTHS TURNED LOOSE

Most Efficient Secret Service in the Entire World Will Ferret Out Alleged Conspiracies of Dynamiters in United States.

Washington, Dec. 16.—The government has turned the secret service force of the department of justice loose on the trail of the dynamite conspirators. This is the real secret service corps of the United States. Its operatives are a together the most silent, least advertised, least known, most efficient and terrible set of men hunters in this country, and probably more efficient than any foreign body of secret agents.

It is the policy of the government never to give out the number or the names of the department of justice secret service agents, never to recount their exploits or reveal their methods. Chief Wilkie's corps in the treasury department catches coun-

terfelters and guards the president, and the deeds of its members are widely known. The postoffice inspectors are quiet when at work but after an arrest is made they become court witnesses and the stories of their exploits are told.

But the justice department's detectives always remain hidden. They have the widest range of activities of any government force of sleuths. Today an agent may effect the capture of some wretched thief in an outlying government office; tomorrow he may start on the track of a red-handed murderer on the high seas; next spring he may be the suave clubman and society favorite whose clever operations bring to bar the record-destroying trust magnates. But his identity is never revealed.

One day a tall gentleman, impeccably clothed in a hard-weave gray trowsers, frock coat and silk hat, gloved and gaitered, enters the department of justice building, swinging a slender walking stick. A clerk may whisper to you that he is so-and-so, secret agent. And it gives you a glimpse of what the service is. This agent can play the society dandy or foreign nobleman if necessary to his purposes. Or he can get into a jumpier and overalls, crop his hair, and be able to catch some desperate fugitive from justice. It's all in his line of work.

SHE GAVE UP ALL HOPE

Physicians Failed To Help Mrs. Green, But She Finally Found Relief in Cardui.

Meeteet, Va.—Mrs. J. C. Green of this place, says: "I suffered with womanly troubles so that I could hardly sit up. Two of the best doctors in our town treated me, and I tried different medicines, until I gave up all hope of ever getting well.

One day, I decided to try some Cardui. It did so much for me that I ordered some more, and it cured me! Today, I feel as well as I ever did in my life.

The pains and the trouble are all gone. I feel like another person in every way. I wish every sufferer could know what Cardui will do for sick women."

A few doses of Cardui at the right time, will save many a big doctor bill, by preventing serious sickness.

It tones up the nervous system, and helps make pale cheeks fresh and rosy. Thousands of weak women have been restored to health and happiness by using Cardui. Suppose you try it. It may be just the medicine you need.

The headquarters of the kid-glove service is in an upper room in the department of justice building. It is a Spartan-line room, rugless and with cheap oak furniture, entirely unlike the luxurious offices in the rest of the building. Stanley W. Finch is chief of the service. His desk is littered with reports and photographs of men wanted. He receives a constant string of telegrams and long distance telephone messages from his agents. The number of his force is not known, but it is probably about 150.

CONNECTICUT WOULD GIVE TATT 30-POUND TURKEY

Waterbury, Conn.—Connecticut hopes to supplant Rhode Island this year for the honor of supplying President Taft's table with a Thanksgiving turkey.

A local farmer has an especially attractive and supposedly toothsome gobbler which already weighs nearly thirty pounds, and which will take on added weight under the special training of the weeks to come.

It is being fed on a diet of blended cereals mixed with nuts, wild rice and wild celery steeped in sweet wine. This diet is expected to produce a piquant taste, something like a combination of Scotch quail and American woodcock.

Hitchcock to Resign, Rumor.

Washington, D. C.—Postmaster General Hitchcock has absented himself from the postoffice department for several days and rumors of his resignation are afloat again. Em-

ployees of the department say that he had simply dropped out of sight, but was expected to appear day after tomorrow.

In the meantime there is a well defined rumor that the Postmaster General and political adviser of the Taft administration will hand in his resignation shortly.

HAZED BEFORE GIRLS.

Annapolis "Piebes" Forced to Go Through Contortions as Viewers Watch Them.

Annapolis, Md.—An incident unparalleled in the history of the hazing code at the naval academy took place when two piebes were compelled to do several physical exercises in the presence of two giggling girls, before whom an upper classman was endeavoring to show off. The members of the hazing's class do not intend to support him and they are now endeavoring to identify him. If they fix the guilt upon him they will take effectual means to have his connection with the naval academy severed.

The young women are understood to be from out of town and to have attended the hop on the previous evening as the guests of the midshipmen who did the hazing to amuse them.

According to the code, the under classmen have a right to appeal to the upper classmen when they think they have been mistreated or subjected to anything beyond what the traditions of the academy allow. This one of the piebes did, and he was at once informed that he had made a proper appeal and that the upper classmen would stand by him.

KILLS FATHER IN SELF DEFENSE

Flint Woman Says Her Parent Threatened Her Husband and Mother.

Flint, Mich.—Mrs. Francis M. Mills, 22 years old, shot and instantly killed her father, Frank Young, at the Mills home near this city. She says that she shot to save not only her own life, but those of her husband and mother as well, and that the father, with gun cocked, had threatened death to the three. Pending an investigation both Mills and his wife are in jail.

Mrs. Young was ordered from her home and went to the home of her daughter. She was followed there by Young who carried a double-barreled shotgun. He asked his wife to return home with him, which request was refused.

Young, according to the Mills statement, drew and cocked his gun and uttered a threat that he would kill the whole tribe. Mills jumped at him and grabbed the gun, but was thrown off; when Mrs. Mills reached inside the kitchen door, got her husband's gun and fired the shot that killed her father.

"It is an awful thing to kill your

own father, but I did it to protect my mother and husband," she said. When Young's gun was picked up both chambers were loaded and both hammers cocked.

GIRLS, AS TEST, LIVE ON SEVEN CENTS A DAY

Prospective School Teachers Get Twenty-one Meals for Just Forty-nine Cents.

Cincinnati.—For a week several young women, pupils of the senior class of the Cincinnati Kindergarten Training School, have conducted an experiment in dieting the results of which indicate that it is quite possible for a working girl with a knowledge of food preparation to secure good food at an average cost of 12 cents a day. If she cannot afford this, she can get along nicely on as little as seven cents a day, which is what the prospective teachers accomplished in their trial.

In order to carry out the test thor-

oughly the girls were given a model flat which was fitted up by the school board. They did their own house-keeping, marketing and prepared their meals, besides doing their regular class and special work.

Here is the seven-cent menu: Breakfast—Cornmeal mush and milk, brown bread or toast, coffee or cocoa.

Luncheon—Peanut sandwiches bread and jelly squares, fruit.

Dinner—Split-pea soup, cream, codfish on toast, apple dumplings with sauce, tea.

It is expected that the results of the experiment will be applied when a model working-girl's flat is established in connection with the Schmidlapp Model Homes.

There is a meaning in all this ef-

fort to reduce the cost of living," one of the girls said. "If a working girl can be helped to live better on her modest wages it means that she is just that far safeguarded from dangers of many kinds."

HAD BEEN DOCTORING A YEAR FOR ECZEMA

A Remarkable and Convincing Statement of the Success of Cuticura Soap and Ointment in the Treatment of the Pain, Itching and Burning of Eczema

"I, the undersigned, cannot give enough praise to the Cuticura Remedies. I had been doctoring for at least a year for eczema on my foot. I had tried doctor after doctor all to no avail. When a young girl I sprained my ankle three different times, paying little or no attention to it, when five years ago a small spot showed upon my left ankle. I was worried and sent for a doctor. He said it was eczema. He drew a small bone from the ankle about the size of a match and about the length of a finger. The small hole grew to about the size of an apple, and the eczema spread to the knee. The doctors never could heal the hole in the ankle. The whole foot ran water all the time.

"My husband and my sons were up night and day wheeling me from one room to another in the hope of giving me some relief. I would sit for hours at a time in front of the fireplace hoping for daybreak. The pain was so intense I was almost crazy, in fact, I would lose my reason for hours at a time. One day a friend of mine dropped in to see me. No more had she glanced at my foot than she exclaimed, 'Mrs. Finnegan, why in the world don't you try the Cuticura Remedies?' Being disgusted with the doctors and their medicines, and not being able to sleep at all, I decided to give the Cuticura Soap and Cuticura Ointment a trial. After using them three days that night I slept as sound as a silver dollar for eight long hours. I awoke in the morning with but very little pain, in fact, I thought I was in heaven. After using the Cuticura Remedies for three months I was perfectly restored to health, thanks to the Cuticura Soap and Ointment. I will be sixty-four years of age my next birthday, hale and hearty as present." (Signed) Mrs. Julia Finnegan, 2234 Hebert St., St. Louis, Mo., Mar. 7, 11. Cuticura Soap and Ointment are sold throughout the world. Send to Potter Drug & Chem. Corp., Dept. 12A, Boston, for free sample of each with 32-p. book on the skin.

The Song of the Foam is "Home, Sweet Home"

(Baritone and Bass Song)

As sung by HARRY MAYO of The Empire City Quartette

Words by ARTHUR J. LAMB

Music by SEYMOUR FURTH

1. O - ver the night - y o - cean main, Fear - less of heart go I.....
2. Some-times the o - cean rests in peace, Lit by the moon's fair gold,.....

Hear - ing the sea - gulls' cry a - gain, Hear - ing the wild wind sigh!.....
Seem - ing as tho' all storms must cease, Just like a tale that's told;.....

What tho' the night may be dark a - bove, Bright in my heart is the light of love,
But tho' the wa - ters may be at rest, Love's gen - tle tem - pest is in my breast,

Tem - pest or calm are the same to me, This is the song of the rest - less sea,
Still calm or storm are the same to me, This is the song of the rest - less sea.

REFRAIN.
Larghetto Tempo.

I hark to the knell of the light - house bell,..... That
oft - en has warned be - fore,..... But the
song of the foam is "Home, sweet Home," For - ev - er and ev - er -
more!..... Oh! the song of the foam is "Home, sweet Home," For - ev - er and ev - er -
more!..... more!.....
