### WHO ARE THESE SPORTY ATHENANS?

Weston, Ore., Dec. 28.—The Weston Leader says:

"It is related that over at Athena a few nights ago a quartet of local sports 'sat into' a poker game with an affable stranger who wanted amusement and looked like a good prospect. The stranger had no coin to speak of, but presented a check drawn to his order for several hundred dollars. Against this check the quartet had \$50 in gold and two of them drew checks for \$10 each.

"The session lasted all night, and was so financed that every time the stranger wanted coin he was supplied out of the \$50, the several amounts being set down against his check. Very likely the quartet expected to acquire all or the major portion of the check and to split the proceeds four ways. If so, their plans proceeded auspiciously, as the stranger lost while they won. When the game wound up and the bunch went to breakfast, the stranger had the \$50 in coin and the two \$10 checks, while the sports had the big check, and were satisfied. He cashed in the \$10 checks at the restaurant, remarking that he had to go to Pendleton and would return in the evening to get the small balance due him out of the big check held by his opponents. Instead, he went toward Walla Walla.

"The local sports roosted on the steps of the Athena bank until it opened, and then found that the stranger had somehow given instructions to stop payment. Consequently they are out just \$70, but aren't put up a 'holer' because the law is not very amiable disposed toward the great American game of poker."

### PASCO IMPROVEMENTS COST OVER \$600,000

Pasco, Wash.—At the meeting of the city council City Engineer Joseph W. Hamilton submitted a report which in detail sets forth the many municipal improvements made by the city during the past year. A rough estimate as to the amount of municipal improvements made last year sets the figures at over \$590,000. According to the report of the city engineer, these improvements cost Pasco exactly \$607,000, the latter figure including work now under way, which was not included in the former estimate. Among them is the municipal dock, costing \$10,000.

### SPORTS

#### Westerguard Wins Match.

Knoxville, Tenn., Dec. 28.—Jesse Westerguard won his match with Zbyszko, the Polish wrestler last night. The latter agreed to throw Westerguard twice in an hour, but did not gain a fall.

#### Gotch Defeats Munroe.

Kansas City, Mo., Dec. 28.—Frank Gotch, world's wrestling champion, defeated Alec. Munroe, the English champion in straight falls here last night. The first fall came in twelve minutes and the second in eight minutes, five seconds, each with a half Nelson and crotch hold.

It was the easiest match Gotch has had for several years. The Englishman displayed scant knowledge of the game, and Gotch, it seemed to the spectators, merely played with him.

#### Moran Issues Challenge.

New York, Dec. 28.—Owen Moran, the English fighter, arrived from England on the Olympia last night, sounding defiance to everybody in the lightweight division of pugilism. "I have come here to make a match with Ad Wolgast," said Moran, "and I hope to defeat him or any other who regard themselves as champions. To prove that I am capable I will take on other men in Wolgast's class and deal with them first, giving away weight to some of them and fighting any man at 133 pounds."

#### Flynn Whips Caponi.

Salt Lake City, Utah, Dec. 28.—After two and a half rounds of tame and uninteresting milling last night, Jim Flynn of Pueblo whipped across two effective punches and Tony Caponi went down for the count of ten.

Caponi was outclassed from the moment he stepped into the ring and was totally unable to hold Flynn at long range. Neither man showed speed and not an effective blow was struck until near the close of the second round when a left hook to Caponi's jaw staggered the middleweight and sent him to his corner looking worried.

Flynn did not exert himself. He was fat and palpably in poor condition but he outweighed Caponi nearly twenty pounds, and the lighter man's blows which had little steam behind them did not serve to check his steady advance.

#### Morris Gets Decision.

New York, Dec. 28.—Carl Morris, the Oklahoma engineer, outfought Tom Kennedy, the New York heavy-weight, in eight rounds of a ten round bout at the Empire Athletic club last night.

In the general opinion of those at the ringside, neither of the white hopes showed any advancement toward their aspirations of some day wrestling the world's championship

from Jack Johnson. The heavier Oklahoma man, weighing 223 pounds, as compared with Kennedy's 215, was considered too slow and Kennedy's much praised foot work proved a disappointment. The New York man showed great gameness in taking punishment. He had so much the worst of it in the latter rounds that many of the spectators shouted to Referee Dan Tomp to stop the bout, but he declined to do so.

#### SHOES TO RAISE AGAIN.

Fifty Cents Per Pair Increase Is Said to Be Likely. Brockton, Mass.—Shoes will cost 50 cents more a pair, next autumn, wholesale and retail, if contemplated advances are made, and the public must pay \$4.50 for footwear which cost \$1 less in the autumn of 1910.

Manufacturers profess to be unable to foresee when there will be a reduction, or when prices will stop going up. They are explaining the situation in catalogues sent out for the autumn and winter of 1912 to distributors.

Removal of the duty on hides by the Payne-Aldrich tariff law did not cheapen them, it is explained, and prices of leather have advanced steadily. An opportunity to prevent much if any increase of price in shoes is said to exist in agreements among manufacturers and dealers as to prices.

#### AUTO TIRES OF CACTUS.

Luther Burbank Finds Use for Desert Plant. Santa Rosa, Cal.—Luther Burbank, addressing the California State Fruit Growers' convention here, made the startling announcement of a wonderful discovery in the further use of his famous spineless cactus. He says it will revolutionize the whitewash, paint and automobile tire industries.

Burbank said he had discovered that the fibre of the plant was an excellent substitute for rubber in the manufacture of automobile tires. He added that this same fibre would also be an excellent substitute for wood pulp in the manufacture of paper.

"The mullage of the cactus plant," he said, "will not dissolve in water, but it will dissolve in alcohol. This mullage will readily take oil colors and is easily handled."

"I have found that whitewash made from cactus latex is absolutely water-proof. This in itself is worthy of great consideration. I now am negoti-

ating with an eastern concern to use this cactus leaf whitewash."

#### BOONES WASHER WOMAN SAYS A PROUD JEFFERSON

Taunted With Inferiority, Descendant of Great Indian Fighter Gets a Divorce. St. Louis, Mo.—John T. Boone, Jr., a descendant of Daniel Boone, obtained a divorce at Clayton, a St. Louis suburb, from Ethel Edwards Boone, great-great-grandniece of Thomas Jefferson.

One of the allegations which Boone made on the witness stand was that his wife repeatedly told him that her family tree was superior to his. She considered Thomas Jefferson a more distinguished ancestor than the great Kentucky pioneer and Indian fighter.

Boone is an insurance promoter and the son of Col. John T. Boone, who was for many years western agent for the New York life insurance company. They were married in 1892.

Boone testified that his wife so frequently reminded him of her descent from Thomas Jefferson that he had no peace. She said that the Boones like washerwomen when compared with the Jeffersons.

Walla Walla, Wash.—Charles Royce who was stabbed by an unknown Italian here on Christmas night, following a dispute over a pool game, died at the local hospital. So far no trace of his assailant has been found.

"I had been troubled with constipation for two years and tried all of the best physicians in Bristol, Tenn., and they could do nothing for me," writes Thos. E. Williams, Middleboro, Ky. "Two packages of Chamberlain's Stomach and Liver Tablets cured me." For sale by all dealers.

#### DIG UP 200 SKELETONS.

Cincinnati.—Two hundred human skeletons were discovered on the farm of Enos Hayes, between Cleves and Elizabethtown, Ohio.

It is believed the place was an Indian burying ground or the scene of a battle between the Indians and white men in pioneer days. The discovery was made by workmen digging a new road.

Several miles away from the Hayes farm is Fort Hill, where white settlers once resisted the attack of Indians.
