RESIDENT OF SHERIDAN DIES BY HIS OWN HAND

McMinnville, Ore.—Bert A. Miller, about 22 years of age, was found in

a dying condition at the home of Oscar Graves, two miles east of Sheridan, having evidently shot himself in the head with a rifle with suicidal intent. Dr. Smith of Sheridan was called. Miller had been melancholy for a few days, according to report of Oscar Graves, with whom he was batching. He left money in the Sheridan bank and some in the bank at Dallas, besides having money coming to him from his employer. The body was taken to Sheridan. He had no relatives here, his father living in Los Angeles.

### WOULD CLOSE DOOR OF MANCHURIA TO U. S.

St. Petersburg.—Intimation that the commercial treaty which is being negotiated between Russia and Japan is aimed to exclude all goods of American manufacture from Manchuria was made semi-officially here. It is said to be part of the tariff war which Russia is preparing to wage against the United States in retaliation for the abrogation of the Russo-American treaty of 1832.

The unwonted speed with which the negotiations are being carried on here and at Tokio in order to have the convention ratified within the next fortnight if possible indicates that both nations are acting from a more important impetus than ordinary mutual consideration.

It has been the dearest aim of Japan since her acquisition of Korea to foster her trade in Manchuria. The opportunity which has been presented by the American-Russian situation is the most favorable that has yet presented itself.

While such a movement between Japan and Russia would amount virtually to an international boycott, the United States would have no ground for complaint, it is pointed out, owing to her own high tariffs.

Russia and Japan control all entrances to Manchuria.

### PRACTICAL FARM WORY PROPOSED FOR INSANE

Salem, Ore.—Governor West has made a proposition to the state board to change the fertile section of land near Union, Ore., now used as an experiment farm, into a farm on which vegetables may be grown for maintaining the eastern Oregon branch asylum at Pendleton. Certain classes of insane patients may be taken there from Pendleton, about 85 miles away, and given out door work. Convicts may also be used. The board favors this suggestion.

### CRUISERS TO RETURN EARLY NEXT MONTH

Vallejo, Calif.—Word was received by wireless that the cruiser fleet in Hawaiian waters is under orders to sail for San Francisco on January 6. Rear Admiral Thomas will haul down his flag as commander-in-chief of the Pacific fleet in April, and be placed upon the retired list. He is desirous that the Pacific fleet complete its regular target practice before that time, and for that reason immediately upon its return to San Francisco, the fleet will coal, take on supplies and proceed to San Diego.

Upon the completion of the practice the Maryland and West Virginia will be given their coal tests, which were postponed when the vessels were ordered to sea.

As both ships are fitted with the same class of boilers, it is believed by navy officials that their tests will determine absolutely the value of the different coals for steaming purposes.

The cruiser California is at Hilo to give the officers and men an opportunity to have a view of the only active crater in the islands, Mauna Loa.

Admiral Thomas, who has not been well, remained in Honolulu for a much-needed rest.

The Merchants' Association of Honolulu has made arrangements to give the sailors of the fleet a farewell ball before the ships sail. It will be held in the Alexander Young hotel, and invitations for 2,000 enlisted men and officers, with as many more civilians have been issued.

### PORTLAND DORCEE IS NOW RECOVERING

Chicago.—Mrs. Edna Robinson, the Portland woman who shot herself here is reported to be recovering. Her sister, Mrs. A. B. Clark of Portland, and Mr. Clark are with her.

### SOCIALISTS DENOUNCE HIS REMARKS IN SPEECH AT DENVER

Denver.—W. H. Leonard, a socialist leader of Denver, said that at a meeting of the Second Ward branch of the socialist party resolutions will be introduced calling for the expulsion of William D. Haywood, who in a recent speech, is reported to have advocated "direct action" in securing labor organizations in their rights.

Leonard added that, if the ward organization fails to act, a city-wide meeting will be called for Wednesday night to act on a proposition to submit the matter of expulsion to a referendum of the party throughout the country.

A. H. Floaten, secretary of the socialist party in Colorado, said that he favored a vote of censure for Haywood, if the remarks attributed to him were correct, but said that he doubted if any man could be expelled legally from the party because of his utterances.

Haywood was denounced for his alleged utterances at a meeting of the Denver Trades and Labor Assembly.

### DEATH MENACES SAILORS. Forced by Storm to Abandon Dredge and Take to Small Boats.

Savannah, Ga.—Menaced by death from violent seas, Captain F. J. Davis and his crew of eleven men abandoned a dredge in tow off the South Carolina coast. In small boats the sailors made Daufuski island, and Captain Davis reached Savannah, after traveling through miles of lonely swamp country. An expedition left here to rescue the hungry sailors stranded on Daufuski.

### OREGON BANKS SHOW HEALTHY CONDITION

Salem, Ore., Dec. 28.—The healthy condition of Oregon banks is shown in the statement of Superintendent of Banks Wright which has just been completed. A gain of almost three million dollars is shown in deposits in one year. In 1910, at the close of business December 5, the deposits were \$119,194,681, and in December, 1911, \$121,982,533.22.

### NEW YORK'S BEER STORAGE IS INCREASED

New York.—One of the New York brewers opened a new stock house last week which is one of the largest in the world. Mayor Gaynor, with Sheriff Harburger, Excise Commissioner McAvooy and several judges were invited to inspect the place and beheld a hundred big steel glass-lined tanks all filled to the brim with the malt beverage. The brewer proudly informed them that the tanks contained over a hundred million gallons of beer and the city officers were greatly impressed. Sheriff Harburger started to figure how long the supply would keep all the hoboes in the world happy, but after a time the brewer invited them to have some so he gave it up. In spite of the impressive total of gallons in the new stockhouse, the metropolis is not gathering any records for the consumption of alcoholic beverages these days. Statistics recently issued by the state excise commissioner shows that the liquor selling business has declined steadily throughout the state for the past fourteen years. During this period the total number of saloons in the state has decreased from 33,439 to 23,149. In 1896 there was a saloon to each 150 persons of the population and by last year this had decreased to one for each 324 persons. The decrease is attributed largely to the high license law.

### BUT, WILL THEY KEEP UP THIS GOOD WORK

New York.—That the recent wild report to the effect that the waiters in this city were sick of tips and intended to abolish the evil was really founded on fact instead of emanating from the fertile brain of some master of fiction, is a state of affairs which New Yorkers find difficult to believe. Nevertheless this is the case as was shown by a mass meeting of the members of the International Hotel Workers' Union at which tipping was lambasted by every speaker to the accompaniment of cheers from the waiters who filled the hall. What the union wants is a fair wage, and in place of the tip a small commission on the sale of food and drinks to patrons. Incidentally they were surprised to learn that they are the shortest-lived workers in any trade except mining, being particularly susceptible to stomach trouble. In Germany they were told only about one-fifth reach forty years of age and only one per cent an age where they are entitled to receive old age pensions. Whether the abolition of tips will prove conducive to longevity remains to be seen.

### WALKS WIRES TO SAVE BOY.

Acrobatic Conductor of Street Car Rescues Youngster from Midair. Seattle.—The daring of Fred Tresselt, conductor on a Ballard street car saved the life of 14-year-old Frank Rossan, after he had been knocked from the Salmon Bay trestle over the Great Northern tracks and landed in a tangle of telegraph wires, thirty

### KEPT EATING FOR NINE HOURS

Longest Christmas Dinner on Record Interrupted by a Policeman. New York.—The longest dinner in New York Christmas day was served to Daniel MacNeal in Mouquin's restaurant, in Sixth avenue. It lasted from 10 o'clock in the morning until 7 o'clock and was cut short only by the arrival of a policeman, who took the diner to the West Thirtieth street station. MacNeal began to eat very slowly at 10 o'clock. His speed decreased with every hour, and at noon MacNeal ordered another bottle of wine and sipped it at the rate of a drop every fifteen minutes. At 4 o'clock the diner said he would wait for a "Mr. Crowninshield" of Boston, and was permitted to eat for three hours longer, when the police were called.

### LAUDER NEAR DROWNING. Comedian Narrowly Escapes Death in Storm in Scotland.

London.—Harry Lauder, the Scotch comedian and singer, narrowly escaped death while attempting to cross from Gourock to Lauderdale House, Dunoon, his Scottish estate, in a rowboat. The comedian was going from Manchester to the bedside of his sick son. He engaged a rowboat and started across in the face of a heavy sea.

### CHOKES WOLF TO DEATH.

Hero Mode-ty Tells of Four-Hour Combat and Collects Bounty. Merrill, Wis.—Roy Edwards, a resident of this city, was set upon by a pack of timber wolves, he says. Edwards believes there were four or five but admits there might have been more. The combat is reported to have lasted about four hours, and Edwards finally escaped after he had choked one of the wolves to death. His clothing was badly torn. Edwards collected the bounty upon the beast he choked to death.

### TWINS LOSE SIX FINGERS.

Wausau, Wis.—August and Jacob Hanke of Lincoln, Wood county, twins, as like as two peas, seem destined to remain so. For a short time they could be told apart as Jacob had lost three fingers of his left hand in a feed cutter but now August has lost three fingers of his left hand in the same kind of a machine.

### RICHESON'S FIANCEE NOW CHARITY WORKER

Boston.—It became known here that Miss Violet Edmunds, the Brooklyn heiress who was engaged to marry Rev. C. V. T. Richeson, has left her home to become a settlement worker in New York. Miss Edmunds was formerly prominent in charitable work in Brookline. The announcement that she is now doing settlement work in New York came from a close friend of the family.
