### AT THE OREGON THEATRE

**"The Barrier."**  
Latest play on Alaska, Alaska, the new El Dorado, is the scene chosen by Rex Beach for his great drama, "The Barrier" which comes to Pendleton Thursday, January 4, for one performance only.  
This stage success is not however, the popular conception of Alaska, a place of eternal snow, but the beautiful Northland in summer, where the day never ends, and everything suggests the warmth of springtime in this home of the Midnight Sun.  
The book has had an enormous sale, and the story in play form held the metropolitan audience in New York for one entire season. Owing to the theatrical war which has raged for some time, the original tour to the Pacific coast was cancelled, but now that peace has been declared, Klaw and Erlanger's New Amsterdam theater success will make its original transcontinental tour, appearing here on Thursday, January 4.

**WESTERN PIONEER WOMAN DIES AT CHENEY, WASH.**  
Spokane, Wash.—Mrs. George Babcock, who died at Cheney, Wash., recently was one of the early pioneers, going to St. John 30 years ago with her husband, Washington A. Babcock, from California, making the trip by team. Mr. Babcock died 17 years ago. Mrs. Babcock was a member of the Donner party. She was born in Springfield, Ill. in December, 1841. In 1846 G. A. Donner, Mrs. Babcock's father, accompanied by his wife and children, started for California overland in a company of 91. The party experienced danger and suffering. Mr. Donner received a flesh wound and blood poisoning set in. It became so severe that the party had to leave him. His wife refused to go, but got the party to take the children. Neither she nor her husband were rescued or heard from later. The children with the party went on to California, but to such extremes were they driven that shoe leather and shoe strings were boiled for food and the flesh of those who died was eaten by those who survived. Only 45 of the 91 who started reached California. The early settlers united in caring for the children. The two youngest grew up through the kindness of a Swiss woman and after they grew to womanhood they looked after their former benefactress. Mrs. Babcock leaves a son, Frank B. and a daughter, Mrs. Edith M. Foley, at Walla Walla, Wash.

Chicago, Jan. 2.—Jack Johnson, heavyweight champion of the world, said last night he would sign an agreement today to fight Jim Flynn, the Pueblo fireman, at Windward, Nevada, either in June or July.  
Johnson's end in the bout according to the agreement, will be \$20,000 and a third interest in the moving pictures. The champion has stood out for \$30,000 win, lose or draw, for his next fight. He realizes now that it is next to impossible to obtain this amount.  
Johnson believes the present arrangement will amount to the same thing.

chance to win and only once, in the first round when he put a stiff left to Rivers' jaw as the latter was backing away and sent him to the floor, did he land a blow that seriously interfered with Rivers.  
It was one of the fastest fights between featherweights ever seen in the Vernon ring. Rivers' showing was marvelous.

**Coronado Team Loses Game.**  
San Diego, Cal., Jan. 2.—Battling hard for every advantageous position and making every stroke count for its full worth but with luck against them at the last moment of play, the Coronado four led by Lord Tweedmouth, lost the opening polo game of the season to the invading Calgary, Canada, team by a score of 6 1-2 to 5 1-2. Coronado's penalties, four fouls and safeties, lost its players the contest. ### CLAIMS SHARE IN ESTATE FOR PREVENTING POVERTY

**New York Attorney Asserts He Saved Millionaire from Dying Poor.**  
New York.—Richard B. Scandrett, an attorney, has filed in the surrogate court a claim for \$10,000 for his alleged services in saving the late Alexander McDonald, railroad builder and oil magnate, from dying a poor man.  
The Metropolitan Trust company, in denying that Scandrett had proved the validity of his claim, admitted that McDonald had a personal estate worth about \$1,800,000 when he died. This is the inheritance of the Misses Laura and Helena Stallo, McDonald's granddaughters. In addition, the partnership of McDonald and his son-in-law, Edward K. Stallo, the administrator states he has joint assets of over \$2,200,000 and joint liabilities of over \$3,100,000. The deficit is estimated at over \$500,000.

**Wolgast Again Ill.**  
Los Angeles, Jan. 2.—Ad Wolgast, champion lightweight fighter of the world, who recently underwent an operation here for appendicitis, is confined to his bed at the winter villa of his manager Tom Jones, at Venice, suffering with a severe cold. Wolgast's physicians announced last night that if he would mind them he would be out in a couple of days. Since Wolgast was discharged from the hospital 16 days ago Jones said today it had been hard work to keep him in the house, and as a result automobile trips between Los Angeles and Venice had been frequent. It was on one of these trips that Wolgast contracted a heavy cold which threatened for a time to develop into pneumonia. His condition today, according to Mrs. Wolgast, was much improved.

### MIGHT BLOW HIMSELF UP.

**Latest Germ Discovered, and a Dangerous One, Is Gunpowder Worm.**  
Paris, France, Jan. 1.—The gunpowder worm is the latest zoological novelty. Its discovery, indeed, is so recent that it has not yet been scientifically classified. It flourishes in the "B" powder, which caused the explosion on the war ships Iena and Liberte, and was first found by some sailors who were so astonished that they became temporarily speechless. In fact, the gunpowder worm resembles the earth worm. The body is white, but the head is red.  
The discovery of this creature was due to certain precautions that are taken on board French warships since the Liberte catastrophe.  
Outside the powder magazines are placed test phials containing specimens of the various powders restored in the magazines. These phials are looked upon as an index of barometer indicating the changes this class of powder may undergo owing to variations in the temperature or to humidity. It was while one of these phials was being examined on board the war ship Bouvert that the gunpowder worm's existence was revealed.

### LITTLE GIRL STRUCK BY CAR IS KILLED

Portland, Ore.—Her skull fractured and her arm broken in two places, Evelyn Erickson, aged 4, lived until 2 this morning in Sellwood hospital, where she was taken after she had been struck by Richmond car No. 710. The child was playing at East Twelfth and East Morrison streets, and not noticing the approaching car, ran in front of it. Motorman R. R. Teigert was unable to stop the car, and the child was precipitated under the wheels. The Red Cross ambulance carried her to the hospital, where hopes for her recovery was entertained for a time. Evelyn was one daughter of M. E. Erickson, 532 Marion avenue.

**Whisky in Georgia.**  
Atlanta, Ga.—Borrowing whisky and then paying it back is as bad as selling it outright, under the prohibition law, according to the ruling made by Judge Nash Broyles in the case of J. E. Crawford. The prisoner has the alternative of paying a fine or going to the stockade.  
A detective testified that he had seen Crawford deliver some whisky to J. W. Smith. He had not seen any money pass in the transaction.  
Both Smith and Crawford declared that the exchange was made with a view of paying up some whisky borrowed from Smith some time before, promising to repay it as soon as his shipment from Chattanooga arrived. Holding the prohibition law had been violated, Judge Broyles then pronounced sentence.

**POISONED CANDY IS FATAL.**  
Sacramento.—Candy, poisoned by artificial coloring, is held responsible for the death in the Sisters' Hospital of Martha Halifax, four-year-old daughter of John W. Halifax, secretary of Halifax Brothers company. The girl ate Christmas candy several days ago and was soon taken violently ill. The physicians diagnosed her case as acute gastritis, due to poisoned candy.
