Humana Hair Lace.

Prague, Austria.—Lace made from human hair is not manufactured in the Prague consular district, but probably will be before long. The lace is made in strips and the hair is held in place by a solution of wax; otherwise the lace would unravel. The article is made by hand, and the pattern resembles the cells in a honeycomb or a very small scale. It is used in the manufacture of wigs made from human hair, but is used only where the hair is parted on the wig. When strips of human hair lace are used it is very difficult to distinguish a well-made wig from the natural hair. The wigs are fastened to the scalp by means of small pieces of adhesive plaster, which are removed at night. Well-made wigs sell here for \$14 and slightly higher prices.

LIKED KIPLING, NOT SHAW.

Pasadena Man Beats Wife Who Could Not Appreciate "Female of Species"

Pasadena.—Kipling's poetical assertion that "the female of the species is more deadly than the male" proved a boomerang to Clyde Scott Robinson, whose fondness for quoting the line to his wife resulted in his being arrested for battery.

Robinson is alleged to have hurled the Kipling thrust at the suffragists to his wife, Nora, until she retaliated by repeating Bernard Shaw's criticism of American men.

He lost his temper and all poetry was forgotten when the "male of the species" was escorted to the police station. He was released on \$15 bail to appear for trial.

DE CASTELLANE FAILS TO GAIN ANNULMENT

Vatican Declares That Count's Marriage With Anna Gould is Still Valid.

Rome.—The Vatican has declined to grant Count Boni de Castellane an annulment of his marriage with Anna Gould, who is now the Duchess of Talleyrand and Sagan.

Countess de Castellane was granted a divorce from her husband and given the custody of their three children on November 14, 1906.

About a year ago Count Boni appealed to the Vatican for annulment of the marriage. For several months the Congregation of the Council had under advisement the process received from the Archbishop of Paris concerning the case. "The Council of Cardinals, which met in Rome recently to receive the red hat, he gave the Pope and Cardinal Gennari, prefect of the Congregation of the Council, all the details in his possession concerning the case.

Count Boni came to Rome on December 20 for the purpose of using all possible influence to attain his object. In this he was not opposed by the Duchess of Talleyrand. The decision of the Congregation of the Council however, which was communicated to him rejected his petition for the annulment. The ground on which the application was summarized as follows:

A marriage celebrated and consummated, if performed according to the law of the church, as it was in the case of the Castellane-Gould marriage, is indissoluble. There are certain impediments which, if existing before the marriage, can prevent its celebration, or if celebrated in ignorance of them, render the marriage invalid. In which case the church can proclaim that the union of the parties never in reality existed. But in the argument brought forward by de Castellane, no such impediments have been shown.

PRELATES PROTEST THE BANISHMENT OF BELLO

Lisbon, Portugal.—Monsignor Anthony Mendes Bello, the patriarch of Lisbon, and the bishops of the various provinces, sent a collective letter to the president of the Portuguese republic, asking him to withdraw the decree against Monsignor Bello, the bishop of Guarda, and the administrator of the Diocese of Oporto. AT THE OREGON THEATRE

"The Bookman" says of Rex Beach, author of "The Barrier":

Born in Michigan, Rex Beach went to college in Florida, then published his first book in New York. He was nineteen when he went to Alaska, about twenty-five when he came back. In those six years he saw practically everything there was to be seen in the mining countries, and not only with his size and strength held his own, but with his humorous good temper has won extensive popularity. Mr. Beach's energy is as versatile as it is effectual. Though still in his twenties, he is vice-president of a big Chicago construction and manufacturing company, secretary of the Chicago Athletic association, winner of the one mile handicap swimming race at last year's games in St. Louis, and a holder of other athletic records.

His "Barrier" is considered his masterpiece, and the stage version of the book as the most accurate exponent of the life in Alaska ever presented upon the American stage. This excellent play, direct from the conquests of the cities of the East, will appear in this city at the Oregon theater on Thursday, Jan. 4.

MORE OF US ARE CRAZY YEARLY, CENSUS PROVES

Washington.—While the total population of the United States increased 11 per cent in the last six years, the number of insane people was augmented during the same period by 25 per cent.

In 372 institutions canvassed by the census bureau up to January 1, 1910, were 187,445 insane patients, or an increase of 37,303 since 1904.

Massachusetts led the states with 34,6 insane per 100,000 population, with New York a close second—34.1 for every 100,000 persons.

An Old-Fashioned Man.

New York.—John Bigelow was an antique American. Not merely in the respect of age, though that seems almost sublime when we think of all it meant. He was antique in his virtues, in his qualities, in his purities, in his purposes. For many years he had been like one not only speaking to us with the voice of Franklin and of Jefferson, but restraining and seeking to guide us with a hand that still bore the mark of the staff of our fathers.

LIFE INSURANCE COMPANIES

They Are Closely Observed by Public Health Conditions

An examining physician for one of the prominent Life Insurance companies, in an interview on the subject, made the astonishing statement that the reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of applicants do not even suspect that they have the disease.

He states that judging from his own experience and reports from druggists who are constantly in direct touch with the public, there is one preparation that has probably been more successful in relieving and curing these diseases than any remedy known. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of cures.

We find that Swamp Root is strictly an herbal compound and we would advise our readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes, fifty cents and one dollar.

However, if you wish first to test its wonderful merits, send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle, absolutely free. When writing be sure and mention the Daily East Oregonian.
