- All \$2.50 and \$3.00 goods for \$1.89

## ONE DOSE MAKES INDIGESTION GO

### DYSPEPSIA, GAS AND OTHER STOMACH MISERY ENDS

Five Minutes After Taking a Little Diapepsin Your Stomach Will Feel Fine Again—Eat Your Favorite Foods Without Fear of Distress.

If your meals don't fit comfortably, or you feel bloated after eating, and you believe it is the food which fills you; if what little you eat lies like a lump of lead on your stomach; if there is difficulty in breathing after eating, eructations of sour, undigested food and acid, heartburn, brash or a belching of gas, you can make up your mind that you need something to stop food fermentation and cure indigestion.

To make every bite of food you eat aid in the nourishment and strength of your body, you must rid your stomach of poisons, excessive acid and stomach gas, which sours your entire meal—interferes with digestion, and causes so many sufferers of dyspepsia, sick headache, biliousness, constipation, griping, etc. Your case is no different—you are a stomach sufferer though you may call it by some other name; your real and only trouble is that which you eat does not digest, but quickly ferments and sours producing almost any unhealthy condition.

A case of Pape's Diapepsin will cost fifty cents at any pharmacy here and will convince any stomach sufferer five minutes after taking a single dose that fermentation and sour stomach is causing the misery of indigestion.

No matter if you call your trouble catarrh of the stomach, nervousness or gastritis, or by any other name—always remember that a certain cure is waiting at any drug store the moment you decide to begin its use.

Pape's Diapepsin will regulate any out of order stomach within five minutes, and digest promptly, without any fuss or discomfort, all of any kind of food you eat.

### SURE GERMANY WILL FIGHT GREAT BRITAIN

Members of English Tariff Commission at Palace Rejected War.

San Francisco.—Arthur Mosely of London, a member of the British Tariff Commission, who is at the Palace, says he is one of many Englishmen who believe war between Germany and Great Britain is inevitable.

"War between the two nations is bound to come," says this friend and admirer of Joseph Chamberlain, who, when in power some years ago, gave Mr. Mosely his appointment on the Tariff Commission.

"Germany," he continued, "has reached the 60,000,000 mark in population, and wants to expand in a colonial way. It is evident she will try to do so by despoiling Great Britain of some of her colonies, preferably of her South African possessions where the gold mines are. Once Germany got command of the South African gold properties, she would seek to make Berlin, instead of London, the money center of the world, and Berlin would hold on to the gold with might and main as against the rest of the world."

### GOAT RAIDS HOTEL GUESTS.

Butts Would-Be Capturers About Chicago Building Lobby.

Chicago.—A goat which was a feature of an initiatory banquet of a secret order at a Michigan avenue hotel created more excitement than was expected of it.

After being hauled to the hotel in a wagon the bearded animal was led into the lobby where it broke away from its captors and sent guests scurrying in all directions.

Several men who tried to subdue the goat were made targets for the animals' butting proclivities. Finally one of the candidates was placed on the goat's back, while several lodge men acted as a steering committee in getting the animal and its rider into the banquet room.

### MADMAN TRAPPED BY RUSE.

Touchet Farmer Lured to Walla Walla Walla by Officers.

Walla Walla, Wash.—After holding two deputy sheriffs at bay at the point of a gun, John Herman, of Touchet, through a subterfuge was induced to appear at the courthouse, where an insanity commission declared him insane and ordered him committed to the insane hospital at Medical Lake.

In order to secure his appearance in court here without causing any violence, Herman was told by Deputy Sheriff Barnes that he was wanted on the charge of driving some boys who had been hunting on his place, away at the point of a gun.

The evidence produced showed he was laboring under the delusion that his neighbors were seeking to injure him, a delusion which made him dangerous to be at large. It was also shown that he has been in the insane asylum on a previous occasion.

### HER "FLIRTY" EYES GATHER IN \$2000

Former Astoria Woman Held for Setting Trap for Unnamed Man.

San Jose, Calif.—Naughty eyes led a prominent, but as yet unnamed Burlingame man to a loss of \$2000 and although he would rather lose the money than have his family know of the case, he is being sought by the police, who have four suspects in custody. The arrested woman gives the name of Mrs. Alice McBride, formerly of Astoria, Ore., and Grand Canyon, Ariz. Three men, giving the names of Wilson, Bowman and Cole, are also under arrest as accomplices.

The woman is declared to have flirted with the victim, who is thought to have evaded identification by flight to Los Angeles. Police say she lured him into a trap, where the men held him up.

### HAS HANDLED MANY NOSES

Noted Changes in Chins, Etc., Since Philadelphia.—Began Work.

Philadelphia.—Within a few weeks Thomas M. Leonard, the oldest barber in Philadelphia, will observe the fifty-first anniversary of the day when he began to scrape chins and yell "Next!"

He has shaved John L. Sullivan and former Governor Pennypacker. And now, after fifty-one years of experience and judgment, Leonard says he would rather shave prize fighters than politicians.

He is 71 years old, and is still shaving in a South Penn Square shop.

"Oh, yes, I've been in the chin-polishing business for fifty-one years. I started when I was twenty years old."

"I have shaved governors, senators, judges and congressmen."

"Senator Cameron, the Secretary of War under Lincoln, used to come into my shop, and, holy Moses! but he was hard to shave. He had a beard, and he wanted it all off. I remember how he used to tramp into the shop with a long cane that he grabbed by the middle and pounded on the floor. He wanted everything just right."

"One night John L. Sullivan came over from New York to see a sparring match at the old Miller Garden, on Vine street. After the fight he and his friends had a party, and John L. didn't get up very early the next morning. Toward noon he came in to get shaved. He lay just as quiet in the chair and never asked a question, nor answered one, either."

"I've shaved Philadelphia Jack O'Brien. Prize fighters are easier to shave than politicians. They are more free and easy."

"Styles have changed in fifty years. There used to be more chin whiskers and goatees. Then there was a time when side whiskers were the real thing. Then, twenty years ago, every man who could do it started a Van Dyke. You don't see many of these any more."

"And hair cutting! They used to have a style of curling the hair under around the edge. The volunteer firemen used to sport a big split curl over each ear, rowdy style."

According to Leonard's estimate, he has shaved 60,000 chins in his fifty-one years beside the chair. In the same period he has used the scissors on 15,000 kinky, red, and other heads.

Tonsorial artists have calculated that a barber averages 600 strikes in each shave. An average stroke, say, is an inch long.

Therefore, Leonard has stroked a distance of 473.4 miles in fifty-one years, or the distance from Pittsburg to Chicago.

He has made 30,000,000 strikes in his career. He has cut twenty-nine acres of hair.

### SUFFRAGISTS PLAN TO CAPTURE STATE

Census of League Reveals Women Are in Majority in California.

Los Angeles.—Women politicians are laying plans to capture the state. They have discovered that they have the numbers to make this possible and the political sagacity the leaders hope to develop through a campaign of education.

According to a census taken under the direction of the Women's Progressive League of this city there are 176,146 women eligible to vote in California. The number of male voters registered at the October election was 523,000. This gives the women a majority if they will take advantage of the situation.

Mrs. Oliver C. Bryant, chairman of the civic betterment committee of the league, declared today that a campaign of education will be launched at once. The presidential primaries will be held May 12, and before that date the women politicians hope to have every woman voter registered.

Mrs. Bryant feels that it will take some work among the women to overcome their prejudice against expressing their political affiliations. At the present time the women voters are "progressive" or "good government." Before they can vote at the presidential primaries they must classify themselves as democrats or republicans.

Associations are to be formed all over the state to enlighten the women on the subject of registering and voting. It will be pointed out to them that they can rule the state if they avail themselves of the right of citizenship, recently conferred on them.

The result of the census has surprised the men politicians. They believed that the number of men and women voters in the state were about evenly divided and, as the men are old hands at the game, that the advantage would be all on their side. The census has upset all calculations.

## GRAY HAIR MAKES YOU LOOK OLD

How often one hears the expression, "She is gray and beginning to look old." It is true that gray hair usually denotes age and is always associated with age. You never hear one referred to as having gray hair and looking young.

The hair is generally the index of age. If your hair is gray, you can't blame your friends for referring to you as looking old. You can't retain a youthful appearance if you allow your hair to grow gray. Many persons of middle age jeopardize their future simply by allowing the gray hair to become manifest. If your hair has become faded or gray, try Wyeth's Sage and Sulphur Hair Remedy, a preparation which a chemist by the name of Wyeth devised a few years ago. It is simple, inexpensive and practical, and will banish the gray hairs in a few days. It is also guaranteed to remove dandruff and promote the growth of the hair.

It is a pleasant dressing for the hair, and after using it a few days itching and dryness of the scalp entirely disappear.

Don't neglect your hair. Start using Wyeth's Sage and Sulphur today and you will be surprised at the quick results.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by special agent, Pendleton Drug Co.

The politicians do not feel as sure as they did that the women will vote the way their husbands do. The women are showing signs of independent thinking that is causing the old-line politicians no end of uneasiness.

Some of the more radical suffragists already forecast a majority of women in the legislature, and they will say it will be a good thing for the state when that day arrives.

### "LITTLE MOTHER" GIVES LIFE TO SAVE HER DOLL

New York.—As a result of her heroic effort to rescue a Christmas doll from the flames of her mother's kitchen stove, Emma Benson, two years old, is dying at Bellevue hospital. The doll had been placed behind the stove for a nap and in some manner its clothing caught fire. With a cry of terror the little mother ran to the rescue and wrapped the burning doll in her own skirt. She was terribly burned before her parents could extinguish the flames.

A dry, hacking cough is hard on the lungs, often causing them to bleed. BALLARD'S HOREHOUND SYRUP is a healing balm that quickly repairs damage in the lungs and air passages. Price 25c, 50c and \$1.00 per bottle. Sold by A. C. Koepfen & Bros.
