TO DRAIN ARKANSAS SWAMPS.

300 Miles of Ditch to Reclaim 200,000 Acres. Will Cost \$1,500,000.

Memphis, Tenn.—One of the most gigantic drainage projects ever undertaken in the south has been announced by the Morgan Engineering company of this city. It involves sunken lands in Northeastern Arkansas, supposed to have been caused by earthquake about 100 years ago. About 300 square miles are included in the district, almost 200,000 acres. The contract, which will be let January 25, calls for the construction of 25 miles of ditches, 280 miles of which will be forty to fifty feet wide and ten to fifteen feet deep. The main ditch will be fifty-five miles long. Surplus water will be led into the St. Francis and Tyrone rivers. The reclamation will cost about \$1,500,000.

The same seismic disturbance which sunk the property is said to have created the Reel Foot lake.

The Wolf.

The wolf howls at the poor man's door. Or sits upon the step to wait. With hungry eyes and eager jaws. Because He can't get past the rich man's gate.

JUBILEE SINGERS TO APPEAR TONIGHT

To appear before a Pendleton audience at the Christian church tonight, the members of the famous Williams Jubilee Singers troupe arrived this morning on the local from Walla Walla. They come with a splendid reputation and a long experience as entertainers and the church under whose auspices the colored singers appear here, assures the public of a wholesome and most enjoyable evening.

Here is the way the manager of the troupe speaks of his company:

To years of constant devotion to our life's work in the United States and Canada, we have added a year of travel and study in England, Scotland, Wales, Holland, Belgium, Germany and France. We were eighteen weeks in London where we gave 130 performances, singing in many of its best known theaters, among which was the world famous Coliseum. While in London the entire company was under the instruction of one of the world's greatest vocal teachers—Miss Ira Aldridge—who is a scholar of the London Royal Conservatory of Music, and whose early teacher was the famous Jennie Lind. The company is now stronger than ever and we are glad to be again touring America—our native land.

The quartette is a special feature and is always a favorite. The prima donna has a lyric voice possessing the flute quality, which is classed by the European masters as being the rarest and most beautiful. The colored race has produced few singers as great as she.

The contralto has been a student at the Oberlin Conservatory of Music. She possesses a rich and charming voice of great depth and power.

The soprano is worthy of special mention. Her remarkable talent is quickly recognized.

The pianist is an experienced accompanist of great natural ability.

The entire company is composed of a double quartette; that is, a ladies' quartette and a male quartette.

Hunter Drowns.

Seattle, Wash., Jan. 11.—The body of John Deeringer, 26 years old, was found today on the mud flats at Stanwood. Deeringer went duck hunting yesterday and the position of his body causes the belief that he waded into the mud flats to pick up his quarry, became mired and was drowned by the rising tide. His coat and gun were found a feet away where he had laid the mwhen he waded into the treacherous mud.

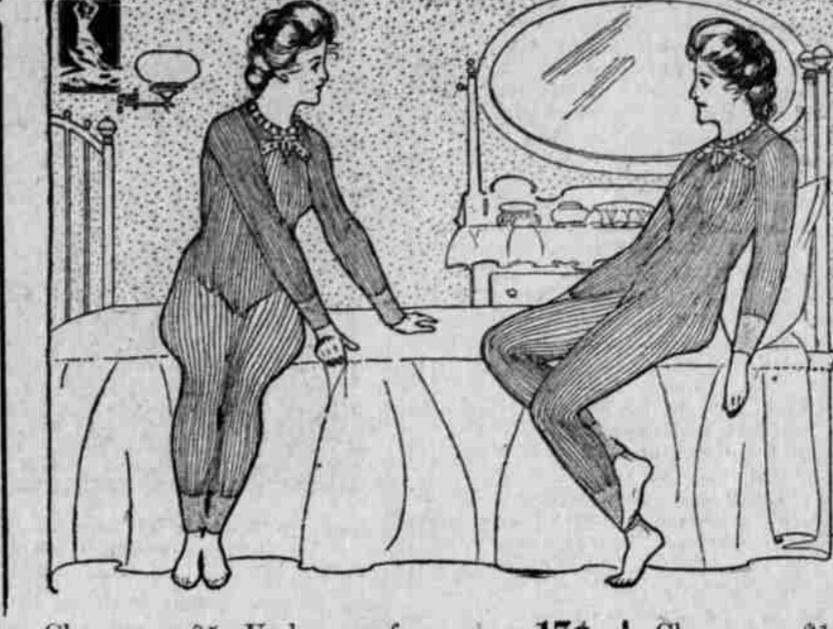

May Reopen Richeson Case.

Boston, Mass., Jan. 11.—Unless Governor Foss decides to commute Rev. Richeson's death sentence, it is reported today, his attorneys plan to ask the state supreme court to reopen the case on the grounds that the minister's weakened mental condition prevented his understanding the nature of his plea of guilty. They would ask the reopening on a writ of error.

SOUTHERN PACIFIC TO HAUL AND CARE FOR LIBERTY BELL

San Francisco, Calif.—The school children of San Francisco and of California will not be called upon to contribute their nickels and dimes toward a transportation fund to bring the famous Liberty Bell to San Francisco for the Panama Pacific International exposition.

The Southern Pacific company, through its officials in this city, yesterday made an offer to the exposition directors to transport the Liberty Bell from Philadelphia to San Francisco free of charge. The railroad offers to bring the bell out and to give it as much attention throughout the trip as is now given in its present resting place in Philadelphia.

The state of Pennsylvania values the Liberty Bell as much as it does the history connected with it and the Southern Pacific officials are prepared to see that provisions are made for a company of Pennsylvania militia to guard the bell on its long trip across the continent.

The trip of the honored old bell that in 1776 announced the signing of the Declaration of Independence, will be a triumphal procession. At every station in the country where the train stops—and it will stop at nearly all of them—thousands of school children and their parents will gather to see the bell that tolled the greatest story that has ever been published by the United States. It is planned to erect a small belfry on a car and to hang the bell in that for the trip across the continent. United States history began with the tolling of Liberty Bell and there is not a native of this great country who does not want to see the beginning of the history of the United States.
