**Water Going in Ground.**  
Farmers over the country are jubilant over the fact that the great part of the moisture from the melting snow is going into the ground to assist in producing another bumper crop. From almost every section, the news comes that the thaw has been unusual because of the little water which ran into the stream. The Umatilla river which had risen slowly for a few days this morning started to fall and by three o'clock had dropped six inches.

**Five in Police Court.**  
Five names appeared on the police court docket this morning and after four of the five appeared the words "forfeited bail." **FEW REGISTER FOR PRIMARY ELECTION**

Although the registration books have been opened at the county clerk's office since January 2, very few voters of the county have appeared to qualify for the privilege of casting a ballot at the April primaries and there is the usual cry of "Register early." Up until 2 o'clock this afternoon, less than 175 voters had their names inscribed upon the books and W. G. Sutherland who is acting as registration clerk, declares that unless livelier interest is manifested, the candidates for the county offices will have difficulty in securing the required number of registered voters on their nominating petitions.

More have registered from the Pendleton precinct than from any others, there being 18 names from Pendleton district proper, 21 from north Pendleton, 11 from south Pendleton, 20 from east Pendleton and 10 from west Pendleton. The pages allotted to many of the precincts are to date blank.

**JOY RIDES BANNED; HIGH SCHOOL CUPID MUST WALK**

Boys Forbidden to Drive Sweethearts to Studies; "Side Trips Pernicious."

Los Angeles.—J. H. Francis, city superintendent of schools, issued a drastic order today against the popular practice of high school boys, who borrow the automobiles of their fathers to take their sweethearts to and from school. The perniciousness of the practice, according to Superintendent Francis, lies in the fact that there are "joy rides" on the side. The offending boys and girls hereafter will be expelled.

The superintendent issued another order, also carrying expulsion as a penalty, which he said was the result of a conclusion on the part of the school authorities that there was no honor among students where "frats" were concerned.

In spite of having placed boys and girls on their honor not to organize or join the banned secret societies, Francis has learned that the "frats" and societies are being formed again. The honor system having failed, the school board now authorizes expulsion of all fraternity and society members.

Though Tohtal, the Indian woman who died on the reservation Friday night, had followed the white man's way and had left a will in which she bequeathed her land to certain of her people, two out of the three heirs so named will not secure their legacies because of a government ruling which makes it impossible for an Indian to will heirship land away.

Thomas Ka-ta-tams, who was named to succeed to the title of the eighty-acre tract allotted to Tohtal, will secure his bequest but Parsons Motanic, well known athlete and Christian Indian and a cousin of the dead woman, and August Alexander, to each of whom was bequeathed an eighty-acre tract of the heirship land, will be denied their legacies and the land will be inherited by the direct heirs.

The practice of making wills is a comparatively new one among the Indians and they are not yet thoroughly schooled in the restrictions with which the government has surrounded their ownership of land.

Tohtal died Friday night at the age of 50 years and she will be buried this afternoon. Having accepted Christianity, her funeral will be conducted from the Tutuila mission. A number of her relatives are here from

**POVERTY BACK OF DIVORCE**

Kansas Proctor Says Financial Hardships Cause Separations.

Kansas City.—Poverty is the chief cause of the present divorce evil, according to W. W. Wright, divorce proctor, who spoke before the Socialist Educational Society.

"The fact that the average working man is seldom free from debt causes more marital unhappiness than any other one influence," Wright said.

"The peace and quiet necessary to the home disappear with the home's financial security. There are comparatively few divorces among the rich in this section."
