MORGAN PLANS ART TEMPLE, SON HINTS

Financier Said to Desire to Gather Treasures Together in America.

New York.—The ultimate concentration of the scattered art treasures which J. P. Morgan has been collecting for many years at an estimated outlay of nearly \$100,000,000 is said to be planned.

Such, it is declared, is the real reason why that American financier is now preparing for the transfer of an invaluable collection of ivories and gems from the South Kensington Museum in London to New York.

In confirming today the report of this transfer J. P. Morgan, Jr., denied that it was undertaken because of any dissatisfaction over the treatment of his father's art loans to the British museums. J. P. Morgan, Jr., intimated that his father proposed to arrange also for the transfer of his art loans now in Paris and other European cities to America.

Mr. Morgan, Sr., has been collecting for so many years and buying so widely that it is said he himself hardly knows the extent of his holdings and has become determined to concentrate and catalogue them.

J. P. Morgan, Jr., said the treasury department was co-operating with his father in the most cordial and effective manner possible and it was hoped there would be little difficulty in getting the art treasures to this country.

POLICEMAN WOULD WOUND-BE SUICIDE

Mounted Officer's Lariat Drags Despondent Man From Surf at San Francisco.

San Francisco.—Alfred Herman of Hamilton City, Cal., was lassoed and dragged from the surf by a mounted policeman when he attempted to drown himself because he had been robbed of \$75.

The money, which was taken by a highwayman last night represented a year's savings. Herman proceeded to drown himself very carefully and was sitting calmly in the surf, when he was observed by mounted Patrolman Henley.

Henley unloosed his lariat as his horse came pounding down the beach, and the noose, in a long swing over the fater, settled over Herman's shoulders. The other end of the rope was made fast to the saddle horn and Herman was whisked out of the water like a cork on a fish line.

WOMAN SCATHINGLY ABRAIGNS POLITICIANS

Washington.—"Men are divided into three classes—those who love liquor, those who sell liquor, and politicians who are on both sides of the question."

Mrs. R. F. Irvine, of Washington, Ga., made this statement to the house committee on judiciary at the conclusion of her speech urging a law forbidding interstate traffic in alcoholic liquors. Feathers on the hats of a hundred women nodded approval.

Representative Carly, of Virginia, rallied to the defense of the men. The committee looked pleased until Representative Rucker of Missouri, spoke up:

"I believe all of us are on one side of the question," he said, "but some of us don't like to talk about it."

DAUGHTER SUES FATHER FOR PAY AS HOUSEWIFE

Cambden, N. J.—Having been informed by her father, John V. Wilkins of Syckleville, near here, that he was about to remarry, Anna G. Wilkins entered suit in the New Jersey supreme court against him for compensation for acting as his housekeeper for 1,144 weeks.

Miss Wilkins claims \$3,432, or at the rate of \$3 a week. She says she has been keeping house for her father since her mother's death when she was a child.

The admission will be 25 cents for children and all students of the Pendleton schools and 50 cents for adults.

Eleven Hunters Accidentally Shot.

Seattle, Wash.—During the hunting season which began October 1 twelve persons were killed because of hunting accidents in Western Washington. Of these, all were shot except one man, who took poison after killing a little girl. Hunters' drowning accidents are not included in the list.

Farmers Take Notice.

MAY ADD TO AUXILIARIES.

Washington.—The decision of the democratic caucus against the building of any battleships as part of this year's naval program may have the unexpected effect of adding materially to the navy's auxiliary fleet.

Sentiment indicated that a substantial program adding to the auxiliary ships would find widespread support in the house.

The democratic leaders would not comment today upon the statement of Secretary of the Navy Meyer, in which the democrats were attacked for an abandonment of the settled policy of two battleships each year.

It is pointed out, however, that the action of the caucus does not preclude the house from supporting a program of smaller vessels, and that the need of smaller supply and auxiliary ships has been constantly impressed upon the naval affairs committee by Secretary Meyer.

SIR HENRY IRVING'S OPINION OF FAUST

In this age of light and frivolous amusements it is indeed a great relief to have an opportunity to see a really great dramatic masterpiece well played and properly produced.

The presentation of "Faust" which will be seen here at the Oregon theatre tonight will be warmly welcomed by all lovers of the best forms of dramatic amusement.

Sir Henry Irving, on being asked which great play in all his repertoire he considered had the most merit, unhesitatingly replied, "Faust." The great actor produced this play more than one thousand times in London alone.

The following are some of the electrical effects shown in this wonderful play: The Vision of Marguerite, The Singing of the Bond, The Transformation of Faust, The Winecup of Fire, The Illuminated Cross, The Electrical Garden, The Invocation of the Demons by Fire, The Electrical Sword Fight, The Fireflies, The Illuminating Skulls, The Rain of Fire, The Apotheosis, and many other original and startling effects.

ITALIAN COUNTESS SUES DAUGHTER FOR SUPPORT

Chicago.—Countess Lillita Della Predosa, wife of Count Ermano Volina Dela Pedrosa of Turin, Italy, appeared in the county court here and asked aid in compelling her daughter, Mrs. Pauline Fox, an actress, to support her.

The countess told of her marriage as the daughter of General Campos, now in command of the Spanish army in Barcelona, in 1889, in New York, after she fell in love with Lillita Dela Predosa while on a trans-Atlantic voyage.

In May, 1895, they separated while living on a California ranch, she said, and for years she received \$300 a month from her husband's father.

HERMISTON DEFEATS STANFIELD FIVE

(Special Correspondence.)

Stanfield, Feb. 3.—A very exciting and close game of basketball was played here last night the competing teams being the high school teams of Hermiston and Stanfield.

The result of the first half was a score of 18 to 14 in favor of Hermiston. In the last half each five scored thirteen points, making the total score of 31 to 27 in favor of the Hermiston five.

The lineup was as follows: Hermiston—Phelps, center; Hinkle, right forward; Johnson, left forward; Sullivan, left guard; Campbell, right guard.

Stanfield—Beavert, center; Wallace, right forward; Wheeler, left forward; Brumfield, left guard; Attebury, right guard.

Referees, Donovan and W. Hoskins.

A return game to take place at Hermiston is being talked of and will likely take place within the next two weeks.

The Society of Stanfield Newlyweds which has just been organized by the newly married couples of this city, held its first party at the home of Mr. and Mrs. Geo. C. Coe and a most enjoyable evening was had by the young folks present.

The plan is to have each home represented in the membership entertain the members of the organization, until all have taken their turn at entertaining. The following newly wedded people are members of the society: Mr. and Mrs. C. C. Carr, Mr. and Mrs. E. Lundwall, Mr. and Mrs. Chas. R. Hazen, Mr. and Mrs. H. R. Wessell, Mr. and Mrs. Ivan W. Dunning, Mr. and Mrs. Geo. C. Coe, Mr. and Mrs. Clauval, Mr. and Mrs. H. L. Duvall, Mr. and Mrs. Earl J. Gibson.

After several days of delay on the work of laying pipe under the railroad track for the drainage ditch, which delay was caused by high water, the water has slowly subsided so that yesterday the contractors were enabled to resume work and succeeded in placing a portion of the necessary pipe required to cross underneath the track.

Several Stanfield citizens attended the funeral of J. H. Koontz which occurred at Echo yesterday afternoon, the following being among those who were present: Mr. and Mrs. Frank Sloan, Mr. and Mrs. Loren Kenison, Chas. Kenison, Mr. and Mrs. J. E. Reeves, Geo. Ribeling.

V. H. Benham, who has been spending a few days here looking after his orchard tract under the Furnish project returned to his home in St. Paul, Minn., Thursday night.

M. C. Barager returned Friday from a business trip to North Yakima, Wash.

Fort George as a Jobbing Centre Choice Farm Lands

(Vancouver News-Adv., Jan. 13.) Too great importance cannot be attached to the movement now on foot for a railroad connecting Vancouver with Fort George and the Peace River country. This is the opinion of a number of the leading business men of the city who gave their views to a representative of the "News-Advertiser" today.

By the construction of this line, a long step will have been taken toward assuring Vancouver of commercial preeminence on the Pacific Coast of Canada.

With the opening of this railway, wheat, coal and other products of the Peace River country and the central interior will be shipped to Vancouver either for local consumption or export, and in return Vancouver will send North her lumber and commercial goods of all kinds, shipped here from abroad. In other words, Vancouver will be a metropolis of the North, as Edmonton hopes to be, unless this Vancouver-Fort George line is rushed to completion.

It is expected that during the present session of the legislature the premier will make an important announcement concerning the railway policy of this government.

FORT GEORGE is the geographical and strategic commercial center of British Columbia, Canada's largest and richest province.

All railroads building through the Peace River or Central British Columbia must go through FORT GEORGE in order to maintain water grade. Therefore FORT GEORGE must be a great railroad center.

FORT GEORGE is the supply point for an immense territory rich in agricultural, timber and mineral resources, and will be able to compete with Edmonton and eastern cities for the trade of the Peace River country as well as the whole of Central and Northern British Columbia.

FORT GEORGE is at the junction of the Fraser and Nechaco Rivers, with 1100 miles of navigable waterways.

With the opening of the Panama Canal, freight rates to FORT GEORGE will be lower than to Edmonton, thus making FORT GEORGE a great wholesale and jobbing center.

FORT GEORGE will be one of the largest cities in the West. An enormous development will take place during 1912.
