

THIS LADY'S GOOD APPETITE

Mrs. Hansen, in a Letter from Mobile, Tells How She Gained it.

Mobile, Ala.—"I suffered for seven years, with womanly trouble," writes Mrs. Sigurd Hansen in a letter from this city. "I felt weak and always had a headache and was always going to the doctor. At last I was operated on, and felt better, but soon I had the same trouble.

My husband asked me to try Cardul. I felt better after the first bottle, and now, I have a good appetite and sleep well. I feel fine, and the doctor tells me I am looking better than he ever saw me."

If you are sick and miserable, and suffer from any of the pains due to womanly trouble—try Cardul.

Cardul is successful because it is composed of ingredients that have been found to act curatively on the womanly constitution.

For more than fifty years, it has been used by women of all ages, with great success. Try it. Your druggist sells it.

FATHER OF ECHO IS LAID AT REST

JAMES KOONTZ BURIED IN TOWN HE FOUNDED IN 1881

Ground Squirrels Have Made Their Appearance and Threaten Great Damage—Miss Conley Purchases a Restaurant.

(Special Correspondence.)

Echo, Ore., Feb. 3.—Yesterday afternoon at 1:30 o'clock the last sad rites were performed over the body of James H. Koontz and the remains were laid to rest in the family lot in the L. O. O. F. cemetery of this place.

Deceased was born in Belmont county, Ohio, May 2, 1830, where he remained until he attained his majority. He then removed to Mount Pleasant, Iowa, where he was united in marriage to Cynthia A. Hlatt of that place on November 2, 1856.

Retired from active business, Mr. Koontz crossed the plains with an ox team to Portland, Ore. In the winter of 1863 he came to Umatilla Landing and started in the general mercantile business, which he followed in that place until 1881, when he located and started the present town of Echo, where he resided until the time of his death. He was engaged in the mercantile and milling business until about twelve years ago when he retired from active business.

Mr. Koontz has been a member of the I. O. O. F. lodge since the year 1865, and has been a member of the Methodist Episcopal church for several years. He died at his home here on January 31, 1912. He is survived by a widow and two daughters, Mrs. F. W. Hendley and Mrs. Alex Malcolm and their families.

A. B. Thompson has returned from a short business trip to Portland. Mrs. Dollie Cox is here from Portland visiting with relatives. Attorney J. T. Hinkle of Hermiston

was a business visitor here yesterday. R. Alexander, Lot Livermore and G. W. Bradley of Pendleton were among the many out of town visitors here to attend the Koontz funeral.

Miss Ay's Gaunt is our new assistant at the postoffice. Mrs. Arthur J. Emerson of Vancouver, Wash., is here visiting with her daughter, Mrs. Chas. Friedley.

The little ground squirrels have begun to appear in large numbers and it is expected that the farmers will get busy at once and begin to poison them as it is a well known fact that those rodents are very prolific and if not exterminated will destroy a great deal of grain during the early summer.

Miss Addie Conley has purchased the interests of J. A. Gordan in the Arlington restaurant and hereafter will construct that business.

WOMAN BELIEVED DEAD. CONFRONTS HER SISTER

Mrs. John Harding Collapses When Mrs. Katherine McLean, for Whom Funeral Was Held, Calls on Her to Dine.

Chicago.—Just one month ago Mrs. John Harding identified the body of a woman killed by a street car as that of her sister, Mrs. Katherine McLean. The body was taken to her home, 9 West Fifty-first street, and funeral services were held there two days later.

Mrs. McLean recently walked into her sister's house and said that she had called to dine.

Mrs. Harding collapsed.

When she was revived by the sister she had supposed dead she gasped: "Is it really you, Katherine, or am I going crazy? We buried you a month ago."

"Well, I'm not exactly dead," replied Mrs. McLean. "I hope to live for some time."

After Mrs. Harding had recovered her mental poise sufficiently to question her sister, who mysteriously disappeared more than a month ago, she demanded to be told where she had been.

Mrs. McLean hesitated, then refused to enlighten the other.

Afterward Mrs. Harding rushed to Fifteenth street police station and told the desk sergeant there what had happened. That was the only thing she knew to do under such circumstances.

The policeman had not had much experience with the dead returning to life, but he took the description of the body that had been buried and said he would endeavor to learn whose it was.

5 GENERATIONS IN ONE FAMILY

Baby of La Crosse Couple Has Relative Nearly 100 Years Old.

La Crosse, Wis.—The birth of a son to Mr. and Mrs. Fred Schweigert of La Crosse adds another generation to the family, which now numbers five generations. The ages of its members range from more than 99 years to the infant just born.

Mrs. Caroline Akerman, residing at Eiterick, the great-grandmother of the child, who will celebrate her one hundredth birthday in February, is the oldest person in La Crosse county.

She is able to care for the poultry on her farm and is in good health. The next great-grandparent is Mrs. Fred Groth, aged 69.

W. C. E. PRUITT BOOSTS UMATILLA COUNTY

"Umatilla county will raise 6,000,000 bushels of wheat this year, all signs pointing at present to the greatest crop in the history of the finest wheat belt in the world," said W. C. E. Pruitt, a pioneer newspaperman of eastern Oregon, yesterday, says the Portland Journal. Mr. Pruitt, who is a member of the Press club, is in town to attend the dinner to be given newspapermen by the Multnomah hotel February 6. Mr. Pruitt's home is at Pendleton, the county seat of Umatilla.

"Yes," he continued, "the farmers up our way are in high spirits. Weather conditions for an extraordinary heavy yield of wheat have been almost ideal. Last year we had but a little more than one inch of rainfall in the growing period. This year there has already fallen more than four inches, the grain is almost knee high in some places, is so far advanced in all sections that nothing can now hurt it. A heavy frost or continued cold weather would have no effect on the wheat, though if freezing weather had prevailed a few weeks ago there might have been some damage.

"The crop last year was a good one, but not so large as the bumper crop of 1902. But there never was such a crop as we will have this year. Our country is the land of the typical wheat raiser. George Peringer is farming 10,000 acres this year. I met one of our most prominent farmers the other day and asked him what he thought of the prospects. 'Well, everything is fine,' he said, 'but I am sorry on account of just one slip I made.' I asked him what and he replied that he had failed to put in enough wheat. 'How much did you plant?' I asked him. 'Only 2000 acres,' he answered lugubriously.

JAPAN WILL NOT FIGHT AFTER CANAL OPENING

Illinois Congressman Declares That If Any Conflict Occurs It Will Be Prior to July, 1913.

Chicago.—Congressman Martin B. Madden of Illinois, in an address before the Hamilton Club here, said that of the United States is ever going to war with Japan the conflict will come before the opening of the Panama Canal. He fixed July 1, 1913, as the date for the first ocean going vessels to pass through the canal.

"In the interim the United States must fortify the canal zone as impregnable as Gibraltar," he said. "Her other island possessions and Pacific Coast ports also must be guarded. Not only that, but the United States must prevent Japan from entering into any compact with South American powers, whereby that country may gain a foothold near the canal zone. 'The expenditure of \$375,000,000 in building the canal does not mean that the United States is to become a great ocean commerce power. The country never can become that unless we subsidize our ships. I don't believe that ever will be done. What the canal means, however, is the doubling of the efficiency of our navy and placing our nation in a position where no country can take possession of our Pacific Coast ports.'

PURE MAPLE SYRUP CAN BE BOUGHT, SAYS WILEY

Labels Do Not Lie Outside of State Where It is Produced, Asserts Government Chemist.

Washington.—Anything branded "maple sugar" or "maple syrup" is the genuine article, if it is sold outside the state in which it is made, according to a statement made before the

house committee on agriculture by Dr. Harvey W. Wiley, chief chemist of the department of agriculture. "If an article marked 'maple sugar' or 'maple syrup' has crossed a state line it is certain to be pure," said Dr. Wiley. "We cannot go into the state where it is made and insure its purity, but we can when it is found outside the state of its origin."

PASCO AIRSHIP FACTORY WILL INCREASE FORCE

Soon Will Begin Construction of Several Crafts of Various Types—One Ready for Trial.

Pasco.—According to C. A. Zornes and J. Ludwig, the local birdmen, they will shortly commence the construction of five more airships of various types. The one they have now practically completed will be exhibited in a trial flight, as soon as a special motor for it is received from San Francisco. The one completed is of a five-passenger biplane type. According to Mr. Zornes, it is their intention to put on a larger force of men in the immediate future and start really active work in exploiting the merits of the Pasco made airships. In addition, they will start their school of aviation as soon as the necessary machines are completed. At the present time, there are five men employed in the factory.

FIRST LA GRIPPE, THEN BRONCHITIS.

Such was the case with Mrs. W. S. Bailey, McCreary, Ky. "My wife was taken down with a severe attack of la grippe which run into bronchitis. She coughed as though she had consumption and could not sleep at night. The doctor's medicine gave her no relief and I was advised to try Foley's Honey and Tar Compound. The first bottle gave her so much relief that she continued using it and three bottles effected a permanent cure." Mr. W. S. Bailey says he is prepared to answer all inquiries promptly. For sale by all dealers.

NAGEL GETS A RAILROAD PASS

It is Good Over Master Worsing's Track Covering One Room.

Washington.—Secretary of Commerce and Labor Nagel has a real railroad pass. It is No. 768, and is good over the John Leister Worsing Railway of Huntington, Pa. The letter, including the pass states:

"This being a complete railway (covering a space of one large room) the general manager (aged 7 years) would greatly appreciate acknowledgment of the within pass for future reference."

FEWER DAILY NEWSPAPERS.

Statistics For Past Year Show They Are Diminishing in Number.

Philadelphia.—Newspaper census figures for 1911, compiled by the American Newspaper Annual and Dictionary, published here indicate that multiplication of daily papers in the United States has come to a halt. A year ago the number was 2,472; the 1912 Annual lists 13 less, showing that the trend is now in the downward direction. According to this authority, greater mortality than birth rate is explained by suspension or consolidation of newspapers in crowded and unproductive fields. New England has lost four dailies, New York, four, middle west states nine, and the western states have thirteen less than a year ago. Gains have been heaviest in the southern states, while the middle Atlantic section has an increase of three.

Weekly and semi-weekly newspapers also seem to have reached their limit in numbers. The 1912 Annual names and describes 16,229 weeklies, 49 less than in 1911, and 695 semi-weeklies, as compared with 617 in 1911.

The 1912 Annual marks its forty-fourth year, contains more than 1200 pages describing 24,345 newspapers and periodicals, presents ten distinct items about each, including its circulation rating, and gives 1910 census population for the 11,000 towns in which newspapers are published.

Aeronautics, moving pictures and Esperanto are responsible for new lists of publications devoted to these subjects. There are over two hundred of these lists in the book just from the press. Religious publications number 865, agricultural journals total 463, and there are no less than 129 separate divisions of class and trade periodicals. Exponents of more than forty secret society orders are catalogued. Foreign language papers printed in thirty-four different forms of speech are described in a classification of their own.

These statistics are gathered from

returns by the press of the country and sifted, verified and arranged by the publishers of this directory, who are engaged in such revision throughout the year. The importance of the newspaper publishing industry, likewise the development and rapid increase of advertising, is impressively illustrated in the magnitude of this work.

CALL FOR BIDS.

Notice is hereby given that sealed bids will be received at the office of the recorder of The City of Pendleton, Oregon, for a fire alarm system in accordance with specifications now on file with said recorder; said system embraces, amongst other things, the following:

- One two circuit automatic storage battery controlling switchboard of very latest modern improvement made of the highest grade of material and workmanship. One punching register. One six inch gong; also one circuit repeater for two circuits. Twenty non-interfering alarm boxes.

Also one 1000 pound bell-metal fire bell installed in city hall tower, and one automatic striking machine capable of bringing out the full tone of such bell.

Also one fire alarm whistle, dimensions eight inch, to have two-inch supply pipe and one air tank large enough to supply the whistle; also one automatic air pump to keep air in the tank at working pressure.

(The Common Council of The City of Pendleton aforesaid reserves the right to select the bell or the whistle above called for, at its option.)

One motor generator set for charging batteries. Bidders are to bid per mile on the construction installed complete, including all labor and material including that for fire alarm boxes; successful bidder to take in part payment material already in use in Pendleton not needed by the city in the new system.

All of the above apparatus and material must comply with the requirements of the Board of Fire Underwriters of the Pacific Coast; but nothing called for in the specifications which cover a patented article shall bar or prevent any one from bidding who can furnish apparatus that will perform the same functions equally well.

All bids must be addressed to the Mayor and Common Council of The City of Pendleton, Oregon, and must be filed on or before 5 o'clock P. M. on February 14, 1912, with the recorder of said city at his office; bids will be opened by the Common Council of the city at its regular meeting to be held February 14, 1912, in the council room at the City Hall of the city at 7:30 o'clock p. m.

A certified check of five per cent of the bid will be required to accompany each bid, check to be made payable to the Mayor of The City of Pendleton, Oregon, as evidence of good faith.

The City of Pendleton reserves the right to reject any and all bids. Dated at Pendleton this 2nd day of February, 1912.

THOS. FITZ GERALD, Recorder of the City of Pendleton.

HEAD WAS SCALY HAIR ALL CAME OUT

And Baby's Face Broke Out in Red Bumps. Spread on Hands and Arms. Got Worse All the Time.

Mother Says, "I Don't Think Anything Else Would Have Cured Him Except Cuticura."

"When my first baby was six months old he broke out on his head with little bumps. They would dry up and leave a scale. Then it would break out again and it spread all over his head. All the hair came out and his head was scaly all over. Then his face broke out all over in red bumps and it kept spreading until it was on his hands and arms. I bought several boxes of ointment, gave him blood medicine, and had two doctors to treat him, but he got worse all the time. He had it about six months when a friend told me about Cuticura. I sent and got a bottle of Cuticura Resolvent, a cake of Cuticura Soap and a box of Cuticura Ointment. In three days after using them he began to improve. He began to take long naps and to stop scratching his head. After taking two bottles of Resolvent, two boxes of Ointment and three cakes of Soap he was sound and well, and never had any breakouts of any kind. His hair came out in little curls all over his head. I don't think anything else would have cured him except Cuticura. 'I have bought Cuticura Ointment and Soap several times since to use for cuts and sores and have never known them to fail to cure what I put them on.' Cuticura Soap is the best that I have ever used for toilet purposes." (Signed) Mrs. F. E. Harmon, R. F. D. 2, Atoka, Tenn., Sept. 10, 1910.

Cuticura Soap and Ointment sold throughout the world. Send to Potter Drug & Chem. Corp., Dept. 16B, Boston, for a liberal sample of each, post-free, with 32-p. book on the skin.
