### SCHOOLS TO TEACH FIRE PREVENTION

Salem, Or., Feb. 16.—That unnecessary property loss by fire in the United States amounts to \$500 a minute and that practically all of this loss could be prevented if people were properly educated on fire prevention, is the assertion made by State Superintendent of Public Instruction L. R. Alderman, who is preparing a bulletin on fire prevention which he intends to introduce in the public schools of the state as a supplementary reader.

"I may be criticised for adding more material to our school course," said the superintendent, "but as pupils have to be taught how to read any way, I believe they might as well be given practical subjects to read."

Material for the bulletin has been furnished by the Portland Association of Creditmen. Superintendent Alderman says the subject is of vast importance, as "all of us have to pay our share of every fire loss in the United States. These losses are assessed to the consumer. The fire loss in the United States in 1910 was over \$250,000,000, according to information furnished for the bulletin.

"The distance from Portland, Or., to New York city is 3181 miles. At \$10,000 a mile a splendid roadway could be built between these two places for \$31,810,000. And eight of these roads could be built with the \$250,000,000 we lose by fire each year. In one year we destroy over half the value of all the new buildings constructed in the United States.

"And this is not the worst of it. Over 1400 people lose their lives each year by fire and many more are injured. In the last 15 years, 20,000 human beings have suffered the agony of death by burning and suffocation, while 99,000 have been seriously injured, and yet the people do not seem to realize the awfulness of it all."

### COULD NOT STRAIGHTEN UP

#### A Peculiar Condition Removed

Some time ago I was troubled with pains in the back and kidneys, at times could not straighten up after bending over. Came to the conclusion that it was my kidneys. Read Dr. Kilmor's advertisement and made up my mind I would try Swamp-Root. During the time taking the contents of two bottles I passed two gall stones of quite good size. Today I am free from pains in the back and kidneys for Dr. Kilmor's Swamp-Root removed all the difficulty, and I can now go about my work and have no trouble with my back or kidneys. I will gladly recommend Dr. Kilmor's Swamp-Root to any one suffering from kidney or liver trouble. You are at liberty to publish this if you so desire.

F. E. MOSIER,  
Waverly, N. Y.

### Letter to Dr. Kilmor & Co., Binghamton, N. Y.

Prove What Swamp-Root Will Do for You.

Send to Dr. Kilmor & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention the Daily East Oregonian. Regular fifty-cent and one dollar size bottles for sale at all drug stores.

F. E. MOSIER,  
Notary Public.

### 100,000 SHEEP FOR WENAHA RESERVE

Walla Walla, Wash., Feb. 16.—Sheepmen of the Wenaaha reserve are making active preparations for the visit of the stork, which they are expecting to bring them many thousands of wool producers within the next two months. While it is still early, many outfits in Eastern Washington and Oregon have already been compelled to provide shelter for their mother sheep, but the heaviest work will not be for several weeks yet, when lambs by the thousands will be born.

Most of the sheep grazed in the reserve by the Washington men are at present at winter quarters on the Snake river, though there are a few bands wintering on Eureka Flat, while in Oregon there are bands of sheep distributed throughout the sheep district on the large wheat farms, where they are allowed to eat into straw stacks in addition to their daily hay feed. There are several times more sheep in Eastern Oregon than there are in this state, as the Oregon country has more land fit for sheep grazing. It is estimated there are a trifle over 100,000 sheep to be turned into the Wenaaha reserve this spring to graze during the summer, and, allowing for diseases which lambs are afflicted with in their infancy, sheepmen state a conservative estimate of the increase in sheep will be about 35 per cent from births.

### ORDER DISOBEYED, GIRL INSPECTOR WRECKS MEAT TABLE

Tacoma.—Petitions for her removal and a possible damage suit are facing Miss Esther Alstrum, pure food inspector, as a result of her drastic and original methods of enforcing the law. Miss Alstrum had notified one dealer at the public market to keep his meat covered. He failed to do so. The inspector marched out and came back with a hand-saw.

Marching behind the counter, she sawed off two legs of the meat table, dumped the meat on the floor and marched off in triumph.

"I told him to cover the meat and he refused," said Miss Alstrum, "then I told him if he didn't obey I'd saw up his table and he laughed at me, saying that I could not even drive a nail."

"So I showed him."

### GAMBLING TO AID NATION.

#### Portugal to Permit Casinos Like Those in Biarritz and Ostend.

Lisbon.—The government has published the condition of the projected law whereby gambling will be allowed throughout Portugal, the islands of the Azores and Madeira.

Great hotels with casinos on the same lines as those at Biarritz and Ostend are to be built at Lisbon, Cascaes, Cintra and Oeiras, and there will be smaller gambling saloons in other towns, especially at the seaside and pleasure resorts. The government is thus hoping to attract British and American tourists.

Fifteen per cent of the net profits will revert to the government. Concessions can be made to foreign capitalists, but all the employees at such casinos and saloons must be Portuguese.

### PRINCES ASK YACHT RACER.

#### King George to Give Their Appeal an Early Consideration.

London.—One of the king's first acts will be to consider a request from the Prince of Wales and Prince Albert that a new royal racing yacht should be built. Both the young princes are extremely fond of yachting and handle a vessel with considerable skill.

Last year the old cutter Britannia was put into commission for their entertainment, but the result was rather a disappointment to the princes, and Prince Albert, in particular, was very contemptuous of the sailing powers of the vessel.

They now desire to have a boat of their own which will have a reasonable chance of carrying an occasional winning flag.

### SMALL BOY SAVES TRAIN.

#### Finds Broken Rail and Runs for Aid Just in Time.

Visalia, Calif.—Forest Gorman, 10-year-old son of Mr. and Mrs. J. S. Gorman of Tarusa, saved the limited Santa Fe train from certain destruction when he discovered a broken rail while walking home from school.

Young Gorman ran home and told his father of the broken rail, and Gorman senior, with a lantern, took up a position safely beyond the break and half an hour later flagged train No. 12.

Members of the train crew made emergency repairs which carried the train over the break safely. Conductor Evans states that there is no doubt that the keen eyesight of the lad saved the train from destruction, as No. 12 runs on a very limited schedule.

### Blamed a Good Worker.

"I blamed my heart for severe distress in my left side for two years," writes W. Evans, Danville, Va., "but I know now it was indigestion, as Dr. King's New Life Pills completely cured me." Best for stomach, liver and kidney troubles, constipation, headache or debility. 25c at Keoppen's.

### GOVERNOR PROCLAIMS A COLONISTS DAY

#### CALLS ON EASTERNERS TO COME TO OREGON

#### Urges Capitalists Seeking Investments to Take Advantage of Vast Opportunities Abounding Within State.

Salem, Or., Feb. 16.—Governor West has issued a colonist day proclamation, and coming on the heels of the circulars being issued by the central labor council of Oregon, picturing Oregon as a wilderness to be shunned, its optimistic view and wholesome advice are timely. The proclamation is a call to those who would come and achieve success from the bountiful resources of a great state. It is as follows:

"Oregon is waiting for colonists. Her unclaimed acres need settlers. Farms need to be peopled and cleared, orchards to be planted and cultivated, homes to be founded. The state awaits investment and industrious and well directed effort. For this it offers unbounded opportunity, prosperity and success.

#### City Man Should Wait.

"Oregon does not need the city man, subsisting upon a daily wage, except as he may follow the institution of the factory, the workshop and the business house, or the development and the cultivation of the farm.

"Oregon needs investors, active men with active money and efficient effort. She needs energetic men to people the vacant places and reap the abundant products of a fruitful soil. Oregon needs rural development, men who have the training, the capability, the energy and the money to build homes and achieve independence in the country.

"True prosperity demands that the cities do not outstrip and over balance the country. If we build up the country districts, the cities will keep abreast with their factories, mills, shops and stores.

"It has been the custom in the past to set aside a day to be known as colonist day, at which time it has been urged that all Oregon people write to eastern friends, telling them of the opportunities here and inviting them to cast their lots with us. It is proper, as loyal and patriotic citizens of Oregon, for us to draw a true picture of the state and its possibilities for our eastern friends, for the truth needs no embellishment."

#### February 22 the Day.

"Now, therefore, I, Oswald West, governor, by virtue of the authority in me vested, and in view of the foregoing premises, do hereby appoint and proclaim Thursday, February 22, to be known as colonist day throughout the state of Oregon, and I earnestly recommend that all the people on this day write their friends and relatives in other states, showing to them the great possibilities of Oregon for the farmer, the stockraiser, the dairyman, the poultryman, the fruitgrower—for all productive industries—in order that those whom Oregon needs may be induced to join with us in the upbuilding and the development of our magnificent state."

### HALF NAKED WOMEN WORK IN EASTERN FOUNDRIES

Boston.—The richest man in New-England, Governor Eugene N. Foss, of Massachusetts, and his executive committee today are considering a bill prohibiting women from working in the foundries and iron manufacturing of the state. Investigation by International Vice President O'Leary of the Iron Moulders' union shows that 700 women in Massachusetts, which state prides itself on its culture and laws for the protection of the people, are ruining their health in foundries by work which shortens the lives of big strong men.

After several months of inquiry, O'Leary has laid the facts before Governor Foss, who is a big stockholder in the textile mills at Lawrence, where the operatives are on strike because they found the cost of living overbalanced their incomes. In testifying before the governor and his committee, O'Leary said:

"I have seen women in the foundries in your state, the supposed home of culture, scantily and improperly clad, hauling wagons past the metal ovens. The heat was so stifling that it was almost impossible to breathe. The arms and shoulders of the women were bared, their garments thrown back at the neck, and their persons exposed. The work is entirely too much for them."

### PAPAL BAN ON DECOLETTE.

#### Low-Neck Gowns Barred From All Church Functions Hereafter.

Rome.—Considerable interest was manifested over the promulgation of an edict by Pope Pius ordering that all cardinals and other dignitaries of the church must refuse to attend social functions where women appear in decollete gowns. The Pontiff, who has always been averse to the extreme in dress of any kind, believes his new order will tend to do away with low cut gowns in church circles.

### NINE-YEAR-OLD KILLS COUGAR AT MEDFORD

Medford, Or.—Eugene Moore, 9, of Woodville, is touted by friends to be the youngest hunter in the northwest. While on his way home from school last night he shot and killed a cougar which measured over 11 feet from tip to tip. His dog had treed it.

One congressional candidate has withdrawn. Some others would probably withdraw.

#### FARMERS' INSTITUTE IS ATTENDED BY MANY

Address of Oregon Agriculture College Experts Interest, and Benefits Settlers of Umatilla project—Large Land Deal.

(Special Correspondence.)  
Hermiston, Ore.—February 16.—A great many letters have been received from the congressmen and senators of Oregon by the people of Hermiston in regard to the graduation of the water right payments on this project, among these letters that have been received is one following from Senator Jonathan Bourne to Mr. J. H. Reid, president of the Hermiston Bank and Trust company, this letter is in answer to a letter of Mr. Reid, in which he enclosed a copy of his letter to the Hon. Secretary of the Interior asking for the graduation of the payments from a Bankers' standpoint.

Senator Bourne's letter follows:  
United States Senate,  
Washington, D. C., Feb. 9, 1912.  
Mr. J. H. Reid, President,  
Hermiston Bank & Trust Co.,  
Hermiston, Oregon.

Dear Sir:—I am in receipt of your letter of February 2nd enclosing copy of your letter to the Secretary of the Interior in regard to the graduation of the water right payments on the Umatilla project.

In reply will say that I have already given this matter attention and find that the Reclamation Act requires that the estimated cost be re-

### THE GREATEST SUCCESSFUL CURE OF ANY CHRONIC DISEASE WITHOUT THE KNIFE.

See our patients testimony. Dec. 1st, 1911.

I am glad to tell the public who the Chinese Doctor did for me. I was nearly dead suffering from abscess in the stomach and three American doctors told me there was no hope for me except an operation which I felt would kill me. So we called Dr. Leo Ching Wo and tried his medicine and in two weeks I was out of danger. Took his wonderful medicine four weeks more and am a new man.

I can cheerfully recommend him readily to any one who is in need of a doctor, for he certainly saved my life. Mrs. Ida Herring, 215 West Alder St., Walla Walla, Washington.

We receive testimonials from our patients daily who have been cured. If you want to be cured, come and see us or if unable to come, write and enclose a two cent stamp for symptom blank. Write without delay. Address:—LEO CHING WO, CHINESE MEDICINE CO., 14 E. Main St., Walla Walla, Washington.
