

# Washington's Birthday

## Thursday, February 22nd

You remember, maybe, that story about Mark Twain, who said he was a bigger man than George Washington; because while George "couldn't tell a lie" Mark could but wouldn't.

Washington's fame is secure because he did what he thought was best for all; and his judgment was good; personal profit or advantage didn't sway him.

### MRS. GROVER CLEVELAND CAUSES A MAN'S ARREST

Widow of Former President and Wife of Dr. Patton of Princeton Protect Wife of Farmer.

Trenton, N. J.—On information given to Prosecutor Crossley by Mrs. Grover Cleveland, widow of former President Cleveland, and Mrs. Patton, wife of Dr. Francis L. Patton, president of Princeton Theological seminary, William Lahey, a Princeton township farmer, was arrested.

The charge against Lahey is desertion, but it is only technical. County Physician Scammell and Dr. Elmer Burwis will examine Lahey as to his sanity.

Lahey, who is about 40 years old, has repeatedly threatened to kill his wife and three children. He has peculiar hallucinations. He declares the county owes him \$125,000 and that the world and its people will soon be destroyed by a fire caused by a wireless wave of electricity.

Mrs. Lahey sells garden truck to the Princeton families. When she told Mrs. Cleveland and Mrs. Patton of her husband's actions they decided that for the safety of his family Lahey should be restrained.

### COURT SAYS WHAT IS BUSHEL.

Customs Appeals Tribunal Decides Question Against Government.

Washington, D. C.—The United States Court of Customs Appeals settled the question "What is an American bushel?"

The court held the accepted bushel measurement in the United States was the English "Winchester struck bushel" of 2,150.42 cubic inches, but that when applied to apples and pears it should be heaped up so as to contain 2,747.715 cubic inches. The question was decided on an importation of apples by Charles Weber, Jr.

The government lost its contention that "struck" bushels should be the basis of customs assessments for apples and pears.

### GAS BAGS ON BIPLANES ARE LATEST INVENTION

San Francisco—In a system of gas bags attached to the upper and lower planes of a biplane, Answyl O. Gardner of Oakland claims to have an invention that will be generally used by aviators within the next few years. He has been granted a patent.

The invention provides for boat-shaped frames that are attached to either end of the upper and lower planes, and contained within these frames are gas bags of similar shape. These latter sustain a considerable portion of the weight of the machine and also make it possible for the aviator to alight on the water and remain indefinitely.

The inventor claims that these devices also tend to counteract the influence of sudden gusts of wind and thus steady the craft in flight. The lower gas bags are capable of being adjusted at any necessary angle to act as hydroplanes and permit travel on the ocean or other bodies of water.

### Church of the Redeemer.

Tomorrow being Ash Wednesday, there will be Lenten services at 11 a. m. and 7:30 p. m. Short addresses and the penitential office said. All are cordially invited. Charles Quinney, rector.

### SUES FOR TEN CENTS IN RENT.

Woman Wants Tenant Ousted for Failure to Pay Dime.

Chicago, Ill.—Miss H. Flaherty, owner of a flat building at 3945 Campbell avenue, asked Municipal Judge Sabath for a judgment for possession of the apartment occupied by Mrs. Fred Shalton because the tenant owed 10 cents on the rent. Miss Flaherty's original contention was that Mrs. Shalton owed her 60 cents, but said after the suit was first brought she accepted 50 cents on account from her tenant.

Judgement was refused.

### JUDGE USES SOLOMON'S RULE OF REASON IN A DIVORCE

Louisville, Ky.—Solomon's rule of reason has been invoked in divorce court here in unravelling a knot of conflicting evidence when John and Margaret Wetzelberger, who had lived together thirty-five years and reared a dozen children, both applied for a divorce.

All the girls in the family aligned themselves on the side of their mother. The boys were divided. In granting a decree to Mrs. Wetzelberger the court said it was his opinion that "daughters, as a rule, have a better opportunity to know the condition in a family," and he deemed it inconsistent with the woman's long years of faithfulness in rearing the large family to needlessly abandon her husband, as charged, or to falsely accuse him of cruelty.

### PRINCE HERE TO SEEK WIVES.

Get as Many as Will Accept, Parting Advice of Father.

San Francisco.—Abdul Plang, prince of the house of Plang, of the Moro districts of the Philippine Islands, was among the passengers on the Japanese liner Shinyo Maru. He will tour the country in company with L. B. Kidwell, a lumber merchant of the Chicago district. According to Kidwell, the last admonition of Datto Plang to his son in leaving the Philippines was to bring back with him as many wives as he could induce to accept him.

### BOY'S TEETH ARE SHOT OUT.

Murray, Idaho.—While Robert Bartlett and Horace Smith, local school boys, 13 years old, were shooting wood rats a short distance from town the 22 caliber rifle which they were using was accidentally discharged, the bullet striking the Bartlett boy in the mouth. After breaking two front teeth it lodged in the throat. He was hurried to the Murray hospital and the bullet extracted by Dr. George S. Lesber. The boy is resting easy and is expected to be soon out of danger.

## WILSON LEADS ALL OTHER CANDIDATES

### WASHINGTON DEMOCRATIC CHAIRMAN MAKES STATEMENT

After Extensive Trip Through East, Concludes New Jersey Governor is Only Real National Figure in Campaign.

Walla Walla, Wash., Feb. 20.—"Woodrow Wilson is the only aspirant for the democratic nomination for president whose candidacy is of a national character," said Chairman Chas. Heffner of the democratic state central committee last night in discussing the presidential nominees. Mr. Heffner is on his way from an extended visit to New York city to his home in Seattle, and reached here yesterday afternoon at 4 o'clock.

"The democrats of Florida, Washington, Maine and California favor Wilson. Champ Clark's territory is confined to Missouri and nearby states, while Governor Harmon cannot at present be considered as an opponent against Wilson.

"Wilson's enemies claim he is not a practical man. He demonstrated he was a practical and constructive statesman before he had been governor of New Jersey for sixty days, by putting many new laws on the books which that state sadly needed, therefore returning the government of that state back into the hands of the people. Outside of New Jersey, Wilson made many friends by regulating the large storage houses in which the perishable foods destined for New York markets are kept. These plants, just across the river from New York city, but in New Jersey, have for years kept eggs, meats, etc., in cold storage for periods ranging from six months to a year, then turning them into the metropolitan market. By stopping this procedure, he has won the friendship of the poor man of New York.

"The college element is also strongly in favor of Wilson. For years he was professor of political economy in Princeton university and is thoroughly familiar with legislation and governmental needs. There are over 300 clubs in different colleges in the nation which endorse his candidacy and as many of the men are of voting age, this will be one of Wilson's strongest assets.

"Here in Washington, Wilson at the present time, could defeat any other democrat in the field for the nomination, though it is not possible to foretell who may come to the front before the national convention in June.

"In regard to 'Bill' Dunphy's chances for the democratic nomination for governor in this state, I think he has a good show of securing it."

Mr. Heffner is handling Woodrow Wilson's campaign west of the Mississippi, and he stated that the west was practically solid for that candidate.

### Sheepman Fined for Theft.

La Grande, Ore.—Norman Swilkert, the lower Egin country sheep raiser who was found guilty of stealing 15 head of sheep this week, was sentenced to pay a fine of \$50 and to one to 10 years in the penitentiary. The prison sentence was lifted by parole as the jury recommended extreme leniency.

When her child is in danger a woman will risk her life to protect it. No great act of heroism or risk of life is necessary to protect a child from croup. Give Chamberlain's Remedy and all danger is avoided. For sale by all dealers.

The attorney for the defendant always argues both that the indictment doesn't charge any crime and that it charges more than one crime.

## Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood." The skin must be cured through the skin. The germs must be washed out, and no salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of wintergreen, thymol and other ingredients for eczema and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema.

Dr. Holmes, the well known skin specialist writes: "I am convinced that the D.D.D. Prescription is as much a specific for eczema as quinine for malaria. I have been prescribing the D.D.D. remedy for years." It will take away the itch the instant you apply it.

In fact, we are so sure of what D.D.D. will do for you that we will be glad to let you have a \$1 bottle on our guarantee that it will cost you nothing unless you find that it does the work.
