STATE IMMIGRATION BOARD MAY RESIGN

CHAIRMAN PARK PROPOSES MATTER TO OTHER MEMBERS

Pointed Out It Is Practically Only Way to Straighten Matters Out Since Creation of State Agent's Office.

Portland, Ore., Feb. 23.—LeRoy Park, chairman of the state board of immigration, has written the other members of the state board and the secretary asking them to submit, with him, their resignations to Governor West.

The recent act of the legislature creating the office of state immigration agent, now filled by C. C. Chapman and appropriating a sum of \$25,000 for state advertising, is said to have repeated by implication the law creating the state board of immigration. This, says Mr. Chapman, is the advice he has been given by counsel, Mr. Park and Mr. Chapman held a conference with Governor West last week. The governor is said to have suggested that the best way to settle the matter would be to obtain a decision from the courts. This Mr. Park is unwilling to do, as the state board of immigration has already spent its own funds in the work it has accomplished.

Must Be Adjusted.

As the governor is disposed to release now the appropriation made by the last legislature as soon as a practicable immigration plan is submitted to him, it seems the more desirable that the tangle of immigration acts be adjusted at once.

The other members of the board are Thomas C. Burke of Baper; A. F. Hofer of Salem; W. E. Coman and John Scott of Portland. The letter from Mr. Park to the secretary of the board is explanatory. It reads:

"On Thursday of last week I had an extended conference with Governor West. It then appears that some question has arisen as to the present validity of the act under which the state board of immigration was appointed, it having been suggested that the act of 1909 creating a state immigration agent superseded and rendered of no effect the act then on the statutes and under which this commission was appointed. Governor West is not willing to decide the question as to

whether the two statutes are effective, or only the more recent one, but thinks the matter should be left to a decision of the courts.

Board Program.

"In view of these circumstances I think it would be for the benefit of the immigration movement if the state board, as appointed by Governor West, should resign as a body and allow this question to be settled before the state board, as now constituted takes any action.

"I am prepared to forward the governor my resignation if I may accompany it by the resignation of the other members of the board."

The state board of immigration, since its appointment by the governor, has commenced a board program intended to bring desirable settlers to locate on the agricultural lands of Oregon. A work extending over the better part of a year had also been undertaken to secure dependable facts and data relating to the physical characteristics, productions and resources of Oregon. Because of former connection with the government in immigration work, Mr. Park's experience especially was considered of great value to Oregon.

WEST APPOINTS HARMONY BOARD

WILL TRY TO FRAME AGREEABLE ROAD BILLS

Members Selected by Governor From Officers of Various Organizations Interested in Improvement of Highways.

Portland, Ore., Feb. 23.—The committee appointed by Governor West to harmonize the good roads programs of the State Grange, Good Roads association and other organizations, is composed of W. B. Ayer, W. K. Newell, C. T. Prall, C. E. Spence, Judge Bernard Daly.

W. B. Ayer is head of the Eastern & Western Lumber company and is considered representative of the large business interests of Portland.

W. K. Newell is president of the state board of horticulture and engages in farming stock breeding enterprises. His home is at Gaston.

C. T. Prall is president of the Oregon Association for Highway Improvement, a member of Governor West's state wide legislative committee and one of the authors of the eight highway bills submitted to the initiative through the efforts of the committee and the association.

C. E. Spence is master of the State Grange, supporter of the two Grange bills, and one of the three members of the state wide legislative committee. He was a member of the state wide legislative committee and is regarded as a determinative influence in development efforts in eastern Oregon.

Governor West expects of this committee that it will take from all the good roads measures thus far submitted the best of each and that there will be produced a program of proposed highway legislation that the various active organizations can with confidence and approval support, and that the people may vote for at the next election. He makes no request for a change in the plans of either the State Good Roads association, the Grange or other organizations in case such a report is not submitted by the committee. Desire is expressed by the appointees that they may meet and organize at once, so that work may be done and that which has been accomplished may not be lost.

"It is not considered likely that the two convict labor bills will not be touched and signatures to initiative petitions to place these measures on the ballot will continue good. One other bill may not be touched. The chief difference between the highway committee, Good Roads association and the Grange is in the matter of a state bond issue.

It is always difficult if not impossible to collect taxes from most public service corporations. Now they are claiming that to tax them is unconstitutional.

AT THE PICTURE SHOWS

Orpheum.

Interesting program for Friday and Saturday:

1. "Her Inspiration." Lubin. A charming story of ambition and love, picturing a beautiful mountain girl, her sturdy lover, a smooth tongued stranger whom she marries, and the final happy union with her real lover. It has strong heart appeal.

2. "The Mail Order Wife." Essanay. A photographic masterpiece, unique in its delightful plot, and excellently acted. It tells a love story that ends very satisfactorily with the unexpected meeting again of two lovers who were parted and lost to each other.

3. "The Doll." American Pathé. Drama. An obstinate father refuses to give his consent to the marriage of his daughter to a young fellow with more ambition than money, so they elope. Could Not Straighten Up

A Peculiar Condition Removed

Some time ago I was troubled with pains in the back and kidneys, at times could not straighten up after bending over. Came to the conclusion that it was my kidneys. Read Dr. Kilmer's advertisement and made up my mind I would try Swamp-Root. During the time taking the contents of two bottles I passed two gall stones of quite good size. Today I am free from pains in the back and kidneys for Dr. Kilmer's Swamp-Root removed all the difficulty, and I can now go about my work and have no trouble with my back or kidneys. I will gladly recommend Dr. Kilmer's Swamp-Root to any one suffering from kidney or liver trouble. You are at liberty to publish this if you so desire.

AT THE OREGON THEATRE

A Jolly Farce Coming.

The Girl from Rector's. On March 2 of next week the management will present to their patrons at the Oregon theatre, "The Girl from Rector's," this well known comedy farce, will be presented by a very capable company of comedians and special scenery.

Among the many notices this comedy has received, we quote the following:

The Shubert theatre held one of the largest audiences of the season last night, to see "The Girl from Rector's," there being nothing left when the curtain rose but standing room. And ladies vied with men in gaining entrance into the theatre to view the play.

One of the best casts of the season appears in "The Girl from Rector's." Where so many people have such important parts, it is really remarkable that not a weakness is shown. Seldom is it ever required that every male character in a play shall be equal to good comedy parts, but this is exactly the case in this play.

Naturally the best shall be saved up for the last. "The Girl" was played by Katherine Raynor. She was the embodiment of just what the author wanted. She has beauty, marked beauty, too; a roguish eye, a bright, winning smile, a figure divine and a personality that is charming. Her work was artistic and while she overlooked no opportunity to be bewitching or do wickedly, the sting was gone in her capable hands and the audience left the theatre after having laughed through the entire evening and hugely enjoyed themselves, judging from the applause.

S.S.S. REMOVES THE CAUSE OF CATARRH

No remedy that does not entirely remove the cause of Catarrh from the blood will ever make a permanent cure of the trouble. Just as long as the circulation remains contaminated with the impurities and catarrhal matters which produce the trouble, the mucous membranes or inner linings of the body will be kept in a state of irritation and disease. Sprays, lotions and other local applications will sometimes temporarily relieve the tight, full feeling in the head, buzzing noises in the ears, uncomfortable, stuffy feeling of the nostrils, and help to loosen the mucus in the throat; but Catarrh is a constitutional blood disorder and until it has been entirely driven from the system there can be no permanent cure. S. S. S. cures Catarrh by removing the cause from the blood. It attacks the disease at its head and by thoroughly purifying and cleansing the circulation, and ridding it of every particle of impurity, and at the same time enriching the blood, allows the inflamed and irritated membranes to heal, improves the general health, and stops every disagreeable symptom. S. S. S. reaches down to the very bottom and leaves no trace of the disease in the system. Book on Catarrh and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

MONTREAL LOOT WENT TO CHINESE REBELS

Vancouver, B. C., Feb. 23.—It is reported that detectives working on the Bank of Montreal robbery at New Westminster, in which \$250,000 was stolen, have followed sensational clues nearly to completion which point to the fact that most of the stolen money went to Chinese republicans to finance the now successful revolution. The evidence already secured is said to be so convincing that there is little doubt but Chinese either did the robbery themselves or engaged white yeggmen.

Practically every discovery of money since the robbery has been connected with an oriental. Shipments of large sums of bills and coins are said to have been traced to orientals closely associated with the men whose trail the detectives have been following. It is also reported that some bills have been discovered in a Chinese city which was for a time rebel headquarters.

For a month that has a kick coming for being short-timed, February behaves pretty well—at least here in Oregon.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
