SENATOR CULBERTSON ENDORSES WILSON

DECLARES JERSEY GOVERNOR DEMOCRAT OF BEST TYPE

In Formal Statement, Texas Statesman Reviews Policies and Work Already Accomplished by Candidate for President.

In a formal statement espousing the cause of the New Jersey executive, Senator Culbertson, of Texas, says:

"Now that it is practically settled there will be no primary for president, I have no hesitation in saying in reply to recent inquiries from Texas democrats that I believe we should nominate Governor Wilson of New Jersey for president. While all may not agree with him as to some details, Governor Wilson is by birth, education and conviction a democrat and a democrat of the very best type. In the present emergency he would apply the fundamental principles of democracy to existing deplorable conditions in such manner as to restore to the people their government, divorce the government from a privileged class and seek the prosperity of the whole country rather than a favored few.

A Permanent Cure for Chronic Constipation

Although those may dispute it who have not tried it, yet thousands of others, who speak from personal experience, assert that there is a permanent cure for chronic constipation. Some testify they were cured for as little as fifty cents, years ago, and that the trouble never came back on them, while others admit they took several bottles before a steady cure was brought about.

The remedy referred to is Dr. Caldwell's Syrup Pepsin. It has been on the market for over a quarter of a century and has been popularized on its merits, by one person telling another. The fact that its strongest supporters are women and elderly people—the ones most persistently constipated—makes it certain that the claims regarding it as a permanent cure for constipation have not been exaggerated.

It is not violent like cathartic pills, salts or waters, but operates gently, without griping and without shock to the system. It contains tonic properties that strengthen the stomach and bowel muscles so that in time medicines of all kinds can be dispensed with and nature is again solely relied on. Among the legends who testify to these facts are Mr. Jan. A. Lushman, Logan, Utah, and Josephine Bailey, Sheridan, Wyo., and they always have a bottle of it in the house, for it is a reliable laxative for all the family from infancy to old age.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

ed the existing incorporation laws of the state as having brought discredit upon it and urged such changes in them as would effectively prevent the abuse of the privilege of incorporation. He also recommended that such scrutiny and regulation should not be confined to corporations seeking charters, but should be extended to those already in existence.

"Governor Wilson, as candidate for president, appeals to me particularly at this juncture in view of conditions in the republican party. President Taft will unquestionably be re-nominated by that party. His sympathy with the regular republicans and his opposition to reforms advocated by the progressive republicans are well known. While it may be admitted that the leaders of the progressives will support the ticket nominated by their party yet this is not true of the rank and file who as a rule are without political ambition and consequently have no party loyalty to maintain.

To a greater extent than any of the democratic candidates for the nomination Governor Wilson would draw from this class of voters besides holding every democrat worthy of the name and drawing largely from the educational classes and the independent element. His campaign like the one he made for governor of New Jersey, will be remarkable in our history for political conditions and in clearness of statement of the remedies he is unexcelled by any public man of the times. We must not underrate the strength and resources of the republican party and should not delude ourselves with the belief that any man we nominate can be elected. We must draw from the disaffected republicans and the independents to win and in my judgment the surest way to do this is to nominate Governor Wilson."

"HOUN' DAWG' SONG ORIGINATED IN OREGON"

Spokane, Wash.—Delivers into the early history of the Northwest claim they have undoubted evidence that the "Houn' Dawg' song" of the Ozarks was heard by Hernan Cortez, the conqueror of Mexico, when he reached the Oregon country on a plundering tour, 40 years after the

discovery of the western continent. The song in Chinook, the universal language of the northern Indians, follows:

Quanisun nika chako copa town, Tenas-man chukin nika comox conaway kah;

Cultus copa nika spose yaka mowith comox;

Klaska delate kopet chukin nika comox conaway kah.

"There are several Indian versions which show traces of apparent French origin," said R. B. Milroy, chairman of the republican central committee of Yakima county, Wash., "but I do not think that the song was brought into the Northwest by the early French priests. The versions containing French words simply show the result of the mingling of tongues in the early days.

"The Chinook Indians were once the great trading tribe of the Northwest, and they came into contact with the voyagers the early French settlements of eastern Canada sent out toward the Pacific slope and intermountain country, as well as the factors and men of the Hudson Bay company."

A. J. Sulawn, mayor of North Yakima, who has lived in central Washington since 1861 and has been friend and advisor of the Indians there a half century, says while he greatly admires Champ Clark he thinks it only just that the red men of the Northwest be given credit, as he is satisfied the "Houn' Dawg' song" is of Indian origin.

Repels Attack of Death.

"Five years ago two doctors told me I had only two years to live." This startling statement was made by Stillman Green, Malachite, Col. "They told me I would die of consumption. It was up to me to try the best lung medicine and I began to use Dr. King's New Discovery. It was well I did, for today I am working and believe I owe my life to this great throat and lung cure that has cheated the grave of another victim." It's folly to suffer with coughs, colds or other throat troubles now. Take the cure that's safest. Price 50 cents and \$1. Trial bottle free at Koeppen's.

WILSON MEN CLAIM MAJORITY DELEGATES

WILL GO TO DEMOCRATIC CONVENTION WITH 800

Seven Hundred and Thirty Are Only Necessary to Give Two Thirds-Speaker Champ Clark Has Shot His Bolt Is Claim.

Washington, D. C., March 22.—(Special.)—That Woodrow Wilson will have approximately 800 delegates when the Democratic national convention assembles in Baltimore, June 25, and that he will be nominated on the first ballot was the claim of the campaign managers of the New Jersey executive at the Bunsey building quarters today. There will be 1084 delegates in the convention and 730 will be necessary for a choice under the two thirds rule.

In making this claim the Wilson people did not enumerate states, but they pointed out that in less than a month the Pennsylvania primaries would elect more Wilson delegates than are now claimed at the present time by all the other candidates combined. Primaries in Pennsylvania are to be held on April 13th, and although delegate candidates have been announced in every district in the state, not a candidate for delegate has offered himself in opposition to Governor Woodrow Wilson. The sentiment in Pennsylvania is well-nigh unanimous for Governor Wilson and there is no doubt but that he will have the 86 delegates to be chosen to the Baltimore convention.

It is asserted by the Wilson campaigners that Speaker Clark has shot his bolt. They emphasize the fact that the Missouri, Oklahoma and Kansas state conventions were called far in advance of the other state conventions in the expectation that he speaker would have the solid and unanimous vote from those states and would go to the country with such prestige as might result. The speaker lost half of Oklahoma and just skinned through in Kansas by a bare 23 majority in a convention of more than 700 delegates. The results in both states were surprising as well as disappointing to the opposition to Governor Wilson, who made a great race in the home of Mr. Clark, in the face of great odds. Organization and money was arrayed against Governor Wilson's friends who made a gallant fight. The friends of Governor Wilson had expected nothing in Kansas, and were surprised when the convention declared for him as its second choice. But for the imposition of the unit rule the Wilson people would

Peculiar After Effects of Grip This Year

Leaves Kidneys in Weakened Condition

Doctors in all parts of the country have been kept busy with the epidemic of grip which has visited so many homes. The symptoms of grip this year are very distressing and leave the system in a run down condition, particularly the kidneys which seem to suffer most, as every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals often lead to more serious sickness, such as dreaded Bright's Disease. Local druggists report a large sale on Dr. Kilmer's Swamp-Root which so many people say soon heals and strengthens the kidneys after an attack of grip. Swamp-Root is a great kidney, liver and bladder remedy; and, being an herbal compound, has a gentle healing effect on the kidneys, which is almost immediately noticed by those who try it. Dr. Kilmer & Co., Birmingham, N. Y., offer to send a sample bottle of Swamp-Root, free by mail, to every sufferer who requests it. A trial will convince any one who may be in need of it. Regular size bottles 50 cents, and \$1.00. For sale at all druggists. Be sure to mention this paper.

have had the eight delegates from the four congressional districts which they carried in the primaries and county conventions.

A number of state conventions and primaries will be held in the near future, beginning with Maine on the 19th. From now on Wilson delegates will begin to roll in.

The Wilson headquarters are in receipt of good reports from every section of the country, justifying their claim that they will win out on the first ballot at the Baltimore convention. New England is practically solid for the New Jersey executive, and now that there is to be a presidential preferential primary in Massachusetts the friends of the New Jersey executive expect to win many delegates there. All reports from the southern states indicate that Wilson has gained strength there. In Virginia the situation has improved for Governor Wilson, while in Kentucky where both Speaker Clark and Chairman Underwood were born, the trend is strongly in the direction of the New Jersey executive. A letter from a prominent Kentuckian today expressed the opinion that Governor Wilson would have a majority of the delegation from that state. All reports from the west are of an equally encouraging character. Governor Wilson is the only candidate for the democratic presidential nomination who is making a contest in every state in the nation and the news that is being received from those who are leading the fight in his behalf from every section is uniformly good.

A pain in the side or back that catches you when you straighten up calls for a rubbing application of BALLARD'S SNOW LINIMENT. It relaxes the contracted muscles and permits ordinary bodily motion without suffering or inconvenience. Price 25c, 50c and \$1. per bottle. Sold by A. C. Koeppen & Bros.
