

SAVED FROM AN OPERATION

How Mrs. Reed of Peoria, Ill., Escaped The Surgeon's Knife.

Peoria, Ill.—"I wish to let every one know what Lydia E. Pinkham's Vegetable Compound has done for me. For two years I suffered. The doctor said I had a tumor and the only remedy was the surgeon's knife. My mother bought me Lydia E. Pinkham's Vegetable Compound, and today I am a well and healthy woman. For months I suffered from inflammation, and your Sanative Wash relieved me. I am glad to tell anyone what your medicines have done for me. You can use my testimonial in any way you wish, and I will be glad to answer letters."—Mrs. CHRISTINA REED, 105 Mound St., Peoria, Ill.

Mrs. Lynch Also Avoided Operation.

Jessup, Pa.—"After the birth of my fourth child, I had severe organic inflammation. I would have such terrible pains that it did not seem as though I could stand it. This kept up for three long months, until two doctors decided that an operation was needed.

"Then one of my friends recommended Lydia E. Pinkham's Vegetable Compound and after taking it for two months I was a well woman."—Mrs. JOSEPH A. LYNCH, Jessup, Pa.

Women who suffer from female ills should try Lydia E. Pinkham's Vegetable Compound, one of the most successful remedies the world has ever known, before submitting to a surgical operation.

12 G. O. P. STATES ARE AGAINST TAFT

SIX OTHERS ARE IN DOUBTFUL COLUMN

Four Are Believed Safe for President—These Are Opinions of Governors of Twenty-two Normally Republican States.

Washington, March 23.—There was a good reason why Chairman McKinley, director of the Taft campaign, abandoned his idea of calling a meeting of republican governors here. He could not get together enough of them who are for Taft to make a respectable showing. Those who are not openly for Roosevelt are, most of them, uncertain of their ability to carry their states for Taft.

There are now twenty-two states that have republican governors.

None of these say that Roosevelt cannot carry his state.

But—

Twelve say that Taft cannot win in their states, which have 116 electoral votes.

Six doubt that Taft can carry their states, but do not deny that Roosevelt can win the 69 electoral votes in their states.

Only the governors of the rock-ribbed republican states of Pennsylvania, Rhode Island and Vermont— are sure of Taft winning the electoral votes in their states, 47 in all. Delaware, the pocket borough of the DuPont powder trust, is one of the doubtful states whose governor believes Taft can win its 3 electoral votes.

Here is the line-up of the governors on the chances for republican success in November.

Governors.	Elec. votes
Johnson, California	13
Stubbs, Kansas	10
Osborn, Michigan	15
Hardy, Missouri	18
Bass, New Hampshire	4
Aldrich, Nebraska	8
Vessel, South Dakota	5
Hooper, Tennessee	12
Ray, Washington	7
Glassecock, West Virginia	8
McGovern, Wisconsin	13
Carey, Wyoming	3

Twelve states 116
Doubt that Taft can carry their states:

Deneen, Illinois	29
Carroll, Iowa	13
Goldsbrough, Maryland	8
Eberhart, Minnesota	12
Oddie, Nevada	3
Spry, Utah	4

Six states 69
Believe that Taft can carry these states:

Pennell, Delaware	3
Tener, Pennsylvania	28
Fowler, Rhode Island	5
Mead, Vermont	4

Four states 50
All of these governors either declare that Roosevelt can carry their states in November, or do not express any doubt about his ability to win the whole 235 votes of these states in the electoral college.

THREE MORE STATES LINE-UP FOR WILSON

Washington, March 23.—Highly encouraging reports were received from three western-central states, at Wilson headquarters. Wisconsin, Iowa and Illinois sent the cheering news that Wilson strongly predominates among Wisconsin democrats. The telegram said:

"Sentiment for Wilson strongly predominates among Wisconsin democrats. We recognize in him the strongest and best candidate. The coalition of Clark and Harmon supporters here is supported by many standpat republican bosses who recognize Wilson as the foremost foe man of special privilege. The people are aroused."

T. J. Cunningham telegraphed from Chippewa Falls, Iowa: "Woodrow Wilson will have the solid delegation from Iowa notwithstanding the desperate efforts being made by the Clark-Harmon organization."

F. M. Hubble of Des Moines, wired: "Wilson sentiment in Iowa, in my judgment, is increasing. Governor Wilson is recognized as one who would make an excellent executive officer. The only county holding a convention yesterday instructed for Wilson."

Iring Shuman of Sullivan, Ill., said: "Sentiment in Illinois is strongly for Wilson. Central and southern Illinois is almost solid for him."

HEAVY DECREASE IN BRITISH BIRTHRATE

Only 881,233 Babies in England and Wales in 1911—527,864 Deaths.

London.—A serious decline in the natural increase of population in England and Wales during the year 1911 is revealed in the return of the registrar-general. The births registered numbered 881,233; the deaths, 527,864. The increase of population thus shown is 352,369, whereas the average for the preceding five years was 405,559.

The birth rate shows a further decline, being 24.4 per 1000, or 0.7 per 1000 below that of 1910, lower than the rate in any other year on record, and 2.8 per 1000 less than the average of the ten years preceding. The death rate was 14.6 per 1000, which is 1.1 per 1000 above the rate in 1910 which was the lowest on record.

Advantages Cadillac Owners Enjoy and Disadvantages They Escape

"The Car that Cranks Itself"

Oregon Motor Garage

BEN F. TROMBLEY, East Court Street. Phone Main 468. Auto extras of all kinds.

The presence or the absence of the qualities described herein—qualities traceable to properly applied standardization and the resulting correct alignment; qualities traceable to skillful design and advanced manufacturing methods and the results of scientific research and development, explain—

Why the owner of one car has to crank and crank his engine to get it started while the Cadillac owner gets into his car, presses a button, disengages the clutch and his engine starts.

Why the owner of one car, even with a so-called "self-starter," can start the engine only some of the time while the Cadillac electric cranking device is fully as efficient and fully as dependable as every other part of the Cadillac car.

Why the owner of one car must get out—often in the rain and mud—open his lamps, fumble for matches, turn on and regulate the gas and light up while the Cadillac owner without delay or annoyance simply closes the switches and the electric lamps are lighted.

Why one car starts with a jerk and a lunge while the Cadillac can be started off with the smoothness of an ocean liner.

Why in one car about all the driver's strength is required to operate the clutch and brakes while with the Cadillac, slight foot pressure is all that is necessary.

Why in one car the change of gears is accomplished by a crash and a grind while with the Cadillac the change can be made so that it is scarcely perceptible.

Why one car is difficult to keep in the road while the Cadillac seems almost to steer itself.

Why in one car with a steering gear which has no provision for taking up wear, lost motion develops making steering uncertain and unsafe while in the Cadillac steering gear the adjustments provided are more adequate than will probably be required.

Why one car rides hard and stiff, the springs seem unyielding and the car is less comfortable to ride in over a paved street than is the Cadillac over an ordinary road.

Why one car may run quietly and smoothly when new but soon becomes noisy and shakes and rattles while the Cadillac often after years of service runs as smoothly as when new.

Why one car runs all right on level roads but when it comes to sand and hills it has not the power to make the pulls while the Cadillac has an abundance of power for all reasonable requirements and with its standardization, the correct alignment and the substantial construction, the maximum of that power is delivered at the rear wheels.

Why one car shows only 8 or 10 miles on a gallon of gasoline while the Cadillac averages 60 to 80 per cent greater mileage.

Why one car after a few months begins to evidence a loss of power while Cadillac frequently show an improvement.

Why in one car the engine overheats and the water boils while with Cadillac construction and the Cadillac cooling system the causes of over-heating are practically eliminated.

Why one car emits volumes of smoke and it becomes necessary to clean the engine and especially the spark plug every few weeks, while the Cadillac with its efficient lubricating system and the accurate fit of the cylinders, pistons and rings emits no smoke at all and frequently runs for a year or more without even having a spark plug removed.

Why the oil consumption of one car is from two to four times that of the Cadillac.

Why the owner of one car must be continually tinkering with his car to keep it going while many Cadillac owners rarely open their tool kits.

Why one car after a few months' use depreciates in selling value to half of its original cost or less while depreciation in the Cadillac is reduced to an absolute minimum.

So many "Whys" indeed, which evidence the pre-eminence of the Cadillac that we cannot here cite even a tenth part of them.

was spending his days in the prison office.

One night he contrived, unnoticed, to slip into the carpenter's shed. There he obtained possession of a large bundle of string and a folding ladder. Before effecting his escape it was necessary for him to climb two walls. An accomplice was, however, waiting for him outside. Thomas proceeded to tie a weight to one end of the string and then threw a line over the two walls.

His friend then attached a thick piece of rope to the string, and threw it back to the prisoner, who with the aid of this hastily extemporized ladder, climbed to a grilled window opening on one of the prison corridors. Tying the rope to the bars, he waited for it to be pulled taut by his confederates, and swung himself on to it.

Then he managed to work his way along the rope, and, finally, scrambling over the two walls slipped, by the help of a rope, into the street, whence a motor car conveyed him to within a safe distance from the prison. Since then nothing has been heard of him.

THINKS 'DEAD' MAN LIVES.

Wooster Salesman Says He Met Obian Last Four Years.

Wooster, O.—In August, 1908, Ralph E. Eddy, only son of Captain Robert E. Eddy of Wooster disappeared from Chicago on the eve of what was to have been the day of his wedding to his schoolgirl sweetheart here. A nation-wide search for the young man failed, and the theory that he had been murdered by thugs against whom he had given testimony was advanced. Effort to collect \$10,000 life insurance failed because it could not be shown that he was dead. His father died of a broken heart.

Now word comes that Eddy is believed alive. A traveling salesman of this city, who knew Eddy well, sends word that he talked to Eddy in a hotel at Louisville. We writes that the man insists that he had never been in Wooster.

NAPOLEON III WAS A PRACTICAL JOKER

Paris.—The "Revue de Paris" is publishing some curious souvenirs of Napoleon III from the letters of Dr. Barthez physician to the Prince Imperial. From them we learn that Napoleon III limped in his walk, always leaning a little to the left, and that when he ran he jerked his arms and shoulders as if to help his legs, which seemed very short. When he stood still his head was always a little to one side, never set straight forward. The back of his head was remarkably disproportioned. The base of the skull was wider than the apex.

The emperor was a practical joker and fond of teasing his entourage, especially the empress. Shortly after

his marriage, some one at a dinner spoke of trees that had been planted the day that Empress Eugenie was born. "They must be pretty old now, thirty-six at least," said Napoleon. "How insolent of you!" replied the young empress, laughing; "you want to make me out much older than I am."

Napoleon III understood nothing about painting, but he took great pride in praising Horace Vernet, Meissonnier and Rosa Bonheur.

OLD-TIME REMEDY DARKENS THE HAIR

From time immemorial, sage and sulphur have been used for the hair and scalp. Almost everyone knows of the value of such a combination for darkening the hair, for curing dandruff and falling hair, and for making the hair grow.

In olden times the only way to get a hair tonic of this sort was to brew it in the home fireplace, a method which was troublesome and not always satisfactory. Nowadays almost every up-to-date druggist can supply his patrons with a ready-to-use product, skilfully compounded in perfectly equipped laboratories. The Wyeth Chemical Company of New York put up an ideal remedy of this sort, called Wyeth's Sage and Sulphur Hair Remedy, and authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

If you have dandruff, or if your hair is turning gray or coming out, don't delay, but get a bottle of this remedy today, and see what a few days' treatment will do for you.

This preparation is offered to the public at fifty cents a bottle and is recommended and sold by special agent, Pendleton Drug Co.

PARSON SETS ON MAYOR WHO CALLS HIM A LIAR

St. Paul, Minn.—North St. Paul has a "fighting parson" in the Rev. Martin W. Kinney, who, following an altercation with Mayor Pat Murphy after the close of the village election, neatly and dispassionately laid the militant mayor flat on the floor of the postoffice.

The Rev. Mr. Kinney accused the mayor of permitting the saloons to remain open on election day, also that he (Mayor Pat Murphy), elected on a reform ticket, had gone over to the other side. Said the mayor: "You are a liar."

"Inasmuch as I am a minister," replied the Rev. Mr. Kinney, according to witnesses, "I presume I must take this."

The pastor went to his home, evidently thinking deeply. A few minutes later, however, he returned and again encountered Mayor Murphy, this time inside the postoffice.

"So, I'm a liar? Come outside; I want to talk to you a minute."

Then the mayor threw his arms about Mr. Kinney and informed him he was under arrest. Mr. Kinney, doubting the mayor's authority and also his grounds for arrest, folded the mayor up and sat on him.
