DIVORCE COURT HIS TERROR

So Iowa Contracted Trial Marriage and is Arrested.
Dea. Molnes.—A trial marriage, entered into to make it possible to shun divorce courts, resulted in the arrest of W. H. Moon, 29 years old, and Josephine Mellanberg, 19.
The couple has been living together for six weeks, Moon told the police, and expected to continue to do so about six weeks longer, at the end of which time, if everything had gone well, they were to be married. Moon has such a horror of divorce courts that he decided to take a chance on a trial marriage, he explained.
The police officials tried to persuade Moon to marry the girl but she refused to do so until his trial marriage scheme had been worked out. The young woman is detained in the matron's ward and Moon is out on bond.

A "POLITENESS CAR" ON "L."

Chicago Straphangers Wedged Between Posts to Save Jostling.
Chicago.—A "politeness car" is the newest innovation on the Northwestern elevated railway. The car first appeared and started many patrons between the town district and Evanston.
Along the aisle on either side is a line of enameled posts, from floor to ceiling. Each passenger is wedged in between two of these uprights. This leaves no chance for a passenger to be jostled against his neighbor, whether standing or sitting.
Officials of the road say the new arrangement will encourage politeness among passengers. The uprights are also expected to be a relief to the strap-hanging patron.
"The car at first appears like a traveling hospital or gymnasium, but it looks good," was the remark of one of the passengers. The car has been introduced as an experiment.

PRISON LIFE MAKES GREAT CHANGE IN WOMAN

Three Times in Shadow of Gallows, She Returns to Her Family With Good Education and Bright Prospects.
New York.—From the shadow of the gallows, Mrs. Antoinette Tolla came to New York to rear her children into a life she never knew existed until she murdered Joseph Sontara in Hackensack six years ago.
Three times the gallows was erected in the Hackensack jail yard to kill her, but petitions from thou-

sands of persons throughout the middle west saved her life. She was freed today from the New Jersey state prison. It was shown at her first trial that she killed Sontara because he had tried to force her to leave her husband and to drive her into a life of shame for his profit.
Her husband, Giovanni Tolla, and her two children were waiting for her when she stepped from a train in the Pennsylvania depot. Their meeting was pathetic. The woman, six years ago a pretty type of the Italian peasant, entered the prison illiterate and half a savage.
Mrs. Tolla is a changed woman. Her six years in prison schools had taught her English, of which she has a good command. Artistic embroidery will enable her to earn more money than her day laboring husband, she says.
The contrast between the pair as they met was strange. Her husband had not gone forward during the years.
The woman as she emerged from the train, drew her children to her and clasped them in her arms. Then, turning to her husband and speaking in her native tongue, she bade him take advantage of American institutions and improve himself.
"Giovanni," she said, "you must go to night school. You must learn to read and write English. It is easy, and I will help you."
"After I became used to prison I promised God that for sparing my life I would do something to make it a better one. All my spare time I studied. I have also learned stenography and typewriting."
Mrs. Tolla was presented as she left the depot with a check for \$712 the balance of a fund raised for the benefit of her children at a time when it appeared certain she would be hanged.

John W. Sickelwitl, Greensboro, Pa., has three children, and like most children they frequently take cold. "We have tried several kinds of cough medicine," he says, "but have never found any yet that did them as much good as Chamberlain's Cough Remedy." For sale by all dealers.
When Pride is Justified.
Far too many mortals are vain and self-satisfied because of some temporary mercenary advantage, and in their eagerness to display that advantage at every opportunity often destroy their greatest blessing, the physical counterpart of sunshine,

which is their own health. Neglected colds, irregular meals, overloaded stomachs and night revelry result in shattered nerves, depressed vigor and fatigue, all of which invite decline and disease.
Each person stands sentinel at the portals of his own health and he who guards, protects, strengthens and builds up a rugged constitution is justified in pride and finds therein his own recompense—the capacity to enjoy the fullness of life.
The strain of modern commercial and social living taxes strength and energy and in maintaining the highest self-efficiency we should not only cultivate deep breathing, out of door exercise, regularity and temperance in all things, but study the greatest of all physical power-creators which is body nourishment. In this, alcoholic preparations should be carefully shunned and such pre-digested nourishment as Scott's Emulsion which enriches the blood and creates vitality by building, healing and strengthening, should be selected.
Scott's Emulsion is scientifically prepared and is good for teething babies, nursing mothers, growing children, the aged and infirm. It contains no wine or stimulant, but is wholesome and pure and has helped millions to regain health and sustain it. Worthless substitutes are sometimes offered, but Scott's Emulsion is the genuine pure food-medicine.

Head Is Crushed With Hatchet, Yet Her Heart Beats Normally.
Milwaukee, Wis.—The remarkable case of Miss Annie Miller is puzzling local physicians.
Last Wednesday night the girl was attacked by a man with a hatchet, and her head was badly hacked, in spite of which she still lives.
"I've never heard of anything like it in all my experience as a physician," said Dr. E. L. Baum at the Emergency hospital.
"It is more of a miracle than anything else. She received five distinct compound fractures of the skull, the right side of her brain is completely paralyzed, the entire left side of her body is also paralyzed, and at least six ounces of brain oozed out during the night. Still her heart is beating normally."
For rent—Suite of unfurnished housekeeping rooms in East Oregonian Building. Steam heated, also gas range in rooms. Apply at this office.

Colonists Arriving by the Thousands
FORT GEORGE COUNTRY IN CENTRAL BRITISH COLUMBIA THE GOAL OF HOMESEEKERS.
Owing to Ever Increasing Demand for This Fertile Farm Land, Prices Are Expected to Soon Soar.
Buying lands in the fertile valleys of Central British Columbia, near Fort George, is not speculation. The Grand Trunk Pacific, Canada's great transcontinental railway, has just built into this territory and opened to settlement what is termed by all who have thoroughly familiarized themselves with the mild climate, rich soil and beautiful scenery, as "The Paradise of the Pacific."
British Columbia is an undeveloped region affording great opportunities to those who get in on the "ground floor."
As evidence of his great confidence in the British Columbia country, the Duke of Sutherland bought 10,000 acres of these lands in London during the year 1910. Later, he came out with a party of titled gentlemen and purchased 15,000 additional acres. This entire acreage is being cut up into 40 acre farms and will be colonized by the Duke of Sutherland, working in conjunction with the North Coast Land Co.
The farms will be cleared, fenced, barn erected and first crop put in. The North Coast Land Co. will locate about 5,000 Scotchmen this spring on these lands which are about 20 miles S. E. of Fort George, on the Frazer river at a place called White's Landing. This company has also established a large German settlement about 5 miles S. E. of Fort George, many sections of land having been sold to the latter.
Where the North Coast Land Co. can sell six or more sections to any one colony wishing to locate in the Fort George country, they will assure the building of needed roads through the Provincial government; will deed enough land for school house, church and cemetery; will pay for one half of construction of school house and church and help the settlers in every way possible.
Two years ago there were only 200 people in Fort George; at present there are over 2,000 and at the end of this year we can reasonably expect a population of over 10,000.
Work is plentiful here. Land of all kinds has doubled in price in the last two years. What will it do in two more years when the railroads are all completed, when the land is well forward in development and homeseekers who will be arriving by the thousands from this on commence to reap their returns.
If you want to learn the truth about this great country, ask us.
