## CHURCH ATTENDANCE RECORD IS BROKEN

Superintendent Taylor of the Christian church reported at the close of yesterday morning's service that the attendance was the largest, as compared with the Bible school records for more than a year. The exercises moved much more smoothly than on the previous Sunday when the new form of "Morning Worship" was instituted, since the "regulars" were apprised of what was coming.

The pastor, Mr. Holmes, has used the new form of service before and is confident of the great benefits to be derived, especially in the matter of training the young. He used the evening hour last night in further explaining the results that were sure to follow. He set forth the great weakness in the modern methods of the church which have always resulted in a tremendous loss in the "teen age." The idea that Sunday school is "for the children" and preaching for "the grown-ups" is so prevalent that there are two separate congregations in the average church each Sunday morning, and the young people come to maturity with no thought of responsibility to the church itself. The Sunday school continues to please them as they enter the age of youth, they continue to attend, but for the most part, they drop out and are practically lost. This new method is designed to hold them by introducing such methods as will constantly be of interest.

The most attractive feature to the young is the use of the pictures in illustrating the pastor's talk. A fine set covering the entire set of lessons for the last quarter was used yesterday and a finer set still is promised for next Sunday. An illustrated song has also been used in each morning service.

Tonight Mr. Holmes will give the third in the series of illustrated lectures being given on Monday nights. The slides are new and the scenes taken from the last exhibition of that wonderful drama.

Austin Freeman of this city and Lester Freeman of Riverside narrowly escaped drowning and were rescued by the revenue cutter Bear.

## Almost a Miracle.

One of the most startling changes ever seen in any man, according to W. B. Holsclaw, Clarendon, Tex., was effected years ago in his brother. "He had such a dreadful cough," he writes, "that all our family thought he was going into consumption, but he began to use Dr. King's New Discovery, and was completely cured by ten bottles. Now he is sound and well and weighs 218 pounds. For many years our family has used this wonderful remedy for coughs and colds with excellent results." It's a quick, safe, reliable and guaranteed. Price 50 cents and \$1.00. Trial bottle free at Koepfens.

## NEW HOMESTEAD LAW PLEASURES SETTLERS

MANY UMATILLA PROJECT RESIDENTS ARE AIDED

Several Will Make Final Proof on Their Lands in Near Future--Hermiston Power Plant Enlarged and May Extend.

(Special Correspondence.)

Hermiston, Ore., April 1.--The homesteaders of the Umatilla project are joyous over the passage of the Homestead Law. There are several who can make this final proof at once. There will be no taxes to be paid after final proof if made until the settlers have made the full payment of the water right on their lands. Five months absence is given each year out of the three years, the final proof can be made from the date of the filing. This not only includes the new filings on homestead but also those who have made entries in the past. Most all of the homestead entries in the first and second unit will be able to make final proof in the near future, there is not one however, that will leave his land on that account as most every one has made a beautiful home and have come here with that purpose in view.

Otto G. Sapper has moved his music store into his new quarters this morning, he has the west room of the new post office building. The Hermiston Herald expects also to move this week as well as the post office. The new building makes a great improvement in the general appearance of Main street. The postmaster expects to use the same lock boxes that he has had installed in the old location with the exception of a few new boxes.

Charles and A. M. Sawin arrived here last week from Evansville, Wis. They expect to make this their home, having purchased land of the Western Land and Irrigation company.

Miss Gladys Scroggs, music and drawing instructor of the Hermiston high schools, will remain in Hermiston during the summer vacation.

## Reclamation Report.

The reclamation reports on the Umatilla project for March, 1912, are as follows: The temperature ranged from a maximum of 60 degrees to a minimum of 21 degrees. The river was in a moderate flood condition throughout the month. The maximum diversion was 232 second feet; maximum delivery to reservoir, 232 second feet; available storage in reservoir, 35,000 acre feet. A small crew was employed to lay cement pipe, placing turnouts and priming pipe lines. Water right applications were issued for 14,000 acres of land.

Russell A. Brownell, councilman of Hermiston, will soon leave for California. He recently sold most of his interests in Hermiston and will take a vacation of several months. He expects to return to Umatilla county, however.

The Rev. Owen F. Jones left yesterday for Portland.

## Power Plant Enlarged.

The Hermiston Light and Power company has just received a new turbine wheel for their power plant, of one hundred horse power. It will be installed in the penstock now in use, and as soon as this is done a second penstock will be built for the smaller wheel, which will be held in reserve in case of accident. This improvement was necessary on account of increased business. This company will most likely pump the water for the new city water system. Umatilla and Stanfield also are very anxious to have a wire run to those places from here. Day service will soon be started.

G. M. Straw left Saturday for Portland to receive medical treatment, accompanied by Dr. B. G. Monkman. Clarence A. Girts has accepted a position at Umatilla.

Fred Cooper is here, visiting Mrs. J. T. Hinkle, his sister.

Thursday evening a delightful party was given at the home of Mr. and Mrs. J. T. Hinkle. Progressive whist was played, there being seven tables. Mr. Frank B. Swayze receiving the highest honors and Mrs. J. D. Watson the consolation award, each receiving a beautiful bunch of daffodils. The decorations were ferns and daffodils, the lights being shaded with large daffodil shades of crepe paper. The place and score cards were also decorated with hand painted daffodils. Delicious refreshments were served during the evening. Those present were: Merris and Mesdames Elmer P. Dodd, G. H. Uthegrove, Carl S. McNaught, W. J. Warner, C. L. Morrow, Geo. E.

## \$100 REWARD.

\$100 REWARD. \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. ## Paid For False Arrest.

Savannah, Ga.--Balm in the shape of a verdict for \$5,000 to soothe the wounded feelings of an alien, Robert J. Watson, subject of Great Britain, has been vouchsafed the plaintiff here by a jury which heard the evidence in Watson's suit for \$10,000 damages against Sheriff James Hester of Montgomery county and the sheriffs on his bond for alleged false imprisonment.

Watson claimed that he had been arrested and locked up on suspicion of being a man wanted in Florida on a charge of embezzlement.

Afterward it was ascertained that it was an instance of mistaken identity.
