DOG KILLS BABY GIRL; FIGHTS OFF WOMAN
 Crushes Skull and Tears Throat of Child Despite Efforts to Save Her Life—Mother in Grief Threatens Suicide.
 Chicago, Ill.—Baby Anna De Salvo, 3 years old, was killed by an infuriated dog when she attempted to make friends with it. The animal, the property of Samuel Solomon, 1062 West Eleventh street, pounced on the child, crushed its head in his jaws and tore open its throat. The efforts of Mrs. Solomon to save the child were futile, the big animal knocking the child out of her arms and attacking it repeatedly.
 The child's body was removed to nearby undertaking rooms and its mother notified. Mrs. De Salvo, who was deserted by her husband two

years ago, lives in the rear of 1016 Sholto street and works in a tailor shop on the West Side to support herself and child, became hysterical when told of the tragedy.
 "They kill my child, I kill myself," muttered the mother in broken English. "She was all I had to live for; there is no more use for anything else."
 Mother is Prostrated.
 She was told of Mrs. Solomon's efforts to save the child but did not seem to understand, only recognizing that the child was dead.
 Mrs. Solomon struggled with the dog in an effort to keep it away from the child and was twice knocked down.

Bowels are Basis of Child Health
 The careful mother, who watches closely the physical peculiarities of her children, will soon discover that the most important thing in connection with a child's constant good health is to keep the bowels regularly open. Sluggish bowels will be followed by loss of appetite, restlessness during sleep, irritability and a dozen and one similar evidences of physical disorder.
 At the first sign of such disorder give the child a teaspoonful of Dr. Caldwell's Syrup Pepsin at night on retiring and repeat the dose the following night if necessary—more than that will scarcely be needed. You will find that the child will recover its accustomed good spirits at once and will eat and sleep normally.
 This remedy is a vast improvement over salts, cathartics, laxative waters and similar things, which are altogether too powerful for a child. The homes of Mrs. E. S. Griffin, Sandy, Utah, and Mrs. Clara McIntosh, Masonville, Colo., are always supplied with Dr. Caldwell's Syrup Pepsin, and with them, as with thousands of others, there is no substitute for this grand laxative. It is really more than a laxative, for it contains superior tonic properties which help to tone and strengthen the stomach, liver and bowels so that after a brief use of it all laxatives can be dispensed with and nature will do its own work.
 Anyone wishing to make a trial of this remedy before buying it in the regular way a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

 "The Bandit's Child." Essanay. Western feature interpreted by G. M. Anderson and a picked cast. Redolent with heart appeal, and photographed amid the beautiful scenery of California, it is at once a picture to hold an audience's undivided attention to the very last foot. The plot is gripping, and the acting of the usual high standard. Mr. Anderson gives gripping characterization to the portrayal of the bandit, and Miss Verah Bertram is prettily cast as the young wife from the east.

AT THE OREGON THEATRE
 How many are familiar with the mail route across Behring Sea? How many have seen an open fair beneath the midnight sun on the long tongue-like spit of land which marks Russia's terminal point in the northern ocean? In this market place strange people assemble and strange foods are bartered, and stranger still, these isolated spots are making history, slowly but surely moulding the destinies of political unity, a broader federation which establishes the fact that many central people are indeed very largely dependent upon distant parts of the globe for commodities otherwise obtainable. No one who has been privileged to see the unique panorama of life in the polar zone, exhibited through the medium of the marvelous motion pictures demonstrated by Beverly B. Dobbs, will fail to appreciate the truth of the above statement. Mr. Dobbs has, after some ten years of almost superhuman effort, secured a series of films absolutely unequalled Arctic life, human and ferret, is depicted with amazing fidelity. The old Eskimo lady fishing through a puncture in eight feet of sea ice, playing and finally landing her fish which freezes in a curve as she lands it on the ice. The native hunters in the fierce onslaught upon the herds of walrus, the panic of the great brutes, the open sea a seething mass of foam as they dash about in their frenzy, constitute pictures which are required to be seen to be appreciated, and even then hold spellbound the observer. No one should fail to visit this demonstration of polar life, at the Oregon theater, 15, 16 and 17, when Beverly B. Dobbs presents his Tour-ographolog on Alaska the Great Wonderland.
