SPORT BRIEFS.

Carl Walters and Piteher Wynne, who were released by Jess Garrett, Sunday, have found permanent berths with La Grande. Garrett gave them letters of recommendation to the Union county manager which, with the form displayed by them in first practices, was enough to secure them contracts. Cushman, the fast little third baseman, also went to La Grande but was not given a tryout.

Walla Walla is trying to induce Joe Cohn of Spokane to loan Gunner Mauser, the Indian twirler, to the Bears but it is said that, following a no hit game which the redskins pitched in an Idaho town last Sunday, Cohn has decided to retain him at home for the nonce. Rumor also has it that Paul Strand may also be recalled from the Bears.

Jimmie Johns, Pendleton star trackman on the University of Oregon team, was one of the five men Trainer Hayward took south with him to the Pacific coast meet at California.

With the changing of the schedule of the Tri-state league so that Pendleton can play in Walla Walla on July 4, the Buckaroos are lined up for twelve straight games with the Bears in the Garden City and local fans are not at all pleased with the arrangement. Another shift is probable.

Captain White of the Walla Walla Bears is devoting this week to teaching his recruits some of the rudiments of inside baseball in preparation for the opening series with Pendleton next week.

KEEP YOUR LIVER AND 30 FEET OF BOWELS CLEAN WITH DELICIOUS "SYRUP OF FIGS."

REMOVES FOUL GASES, SOUR BILE AND THE CLOGGED-UP WASTE WITHOUT GRUPE OR NAUSEA—NO HEADACHE, SOUR, BILIOUS STOMACH, COATED TONGUE OR CONSTIPATION

Primitive folks did not need laxatives. They lived outdoors, ate plenty of fruit, and all of their food was coarse. We modern people are different. We exercise too little, eat little fruit, and our food is too fine—too rich.

We simply can't have our ten yards of bowels clogged up, liver choked with sour bile and the stomach full of effete matter and feel well. It means that the food and waste retained in the stomach and thirty feet of bowels ferments—decays. The decay creates poisons, gases and acids, and those poisons are sucked into the blood through the very ducts intended to suck in the nutrient. Then we have sick headache, become dull, bilious, tongue coated, nervous, meals don't digest, and we feel miserable all over. So we must make our choice.

We must live like primitive folks, else we must take artificial means to move the excess bile and waste matter on and out of the system.

The safest, most harmless and effective stomach, liver and bowel cleanser and regulator for men, women and children—is delicious Syrup of Figs, which doesn't irritate, gripe or weaken. Its effect is the effect of fruits. It is composed entirely of luscious figs, senna and aromatics. Don't think your are drugging yourself. Syrup of Figs can be constantly used without harm.

Ask your druggist for "Syrup of Figs and Elixir of Senna," and see on the label that it is prepared by The California Fig Syrup company. This is the only genuine—the old reliable. Refuse, with contempt, the so-called Fig Syrup imitations sometimes offered to deceive you.

MRS. DARGIE CANNOT LIVE ON \$1000 A MONTH

San Francisco—Mrs. Erminia Peralta Dargie, widow of the late Oakland publisher, says that \$1000 a month is not sufficient to meet her household expenses, and she has asked the probate court for an additional \$1000 per month as family allowance.

Attorney Edgar Peixotto, representing Malvern Dargie, residuary legatee, protested against the increase when the matter came up before Judge Ogden. He said that he had not had an opportunity to consult with his client.

are mosquitoes. As they sting they put deadly malaria germs in the blood. Then follow the icy chills and the fires of fever. The appetite flies and the strength fails; also malaria often paves the way for deadly typhoid. But Electric Bitters kill and cast out the malaria germs from the blood; give you a fine appetite and renew your strength. "After long suffering," wrote Wm. Fretwell of Lucama, N. C., "three bottles drove all the malaria from my system, and I've had good health ever since." Best for all stomach, liver and kidney ills. 50c at Koepfens.

FENCE BUILDER BREAKS FINGERS

(Special Correspondence.) Adams, Ore., May 1.—While engaged with his brother in building a fence on the ranch of J. R. Adams last Monday, John Gresham was struck on the hand by an ax, suffering two broken fingers. He was taken to Helix and his injuries dressed by Dr. McKenney of that place.

Lane and Mary Martin were Pendleton visitors Saturday.

Miss Murphy, Jessie Chestnut and Celia Simonton went to Athena Saturday to attend the track meet.

Gwendoline and Mildred Rogers returned to school in Pendleton Monday after spending Sunday at home. Mr. and Mrs. Henry Whitely left for Pendleton Tuesday where they will make their future home. Mr. Whitely is employed at Karney & Bradley's livery stable.

ITALY CIVILIZING TRIPOLI COUNTRY

(Continued from page two.)

The first railroad in Tripoli is now an accomplished fact. It extends for a distance of 12 kilometers from Tripoli to Ain-Zarah. Two branch lines are also under construction, one eastward from Tripoli to Taklura and one westward from Tripoli to Gargaresch. Other lines will follow as rapidly as possible.

Extensive work has also been done towards the establishment of permanent seaports both at Tripoli and Bengasi that will be valuable additions to the world's navigation and commercial facilities. Contracts aggregating 2,000,000 lire have already been let for the construction of port facilities at these two points.

The port of Tripoli has also been fully equipped and systematized for a safe navigation and commerce. A new lighthouse has been erected, a wireless station installed, a semaphore provided for signalling vessels at sea and nautical data and charts prepared for coastwise navigation and commercial development of all the seaports of Tripoli and Cirenaiaca.

This development of the port of Tripoli has made possible the establishment of a regular mail service which has helped materially the remarkable progress that has been made towards establishing a complete system of posts, telegraph and telephones. With the assistance of a large force of trained employees brought especially from Rome there is now a main postal, telegraph and telephone office with branches and independent offices in all parts of the colony. Telegrams are delivered by special messengers but letter carriers have not yet been installed for the reason that the natives still prefer to call personally for their mail. A cable now being laid between Syracuse and Tripoli will soon give direct cable communication with the rest of the world.

Extensive work has also been done by the department of agriculture, industry and commerce in securing specific and scientific data on soil conditions, water supply and rainfall. From this it has already been made

GRAY HAIR MAKES YOU LOOK OLD

Gray hair is a mark of age, and nothing that can be said as to its beauty will offset the disadvantages of this mark of age set upon your brow.

Wyeth's Sage and Sulphur Hair Remedy darkens the hair and restores it to its youthful beauty. Our grandmothers and their grandmothers before them used sage and sulphur for darkening their hair. Nothing has ever been found more effective for this purpose than these two time-honored remedies, but Wyeth, a modern chemist, has combined the two with other ingredients, which makes a delightful dressing for the hair, and which not only removes every trace of dandruff but promotes the growth of the hair. It also stops the hair from falling out, and makes it beautiful.

All druggists are authorized to refund the money if it fails to do exactly as represented.

Don't neglect your hair and don't resort to old-time hair dyes. Get a bottle of Wyeth's Sage and Sulphur from your druggist today, and notice the difference in your hair after a few days' use.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by special agent, Pendleton drug Co.

certain that large tracts of Tripoli heretofore considered sterile can be made fertile and productive. Already seed has been distributed in large quantities to the natives, the use of modern agricultural utensils and methods introduced and other encouragement given for the development of agriculture.

Finally, Italy has also undertaken to bestow the same care upon the historical monuments and remains of the ancient civilizations which existed in Tripoli that she bestows upon these at home. Already enough of these have been discovered to throw great light upon the peoples of the past and to be of permanent value to the entire world. The branch of the new government which has this in charge has already undertaken the isolation and preservation of the arch of Marcus Aurelius that has been discovered, while other excavations will be made as rapidly as possible.

In short, Italy feels that in the six months she has occupied Tripoli she has done more for the moral and material development of the country than was done under the entire Turkish regime and that she has given ample evidence of her sincerity in promising to carry modern civilization to the people of Tripoli and Cirenaiaca.

Helps a Judge in Bad Fix.

Justice Eli Cherry, of Gillis Mills, Tenn., was plainly worried. A bad sore on his leg had baffled several doctors and long resisted all remedies. "I thought it was a cancer," he wrote. "At last I used Bucklen's Arnica Salve, and was completely cured." Cures burns, boils, ulcers, cuts, bruises and piles. 25 cents at Koepfens.

It takes five different aged whiskies to make Cyrus Noble---each one good in itself. But it takes blending and re-ageing to bring out the best in each---to "round-out" the flavor.

Why punish yourself with rough, high-proof, strong whiskey when you can get Cyrus Noble everywhere?
