Residents in the vicinity of Alta and Johnson streets will be gratified at the favorable action of the council last night upon their petition for an are light at the intersection of those streets. Taylor, who secured both the republican and democratic nomination for sheriff turned the trick by spending the small sum of \$22. The expenditures by all three of the candidates were principally for newspaper advertising.

KANGAROOS HELD AS ALIENS.
Are Classed as Deer and Undesirable—Washington Order Admits Them.

San Francisco, Cal.—Eight tiny kangaroos, less than twelve inches in height, and yet fully grown, have been held as "undesirable aliens" by officials of the department of agriculture on the ground that they are deer. They have heads like deer. The animals are the property of K. N. Painter of New York, who arrived on the steamship Tenyo Maru from

the orient. He bought them in Singapore, where they had just arrived from Australia.

"There are no animals like them in the country," said Painter. "The law was passed with the intent to protect our domestic stock from intestinal complaints common to Asiatic furred animals."

Members of the California Academy of Science became interested in the animals and obtained a ruling from the bureau of animal industry at Washington whereby the kangaroos will be allowed to be brought into this country.

SWAP MARRIAGE LICENSE.

Flance and Sweetheart Change Minds Before Knot Is Tied.

Pottsville, Pa.—Arthur G. Meyer of Orwigsburg secured a license from the Schuylkill county register to marry Miss Mary Smith of Pottsville, Bedford county, New York. Just before the couple were to marry, however, they had a serious talk, which brought about the fact that neither thought enough of the other to warrant happiness in the conjugal state; besides, each agreed that they had a fondness for someone else.

Having arrived at the conclusion that they would not marry, Meyer, in the meantime proposed to Miss Ella Wildermuth of Landisville. The latter was not at all loth to accompany her fiancé to the register's office here when application was made by Meyer for a new license.

After satisfactory explanations had been made the new license was issued and the happy couple a short time later were quietly married and are now on their honeymoon.

THREAT OF DEATH CAUSES WOMAN TO SHOOT HERSELF

Fearing She Will Be Killed by Unwelcome Admirer who Accosted Her in Street, New York Woman Kills Self.

New York.—Temporarily crazed by the death threat of an unwelcome admirer, Mrs. Angelina Teti, 25 years old, attempted suicide by shooting herself in the right temple in her apartment at 2248 Fifth avenue. She will die.

A man who saw her in the street tried to force his attention on her. She repulsed him, but he asked her last week to elope with him. She turned from him in disgust. On Saturday night, according to her husband, the man made a second plea. She told him she would have nothing to do with him. Then, says Teti, the man threatened to kill her if she did not go with him.

Teti started out at 8 o'clock to make some purchases. On his way downstairs he heard a shot. Running back he found his wife lying on the floor. A revolver was in her right hand and there was a bullet wound in her right temple.

Pigeons Mete Out Justice.

Newark, N. J.—Captain Oscar Vogel, of the fourth police precinct, took a Solomon-like method of determining the ownership of fifteen pigeons taken from two boys who were attempting to sell them. The lads were arrested on suspicion they had stolen the birds.

Later three pigeon fanciers put in an appearance at the station house, each claiming a certain number of pigeons. The total of the claims aggregated a number larger than the total of the birds.

When Captain Vogel saw they couldn't straighten the question out among themselves, he announced the disposal of the birds would be deferred until the next day.

In the morning the captain ordered the crate containing the pigeons to be carried into the street and they were released one by one. As they flew away they took different courses. Later all were located in the coops of the three edifferent fanciers. Ink marks had been placed on their feathers so they could be identified.

"I guess they know where they belong," said the captain, "so we'll let them stay where they are."

TOWN BUILT THREE TIMES.

Kansas Village Has History Which Is Unique.

Larned, Kan.—For the third time in its history the town of Nettleton, between this place and Kinsley, on the main line of the Santa Fe, is to be rejuvenated. About twenty five years ago a store, hotel and about a dozen dwellings were built there, but all were moved away when the boom collapsed in the later 80's. About ten years ago a man named Abrahamson built and conducted a store there in an effort to get the town started, but the project shared a like fate. Now comes Frank Kettleston of Kinsley and Spearville, who is building a two story building at the place and will conduct the store and elevator there in an effort to get the town off on the right foot. He is going to try to make the town something besides a name on the Santa Fe folders.

NOT DEAD; DODGES WIFE.

New York.—William Rick, who was supposed to have been drowned in Peconic river, Riverhead, L. I., is alive and well in East Moriches, L. I., where he was found. He left indications of a sudden demise, it is said, to escape from his wife, who gave him a severe beating the day he disappeared.

She is a large woman, while he is diminutive in stature.

Rick went clamming after the beating. He didn't return. His boots were found in the water and his boat was adrift.

Rick's wife went to East Moriches on receipt of news of his whereabouts.

GOETHALS READY TO QUIT.

Washington.—Colonel Goethals, in charge of the construction of the Panama canal, may resign rather than remain to undertake the opening of the canal without a properly trained administrative force, according to John Barrett, director general of the Pan-American Union, who returned to Washington after a visit to the canal zone.
