AT THE OREGON THEATRE

"My Jack O'Lantern" is one of the biggest song hits in Harry Bulger's starring vehicle "The Flirting Princess," Mort H. Singer's big musical comedy success, which comes to the Oregon theater June 22, as it is sung by Miss Eileen Sheridan. It is a tuneful melody bringing back memories of fitting shadows and olden Hallowe'ens. Everyone who has heard it is whistling or humming it, which proves conclusively that it is a hit.

HUMAN HEARTS, EYES FOR SURGEON'S USE

Rockefeller Institute Read Announces That He Can Supply New Parts of Bodies to Replace Diseased on Physicians' Orders.

New York.—It is not generally known that the Rockefeller Institute in this city is a sort of department store where may be obtained, properly "canined" and labeled, parts of a human heart, nerves, blood vessels, spleen, many of the smaller glands, the cornea of the eye, various bones of the body and cartilages to be used in repairing diseased human frames. The announcement was made to the American Medical association at Atlantic City by Dr. Alexis Carrel, in charge of the research work of the Rockefeller Institute, who invited the doctors to send in their orders, promising that they would be filled forthwith.

Orders Cartilage by Wire.
Not long ago a Chicago surgeon needed a cartilage for a knee disease operation. He telegraphed a rush order. The cartilage was shipped by express in a tiny refrigerator, was used and the patient is now well and walking with it just as if it were his own.

The doctor told his colleagues it had been found possible to make tissues from the dead live and grow nine months after they were taken from a body. For six years the experiments have been going on. A piece of the heart of a chicken pulsed and was alive 194 days after it had been removed. In experimenting he turned from chickens to guinea pigs, then to frogs, next to horses, followed by babes and finally to man. He now has nine methods of preserving the life in structures removed from the body which, according to Dr. Carrel, practically revolutionizes the theories of animal life.

New Tissue Good As Old.
In the transfer of tissues and organs under the new method from a dead to a live body no death of the tissue occurs. After they have been made a part of another body the life in them continues as if they had been there from birth. The color and consistency of removed tissues and organs remains perfectly normal for as long as ten months in some cases.

In the course of experiments such tissues were kept in cold storage where they continue to live and grow until transplanted.

RUSSIAN COLONEL MAY GO FREE AFTER MURDER

Wantonly Slashed Pianist With Saber Because He Did Not Know Samara March.

St. Petersburg.—It now turns out that the pianist whom Colonel Lilley, a Russian army officer killed the other day at Kiev by slashing him across the head with his saber, was a Jew, and under these circumstances the general opinion is that Colonel Lilley will go scott free for the wanton murder.

It will be recalled that the officer, who was with some comrades in a concert hall and in a drunken frenzy called upon the pianist to play the Samara march. The pianist did not know the air and there was no music. He asked the colonel if he would hum the march through so that he might catch the air. Thereupon the colonel shouted:

"How dare Jews refuse to play the Samara march!"

Without further ado he dragged his saber from its scabbard and brought it down on the inoffensive pianist severing an artery in his neck and killing him almost instantly.

NOVEL FARM COLONY OF FORTY FAMILIES

Individual Tracts on Three Sides of Ground Are to Be Worked in Common.

Kansas City.—The Fruitcrest Fellowship Farm association, in which industrial and social co-operation is to be applied, is being established near Independence. It is on a farm formerly owned by Norman H. Chamberlain, a mile north of Independence, on the west side of River boulevard. The enterprise was announced last October. The tract was sold to the association by Chamberlain, who became a member. It comprises thirty-five acres. A four acre lake is to be in the west part. A stone dam will be built to retain water from several springs. The lake is to be stocked with fish and fitted for boating and bathing. The plans contemplate the association of forty families. Thirteen acres on the north, east and south sides are to be divided into forty tracts of about one acre each. One of these is to be sold to each head of a family. The price is from \$725 to \$1000 for a tract, and the terms are \$50 down and \$10 a month without interest till all is paid.

The purchaser may put all the improvements on he desires on his own ground. The only restriction is that he may not put up a business house without the consent of the board of directors. With his own lot he buys one-fortieth of the ground and improvements held in common.

These lots face toward the inner part of the ground, which is an irregularly shaped tract of twelve acres. The central part is to be used for intensive agriculture and horticulture and cultivated in common for the common good of the members. Five acres already have been planted in potatoes. On the farm are 300 bearing cherry trees planted by Chamberlain before he sold it.

Between the tracts owned by indi-

viduals and that owned and cultivated in common is a thirty-foot driveway to be used for pleasure vehicles only. For other vehicles there is to be a twenty-foot driveway on the outside of the tract.

SOCIAL LEADER BUYS HEAVIER HATS BY WEIGHT

Five Ounces is Extreme Limit, as Heavier Ones Cause Brain Fatigue.

Chicago.—A hat that weighs more than four or five ounces causes brain fatigue. It is a mental strain and excess baggage.

Mrs. Emmons Blaine, exclusively fashionable and a woman of mentality, is said to have told all of her friends that they were making a serious mistake in buying anything but four ounce hats.

"They are a mental strain, these big hats, and comfort and good sense is involved in the buying of these light things," she is quoted as saying. Just now a little French hat of black and white straw, the smallest addest thing in millinery, is being worn by Mrs. Blaine to all sorts of afternoon affairs, and she is striking in it. Mrs. Blaine may like a hat ever so well, but if it exceeds the weight limit she does not buy it. All of her hats are weighed before she buys them.

"And do you know," said a clever society woman, "Mrs. Blaine saves all of her gowns? They are so exclusive, so different and so lovely that it entertains her to look at them when they have gone out of fashion, so she labels them with dates and names and puts them away. Years from now they will certainly be a most wonderful and most fascinating collection."

Makes the Nation Gasp.

The awful list of injuries on a Fourth of July staggers humanity. Set over against it, however, is the wonderful healing, by Bucklen's Arnica Salve, of thousands who have suffered from burns, cuts, bruises, bullet wounds or explosions. Its quick healer of boils, ulcers, eczema, sore lips or piles. 25c at Koeppens.

BANKRUPT SALE.

On or before June 15, 1912, I will receive sealed bids at my office in Hermiston, Oregon, on the stock of goods consisting of general hardware and house furnishings formerly conducted by W. S. Phillips, at Hermiston, Oregon, and appraised in bankruptcy at \$2805.95. Separate bids will be received upon the notes and accounts, appraised at \$285. Complete inventory may be seen at my office and stock inspected upon application. I reserve the right to reject any and all bids.

F. C. MCKENZIE, Trustee.

If you have the itch, don't scratch. It does not cure the trouble and makes the skin bleed. Apply BAL-LARD'S SNOW LINIMENT. Rub it in gently on the affected parts. It relieves itching instantly and a few applications removes the cause, thus performing a permanent cure. Price 25c, 50c and \$1.00 per bottle. Sold by A. C. Koeppen & Bros.

NO FRILLS AT GRADUATION

Beaumont, Texas, Passes a Law Procluding Flower Gifts.

Beaumont, Tex.—The city school board adopted resolutions prohibiting the presentation of flowers or presents of any character to the members of the graduating class during the commencement exercises and prescribing that the pupils to be graduated shall wear a cap and gown of uniform color and material and to cost not to exceed \$10.

While the commencement exercises will this year be held in some public hall it was resolved that in the future all commencements shall be held in the auditorium of the high school and the event will be made an affair more or less exclusive for the graduates, their families and friends and will be shorn of its public character.

This year there will be at least sixty and probably sixty-five pupils to be graduated.

A regular morning operation of the bowels puts you in fine shape for the day's work. If you miss it you feel uncomfortable and cannot put vim into your movements. For all bowel irregularities HERBINE is the remedy. It purifies, strengthens and regulates. Price 50c. Sold by A. C. Koeppen & Bros.

Trash hauled every Tuesday. Call Penland Bros' Transfer. Phone Main 339.

KNOW IT WELL.

Familiar Features Well Known to Hundreds of Pendleton Citizens.

A familiar burden in many homes. The burden of a "bad back" A lame, a weak or an aching back. Often tells you of kidney ills. Doan's Kidney Pills are for weak kidneys.

Here is Pendleton testimony:

Charles Breithaupt, Pendleton, Oregon, says: "Off and on for some time I suffered from attacks of kidney trouble and backache. I was subject to dizzy spells and headaches and I felt miserable. When Doan's Kidney Pills were recommended to me, I procured a supply and soon after beginning their use, I found that they acted as represented. Since taking Doan's Kidney Pills I have felt much better in every way."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
