TRAPPING OF DARROW TOLD

Detective Brown Explains Methods Used Watching Alleged Bribing of Prospective Juror.

SECOND BRIBE OFFERED

McNamara Attorney Promised to 'Take Care' of Prosecutor's Sicut, if He Would Make It Easy for Defense, is Testimony Offered.

Los Angeles, June 12.—Chief Detective Samuel L. Brown of the district attorney's office, was on the stand the entire forenoon session of the Darrow trial today, and testified for the prosecution. He told of watching the house of George N. Lockwood, a prospective McNamara juror, with whom Darrow is charged with bribing, and also of planting detectives to watch Bert Franklin when he approached Lockwood with \$4,000, as alleged.

After telling how he arrested Franklin a few minutes after the money was passed, Brown was asked to tell what Darrow said immediately after arrest. Brown testified, that Darrow said:

"My good Brown! What's all this?" "I said it was bribery. Then Darrow exclaimed:

"If I had known all this was going to happen I would never have allowed it to be done."

"He added: 'You do the best you can for us Brown. We will take care of you.'"

During this recital Darrow sat pale, calmly chewing a pencil, regarding the witness steadily.

FRIDAY GAME TO BE PLAYED IN MORNING

On account of the afternoon performance of the 101 Ranch in this city Friday the baseball management has decided to hold the game on that day at 10 o'clock in the morning. The wild west show has arranged to use Round-up Park for its performances, thus preventing the game, but the management of the show has postponed its parade until 1 o'clock in order not to interfere with the game.

The game this afternoon was called off on account of the drenching rain which has soaked the field. To the fans the interference of Jupiter Pluvius is received with considerable impatience for, since that thrilling game of yesterday, interest in the remainder of the series is keyed up to a stiff tension.

The mass meeting decided to cable Mabel Boardman of the Red Cross society, to cooperate with President Taft. DYNAMITE CAPS KILL BABY.

Child Using Explosives as Rattle Is Blown Almost to Pieces.

Boston.—Using dynamite caps in a tobacco box for a rattle, Edmond Dickey, two years old, was so severely injured by the explosion which resulted that he died a short time after being taken to a hospital. The strange looking caps were found on the shelf when the family moved into their present home in East Cambridge a few weeks ago and were given to the child as playthings. Before going to work his father gave him an empty tobacco box, which made a pleasing rattle when the caps were placed inside of it.

When the mother heard the explosion she ran into the kitchen and found the child almost blown to pieces. His little hands were shot away and one side of his face was badly mutilated.

HAVE HEAD EXAMINED IF YOU WOULD SUE

Attorney Declares Ninety Per Cent of Clients Should Consult Physician First.

Philadelphia.—Russell Duane, a prominent attorney, in addressing the graduating class of the Philadelphia College of Osteopathy, said that lawyers would do much more good if the would take 90 per cent of their clients to physicians before beginning litigation, instead of going to the courts first.

Mr. Duane took the stand that just about 90 per cent of the persons anxious to get into lawsuits need a thorough examination of the head, and if lawyers would pursue this medical examination idea there would be very little legal trouble. He also advocated the idea of public corporations employing staffs of physicians to keep their employees in good physical condition as well as to take care of them after accidents.

TWO AVIATORS FALL TO DEATH

Army Officer and Aeroplane Instructor of Wright School are Latest Victims.

DROP OVER 200 FEET

One of Dead Men Was Considered Among Most Expert Birdmen—Believed Too Much Weight Was Put on Flying Machine.

College Park, Md., June 12.—Lieutenant Leighton W. Hazlehurst, Seventh Infantry, U. S. A., of Macon, Ga., and A. L. Welch, of Washington, D. C., were killed here at 6:13 o'clock last night when a new army aeroplane of the type in which they were flying, fell to the ground at the army aviation school and was wrecked.

Lieutenants Hazlehurst and Welch had just started on their trip and had just reached an elevation of about 200 feet when the machine crashed to the ground. Death to both was instantaneous. The machine was wrecked. Welch was flying the machine and Lieut. Hazlehurst was with him as a passenger. Apparently the weight of the engine and the two men caused the collapse.

The machine was brought to the army aviation field three weeks ago by Orville Wright. Welch came with him from Dayton, Ohio, and intended spending the season here as a teacher for the Wright company. Fifteen flights had been made in the machine without accident since it was brought here. Both Lieutenants Hazlehurst and Welch had separately made successful trips in the machine earlier in the afternoon.

Welch, whose home was here, had been for three years in the employ of the Wright brothers, and was said by Orville Wright to be one of their best teachers.

SEEK REINSTATEMENT OF CHICAGO STEREOTYPERS

San Francisco, June 12.—President Straube of the Chicago Electrotypers and Stereotypers' union, today continued his argument at the Eleventh annual convention of the International Electrotypers and Stereotypers' union here for the re-instatement of his union.

The Chicago union's charter was cancelled after it struck in sympathy with the Hearst Pressmen of Chicago. Straube declared that President Freel of the international body, made no investigation of their grievances before ordering them back to work after their strike.

Earthquake Registered.

Washington, June 12.—The seismograph at Georgetown University registered a violent earthquake. It is believed the disturbance was in Alaska.

For every man that work kills, having too many good times puts a dozen out of the running.

The story states that Moore and Miss Russell were married at noon today in the Hotel Schelly.

Only relatives and intimate friends, including members of the Weber and Fields Jubilee company, of which Miss Russell is a member, attended.

TAFT HOLDS FATE OF COMMERCE COURT

Senate Joins House in Going On Record Against Tribunal

Washington, June 12.—Only the signature of the president now is required to abolish the commerce court. The legislating out of existence of that tribunal, created only two years ago and which the supreme court of the United States recently asserted had exceeded its power, was determined on when the senate by a vote of 36 to 23 defeated an amendment to make provision in the legislative, executive and judicial appropriation bill for maintaining the court.

TAFT MAY VETO BILL

This puts both houses of congress in accord in the matter of abolishing the court. There is a likelihood, it is asserted in official circles, that President Taft will veto the bill.

CONDEMNED MURDERER TRIES TO KILL DAUGHTER

Washington, June 12.—With but a few hours to live, Jan Ribarik, condemned to be hanged, attempted to add another victim to his list by trying to strangle his daughter when she came to his cell to bid him goodbye.

Antonia Ribarik was a witness against her father at his trial for killing Mr. and Mrs. Novak and Stephen Stanovi. As she stepped forward to kiss him he grasped her by the throat and was strangling her when guards beat him off with iron bars. He was hanged later without expressing regret for his crimes.

MYSTERY IN ASTOR SAFE.

Strong Box, Forced Open, Holds Secrets That Trustees Will Not Reveal.

New York.—The late Colonel John Jacob Astor possessed one safe of which he alone knew the combination and therein, absolutely secure from fire and burglars, reposed such secrets as he desired to conceal from his most intimate confidants. Experts worked in vain to find the combination, as did steel-drill men. The safe was finally forced open by the aid of acetylene gas, chisels and files. What was found is a mystery that the trustees refuse to clear.

TAFT GETS CALIFORNIA AND ALSO ARIZONA DELEGATIONS

Wins in Contest Over District Giving Roosevelt 69,000 Majority in Primary

MASS MEETING CALLED TO DENOUNCE PRESIDENT

Pennsylvania and West Virginia Republicans Will Accept Taft As Nominee Under no Circumstances, Declare Leaders of the Progressives.

Chicago, Illinois, June 12.—The national committee today seated two Taft delegates from the fourth district of California. Francis J. Heney was bitter in his denunciation of the committeemen for their action.

Heney said: "I am before the national committee to tell President Taft, through his committee, that if he accepts the two delegates from the fourth California district, he is the receiver of stolen goods."

This statement resulted in a bitter debate in which the California attorney bitterly assailed the motives of Senator Crane of Massachusetts, and Senator Penrose of Pennsylvania. Other Roosevelt men made open charges that Taft committeemen had robbed Roosevelt of two fairly elected delegates.

The national committee's vote on the contest of the fourth California district was 37 for seating Taft men to 16 against. The two Roosevelt delegates were elected by a majority of more than 69,000 in the state wide primary, and the two Taft men who were seated in their stead had a local majority of 150 votes.

F. C. Bryan, a law partner of General Charles Dick, Taft's contest manager, argued for Taft. Heney spoke for the Roosevelt delegates. After Bryan was through with his argument, Senator Penrose of Pennsylvania, asked if he knew the California legislature had "flagrantly and deliberately violated the law by forcing through the California primary law under the lash of Governor Johnson."

Heney was on his feet instantly. "I object," he said, "to my state being insulted by Senator Penrose or any one else. I won't silently permit any one to libel Governor Johnson."

Francis J. Heney, the graft prosecutor, today attacked members of the national committee. He said: "The committee's handling of the contest is disgraceful. It is the most scandalous farce I ever saw enacted and I have watched the methods of the toughest politicians in the world—those of San Francisco. I sent Rufie to the penitentiary for doing the same thing, but there are no laws to take care of the situation in the national committee's case."

Roosevelt men declare the action of the national committee in seating the two Taft delegates from the fourth district of California, is part of a plan to lay a foundation for an attack on the whole delegation from California and other states where delegates were elected from the state at large. This attack they say will be made on credentials.

In connection with the California contest, Heney read a letter from Governor Johnson.

It said: "I decline to appear before a committee and will not submit to a trial for title of property by a thief who steals again. It would be an insult to the people of California for me to appear before a committee which obsequiously receives Patrick Calhoun's man, Hogue, or even listens to a contest by Calhoun, designed to override a majority of 77,000 California republicans which prejudged the contest."

The national committee today seated the Taft delegates at large from Arizona. This is the most serious blow Roosevelt has yet received at the hands of the national committee.

Ormsby McHarg, Roosevelt representative in the contests, contended the election of the Taft delegates

from Maricopa county to the Arizona state convention was illegal and irregular. He said the entire state result hinged on this county. The first denunciation of Taft's candidacy will come at a mass meeting of Roosevelt followers to be held here tonight. The candidacy and administration of Taft will be attacked by Governor Johnson of California, Francis J. Heney, Governor Stubbs of Kansas and Judge Lindsey of Denver.

William Flynn, leader of the progressives of Pennsylvania, and Governor Glasscock of West Virginia, declared those states would not recognize Taft as the regular republican nominee should the Taft men control the convention.

Speaking for West Virginia and Pennsylvania, Glasscock and Flynn declared the Taft nomination would not be accepted under any circumstances. Flynn and Glasscock declared the electors and delegates of Pennsylvania and West Virginia will support Roosevelt in the electoral college even if Taft is nominated.

Many Taft and Roosevelt leaders today dropped all other work and devoted their efforts to getting delegates and candidates' support for their temporary convention organization plans. They realize the control of the temporary organization of the convention may mean the control of the permanent organization.

1200 YARDS OF DIRT LIFTED WITH A SHOT

Twelve hundred yards of earth and rock were displaced at 1:30 this afternoon at the cut which is being made on the Wild Horse road east of this city. So well had the explosives been placed and so great the precautions taken that absolutely no damage was done and the blast is considered by Engineer C. H. Martin as highly successful.

It was anticipated that the blast would be ready for exploding several days ago but more time was considered necessary and it was not until this morning that everything was in readiness for the lighting of the fuse. Sixteen kegs of powder had been imbedded and shortly after 1:30 it was exploded, the noise being deafened so that it was not heard in the city.

The moving of this large quantity of earth will greatly facilitate the work of preparing the Wild Horse road for travel. Engineer Martin has had a force of men at work for several months and the progress he is making is very satisfactory to the county court.

One year after marriage a man can seldom offer a satisfactory explanation.
