dresses pretty enough for any wear. The new "Bontex" cottons have the name woven in the selvage as a guarantee of up-to-date style and quality, and include every standard weave, as well as many exclusive novelties, zephyrs at a few cents a yard, silk and cotton brocades, mercerized poplins, voiles, galates and bordered goods priced at several dollars. Merchants everywhere are showing these, so a woman can easily judge for herself of their beauty and quality.
 American women have as a rule an intuitive sense of fitness in dress which brands them as the best-gowned women in the world. For only when a woman realizes her own needs and limitations can she expect to appear at her best. An elaborate and fussy gown, suited for wear in a motor car, looks ridiculous in a public conveyance, where rich and elegant attire can be correctly worn if properly selected. "A fine sense of fitness heralds the well-dressed woman," says a fashion authority. "Beauty of dress is not a question of buying the latest mode" but of buying what suits the wearer and fits her needs.—Christian Science Monitor.

Cotton in Netting.
 One bride is making her comforters in an unusual way, says Good Housekeeping. She incloses the cotton batting in mosquito netting, tacking it here and there. Then she slips this into its outside cover. When the cover is soiled it is very easy to rip open one end and remove the cotton and also as simple to put the whole together again.

Graham Pudding.
 One and one-half cups flour, one cup raisins, one cup milk, two-thirds cup molasses, one-fourth teaspoon each cinnamon, cloves and allspice, one teaspoon soda. Steam three hours.
 Sauce—One and one-half cups sugar, one-half cup water, one-third cup butter, two eggs, grated rind and juice of lemon. Heat in a double boiler but do not boil.

The New Sleeve.
 A charming sleeve is loose and flowing to below the elbow; then it is drawn together and buttoned over the back of the arm, its bright lining showing in a most artistic way.

Greek Draperies.
 The Greek draperies introduced through the winter are so charming that nobody will relinquish them, at any rate for evening wear.

Tomato Toast.
 When a child I could not eat a particle of tomato in any form unless so cooked as to overcome its flavor largely. Tomato toast was the first step in learning to appreciate the flavor of tomatoes in cooking.
 Open a can of tomatoes, turn the contents into a saucepan and stew for fifteen minutes; then rub through a colander. Return to the fire with a dash of pepper, a saltspoon of salt, one tablespoon of butter and a little more of sugar. Simmer for ten minutes longer, and meanwhile put a saltspoon of soda in a cup of milk and bring the milk to the scalding point. Now turn the cooked tomatoes gradually into this, stirring all the time, and pour immediately over slices of buttered toast spread upon a warm

CHILD'S MADISH FROCK.

This smart adaptation of the Russian blouse suit for a little girl may be reproduced in various materials. The original of the drawing was of cashmere, with pipings of silk, but wash material may be used if desired. The blouse, in both front and back, is gathered into a plain, narrow epaulet of the material which continues half way to the elbow. Into this the rather full sleeve is gathered and again into the narrow turned back cuff of decorative material. The blouse slips on over the head, this being made possible by the slash at the front, which closes with two pearl buttons. For summer wear this frock would be charming made of white linen, with cuffs of heavy embroidery. A gümpe is worn beneath.

platter. Serve very hot. The milk and soda may be omitted and a very satisfactory toast will result.

INDIAN CONGRESS IS PLAN OF MEN OF VARIOUS TRIBES

Regular Gathering Will Find Rival When It Convenes April Seventh.
 Washington, March 20.—Congress, when it reconvenes will find a rival in the capital, for it developed that plans have been made to establish here an organization known as the Indian congress. The arrangements were approved at a meeting of several tribal Indians and their representatives last night.
 The congress will have one resident delegate from each of the various Indian tribes of the country. Each delegate will receive a salary, the amount to be determined by the council of each tribe, to be paid out of the tribal funds. The primary object of the congress will be to look after the interests of the Indians before the government and congress.
 The Indian newspaper, "The Tomahawk," now printed on the White

GOVERNOR WILL TRY TO SETTLE COAL STRIKE

Charleston, W. Va., March 20.—Governor Hatfield started today for the coal miners' strike region in the Paint creek district. It was said he intended to spend most of his time in that zone until the strike is settled, visiting the miners in their homes and mines and doing all he can to bring peace to the disturbed district.

DEMOCRATS TO PUBLISH PAPER IN OLYMPIA

Walla Walla, Wash., March 20.—Democrats of the city are much interested in the announcement that a democratic daily is to be published in the state capital, presumably to be the mouthpiece of the administration. It is claimed that the present papers published in the state capital give a biased view of all the state news, and that this will be corrected in the new paper.

The incorporators of the new company are: A. J. Harder of Aberdeen, Eagle Freshwater of Olympia, J. H. Brown of Olympia and P. M. Troy of Olympia. The capital stock is named at \$45,000, and is divided into shares of \$100 each. The paper will be known as the Washington State Democrat.

FINED FOR WORKING HER COOK OVERTIME

Baker, Ore., March 20.—In connection with the crusade started in the east against long hours and short pay for girls, William A. Dalziel, deputy labor commissioner, has started a movement to stamp out the evil in Oregon.
 Mrs. S. A. Underwood of the Underwood hotel was fined \$25 and costs

for employing her cook more than the weekly 60 hour limit allowed by the laws of the state.
 Today there is a new Jap cook at the hotel.

Similar cases in La Grande were called to the attention of Mr. Dalziel and the offenders were immediately punished. He stated that Baker employers were not as bad about employing their girls long hours, as several of the towns he visits.

Can't Help But Admire Babies

Every Woman Casts Loving Glance at the Nestling Cuddled in its Bonnet.

A woman's heart naturally responds to the charm and sweetness of a pretty child, and more so to-day than ever before since the advent of Mother's Friend.

This is a most wonderful external help to the muscles and tendons. It penetrates the tissues, makes them pliant to readily yield to nature's demand for expansion, so there is no longer a period of pain, discomfort, straining, nausea or other symptoms so often distressing during the anxious weeks of expectancy.
 Mother's Friend prepares the system for the coming event, and its use brings comfort, rest and repose during the term. This has a most marked influence upon the baby, since it thus inherits a splendid growing system of nerves and digestive function.
 And particularly to young mothers is this famous remedy of inestimable value. It enables her to preserve her health and strength, and she remains a pretty mother by having avoided all the suffering and danger that would otherwise accompany such an occasion. Mother's Friend thoroughly lubricates every nerve, tendon and muscle involved and is a sure preventive for caking of the breasts.
 You will find this splendid remedy on sale at all drug stores at \$1.00 a bottle, and is highly recommended for the purpose. Write Bradford Regulator Co., 134 Lamar Bldg., Atlanta, Ga., and they will mail you sealed, a very instructive book for expectant mothers.
