

Ugly Sores Quickly Banished

You Marvel How Worst Skin Eruptions Disappear as Result of Famous Remedy.

If you have been fighting some blood trouble, some eruptive skin disease, call it eczema, lupus, psoriasis, malaria, scurfula or what you will, there is but one sure, safe way to cure it. Ask at any drug store for a \$1.00 bottle of S. S. S. and you are then on the road to health. The action of this remarkable remedy is just as direct, just as positive, just as certain in its influence as that the sun rises in the east. It is one of those rare medical forces which act in the blood with the same degree of certainty that is found in all natural tendencies. The manner in which it dominates and controls the mysterious transference of rich, red, pure arterial blood for the diseased venous blood is marvelous.

Out through every skin pore acids, germs and other blood impurities are forced in the form of invisible vapor. The lungs breathe it out, the liver is stimulated to consume a great proportion of impurities, the stomach and intestines cease to convey into the blood stream the catarrhal, malarial germs; the bowels, kidneys, bladder and all emunctories of the body are marshalled into a fighting force to expel every vestige of eruptive disease.

There is scarcely a community anywhere but what has its living example of the wonderful curative effects of S. S. S. Get a bottle of this famous remedy to-day, and if your case is stubborn or peculiar write to The Swift Specific Co., 127 Swift Bldg., Atlanta, Ga. Their medical laboratory is famous and is conducted by renowned experts in blood and skin diseases.

News of Near by Towns In Umatilla County

STANFIELD MAN GOES TO S. DAKOTA

(Special Correspondence.) Stanfield, Ore., March 21.—Thos. Richards, one of the city aldermen, left today for a trip to South Dakota. Minnesota, Wisconsin, Michigan and Illinois. Mr. Richards represents a number of the ranchers. He will purchase several carloads of Holstein milk cows to be placed on the different ranches on the project. He expects to be gone several weeks.

Dr. George Rebec of the state university, lectured before the high school pupils Thursday morning. J. H. Bryant returned this morning from a trip to Boise.

R. W. Fletcher of Pendleton was shaking hands with his many Stanfield friends Wednesday.

The Stanfield firm gave a dance in the Watts auditorium St. Patrick's day. The music was furnished by the Umatilla Orchestra. A large crowd was in attendance.

G. M. Fisher of Hermiston was in the city for a couple of days.

C. W. Polk returned Wednesday from a trip to Nebraska. Chas. Blumenfeld of Seattle, was doing business in Stanfield this week. Truman, the young son of Mr. and Mrs. T. O. Yates, has been confined to his bed for the past week, but is now convalescent, under the care of Dr. Reid.

Dr. J. L. Graves of Fargo, will commence the erection of a modern bungalow on his ranch adjoining town. Contractor Norton will put a force of men to work at once.

M. Baragar of Contentment Height, is laid up with the grippe.

Mr. and Mrs. H. B. Reese and son of Pendleton, were the guests of Mr. Reese's sister, Mrs. R. H. Irwin. Mr. Reese expects to build on his ranch and become a resident of Stanfield in the near future.

Horace Walker has returned from a business trip at Pendleton. N. H. Alexander was an Echo visitor Wednesday.

Sheep shearing has begun here this week. There are five machines at work on the Stanfield ranch. Mr. Stanfield left for Welsler, Idaho, today.

The Woman's Study club met with Mrs. C. W. Conner Thursday afternoon.

INDIAN-GIRL SHOWS SPLENDID PROGRESS

Following is an account of the recent county Sunday school convention held at Weston as that gathering appeared to Anna Blackhorn, a 16 year old pupil at the government school at the agency and who is a member of the Tutulla Presbyterian church. Miss Blackhorn is a full blood Indian and her story shows remarkable progress and culture.

Our Sunday School Convention. The eighteenth annual Sunday school convention of Umatilla county was held at Weston. Four of the boys and girls went as delegates from our Sunday school and also two of the employes who took us over to Weston.

We started from here some time after eight o'clock in the morning. We drove over to Weston in a hack. Weston is about twenty-four miles from here. We passed two small towns, Adams and Athena. We had a pleasant day and after riding for three or four hours we finally reached Weston. We got to Weston just about twelve o'clock. We drove right to the church to register so they would know that we were delegates. After that they told us where to go for our dinner. After dinner we went to the church for the afternoon session.

There were many people there from the different Sunday schools of the county. The delegates had to tell what their schools were doing and how many pupils they had enrolled. I think one Sunday school of Pendleton had about three hundred pupils enrolled, but only two-thirds of them attended the school. There is another school of Milton which has a large number of pupils. The different schools are doing fine work. I think from reports I heard. Each delegate told how much money they collected every Sunday. Mr. Barbour told what we did here in our Sunday school, I think this is the only Sun-

day school where we do not collect money to carry on the work. The Sunday school is supported by the government.

After the afternoon session was over the entertainment committee told us, with whom we were to stay for the night. We girls stayed together and the boys stayed with Mr. Barbour and the other Indian delegates stayed in another house.

We had to walk quite a little way for our meals, because they were served in a hotel down town. They did this so that the people with whom we stayed would not have so much work to do.

We went back to the school at seven o'clock in the evening. We heard some very fine speeches and music. The choir sang some beautiful songs. We Indian delegates were asked to sing some Indian songs. Reverend Cornelison led the singing.

After the evening session was over we went to the houses where we were to stay for the night. In the morning we went to church and after dinner we started for home. The Weston people treated us very nicely and we enjoyed everything, but the ride home. It snowed and the wind blew in our faces almost all the way home. We were very glad, indeed, to get back to our dear old home.

ANNA BLACKHORN.

Best Known Cough Remedy. For forty-three years Dr. King's New Discovery has been known throughout the world as the most reliable cough remedy. Over three million bottles were used last year. Isn't this proof? It will get rid of your cough, or we will refund your money. J. J. Owens of Allendale, S. C., writes the way hundreds of others have done: "After twenty years, I find that Dr. King's New Discovery is the best remedy for coughs and colds that I have ever used." For coughs or colds and all throat and lung troubles, it has no equal. 50c and \$1.00 at Koeppe's.

WIRELESS PLANT FOR ARCTIC EXPLORATION

San Francisco, March 21.—Explorer Vilhjalmur Stefansson's chartered ship, the old whaler Karluk, now steaming on the first leg of her trip to the Arctic, will carry to the Far North the first wireless outfit for use on a Polar shore, to be set up at Stefansson's base in Prince Patrick Land. A motion picture machine will also be taken along.

The Karluk will be stocked for a three-years' cruise at Esquimaux, where Stefansson and a dozen scientists will be taken aboard. Prince Patrick Land, Banks Land and the region north of the American continent will be the party's field of exploration.

EARLY WOOL BOUGHT

WASHINGTON IS ONLY ACTIVE MARKET IN WEST

No Operations Under Way Yet in Eastern Oregon and Trade is Held Up in Other Sections—Mohair Coming Forward.

(From Oregonian.) The only activity in the Western wool markets up to the present time has been in Washington, where several hundred thousand pounds have lately changed hands at Northern Pacific points. Buyers' bids for these wools have been on the basis of 12 to 14 cents for fine and 15 to 17 cents for medium. One lot was taken at 20 cents. Shearing is now general at all points in Eastern Washington, and there should be considerable selling in the next three weeks.

No buying is reported from Eastern Oregon counties. Shearing will start at Arlington next week, and if the weather is favorable will soon be general. Buyers show no disposition to enter on contracts. Dates for sealed bid sales have been announced as follows: June 5, Shaniko; June 7, Baker; June 9, Ontario; June 10, Vale; June 17, Heppner; June 19, Condon; June 21, Shaniko; June 23, Madras; June 29, Joseph; June 27, Enterprise; July 1, Ontario; July 2, Vale; July 4, Baker; July 8, Joseph; July 9, Enterprise; July 10, Wallowa; July 15, Shaniko; July 17, Bend.

Early trading is held up at all points in the West by the wide difference between buyers and sellers as to what wool is worth. The dealers want to purchase on a free wool basis, while the growers demand prices as good as last year's.

Reports from Arizona state that the

Are You Subject to Constipation

Here is a Simple Way of Correcting It Instantly Before It Becomes Chronic.

Very few people go through life without some time or other being troubled with constipation. Thousands injure themselves by the use of strong cathartics, salt mineral waters, pills and similar things. They have temporary value in some cases. It is true, but the good effect is soon lost, and the more one takes of them the less effective they become.

A physic or purgative is seldom necessary, and much better and more permanent results can be obtained by using a scientific remedy like Dr. Caldwell's Syrup Pepsin. It does not hide behind a high sounding name, but is what it is represented to be, a mild laxative medicine. It is so mild that thousands of mothers give it to tiny infants and yet it is so compounded, and contains such definite ingredients that it will have equally good effect when used by a person suffering from the worst chronic constipation. In fact, among the greatest endorses of Syrup Pepsin are elderly people who have suffered for years and found nothing to benefit them until they took Syrup Pepsin.

It is a fact that millions of families have Syrup Pepsin constantly in the house, homes like those of Mrs. G. B. Pruitt, Berea, Ky., who used Dr. Caldwell's Syrup Pepsin as a laxative tonic. Mrs. Pruitt writes that it so strengthened and cleansed her system that she was quickly relieved of a severe cough which had troubled her for months. The special value of this grand laxative tonic is that it is suited to the needs of every member of

MRS. G. B. PRUITT

the family. It is pleasant-tasting, mild and non-gripping. Unlike harsh physics it works gradually and in a very brief time the stomach and bowels naturally again, when all medicines can be dispensed with.

You can obtain a bottle at any drug store for fifty cents or one dollar. The latter size is usually bought by families who already know its value. Results are always guaranteed or money will be refunded.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

sale at a lower figure are comparatively few.

There is a steady upward movement in prices in the English markets, and spinners are reported as well employed. The principal business at Bradford is in capes, which are relatively cheaper than the Turkey sorts. Nothing of special importance is reported from the Cape, but at Constantople the movement continues steady and at fair size.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

The woman with tender skin dreads February and March because they are likely to cover her face with ugly freckles. No matter how thick her veil, the sun and winds have a strong tendency to make her freckle. Fortunately for her peace of mind, the recent discovery of a new prescription, othine—double strength, makes it possible for even those most susceptible to freckles to keep the skin clear and white. No matter how stubborn a case of freckles you have, the double strength othine should remove them. Get an ounce from any druggist and banish the freckles. Money back if it fails.

Known For Its Strength

First National Bank

PENDLETON, OREGON

ESTABLISHED 1832

OLDEST AND LARGEST NATIONAL BANK IN THE STATE OUTSIDE OF PORTLAND

RESOURCES \$2,500,000.00

To My Friends and the Citizens of Pendleton

As all industries are going ahead with improvements, please allow me to have your attention for a minute in regard to the different kinds of cement work.

Before Building Your Home. If you are going to build you a house let me give you free estimates on a reinforced concrete wall for your basement. The height of a good convenient basement should be about 7 feet. That will give you a good room for both summer and winter, also plenty of room for a furnace with which to heat your home. With a good furnace, you can save half on your fuel bill.

The basement walls don't have to be more than 6 inches thick and whatever shows above ground can be finished to give a good imitation of stone or block, with any finish or color that you may desire. This kind of cement work can also be used for cellars or chicken house. It makes them absolutely fire proof and afford you a good substantial and permanent improvement.

Concrete Walls Best and Cheapest. Concrete walls are unexcelled for retaining walls or property lines. Around your cemetery lot, reinforced concrete affords you a permanent wall that will retain the moisture thus aiding your flowers and grass to thrive and making the plot a beautiful flower garden.

How to Make Concrete Walks. In regard to cement sidewalks, I would like to explain to you how to get the best and most lasting results. A good sidewalk requires not less than 8 inches room, 4 inches of gravel or crushed rock for the base and a top of 3 1-2 inches of cement concrete, mixed with four sacks of cement to one yard of clean gravel and sand. The surface finish should be not less than 3-4 inch thick and should be made of equal parts of Portland cement and Columbia River sand. You should not use any black river sand, it is impossible to get good cement work or concrete with it.

Satisfaction Guaranteed. I have had over 50 years experience in all kinds of cement work, both in America and the old country and am in a position to guarantee you absolute satisfaction.

If you want information or free estimates regarding any other kind of masonry work I will be pleased to furnish it if you will leave word at the East Oregonian office.

Frank Duprat.
