## PENNANT DAY IS LUCKY FOR BEARS

Walla Walla, June 13.—With the 1912 Western Tri-State league pennant, the first championship flag ever won by a Walla Walla team, floating proudly over the park, where it was raised before the game with appropriate ceremony, the Bears administered the third consecutive defeat to La Grande yesterday.

It was not too much Leonard and it was not too little Fitchner that won the game. It was simply the aggressive offense and the defense of Bader's machine.

La Grande came near scoring in the first inning. Druhok walked with one down and being advanced to third on Nadeau's hit, but Corbin failed to deliver.

Hurmon bowed to the flag in the Bears' half and promptly lifted the ball over the left field fence, much to the discomfort of one Fitchner. The pennant gods realized then that they had made no mistake in honoring the Bears.

There was little doing then until the fourth, when the Bears earned another run on Johnson's single and Brown's sacrifice fly, Johnson stealing two bases meanwhile.

In the fifth the Spuds tied the score but the situation was not critical because the locals could not be denied victory on this occasion. Walters opened the inning with a single, but was forced out at second on Fitchner's grounder. The latter then stole second, took third on Martini's error of Beck's fly and scored on King's hit. Beck having taken second on the error and scoring on the same hit.

The Bears put another man across in the sixth when Martini singled, took second on Sheely's sacrifice and scored on Johnson's two bagger.

In the eighth two more runs counted for the Bears. Davis struck out, Martini was hit by the pitcher, took second on Sheely's hit, and both men advanced on a passed ball by King. Johnson then poked out his second two-bagger of the game, scoring them both.

La Grande should have scored in the eighth with two on and one down but were unable to connect safely with Leonard's puzzlers.

field for the Spuds, has asked for his release and will not go with the team to La Grande.—Walla Walla Bulletin.

According to word received in Walla Walla President W. N. Sweet has appointed John Kell of Denver, as umpire to take the place of Burnside, discharged the first of this week. Richardson will go to La Grande to complete the series between Walla Walla and the Spuds and then will return to Boise. Next week, the new umpire will work at Baker, where the Bears will play. Starkell will umpire in Boise, the series there being with North Yakima, and Hall will go to La Grande to work with the Spuds and the Pendleton Bucks.—Walla Walla Bulletin.

## WOODS BLOWS UP IN 6TH INNING

Baker, Ore., June 13.—With the score five to nothing in Baker's favor, Woods blew up in the sixth yesterday, allowing the Irrigators to tie them. Two more men came across the pan in the seventh, winning the game.

Post received another split finger. This makes two catchers disabled this week for the Diggers.

Blauser kept his record of a home run daily, scoring three with a healthy four-bag hit.

Lockard opened for Boise but was hooked after the Bakerites had obtained six hits. The score: R. H. E. Baker 5 9 2. Boise 7 14 2. Woods, Ward and Post, Rock; Lockhard, Bridger and Gard.

## BUCKS AND BRAVES TO ATTEND PLAY

Manager I. J. Bounds to Be Host at Box Party for Contenders Saturday Night.

North Yakima, June 13.—The members of both Pendleton and North Yakima baseball teams in the Western Tri-State league will be the guests of the management of the Yakima theater at a box party Saturday night at the performance of Haddon Chambers' comedy, "The Passers-By," which is being presented by a special company of English actors in its first night on the road.

According to the arrangements made by Manager I. J. Bounds, who issued the invitation to the party yesterday, the visiting Bucks will occupy the left-hand boxes and the Braves those at the right of the house.

The play is a Frohman attraction which ran for nearly one and a half years in London and for six months in New York. It is the story of a wealthy man depressed with too much money, and of what his interest in the passers-by he saw from his window brought him.

## BOAT TO 1915 FAIR, KENNEWICK PLAN

Up River Town Excursion May Be Possible if Canal at Celilo Is Done.

Kennewick, Wash., June 12.—"From Kennewick to San Francisco and return all the way by boat," is the slogan of the Kennewick Commercial club in a campaign which contemplates a steamer excursion direct from this city to the Panama-Pacific exposition in 1915, when a committee was appointed to get into correspondence with the steamboat companies which operate from San Francisco to Portland.

When the locks at Celilo are completed it will be possible for steamers that can enter the mouth of the river at low water to navigate direct to Kennewick during the season of high water, and if the plans of the club materialize, the voyage will be timed for June or July of 1915 when the river will be at its highest.

## WESTERN RESERVE STUDENTS EARN \$50,000 IN YEAR

Cleveland, O.—Of the 460 students in Adelbert College Western Reserve University, more than 250 earned money to pay or help pay expenses of their education this year. Statistics by D. C. Mathews, executive secretary, are incomplete, but it is believed the students earned about \$50,000.

They earned money in different ways. They were salesmen, clerks, waiters, lawn and garden men, elevator men, ushers, cashiers, railroad and boat line office men, stenographers, typewriters, collectors, law office attaches, teachers, secretaries, lecturers, musicians, advertising men, chauffeurs and reporters.

One student, who plays a violin, is said to have earned \$1000 last year. Another had only \$16 left when he paid his first tuition fees, but he

kept green and productive for all except about forty days of the year, despite the fact that the winters are comparatively severe. The heavy forage crop which this system makes possible is responsible for the great development of the dairy industry of this district. Large quantities of cheese and condensed milk are exported each year to countries which have better natural facilities for dairy products than the country about Milan.

Even the street sweepings of the city are used to increase the productivity of the neighboring farms. Bones and other refuse matter of a similar character are used in the manufacture of fertilizers, and the manure is sold to the farmers engaged in intensive agriculture, principally in raising silk worms. The fertilizer sales are insufficient to meet the expenses of operating the system. The cost balance is made up through taxes.

Abundant labor is needed to obtain the agricultural results which the statistics of this district show. But progressive methods are also depended upon. American farm machinery is frequently seen by the American

visitors to northern Italy. Where such intensive cultivation is practiced it is profitable to use large quantities of fertilizers and manure. To the south of Milan where most of the irrigator lands are situated the farms are about 250 acres. The principle industry of these farms is dairying, the herds averaging from 100 to 150 cows. The milk is used in cheese making chiefly. The American commissioners were shown some excellent types of co-operative dairies which are peculiarly fitted to the type of farmer in that district who can not profitably make his butter and market his produce alone as his farming is on too small a scale.

The fact must not be lost sight of that the Italian farmers are progressing and that their progress is based upon thrift. The lesson learned by the American commission in Italy has been a lesson in industry and thrift.

## TO MOTHERS FROM THE FAMOUS WHITBREAD ENGLAND

For Sleeplessness, Insomnia, Nervousness and that General Run Down Condition. A Simple and Pleasant Remedy

For over 100 years the greatest doctors in England have recommended the famous Whitbread English Ale or Whitbread Renewed Stout (or Malted Extract) for mothers, invalids and those in a run-down condition. It has given comfort to thousands of grateful women. Whitbread's Ale or Stout (Malted Extract) is made from the finest barley, malt and hops and matured only in bottles and sent from England direct to America. It is most easily digested and makes rich blood. It is absolutely different from all other English Ales or Stouts, and is consumed by the most temperate people as a wonderful tonic and blood giver. Doctors, surgeons and professional men drink it

to build up the system. A glass with your meals and at night time will give that restful sleep. Whitbread's Ale as a beverage is unequalled. The Whitbread Stout contains more hops than the Ale and is consumed by those in a run-down condition, and especially by women. Your local dealer can obtain Whitbread for you, but be sure not to accept any substitute as the famous Whitbread is entirely different from all other ales or stouts being marketed in the bottle in England, and does not contain any artificial gas. Whitbread is the largest house of its kind in the world. Established since 1742.
