# WHEAT MARKETS

Chicago, June 13.—There was a closing advance of 1-2@7-8c a bushel in the wheat market Wednesday following an opening 1-8c lower for July and unchanged for the September and December options. Broomhall's foreign crop requirement estimate caused heavy short covering in deferred options, forcing the market sharply higher after the early period of dullness. Crop reports were again favorable for the up side of the market, there being more calls for rain from many sections.

### STOCK MARKET.

(From Thursday's Journal.)  
All lines of livestock are showing weakness at North Portland with the exception of cattle, which are showing a better feeling for the day. There was only a light run in the yards today and the small arrivals during recent days has given farmers little chance to get rid of their former high-priced surplus. They are now reentering the market and bids for good steers are firmer up to \$8.

North Portland cattle range:  
Heavy feed steers ..... \$ 8.00  
Choice steers ..... 7.85  
Common steers ..... 7.50@7.75  
Fancy steers ..... 8.15  
Fancy cows ..... 7.50  
Fancy light calves ..... 8.75@9.00  
Ordinary light calves ..... 7.25@7.50  
Heavy calves ..... 5.00@6.50  
Best bulls ..... 5.50  
Ordinary bulls ..... 4.50@5.75  
Considerable weakness is showing in the swine trade at North Portland. There was only one load reported in over night, this being from Condon. Values in general are considered down another nickel here with tops around \$8.25, although it might be possible to squeeze a small lot through at a fraction over this.

North Portland hog market:  
Best light ..... \$ 8.25  
Medium ..... \$ 8.10@8.15  
Medium heavy ..... 8.00  
Rough and heavy ..... 6.50@7.50  
Only Lambs Are Selling.  
Outside of the fairly good call showing for lambs, there is little doing in the sheep trade at North Portland just now. There was another good run over night, totals being 1078 head, compared with 1081 a week ago, 1689 a year ago and 2167 head this same day two years ago.

Spring Droughts in West Have Made Forage Scarce in Certain Sections—Summer Grazing Areas on Some of the National Reserves Can Be Used to Advantage.

Washington, June 13.—(Special.)—Spring droughts in the west have made forage scarce in certain sections and the summer may prove serious for the grazing industry. As a means of relief unused grazing areas on some of the national forests have been put up at the disposal of stockmen living at a distance, in cases where it will pay them to ship stock in by railroad for a summer grazing season. The district forester at Missoula, Montana, has issued a prospectus outlining the grazing possibilities on the forests under his jurisdiction. According to this statement there are unused areas in the national forests of northern Idaho and western Montana which are capable of supporting a large number of sheep. The forage as a rule consists mainly of weeds and browse. Water is abundant. These ranges are more or less inaccessible and are available only for the summer grazing season, which extends from June or July to October and November. There are no winter grazing areas nearby and the character of the land does not permit of raising feed in quantities sufficient to keep cattle through the winter. The expense of shipping sheep in by rail and removing them before snow flies is not, according to the forest service, prohibitive, especially in cases where home ranges are barren and where a considerable number of a stockman's sheep might be expected to die of starvation during the summer. Sheep owners in eastern Washington have before now sent their flocks by rail into Idaho and Montana, sometimes having them returned home and at other times shipping them through to the east in the fall. One company shipped from Pasco, Washington, to Cabinet, Idaho, securing a rate of \$40 a car in 10-carload lots, or a total shipment charge, coming and going, of 25 cents a head. About 400 shorn sheep can be loaded into a car when going to the range, and 250 when returning.

Recorder of The City of Pendleton, Oregon.

### DEAFNESS CANNOT BE CURED.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

### Best Laxative for the Aged.

Old men and women feel the need of a laxative more than young folks, but it must be safe and harmless and one which will not cause pain. Dr. King's New Life Pills are especially good for the aged, for they act promptly and easily. Price 25c. Recommended by Koeppens.
