CURRENCY PLAN IS EXPLAINED; HAS 3 PRINCIPAL AIMS

MEASURE PROVIDES FOR FEDERAL RESERVE BANKS

Rediscounting Commercial Paper, Basis for Elastic Notes and to Give Basis for Foreign Banking Business—National Banks Will be Continued as Heretofore.

Washington, June 21.—President Wilson will meet democratic members of the house committee on banking and currency at the White House to discuss the new currency measures and to discuss means of insuring its adoption at the present session of congress.

Chairman Glass of the committee has given out a draft of the bill as it will be presented to congress Monday. The three principal objects of the measure are to provide a means for rediscounting specified types of commercial paper; to give a basis for properly safeguarded elastic notes and to provide the machinery for doing a foreign banking business.

The measure provides for 12 federal reserve banks, in which national banks and such state banks and trust companies as wish will be stockholders. In addition to the \$700,000,000 national bank notes now existing pro-

vision is made for not more than \$500,000,000 in federal reserve treasury notes, to be used solely in making advances to the federal reserve banks. These banks, of course, would do no business with the public, dealing only with their stockholders and accepting deposits only from the United States.

Ultimate Reserve Systems.
The bill proposes "ultimately the establishment of a reserve system in which country banks will have 15 per cent of reserve (i. e., 15 per cent of total demand liabilities), such 15 per cent to be held, 5 per cent in the bankers' vaults, 5 per cent with the national reserve banks and 5 per cent either at home or with the reserve banks, while reserve and central reserve city banks have reserves of 20 per cent of demand liabilities."

The statement says:
"The presumed effect of this plan will be to end the placing of reserves with central reserve cities' banks for use in stock market operations, to keep reserves in some measure at home and to require speculators to get the funds they need in their operations either by directly borrowing them from persons who hold them and want to lend the cash for that purpose, or else by borrowing from the banks in the places where the operations are to be carried on."

National Banks Continued.
"The bill is based on the belief that no one should participate in the control of the reserve system unless he is financially interested himself, or chosen by those who are, except in so far as the government steps in and as-

serts the authority of the whole community. With this in mind, the system has been devised so as to provide for the continuation of existing national banks with their organization, powers and functions unchanged. In addition there is established a system of federal reserve banks, in all respects managed like national banks except as to the election of directors.

"The object of the bill is to effect a moderate division and classification of banking business along indicated lines, the net result, presumably, being summed up as follows:

"National reserve banks will be strictly limited to rediscounting actual commercial and industrial transactions evidenced by very short term paper and on rare occasions, under carefully prescribed conditions, to financial operations protected by collateral.

Real Estate Loans Allowed.
"National banks will be subjected to precisely the same restrictions as at present, with a relaxation in favor of a moderate amount of real estate loans by country banks under carefully guarded conditions.

"By a revision of the administrative features of the national banking act, provision will be made for close oversight of national institutions with a view to holding them strictly up to the requirements of a legitimate banking business.

"In order to possess themselves of the kind of paper entitling them to rediscounts, national banks will find themselves obliged to keep a reasonable proportion of their assets in the

form of paper eligible for rediscounting and this will mean very considerable emphasis upon the strictly commercial aspects of the business done by national institutions.

"The bill provides for the placing of all current funds of the treasury in federal reserve banks and the payment of government creditors by check thereon."

To Serve Eight Years.

The terms of office of the four members of the federal reserve board appointed by the president are to be eight years, with the provision that those first appointed will serve two, four, six and eight years respectively. The salary of each member excepting the cabinet members will be \$10,000 a year and the comptroller of the currency would receive \$5000 in addition to the \$5000 salary he now receives.

The chief points in the new federal reserve bank are described as follows:
"The number is to be 12, with possible increase later as provided.

"The ownership is to be in the hands of the stockholding banks of the 12 districts in which the reserve banks are situated. The national banks are compelled to be members and state banks and trust companies are permitted to be members.

"The capitalization is to be 20 per cent of the capital of the stockholding banks, one-half paid in and one-half subject to call."

When your child has whooping cough be careful to keep the cough loose and expectoration easy by giv-

ing Chamberlain's Cough Remedy as may be required. This remedy will also liquify the tough mucous and make it easier to expectorate. It has been used successfully in many epidemics and is safe and sure. For sale by all dealers.

KNEW HUSBAND WAS TIEUP BEFORE WEDDED

Chicago, June 21.—That his wife knew of his forgeries, amounting to \$500,000, before she married him and that she wanted him to continue to profit by his duplication of mortgages until after the children were educated, were statements made by Peter Van Vlissingen the convicted Chicago real estate dealer in his contest in the suit for divorce brought by Mrs. Jesse R. Van Vlissingen.

It is now well known that more than one case of rheumatism in ten requires any internal treatment whatever. All that is needed is a free application of Chamberlain's Liniment and massaging the parts at each application. Try it and see how quickly it will relieve the pain and soreness. Sold by all dealers.

STATE TOLD TO OBEY NEW EIGHT-HOUR LAW

Salem, Ore., June 21.—Contending that the eight-hour law is applicable to laborers employed at the fair grounds, Labor Commissioner Hoff directed the attention of Frank Meredith, secretary of the state fair board,

to the fact that the state is working its laborers in violation of law, and should he be correct, it will increase the cost of maintaining the state institutions by thousands of dollars, for the law will then also apply to labor hired by these.

Generally it was believed this law applied only to contract work. Briefly it provides that eight hours shall constitute a day's work where state, county or any municipality is employer of labor, either directly or indirectly, by contract with another. Attention is called by the labor commissioner to the employment of the word "directly," and attorneys who have examined the measures are of the opinion that it applies to all labor employed at state institutions, and if the measure applies to them, then the cost of maintaining them will be increased by thousands, for the laborers now work from nine to 12 hours a day.

Attorney-General Crawford has been asked by the state board of control to construe the law.

SUPREME COURT WILL HEAR CONTEMPT CASE

Trial of Gompers, Mitchell and Morrison to Come up After October.
Washington, June 21.—Chief Justice White granted an appeal to the Supreme Court for Samuel Gompers, John Mitchell and Frank Morrison, labor leaders, convicted of contempt of court in the noted Buck Stove & Range case. The appeal will be heard after October.
