

KANSAS WOMAN WHO SUFFERED

From Headache, Backache, Dizziness and Nervousness, Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Lawrence, Kans.—"A year ago I was suffering from a number of ailments. I always had pain and was irregular. During the delay I suffered a great deal with headache, backache, dizziness, feverish spells, nervousness and bloating. I had been married nearly three years. I took Lydia E. Pinkham's Vegetable Compound and now I feel better than I have for years. I recommend Lydia E. Pinkham's Vegetable Compound to all who suffer as I did."—Mrs. M. ZEUNER, 1045 New Jersey Street, Lawrence, Kansas.

Montana Woman's Case.

Burns, Mont.—"Lydia E. Pinkham's Vegetable Compound cured me of awful backache which I had suffered with for months. I was so weak I could hardly do my work and my head and eyes ached all the time. Your Compound helped me in many ways and is a great strengthener. I always recommend it to my friends and tell them what a grand medicine it is for women. You may use my name for the good of others."—Mrs. JOHN FRANCIS, Burns, Montana.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as those above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

SPRAY PROVES DEATH TO WEEDS

Iron Sulphate, a Chemical Treatment, Leaves Crops Uninjured After Treatment.

OREGON AGRICULTURAL COLLEGE.—When properly prepared and applied iron sulphate spray not only destroys weeds of most kinds but leaves grains or grasses among which it is growing practically uninjured. While very effective in preventing threatened damage to crops from vigorously growing weeds it cannot be used to take the place of rotations, cultivations, summer fallow and other weed preventative measures. Neither should its use be attempted on weeds growing in clovers or other broad leaved crops as it will destroy them as well as weeds. Following is the meth-

od of use, as presented in detail by Professor H. D. Scudder, agronomist of the Oregon Agricultural College.

"The iron sulphate used as a spray has been thoroughly tested both by experiment stations and the manufacturers of the sulphate. When properly prepared and applied it has proved destructive to dandelion, yarrow, sorrel, mustard, lamb's quarters, poppy grass, bull thistle, wild carrot, pigweed, shepherd's purse and wild daisy. It will not destroy dock, which can be eradicated only by digging the plant out or cultivating it to prevent its going to seed. When used to destroy dandelions on lawns it will injure the white clover. And it should be remembered that this spray cannot safely be used on weeds growing in any broad leaved crop as it will destroy the crop as well as the weeds.

"The value of this spray as a destroyer of weeds lies largely in the fact that it can be applied and the weeds killed while they are growing in the grain crop. The spray will not destroy grains or grasses because of its limited area of action on their narrow linear leaves, while it will destroy the weeds named, largely because of its wider area of action on their broad and succulent leaves.

"As iron sulphate is a powerful salt its action is similar to that of an alkali in the soil, causing the leaves upon which it falls to dry up, turn brown and die.

"The effectiveness of the spray depends mainly on four things: First, it should be applied during dry sunny weather, for if rain washes off the salt within two or three days it is not effective. Second, it must be applied with a sprayer, which will deliver the spray forcibly in a very fine mist, so that the weeds will be covered as completely as possible. Third, the spraying should be done on a quiet day. Fourth, the spray should be applied to all weeds just before they bloom.

"The spray is prepared by dissolving 100 pounds of iron sulphate in 52 gallons of water. It should be made up fresh each day in wooden barrels and the sprayer should be wood, rubber or brass. The solution will stain clothes, and the hands should be protected by being greased with vaseline.

"Ordinarily for mustard in wheat fields one spraying is sufficient. On more persistent plants, such as the dandelion, the spraying must be repeated when the plant comes up again. Flax or wheat may be sprayed without injury to the crop when from six to twelve inches in height. Later, the mustard or other weeds are likely to be too difficult to reach with the spray owing to the shading of the grain."

Remarkable Cure of Dysentery.

"I was attacked with dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 145 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief." writes B. W. Hill of Snow Hill, N. C. For sale by all dealers.—Adv.

DRILL TEAMS VIE FOR HONOR

Knights Templar Take Part in Greatest Competitive Military Exhibit Ever Held.

DENVER, Colo., Aug. 14.—Seventeen drill teams representing all parts of the United States today began the greatest competitive military exhibition ever held at a conclave of the Knights Templar. The spectacle was the most brilliant presented since the Thirty-second Triennial of the Conclave began. The largest number of teams entered in any previous conclave was eight. It will require two days of drilling to dispose of all the maneuvers and evolutions on the program.

To the best drilled team will go the coveted solid silver twelve gallon punch bowl with thirty cups and ladle. It is worth \$5,000 and is one of the largest made. It is beautifully engraved and etched with scenes of Colorado. The second prize, a silver loving cup four feet high, cost \$2,500. There are a dozen other magnificent prizes.

The drill teams entered are: Chicago Commandery No. 19; St. Bernard Commandery No. 35, Chicago; Englewood Commandery No. 59, Chicago; Columbia Commandery No. 63, Chicago; Woodlawn Commandery No. 76, Chicago; Joliet Commandery No. 4, Joliet, Ill.; Ivanhoe Commandery No. 24, Milwaukee, Wis.; Raper Commandery No. 1, Indianapolis; Columbia Commandery No. 2, Washington, D. C.; Gethsemane Commandery No. 35, Newton, Mass.; Ascalon Commandery No. 16, St. Louis; St. Aldebrand No. 19, St. Louis; Oriental Commandery No. 35, Kansas City, Mo.; Mt. Olivet No. 13, Wichita, Kans.; Newton Commandery No. 9, Newton, Kans.; Seattle Commandery No. 2, Seattle, Wash., and California Commandery No. 1, San Francisco.

PRAIRIE FIRE BURNS TWO HARTLAND HOMES

CENTERVILLE, Wash., Aug. 14.—Serious damage to property is threatened in the Hartland section by a prairie fire which has been raging

A Scientific Achievement.

Modern science has produced no such effective agency in the relief of indigestion, dyspepsia, constipation, biliousness or impure blood as Meritol Tonic Digestive, the result of the best minds of the American Drug and Press Association, composed of druggists and newspaper men all over the country. Try this great remedy.

It Can Be Relied Upon.

The American Drug and Press Association authorizes its members to guarantee absolutely Meritol Hair Tonic. It has no equal. It is a wonderful remedy. A trial will convince you.

there since last Friday night, and volunteers, about 50 in number, are fighting the flames in an effort to arrest their progress toward the grain-fields. Two homes have been destroyed and others are threatened. An area five miles in length has been burned over, but the ground is mainly dry grass and scrub oak, burned the greatest damage so far sustained. Practically all the grain is in the stack in the threatened wheat section and the fire fighters are working like Trojans to confine the flames to the timbered area. It is believed the fire originated from embers left by campers.

GERMANY MAY SEND EXHIBIT AFTER ALL

BERLIN, Aug. 14.—Representations in leading Berlin newspapers that it is politically and economically necessary for Germany to participate in the panama exposition are having their effect. The government may abandon its indifferent attitude.

PEOPLE SHOULD GUARD AGAINST APPENDICITIS

Pendleton people who have stomach and bowel trouble should guard against appendicitis by taking simple buckthorn bark, glycerine, etc., as compounded in Adler-I-ka, the German remedy which became famous by curing appendicitis. JUST ONE DOSE relieves sour stomach, gas on the stomach and constipation INSTANTLY because this simple mixture draws off such a surprising amount of old foul matter from the body. Pendleton Drug Co.—Adv.

Your Telephone Expert

THE switchboard operator who answers your telephone call has a mission in life—her mission is to serve you. She has at her finger tips the most modern telephone equipment in the world. Quickness, accuracy and courtesy are her essential qualifications.

Frequently she is called upon to act quickly in emergencies when courage and presence of mind are required.

It is as essential to good telephone service, that each Bell Telephone operator should be healthy and happy as it is that every part of the equipment of that great intercommunicating system should be in good working order.

In the Bell system, 70,000 operators make connections which furnish clear tracks for 26,000,000 telephone talks each day.

Every Bell Telephone is a Long Distance Station.
