

## Tox-e-lox and A-lom-pum, Famous Cayuse Twins, Are Now Young Ladies of Sweet Sixteen

Tox-e-lox and A-lom-pum are the most famous of all living twins, made so by the above photos taken fifteen years ago by Major Lee Moorhouse of this city. They are the daughters of Philip Jones and his squaw and are full-blood Indians. After snapping them in their Indian cradles at a moment when they were silently contem-

plating them, Major Moorhouse caught them a moment later when both were bawling lustily. The major has been accused of poking them with a stick to make them cry but he denies the accusation with considerable force. Such a unique picture at once attracted widespread notice and the major was deluged with orders

for copies from newspapers, magazines and private people all over the United States. The sale of these copies netted him a small fortune. Tox-e-lox and A-lom-pum, whose Christian names are Edna and Emma Jones, are now young ladies of sixteen and they are the prettiest Indian girls on the Umatilla reservation. A little

more than a year ago, their parents presented them with twin brothers and Major Moorhouse was not long in adding a picture of them to his famous collection, but he couldn't get them to cry. It is said that their mother was present and the major feared to resort to the use of a stick

### Buffalo Names

- Tex and Shy Ann.
- Ishe-ca-bibble and Lousur Kuchen.
- Mr. and Mrs. Newlywed.
- Humpty Dumpty and Bouncing Betty.
- Prairie Monarch and Prairie Queen.

Whistling Annie, an eight-year-old sorrel with a white mane and tail, came to Pendleton from Nampa, Idaho, and has always proved herself a horse worthy of a cowpuncher's metal.

Spiko is another former Idaho horse, coming here from Buhl. Like many others of the buckers, he takes his name from his former owner, L. Spike.

Goodnight also claimed Buhl, Idaho, as his home before he became a professional bucker. He is a coal black, and was a driving horse at one time.

**A \$35 Horse.**  
Brown Eyes, a little brown mare, was so useless to her former owner that it took only \$35 to buy her but now the association would not take several times that amount for her.

Sea Lion, a six-year-old, was raised near Baker and later belonged to the Sturgis-Fee stock. He is a first string bucker.

Dempsey, an 850-pound sorrel, was a wild horse near Prineville and is a new addition to the Round-up bucking bunch.

Lou, a bay mare six years old, formerly belonged to Lou Bergevin. Cougar, a thousand-pound bay, was purchased from William Labbe of southern Idaho.

Bill Cody, a ten-year-old speckled beauty, which has been in all of the Round-ups, was bought from the Seale Bros. of Condon, and is now used in the cowgirls' bucking contest.

Snake, a white nag and the meanest of the bunch to wrangle and saddle, is also used for the cowgirls' contest.

Bugs, a 750-pounder, was purchased from Clarence Adams of Ukiah.

Crooked River came from the river of that name and was formerly the property of Art Moss of Prineville.

Buster, a little bay stallion, was purchased from Adam Noble of Pilot Rock.

Mrs. Wiggs of the Cabbage Patch, a brown with a white star in her forehead, was a Wallawa county horse and is a very creditable bucker. These are only a few of the animals who have helped to make the Round-up a success.

**Let 'er Buck.**  
This slogan of the Round-up is an expression, which has come to mean a good deal in the advertisement and promotion of the annual show. It is a slogan, which is peculiar to Pendleton and whenever it is spoken it refers directly to the Round-up city. The fact that it has become a slogan known throughout the country is well attested in letters which have been received from various parts of the United States, addressed with nothing

more than Let 'er Buck, Oregon. The letters have always reached their destination safely.

**Only Two Single.**  
For the benefit of such visiting maidens as might inquire, we desire to state that the only two directors of the Round-up who have not been branded with the sign of the yoke are Vice-president Roy W. Ritner and Secretary Charles H. Marsh. However, both declare they have been sickens so long that they would be pretty hard to corral.

If you would renew your youth, try Sharkey.
