\$100 REWARD. \$100 The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and restoring nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. HOGS LIBERAL IN N. PORTLAND

(Courtesy of The Journal.) There was quite a liberal marketing of hogs at North Portland at the opening of the week's trade and general conditions in the market were considered steady. Extreme top stuff this because of the lack of suitable quality.

This week's run of hogs in the local yards at the start was more than twice the totals of last Monday, but there was no disorder in the trade and values were not molested to any extent.

Today's general hog market range: Top killers \$8.70@8.75 Good and light 8.65 Heavy 8.40@8.50

LODGE NOT YET OUT OF DANGER

NAHANT, Mass., Sept. 30.—Henry Cabot Lodge, United States senator, senior member of the Massachusetts delegation in congress, who was operated on Friday for a gastric ulcer, according to his physician today was not "entirely out of danger."

News of the senator's illness leaked out by accident. Then it was learned that for 24 hours following the operation his life had been despaired of. The operation itself, his physician said, was successful, but the patient, weakened by his labors at the extra session of congress, did not have the vitality to rally promptly from the shock. His recovery, according to Dr. B. F. Harrington, one of his physicians, largely is a matter of vitality, in which his 84 years and the fact that he was a tired man previous to the operation, must be taken into consideration. According to Dr. Frederick Winslow, another of the physicians, the senator's condition late last night was "excellent."

Cattle Run Not So Heavy. Owing to the recent weakness in the cattle trade at North Portland there were somewhat less liberal offerings in the pens at the opening of the week's trade. General conditions in the cattle market are far from showing strength, although for real good stuff the trend of the trade is good.

Today's general cattle market range: Best spring lambs 5.25 Ordinary lambs 4.75@5.00 Yearlings 4.50 Old wethers 4.25 Fancy ewes 3.90 Ordinary ewes 3.25@3.50

Parker, Parma, Idaho, 1 load; Jewell & Ross, Parma, Idaho, 4 loads. Cattle—Hass & Granger, Enterprise, 3 loads; Moss & Son, Pilot Rock, 2 loads; J. L. Burke, Nampa, 2 loads; Ward & Harrington, Fairfield, Wash., 2 loads; A. H. Westgate, Pilot Rock, 2 loads; F. Gilbert, 3 loads; H. Blackwell, Weiser, Idaho 2 loads; O. E. Grosline, Joseph, 2 loads; J. W. Chandler, Union Junction, 1 load. Mixed stuff—T. Lystrom, Weiser, Idaho, 1 load hogs and cattle; W. B. Kemp, Motus, Idaho, 1 load hogs and cattle.

NO MUTTON COMES FORWARD. There were no fresh arrivals of mutton available for the trade at North Portland today. Not a single head appeared in the yards since Saturday. A similar condition was shown at the opening of the trade a week ago.

The big run of mutton to the yards last week with the bulk of the stuff coming direct to killers, has filled the immediate wants of the trade, and the absence of new offerings this morning was perhaps a very good thing for the price.

Considering the strength that has been shown by the eastern sheep trade recently and the prices paid there, conditions here are out of line and the big shippers are sending their stuff elsewhere.

NOTICE OF PAYMENT OF CITY OF PENDLETON IMPROVEMENT BONDS. Notice is hereby given that City of Pendleton Improvement Bonds numbers three and four, Series D, number four, Series B, numbers two and three, Series E, and numbers one and two, Series F, will be paid upon presentation thereof to the undersigned at the American National Bank, Pendleton, Umatilla County, Oregon. Sewer Trench 9 ft. to 10 ft. per lineal foot \$..... Sewer Trench 10 ft. to 12 ft. per lineal foot \$..... Man holes, each \$..... Inlets, each \$..... For entire improvement complete (Total bid) \$..... Bids must be filed with the City Recorder on or before the time above mentioned and will be opened before the Common Council of said City in session at 7:30 o'clock P. M., on said October 1st, 1913, at the Council Chambers—the Common Council reserves the right to reject any and all bids.

Attention is called to the ordinances of said City authorizing said improvements and to the License agreement relating to furnishing the bitulithic mixture and other matters, filed by the Warren Brothers Company on June 17th, 1913, with the City Recorder.

Dated September 19th, 1913. THOMAS FITZ GERALD, City Recorder.

FORESTERS KILL BEASTS OF PREY

DURING LAST YEAR 4686 ANIMALS ARE ENCOUNTERED BY OFFICERS. Predatory Marauders Found on National Reserves are Put to Death—Many are Extirminated Through Use of Poison—206 Bears Are in the List—Many Coyotes.

WASHINGTON, Sept. 30.—During the past fiscal year 4,686 predatory animals were killed by federal officers on the national forests, according to an actual count of carcasses. An indeterminate number of animals, whose bodies were not found, are presumed to have died from poison.

The ranger's bag of beasts of prey this year, as shown by forest service figures, was made up of 295 bears, 3,541 coyotes, 123 mountain lions, 62 lynx, 583 wild cats, 64 wolves, and 97 wolf pups. The figures indicate that the national forests are becoming cleared of wild animals that prey upon domestic livestock and game, for the forest ranger kills in odd moments between other jobs by thinning out "undesirable citizens" of the animal world.

Wolves are said to cause greater losses to western stockmen than any other of the predatory animals. It is estimated that a family of wolves will destroy about \$3,000 worth of stock per annum, and that one able-bodied individual costs the grazing industry \$500 a season.

The wolves are of two classes—the smaller prairie wolves or coyotes, and the larger grey, black, or timber wolves, called "jobos." These latter are the great stock destroyers against which the campaign of the rangers has been waged.

The methods of hunting wolves in the west vary. On the plains wolves are sometimes hunted with dogs and horses, but this way is considered expensive and often dangerous. This sport is described by Roosevelt in his earlier hunting books. On national forests the rangers either set out poison or baited steel traps or, by watching trails and hiding near a wolf's den, are able to shoot one or both of the old wolves when they return from foraging. In no other way, according to the forest service, can the number of wolves be kept down, so well as by finding their dens and destroying the young.

The skins of the predatory animals killed by the rangers are either kept or sold for a price or for bounty. Wolf skins in the west are said to bring from \$4 to \$6 for robes and rugs; a mountain lion skin, \$10 to \$20; and a bear skin, anywhere from \$20 to \$150, according to size and species. In addition to this there are bounties on bear, lion, and wolf in most of the western stock states. Wyoming, in ten years, has paid out, it is said, over \$65,000 in bounties on wolves alone and \$95,000 more on coyotes and mountain lions.

Through his activity against these pests, the forest ranger, it is said, has

FOREST NOTES. Washington stands first in lumber production, with Louisiana second. It is said that 90,000,000 broom handles are used annually in the United States; one for each man, woman and child.

The lands burned over during the terrible fires on the Idaho national forests in 1910 are now largely covered with a thick growth of young tree seedlings, by natural re-seeding.

Manufacturers of artificial limbs are seeking substitutes for English willow, used because of its combined lightness and strength. It is claimed that the Port Orford cedar of the Pacific coast will prove equally serviceable.

In the open yellow pine forests of Washington and Oregon a collapsible

plow is being used in digging fire lines to stop surface fires. The plow can be dismantled and folded into a compact form, so that it can be packed on horseback, and weighs only 40 pounds. When in use, one man with a horse can do the work of 20 or more men working with shovels.

MRS. MANGES ESCAPES OPERATION

How She Was Saved From Surgeon's Knife by Lydia E. Pinkham's Vegetable Compound.

Mogadore, Ohio.—"The first two years I was married I suffered so much from female troubles and bearing down pains that I could not stand on my feet long enough to do my work. The doctor said I would have to undergo an operation, but my husband wanted me to try Lydia E. Pinkham's Vegetable Compound first. I took three bottles and it made me well and strong and I avoided a dreadful operation. I now have two fine healthy children, and I cannot say too much about what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. LEE MANGES, R. F. D. 10, Mogadore, Ohio.

Why will women take chances with an operation or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

saved the stockmen many thousands of dollars during the year, while the protection to game animals, such as deer, elk and antelope, is of almost equal importance.

If a woman is jealous she always insists that she's no such thing!
