VALET IS BIRTHDAY GIFT.

"Lucky" Baldwin's Daughter Gives Present to 80-Year-Old Servant.

LOS ANGELES, Oct. 21.—A birthday present of a valet was made by Mrs. Anita Baldwin McClaughey, daughter of the late E. J. "Lucky" Baldwin, to her father's 80-year-old servant, Silas Colvert.

For 26 years Colvert was an employe of the famous turfman and today, when he reached four-score years he gladly accepted the life use of a valet.

WOMAN SHOTS MAN WHO PROMISED TO MARRY HER

SAN FRANCISCO, Oct. 21.—J. D. Van Baalen, an advertising man, was shot and fatally wounded by a woman giving her name as Miss Leah Alexander. Asked by the police what her reason was for shooting she told them that Van Baalen took her to Cuba six months ago, promising to marry her, but afterward threw her over.

TEXTILE WORKERS WILL DEMAND BETTER CONDITIONS

PHILADELPHIA, Oct. 21.—Better working conditions will be demanded by workers in textile mills of the country, if a resolution introduced at the opening meeting of the United Textile Workers of America, which convened in annual session today, goes through. Delegates from all sections where textile mills are located are in attendance.

bunches of artificial flowers were fastened at each side of the temple. There are numberless pictures of lovely children that might be inspirations for some American bride's wedding attendants. Any of the canvas of Lawrence, Reynolds or Greuze showing beautiful children artistically clothed would be fine models.

Stork and Cupid Cunning Plotters

Many a New Home will Have a Little Sunbeam to Brighten It.

There is usually a certain degree of dread in every woman's mind as to the probable pain, distress and danger of child-birth. But, thanks to a most remarkable remedy known as Mother's Friend, all fear is banished and the period is one of unbounded, joyful anticipation.

Mother's Friend is used externally. It is a most penetrating application, makes the muscles of the stomach and abdomen pliant so they expand easily and naturally without pain, without distress and with none of that peculiar nausea, nervousness and other symptoms that tend to weaken the prospective mother. Thus Cupid and the stork are held up to veneration; they are rated as cunning plotters to herald the coming of a little sunbeam to gladden the hearts and brighten the homes of a host of happy families.

There are thousands of women who have used Mother's Friend, and thus know from experience that it is one of our greatest contributions to healthy, happy motherhood. It is sold by all druggists at \$1.00 per bottle, and is especially recommended as a preventive of caking breasts and all other such distresses. Write to Bradford Regulator Co., 131 Lamar Bldg., Atlanta, Ga., for their very valuable book to expectant mothers. Get a bottle of Mother's Friend today.

EXPERIENCE MEETING AT TULSA, OKLAHOMA
 Old World Famous to Describe Successful Dry Farming Methods.
 TULSA, Okla., Oct. 21.—How to grow next year's crops on this fall's rain.
 This is the big secret which will be told to the world at the International Dry-Farming Congress in Tulsa beginning October 27. Many men say it

can't be done, but there will be hundreds of other men at the Tulsa Congress who have actually succeeded in doing it and who will be glad to tell how.
 One man from South Africa will tell how he grew seventeen bushels of wheat and twenty-five bushels of corn per acre in 1912 on one-half an inch of rainfall between planting time and harvest. Another from Stratton, Neb., will furnish proof that he raised 22

bushels of 62-pound wheat this year on four and a quarter inches of rain between January 1 and August 30. A third, from Peyton, Colorado, will be there to give the details of how he raised 2,000 bushels of wheat on 100 acres of ground with but four inches of rain from the day he planted the wheat to the day he cut it.
 These men, and many others, will insist that they get good crops in bad years principally by knowing how to

hold the moisture of an entire year in the soil for use when needed by the growing crops. For five full days these men will tell what they have done, how they did it and how much net profit they made, and they will point to a solid ten acres of good crop samples.
 Any farmer in the southwest whose crops were cut by drought in 1912 will be well repaid for a trip to Tulsa between October 27 and October 31.
