REPRESENTATIVE GOELET SIGNS ONLY 100,000 LETTERS

WASHINGTON, Jan. 13.—No member of the tariff-buffed and currency-torn congress did more to earn his Christmas holiday than Representative Peter Goelet, millionaire member from the second Rhode Island district, who sent 100,000 pieces of mail matter during his first ten months at the capitol.

Obviously, the wealthy Rhode Islander did not write all the letters in long hand, nor did he lick all the flaps on the envelopes, but he did personally sign most of them, which was almost ten months work in itself, regardless of his other duties. Not content to use the comparatively expensive letter head which the government now furnishes its representatives, Goelet uses a very classy, embossed stationery which he pays for himself. All that his voluminous correspondence costs Uncle Sam is the transportation thereof.

Mrs. Gerry, formerly Miss Mathilde Townsend and one of the most progressive and well liked of the capital's society women, spends a great deal of time at her husband's office helping him materially.

Church Dates Barred.

WALLA WALLA, Jan. 12.—Going to church on Sunday night is strictly prohibited girls of Reynolds' hall, Whitman's dormitory. Helen I. Burr, dean of women, announced that the girls must make no more "church dates" or dates of any kind on Sunday.

The reason given is that many of the girls have been leaving the hall Sunday evenings, ostensibly for church and returning some hours later in the company of young men.

For Those Repairs

or that addition to your home we advise you by all means to obtain the best lumber you can. It's more satisfactory and more durable and more economical. And as we handle only the best grades we feel justified in also advising you to obtain your lumber here.

Slab wood, sand, lumber, cement—in fact anything in the building line, can be bought here in any quantity and at prices outsiders cannot meet.

GIRL DISAPPEARS ON EVE OF HER WEDDING

SAN FRANCISCO, Jan. 13.—Police
at all bay cities were looking for
Miss Anna Ruffino, 18, who disap-
peared at the Ferry building as she,
Giuseppe Masciotti and a party of
friends were waiting to start for
Martinez, where she and Masciotti
were to have been married.

The case puzzled the authorities.
Masciotti was taking Miss Ruffino
from Concord, where her mother
lives, to his own home in Martinez.
At the Ferry building there was a moment's
confusion and when the party
reached the boat the prospective
bride had vanished.

Students Help Pastors.
WALLA WALLA, Wash., Jan. 12.—
Ministers of the city who are opposed
to the use of school buildings for
dancing found unexpected allies
when several of the high school students
announced that they will oppose
the use of the gymnasium for dances.

The students have no scruples
against dances, but say the gymnasium
is for athletic purposes and that
preparation of the floor for dancing
will ruin it for basketball and in-
door sports. The board of control of
the associated students is solidly
against dancing in it and will offer
a resolution at the next meeting of
the students.

Engineer Dies at Throttle.
SEATTLE, Wash., Jan. 13.—While
driving his engine at a speed of 55
miles an hour, George S. Perry, engineer
of the Chicago, Milwaukee &
St. Paul's fast overland train, the
Olympian, dropped dead of heart dis-
ease soon after Perry had won a race
with a train on a rival road which
parallels the Milwaukee tracks near
Easton.

It is claimed that fully 12,000,000
horse power can be developed from
waterfalls in the National Forest re-
serve in this country.

DISTRICT ATTORNEY FRED STEIWER

At the opening of court here yesterday, Judge G. W. Phelps instructed
the grand jury to make a particular investigation of the reports of
gambling in Pendleton.

KENNEWICK GROWERS WILL FIGHT BLIGHT

KENNEWICK, Wash., Jan. 13.—
The pear blight in this district is to
be eradicated. The campaign was
formally launched at a meeting of the
fruit growers of this district in the
Commercial club rooms. The meet-
ing was addressed by Professor Wil-
liam Mickle, instructor at agriculture
at the Kennewick high school. Luke
Powell, horticultural inspector of Ya-
kima, Benton and Franklin counties,
and by F. E. De Sellem, agricultural
expert of Yakima county. A commit-
tee of three was appointed to draft
plans and by-laws toward organization
of the fruit growers into a cooper-
ative body which is to take concerted
action against the blight.

LYLE-GOLDENDALE LINE IS BEING IMPROVED

Klickitat Wash., Jan. 13.—The
branch line of the S. P. & S. railroad
from Lyle to Goldendale is to be given
a thorough overhauling this spring.
For the last week a work train and
crew have been busily engaged dis-
tributing ties and steel all along the
line. Ballast is also being dumped at
required places. When this work has
been completed the line will be in
excellent condition as a new steel
bridge was built across the Klickitat
river, two miles north of Lyle, last
fall and a concrete bridge built to
replace a wooden trestle in the upper
canyon about the same time.

The New Six-Thirty Franklin \$2450, Weight 2725 pounds

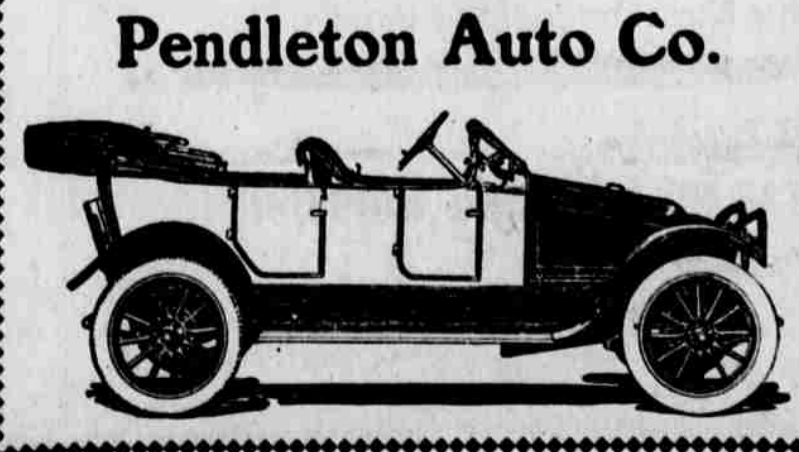

Did you ever weigh the radiator, water, pump,
piping, fan and other things that make up the
cooling system of a water-cooled car?

The direct-cooled Franklin does not carry any
of these things. This is one of the reasons for its
extra light weight.

Why pay for carrying useless weight?
Did you ever stop to consider the trouble you
have with water-cooling? Its liability to freeze
in winter and boil dry in summer? Don't let
them fool you—

Franklin Direct Cooling is Better !!!
We will enter our FRANKLIN in a cooling test
with any water-cooled car, and win !!!

Why have less than the best?

People Have Faith in Advertised Goods

Advertised goods of standard make are the
most salable goods.

The public looks on them as something with
a fixed and tangible value.

People reason that if a manufacturer is wil-
ling to spend money in advertising he has by
that token faith in himself.

They know that all the advertising in the
world will not make them keep on buying an
article unless it has merit—and they know that
the manufacturer is figuring on the repeat sales
for his profits.

A local dealer who pushes the goods a man-
ufacturer is making known through the columns
of the local newspaper is moving with the tide
of demand.

He is swimming down stream and the going
gets easier as he moves along.

The public follows the man who gives it
what it wants when it wants it.
